## PREFACE

---

THE documents in this volume fall within a period of great interest and importance to students of Maine history, and have been selected to largely embrace Indian affairs and questions of ownership of lands, which agitated those who were struggling to establish themselves along the outposts of civilization. This volume closes the present series, and the next will begin a new one.

*Coll. Ledgels Memor<sup>ll</sup>. touching Trade w<sup>th</sup> the Indians &c.*

The Northern parts of America called New England very much distressed by a warr with y<sup>e</sup> natives assisted by y<sup>e</sup> French is greatly added to if not wholly continued by some practises amongst themselves openly done without restraint. The Peltry of y<sup>t</sup> Countrey is generally, & more espetially in y<sup>e</sup> Eastern parts taken by y<sup>e</sup> Indian natives, & from them purchased by y<sup>e</sup> English with severall commodities viz Blanketing & linnen for cloathing, corne, kettles, Iron, steel, liquors, powder, lead, shot & gunns &c at very great rates which turns to y<sup>e</sup> great advantage of y<sup>e</sup> concerned but is of fatall consequence to y<sup>e</sup> publick by supplying their enemys with y<sup>e</sup> necessaryes of their own destruction as may appear by y<sup>e</sup> vast depredations made on many but most immediately those parts where it hath been so done. In y<sup>e</sup> year 1688 when y<sup>e</sup> Indians first broke with y<sup>e</sup> English y<sup>e</sup> Government then took such care y<sup>t</sup> no person upon what p<sup>r</sup>tence soever should trade or be concernd with either French or Indian by which means y<sup>e</sup> Indians were so distressed for want of fire-arms powder & lead y<sup>t</sup> they scarcely did subsist & y<sup>e</sup> Cheifs of them came to make supplication for a Peace in y<sup>e</sup> moneth of Aprill 1689 a few dayes before y<sup>e</sup> revolution there hapened

& y<sup>e</sup> Indians not finding whom they expected to apply to returned in few dayes & continue a warr to this time w<sup>ch</sup> they have been & are enabled to do by y<sup>e</sup> English themselves. In y<sup>e</sup> begining of y<sup>e</sup> year 1689 a Briganteen of which one Hunt was Ma<sup>r</sup> brought into Boston much Peltry purchased as above at her going out upon y<sup>t</sup> voyage gave out to be bound to Bermudas & so cleard at y<sup>e</sup> respective offices but disposed y<sup>e</sup> goods then aboard to y<sup>e</sup> Indians or French or both who then were in y<sup>e</sup> greatest want for powder &c with which they were then supplyd in great plenty. Since then many have used y<sup>e</sup> same trade & continue so to do without any contradiction.

May it Please your Lordship

By the Captain of the Samuell & Henry,  
I gave ye account, that at my arrivall here, I found the pris-  
ons full of people, Comitted upon suspition of witchcraft;  
and that Complaints were Continually made to me, that many  
persons were grievously tormented, by witches, and that  
they cryed out vpon severall persons by name, as the Cause  
of their Torments. The number of those Complaints increas-  
ing every day, by advice of the Liev<sup>t</sup> Govern<sup>r</sup> and the Coun-  
cill, I gave a Commission of Oyer and Terminer to try som of  
the suspected witches, and at that time the generallity of peo-  
ple, represented the matter to me as Reall witchcraft, and gave  
very strange instances of the same; The first in y<sup>e</sup> Co<sup>m</sup>ission  
was the Liev<sup>t</sup> Governour, and the rest were persons of the  
best prudence and ffigure that could then be pitched upon,  
and I depended vpon the Court for a right method of pro-

ceeding in cases of witchcraft; att that time I went to Command the Army at the Eastern part of the Province, for y<sup>e</sup> ffrench, and Indians, had made an attacque vpon som of the frontier Towns, I continued there some time, but when I returned I found people much dissatisfyed, at y<sup>e</sup> proceedings of the Court, for about twenty persons, were Condemned, and Executed, of wich number some were thought by many persons to be inocent, the Court still proceeded in the same method of trying them, which was by the Evidence of the afflicted persons, who when they were brought into the Court, as soone as the suspected witches, looked on them, instantly fell to the ground, in strange agonies, and grieveouse torment; but when touched by them vpon the arme, or some other part of their flesh, they imediately revived, and came to themselves, vpon which they made oath that the prison<sup>r</sup> at the Barr, did afflict them, and that they saw theire shape or Spectre, com from their bodyes, which put them to such paines, and torments; when Inquired into the matter, I was Informed by the Judges, that they began with this, but had humaine Testimony, against such as were Condemned, and undoubted proof of their being witches; But at length I found that the Devill, did take vpon him the shape of inocent persons, and some were accused, of whose Inocency I was well assured, and many Considerable persons, of vublamable life, and conversations were cryed out vpon as witches, and wizzards: The Deputy Govern<sup>r</sup> notwithstanding persisted vigorously in the same method, to y<sup>e</sup> great dissatisfaction, and disturbance of the people, vntill I put an end to y<sup>e</sup> Court, and stopped the proceedings; which I did because I saw many inocent persons, might otherwise perrish, and at that time I thought it my duty to give an account thereof, that their Maj<sup>ties</sup> pleasure conferming this pplexed affaire might be signified, hoping that for the better ordering thereof, the Judges learned in the Law in England, might give such rules,

and directions, as have been practiced in England, for proceeding in soe difficult and nice a point: when I putt an end to y<sup>e</sup> Court, there was at least fifty persons in prison, in great misery by reason of the extream Cold, and their poverty, most of them haveing onely spectre Evidence, against them, and their mittimus's being defective, I caused some of them to be lett out vpon Baile, and put the Judges vpon Considering of a way to relieve others, and prevent their perishing in prison, vpon which some of them were Convinced, and acknowledged that their former proceedings were too violent, and not grounded vpon a right foundation, but that if they might sitt againe they would proceed after another method; and whereas Mr. Increase Mather, and severall other Divines, did give it as their Judgement, that the Devill might afflict in the shape of an Inocent person, and that the look, and the touch of the suspected persons, was not sufficient proof against them, these things had not the same stress laid vpon them as before; And vpon this Consideration, I pmitted a Speciall superior Court to be held at Salem, in the County of Essex, on the third day of January, the Liev<sup>t</sup> Govern<sup>r</sup> being Chief Judge, Their method of proceeding being altered, all that were brought to tryall to the number of fifty two were cleared saveing three, and I was informed by the Kings Attorney Gen<sup>l</sup> that some of the Cleared, and the Condemned, were vnder the same Circumstances, or that there was the same reason, to Clear, the three Condemned, as the rest according to his Judgem<sup>t</sup>. The Deputy Govern<sup>r</sup> signed a varrant for their Speedy Execution, and allso of five others, who were Condemned at the former Court of Oyer and Terminer, but Considering how the matter had been managed, I sent a reprieve whereby the Execution was stopped vntill their Maj<sup>ties</sup> pleasure were signified, and declared; The Liev<sup>t</sup> Govern<sup>r</sup> vpon this occasion, was enraged and filled with passionate anger, and refused to sitt vpon the Bench at

a Superior Court at that time held at Charles towne; and indeed hath from the begining hurried on these matters with great precipitancy; and by his warrant hath caused the Estates, goods and chatles, of the Executed, to be seized and disposed of, vithout my knowledge, or Consent; the stop put to the first method of proceeding, hath dissipated the black Cloud that threatened this province, with destruction, For whereas this delusion of y<sup>e</sup> Devill, did spread, and its Dismall effects, touched the lives and Estates, of many of their Maj<sup>ties</sup> subjects, and the reputation of some of the principall persons here, and indeed vnhapply clogged, and interrupted their Maj<sup>ties</sup> affairs, which hath been a great vexation to me.

I have no new Complaints, but peoples mindes before divided, and distracted, by different opinions, concerning this matter, are now well Composed.

My Lord

I am yo<sup>r</sup> Lordships most faithfull humble servant

The generall State of the Province we observe both from your aforesaid Letter, and from the Representation you have made of it in conjunction with the Councill and Assembly together with other Papers that now lye before us; Your proceedings upon the News of the Discovery of the late conspiracy here, appeare to have been suitable to the occasion; Your diligence also in the defence of Piscataqua, and other-ways for the Annoyance of the Enemy, upon their taking of Pemaquid is answerable to the Trust reposed in you, Tho the easy surrender of that Fort by those that were in it is not so but on the contrary a reproachfull Action unworthy of English men; And we shall therefore expect a further Account of Your proceedings against the Governor of that Fort, whom you say, you have put under confinement, and as we are however upon this occasion to assure you that his Majesty will always have a particular regard to the security of New England, and the adjacent provinces, so we must needs exhort you in the meane while (and doubt not of your readinesse in it) to continue your utmost care and vigilance in putting things into such order, and giving such timely assistance to Your neighbours as may hinder any new irruptions of the French, and the Northerne Indians into those Provinces, the preservation of which will be your best security.

This we are so much more obliged to presse you in, because the fresh News we have received from Newfoundland gives us also fresh apprehensions of danger threatned to you; Monsieur D'iberville he that commanded the French Forces and Indians the last Summer at Pemaquid has now in like manner taken St John's in Newfoundland, sent away all the English Inhabitants (whereof above 200 are already arrived at Dartmouth) and made himself Master of the whole Coun-

trey; threatning, as those that are arriv'd from thence report, so soon as the Season permits, to fall upon New England. This therefore we say, lays an obligation upon you, to exert an extraordinary vigour in preparing for the defence of that Countrey. Tho his Majesty will certainly be mindfull of it, yet he may well expect that the Inhabitants of that Colony should also Act their part in repairing their Forts, and putting all places that are most exposed (Saccoe particularly) into a condition of making a firm resistance. But more especially we must also needs minde you of the importance of resetting a Fort at Pemaquid, or rather at some convenient place that may be pitched upon thereabouts, a little more remote from the Sea; By which means we conceive, it being freed from the Attacks, which the former Fort was exposed to by Ships, it will the more easily be depended against any Attempts that can be made upon it by Land.

Paris, Decemb<sup>r</sup>  $\frac{2}{12}$  1697.

May it please Your Lordships.

That having sometime before my coming from England to this place laid before Your Honours a certain Memorial relating to the 8<sup>th</sup> Article in the Treaty of Peace concluded between his Majesty and the French King which as you then did approve of, soe likewise were pleased to lay your Commands for further information of anything that might occur or come to my Knowledge by my being in France, and by my acquaintance and frequenting those here who are more particularly interested in those Countries, wherein I have not been wanting to sound their intentions

as far as opportunity has permitted and am thereby ye more confirmed of the necessity of maintaining our Rights and having them especially inserted by Articles conformable to my Memoire as aforesaid. But what I have now further to ad for Your Lordships Information is, That the French will endeavour and accordingly Instructions will be given unto their Commissioners to extend their limitts unto the River of Kenebeck, designing to make that the boundarie between us and them on the Eastern parts of New England, under the plausible pretence that that River being most noted and of the largest extent of any in those parts. Crossing through the Land almost unto the Great River of Canada, they thereby shall be able to withhold their Indians under such a noted boundarie from any future Excursions upon us on the Western side, but presuming that it will not be disagreeable unto your Lordships that I give my sentiments herein which I the rather doe to prevent any surprize or mistake which may arise from any their specious pretences. I shall therefore expose before your Honours the nature consequence and value of such a concession w<sup>ch</sup> in time to come may be as fatall and irreparable unto the Interest of the Crown and the prosperity of those Countreyes as the late surrender of Nova Scotia ( by the Treaty of Breda ) has proved, at first I cannot see any further security concerning the Indians but on the Contrary those of that River being now our greatest Enimies will rather be encouraged then otherwise, seing their country delivered up to the French, which those barbarous Nations will rather interprett to be for want of Power to keep, then any voluntary resignation, so that we shall thereby become the object of their scorne and contempt, which will sooner incourage then restrain them in their insolencies and enterprizes upon us.

Whereas if the French will bonafide endeavour to maintain and promote the Publique Peace and tranquillity nothing is

more easy then to restrain them under the limitts they were formerly bounded in which is the River St George about 5 leagues to the Eastward of Pemaquid and was alwayes the ancient Boundarie in my late Uncle S<sup>r</sup> Thomas Temple's Patent further then which they have no manner of pretence or claime, But the consequence to us on the Contraie will be of utmost moment, at first we hereby shall deprive our selves of 4 or 5 of our best fishing Islands and Harbours, Secondly the said River being of much larger extent then Pesquataqua will be a perpetuall supply of Masts, Timber, Deal boards &c when the other will fail many parts of it being almost exhausted by the Continuall Exportation that has been made

3<sup>dly</sup> the goodness of the land and its convenient situation renders it advantagious to be re established, by which and a prudent management with the Natives which I do not hold it impossible to regain them to their ancient amity with us, for that it will manifestly be their interest soe to doe, by reason of their being amongst us, and that we can and alwayes do supply them cheaper and give better prizes for their peltry then the French, for it was not thrô hatred to us, but by the mismanagement of some amongst us of which the French took advantage to insinuate and influence them to break out into a War as at present; I say that notwithstanding all which they are to be regained, being a people that love and studdy their own interest as much as others &c

As to our Fisheries on the coast of the Cape Sables I find they will obstruct us if they can, and that nothing but a vigorous asserting of our uninterrupted right and Custome (ever since those Countries have been inhabited) will preserve us, But having in my former Memorial, said what is requisite on this and other subjects, I shall not further detain your Lordships, hoping about 3 weeks hence I may

be in London, where if in anything I may be Serviceable to the publique interest I shall allwayes be most ready to obey Your Lordships Commands, being Your Lordships

Most humble and most obedient Ser<sup>t</sup>

J<sup>o</sup> Nelson.

The Petition of John Nelson, Nephew and Executor to S<sup>r</sup> Thomas Temple Bar<sup>n<sup>t</sup></sup> late Governor of Nova Scotia &c

humbly Sheweth.

That the said S<sup>r</sup> Thomas Temple long since did purchase from one Mons<sup>r</sup> Charles de la Tour, the inheritance of Nova Scotia, and part of the Country called L'Accadie and all the Forts, plantations and trade thereof to him and his heires &c., which said Countries were first discovered and planted by S<sup>r</sup> William Alexander, afterwards Earl of Sterling, and others of the Scottish Nation in the time of King James the First, and by the Authority of that Crown the Government and proprietie thereof was granted unto the said Earl and his heires &c. and by him afterwards conveyed unto the aforesaid M<sup>r</sup> Charles de la Tour, to hold under the Crown of Scotland, and by him quietly enjoyed untill the then Common Wealth of England, did in the year 1654 possess themselves

of it, It being in the hands, of a Frenchman, who thereupon Comeing to England, and makeing out his Title from under the said Earl of Sterling, and the Crown of Scotland, his right was allowed and he restored, and thereon conveyed his said right unto S<sup>r</sup> Thomas Temple as aforesaid, who enjoyed the same, untill the Treatie of Breda, did build divers Forts for the Defence thereof and made other Improvements, which cost above 16,000£ notwithstanding which upon some false Sugestions of the French Ministers, that it did formerly belong unto the Crown of France, his late Majesty King Charles the Second did without any Examination or Notice given unto the parties concern'd at the aforesaid Treatie, article to restore the same unto France, and by severall Orders of Councill required the delivery thereof unto Mon<sup>sr</sup> de la Grand Fontaine a person sent by the French King & which was accordingly complied with That the said S<sup>r</sup> Thomas Temple dying did by his last will devise all his right and title of the premises unto your petitioner, who during this present war with France hath hazarded both his person and Estate in the recoverie thereof where through misfortune falling into their hands, has been kept a Prisoner in France for this five years last past, and does yet so continue under Caution &c. and in the mean time the said Country being for the most part regained by the English, the same hath been by surprise included in the Patent of the Government of the Massachusetts Bay in New England & this being the true state of the Case and your Petitioner being informed of a Treatie now on foot between England and France, and fearing that his Majesty for want of information should be surprized in this Affaire, by neglecting or quitting so considerable a part of his Dominion and Trade, as well as the proprietie of your Petitioner & Therefore Your Petitioner humbly prayes that Your Excellencys will be pleased to make a timely representation of this affair unto his Majesty that such due care

*Copy of Mr. Nelson's Petition relating to his Title to Nova Scotia as Nephew to Sr Thomas Temple deceased / April the 13<sup>th</sup> 1697. ~~~~~*

To the Honourable the Lords Commissioners for Trade &c Conformable unto your Lordships desires some times since signified unto me, I have here annexed a Breif and Summarie Account of the Originall right and title the Crown of England hath unto the Countries of Nova Scotia, and L'Accadie, which memoire or paper tho' long since delivered in unto Mr. Vernon may have need of your Lordships revivall, and perticular instance in this Conjuncture, and for as much that the French doe yet retaine some parts on the North side of the Bay of Fundie, in those Countries it is not improbable, but that they will yet continue their pretentions unto the whole. Where as setting aside, all other our antient and just Titles thereunto, we have a present and actuall right by Conquest made upon them of Port Royall, The Mines and Siganectoe which are in the bottom of the said Bay of Fundie (or the Bay Francois, as the French call it) and so all along the Coast of Cape Sables, unto a place called Merleguash about 60 leagues beyond the said Cape Eastward, which said Countries are very considerable from the fisherie, whereon depends the chieftest of the Trade of New England, New Hampshire &c which if well assured unto us, might in a

manner Equall and be of as much advantage as Newfoundland therefore I presume it may be thought worth our Insisting upon, Especially since it hath cost so much charge in the reduction of it by S<sup>r</sup> William Phips in the year 1690, and since by the yearly attendance and gard by his Majestys Frigatts given unto the French Inhabitants of those parts, who have all of them, that is to say the Inhabitants of Port Royall the Mines and Siganectoe divers times renewed their Submission and alleadgeances unto the Crown of England, by oaths administred unto them, and by contracts in writing &c one of which being an Originall Signed by the most Notable of the principall Inhabitants of Siganectoe, unto myself in the year 1691. I here produce unto your Lordships, and I am informed that since my restraint in France, the Government of the Massachusetts and the Commanders of his Majestys Ships residing in those Countries have almost every year received the English pretentions of right by Conquest and have accordingly received the like acknowledgements from the French who remain upon the place. This being all I am able to informe your Lordships, what improvement may be made thereon, is not for me to determine. But am very sure that it is greatly the Interest of the Crown to maintain our right herein, which may the more Evidently appear from the great mischiefs which has befallen us ever since that precipitant and unadvised rendition of the said Countries unto the French by the Treaty of Breda, whereby we have not only lost the greatest and best part of our Fishing Coast, but also it has been the reason of all our differences with the Indians, which has been so fatall, as to lay wast and desolate near 50 leagues of the most flourishing parts in those Countries and will for ever be of the same consequence if his Majesty should forego, or give up unto the Enemy what does belong and is soe necessarie unto us &c

This is all att present what does offer in this affair from  
your Lordships most humble and most obedient servant

J<sup>o</sup> Nelson.

Aprill the 12<sup>th</sup> 1697.

Postscript.

Your Lordships may please further to take notice, that the said Inhabitants of Port Royall &c have accepted as Majestrates such whom the Government of Boston did from time to time place over them, who for their greather ease and Incouragement did allways put in place such of their people as were most agreeable unto them &c

You may please to take notice that after the surrender of Accadie unto the French, in the year 1670 by S<sup>t</sup> Thomas Temple the successive Governours of New Yorke did (by virtue of orders from England as I suppose) make claime unto a part of said Countries, that is to say from Pentagoet to the River S<sup>t</sup> Croix as having of it inserted in the Duke of York's Patent. But the French still kept Possession until S<sup>t</sup> Edmund Andros made an attempt upon it by summoning in one M<sup>r</sup> S<sup>t</sup> Costeine to acknowledge his Dependance on the Crown of England upon whose refusal he went with a Friggat to Pentagoet pillaged his house of what he found in it, but himself escaped on which arose (by the said

*July the 2<sup>d</sup> 1697.*

To the Right Honourable the  
Lords Commissioners of the Council  
for Trade and Plantations &c.

May it please Your Honours &c

That having some time since received from M<sup>r</sup>. Secretary Popple your Lordships commands whereby I am required to lay before your Honorable Board what does appear to me in this present Conjuncture of peace with the ffrench to occur and be conducive to his Majestys and this kingdomes interest in the northern parts of America &c. Having from my Experiences in those Countries of Accadie, Nova Scotia, Canada, and New England, made some reflections upon the 8<sup>th</sup> Article of the Treaty now concluded with the ffrench King, wherein I finde that Commissioners are to be appointed for the settling of Limits or Exchange of Lands, as also to determine all differences that may arrise &c. Now to the intent that those who shall be so appointed on our part, may not be under surprise or mistake or want of information, I make bold to prefer unto your Lordships consideration this following Memoriall &c.

1. That whereas one, of the greatest interests of this Nation, both for riches and strength, does consist in the maintenance and incouragement of our Navigation and Maritime employments great care is to be taken that the ffrench

do not by virtue of the 7<sup>th</sup> Article ( wherein restitution is to be made them of Port Royall and the Coast of Accadie ) exclude us from our Fishery on the said Coasts upon the High Seas, which they formerly have endeavoured to do, and on which pretext they have committed divers depredations and surprisalls of our vessels in time of Peace, the original and ground of their pretentions took its rise from what had been acted under the Government of my late Uncle St<sup>r</sup> Thomas Temple ( before the Surrender of that Country to them in the year 1670 ) who being at a great charge in the building of Forts and otherwise for protection of our Fishery from the neighbouring ffrench and Indians, did levy and receive from every vessell so ffishing ( that is to say making or drying of their Fish on the shoares ) the summe of five pounds whereon the ffrench at first contented themselves with the said summes for those that made use of their Coasts not pretending or exacting anything for such as made their voyages on the High Seas, or that wooded or watered in their Harbours &c. But in process of time according to the capriciousness of their Governours, they have often Extended their pretensions unto any and every part of the said High Seas, which tho we never did conceede to them, yet they have often taken and made prize of our vessells so ffishing, untill at length some provision and redress was made by the Treaty of Neutrality concluded on in the yeare of 1686 ( as I best remember ) between My Lord Chancellor Jeffery and other Commissioners then appointed and the French Ambassador Barillen, reference thereunto ought to be had for a more perfect information in this affaire, but such is the consequence hereof, that in case no permission or settlement be made in express manner and forme, it will be a perpetual cause of disturbance in those parts and will be the obstruction and hindrance of the employment of above one thousand fishermen, to the impoverishment of those Colonies, the

Destruction of Trade, and Diminution of His Majestys revenues, herein likewise is to be considered, that whatever by our fishery is taken out of the Seas, is so much ready money or Bullion imported into the Realm, from foreign Nations, and as we have justice on our side, so have we had an uninterrupted usage and Custom, from the first settlement in those parts untill of late Yeares, and thõ fisheries upon the High Seas have sometimes been the dispute of Nations, yet we finde all to claime an equall right of possessing what they can get in that unstable Element if without use of their neighbours shoares &c. Now to cut off and prevent all ground of dispute it will be of the utmost importance and consequence not only to assert and maintain our liberty and right upon the High Seas as aforesaid, but to renue and Establish that mutuall permission of admitting each other unto the Priviledge of refreshing themselves with all Necessaries, as Wood Water &c for their money on the Coastes and in the Harbours of each others Territories &c.

2<sup>d</sup> There are other things of deep weight and moment, concerning the Boundaries and Limitations in those vast territories and Trade with the Indians— especially between New York and Canada, wherein the French have and will continually incroach upon us by the advantage they have from the Rivers and Lakes running on the backside of all our Plantations and Colonies, which thõ they have no wayes Established, nor have any settlements upon them, yet pretend to appropriate to themselves the sole right of Trafick with the Natives, whereby we shall be confined unto the narrow bounds of our settlements, whereas formerly this Limitation and pretention was unknowne unto us and our people without interruption were free in their Voyages and Trafick with divers Nations— situate on the Lakes and Rivers aforesaid which priviledge I presume ought to be asserted and continue unto us &c

3<sup>d</sup> It will be most necessary that such provision and regulation be made for the mutual peace and safety of each other, in regard of the Indians, that neither party shall abett, incourage or supply the Natives in their Wars, or attempts, which they may at any time undertake to the disturbance of either; but on the contrary upon the complaints of the party so suffering, the other shall consult and agree unto such methods, as may be thought fitting to reduce them unto Peace and quiet, for which intent for more safety and assurance, and to remove all suspicions and jealousies, of secret coniving and underhand dealing, it shall be permitted unto the Governours of either party for their own satisfaction as they may think fitting, or the occasion may require, to send or cause to reside with each other such person or persons as they shall see meet, whereby not only to consult and advise what is to be done for prevention of such mischiefs, but likewise to be Eye witnesses of the faithfulness of each others intentions and proceedings, and for Detection and bringing to due punishment all such particular persons, who for their private advantage, shall at any time infringe the Regulations that may be concluded on this subject &c.

The three foregoing heads as I humbly conceive them to be of utmost importance both for His Majestys interest and honour, the peace and prosperity of his subjects; soe doubt not but that your Lordships after due reflection will see cause to make such Reports hereon unto his Majesty or those appointed by him for the settlement of the Plantation affaires that effectuall care may be taken for the securing and establishing the tranquillity of those parts and the Trade and Interest of the Nations &c.

This being what I have to offer I hope that Your Lordships will favourably overlook the defects you may finde herein, and which is the rather to be excused since it proceeds from the earnest desire I have of contributing what I can unto the

publique good, as also in obedience unto your Lordships commands, being with all possible respect your Lordships most humble

and most obedient servant

J<sup>o</sup> Nelson.

*Endorsed— No. 9. Copy of M<sup>r</sup> Nelson's Memorial relating to the Fishery on the Coast of Nova Scotia and other things proper to be had in consideration in treating with the French Commissioners pursuant to the Treaty of Reiswisch.*

Novemb<sup>r</sup>. the 2<sup>nd</sup> 1697.

A Memorial concerning the English title to Penobscot, and other lands adjacent, to be presented to y<sup>e</sup> right hon<sup>ble</sup>, the Lords Commissioners, of the Council of trade, and plantations. /

King James the first by his Letters Patents, under the great seale of Scotland, bearing date the 10<sup>th</sup> of September 1621, granted to S<sup>r</sup> William Alexander Lord of Menstrue, and to his heires for ever, all those lands lying in America, called Nova Scotia. The said S<sup>r</sup> William Alexander, by his deed, bearing date the 30<sup>th</sup> of Aprill 1630, made over all his right, and title, in the aforesaid lands, to S<sup>t</sup> Claud de S<sup>t</sup> Estienne, Lord of La Tour, and of Vuarre; and to his son, S<sup>r</sup> Charles de S<sup>t</sup> Estienne, Lord of S<sup>t</sup> Deniscourt, and to their heires for ever. The said S<sup>r</sup> Claud and S<sup>r</sup> Charles de S<sup>t</sup> Estienne, were french protestants, who for the liberty of their religion had many yeares before left France; and for their good services done, in promoting the said Plantation, they were both created Baronets of Nova Scotia.

About the yeare 1631, King Charles the first consented to

give up the Aforesaid country of Nova Scotia to France; for what reason is not knowne, the French having not y<sup>e</sup> least pretence of any kind to it. For it was both discovered and planted, by the English, and subjects of England and named Nova Scotia by King James the first.

Before the delivery of the said country, King Charles the first articulated w<sup>th</sup> the French, that the said Sir Claud and S<sup>t</sup> Charles de S<sup>t</sup> Estienne, should enjoy their rights, in the said Nova Scotia, his Majesty thinking himselfe, bound in honor to take care of 'em: as appeares by an originall letter, from the said S<sup>t</sup> William Alexander, to the said S<sup>t</sup> Claud de S<sup>t</sup> Estienne.

By vertue of this Article, the said S<sup>t</sup> Claud and S<sup>t</sup> Charles de S<sup>t</sup> Estienne, did enjoy their lands in Nova Scotia; though w<sup>th</sup> much molestation from the French Governo<sup>r</sup>s S<sup>t</sup> Claud dying, S<sup>t</sup> Charles became proprieto<sup>r</sup> of all Nova Scotia.

Many yeares before this, some inhabitants of Plimouth, in New England, discovered Penobscot and began to seale themselves there a place many leagues westward of Nova Scotia. But being much distourbed, by y<sup>e</sup> French Governo<sup>r</sup>s of Nova Scotia, they began to neglect y<sup>e</sup> plantation; and when the said Charles de S<sup>t</sup> Estienne was proprieto<sup>r</sup> of all Nova Scotia, he built a fort at Penobscot, and tooke all the lands, extending from Penobscot to Musconcus bordering on Pemaquid.

About y<sup>e</sup> yeare 1654, Cromwell having a Fleete at New England, under the command of one Major Sedgewicke, he ordered 'em to saile to Nova Scotia, and require the French Governo<sup>r</sup> to deliver it; it being antiently a part of the English dominion, to which the French had no just title. Majo<sup>r</sup> Sedgewicke saild thether, and found the said S<sup>t</sup> Charles de S<sup>t</sup> Estienne, in possession both of Nova Scotia, and Penobscot; both which, together with all the lands belonging to 'em, the said S<sup>t</sup> Charles de S<sup>t</sup> Estienne quietly resigned.

For having suffer'd great oppression under y<sup>e</sup> French Governours, he desir'd to live under the English protection.

Not long after, he came over to England, and petition'd Cromwell, that he might enjoy his lands, which was granted. Then the said Charles de S<sup>t</sup> Estienne, by his deed, bearing date the 20th of September 1656, made over all his right, and title, in all the afore said lands, both Nova Scotia and Penobscot, to Thomas Temple, and William Crowne, Esquiers, and their Heires for ever; for the summe of three thousand three hundred and odde pounds. The said Charles also reserved to himselfe, and his heires for ever, considerable Annuall profitts from the aforesaid lands.

Then all the three aforesaid proprietors, went over to take possession of their lands; Thomas Temple going Governor by Cromwells commission. Not long after their arrivall, the said Thomas Temple, and William Crowne divided their lands.

And William Crowne by a deed under his hand and seale, made over to y<sup>e</sup> said Thomas Temple and his heires for ever, all Nova Scotia, as it is limited, in the said deed and the said Thomas Temple, by his deed, bearing date y<sup>e</sup> twelfe of September 1657, made over to y<sup>e</sup> said William Crowne, and his heires for ever, all his right and title in Penobscot, and in all the lands and Islands, lying without y<sup>e</sup> bounds of Nova Scotia; from the river Machias in y<sup>e</sup> East, to the said Mascoucheus bordering on Pemaquid. They also signed, and sealed interchangeably bonds of twenty thousand, to bind each other to performance of Articles.

For sometime the said William Crowne possessed Penobscot, and his other lands quietly. He also built a trading house, far up y<sup>e</sup> river of Penobscot, at a place called Negue; to which he gave his owne name, and called it Crowne's point.

But the said Thomas Temple, hearing there was a great

beavor trade at Negue pretended the said William Crowne, had broke some article or another, and by violence tooke from him, his fort at Penobscot, his trading house at Negue, and all his lands. And the courts of justice in New England were so partiall to the said Thomas Temple, that William Crowne cou'd have no justice from them.

Thus it continued, till the restauration of King Charles the second. Then the said Thomas Temple and William Crowne, came over, and proving their titles to the aforesaid lands, before the King, and the Lords, and others, of his Majestyes Privy Council, they were adjudged to be right full proprietors, and were permitted to returne, and repossesse their lands. Then the said William Crowne, threatning to complaine to his Majesty, and the Privy Council, of the heavy wrongs he had suffer'd; The said Thomas Temple desir'd him to forbear promising him, not only the restitution of his lands, but any reasonable satisfaction. And the said William Crowne being desirous to returne to New England The said Thomas Temple gave him letters, to his Agents in New England, requiring 'em to restore to him his fort of Penobscot, & all his lands. But when the said William Crowne arrived in New England, he found contradictory letters, written from the said Thomas Temple, to his Agents; strictly charging them to keepe him out.

The said Thomas Temple, was created a Baronet of Nova Scotia by King Charles the second and got a commission from his Majesty to be Governour of Nova Scotia and Penobscot; upon his arrivall in New England, the said William Crowne complained to him, of his unjust and shamefull proceedings, which S<sup>r</sup> Thomas cou'd not vindicate; and to end differences, he prevaild w<sup>th</sup> y<sup>e</sup> said William Crowne, to grant him a short lease of Penobscot; and the rest of his lands; and severall New England merchants were bound for payment of rent.

But the said S<sup>r</sup> Thomas Temple kept the lands, and never payd any rent. Nor wou'd the courts of New England intermedle w<sup>th</sup> the case, for they said, it was a debate about lands, that lay out of their Jurisdiction.

Thus it continued till y<sup>e</sup> yeare 1668, when at y<sup>e</sup> treaty at Bredah, y<sup>e</sup> French prevailed w<sup>th</sup> King Charles to surrender up Nova Scotia. And accordingly, a commission was sent under the great seale of England to S<sup>r</sup> Thomas Temple, empowring, and requiring him to deliver it.

S<sup>r</sup> Thomas Temple knew very well that Penobscot, and the aforesaid lands belonging to it, were no part of Nova Scotia but they being the said William Crownes estate, he out of envy and hatred to William Crowne, and to impoverish, and totally disable him, from taking his advantages at law against him, when he was out of his Governement, for all the notorious wrongs he had done him, whilst he was in it; the said Sir Thomas Temple, presum'd to go beyond his commission, and deliver up Penobscot to the French.

When King Charles was inform'd of what S<sup>r</sup> Thomas Temple had done, he was extremely displeas'd with it; and wou'd not consent to it,— Not long after a war broke out betweene France and Holland. And the Dutch tooke the fort at Penobscot from y<sup>e</sup> French, levell'd it w<sup>th</sup> y<sup>e</sup> ground, and then entirely quitted it.

Not long after, King Charles, commission'd the Governour of New Yorke, to take Penobscot, and the lands belonging to it, under his jurisdiction. And the Governor of New Yorke, did accordingly and put a garrison in y<sup>e</sup> said trading house at Negue, alias Crownes point. William Crowne being deceased, his eldest son John Crowne, having information, that his Royall Highnes y<sup>e</sup> Duke of Yorke, had begg'd Penobscot of y<sup>e</sup> King, the said John Crowne petition'd his Highnes to restore him y<sup>e</sup> inheritance, which his Father had

purchas'd; and his Highnes referd him to y<sup>e</sup> Commissioners of his revenew. And the cause lay before 'em undetermin'd, during y<sup>e</sup> latter end of King Charles's reigne, and all y<sup>e</sup> reigne of y<sup>e</sup> late King James.

By what has beene said, it is apparent the French have no pretence to Penobscot, for the English first discovered it; the English, and subjects of England possest it almost forty yeares. The French had it in King Charles's reign for a short while, and got it, not by vertue of any treaty, but beyond their expectation, it was put into their hands by the treachery of S<sup>r</sup> Thomas Temple y<sup>e</sup> Governor.

And they lost it in a short time to y<sup>e</sup> Dutch, and the Dutch quitting, both the last Kings quietly possessd it, to y<sup>e</sup> end of their reignes.

Sir,

I write to you by M<sup>r</sup> David Bassett whom I have detained here ever since the last Year, and whom His Majesty is pleased to pardon for whatever he has done against his Interest upon condition of his settling in this country, as he

has engaged to do; So that I am confident you will be willing (as I should be in the like occasion) to suffer him to return, and let him to make an end of his Affairs without any wrong or hindrance.

I am much surpris'd, after what I writt to you about those Indians of Ours that are in prison, that you have return'd no answer to what I desird of you, and that you persist in keeping them. I will say nothing more to you of it, referring you to what I writt in my last of 27<sup>th</sup> June 1698.

I am informed that you have many that Fish upon our Coasts, and that you suffer your People to trade in the French Habitations. You must expect, Sir, that I will seize on whatsoever English shall be found fishing or trading, the rather for that you cannot but know that it is absolutely forbidden by the Treaty betwixt the two Crowns, which you yourself sent me; And that M<sup>r</sup> De Bonaventure Commander of the Kings ship L'Envieux confirm'd it to you, sending back at his arrival on these Coasts some of your Fishing Vessels which he had taken, & giving you to understand by the King's Order that if any more came either to Fish or Trade they should be made Prize of.

I am Order'd by the King my Master to conform my selfe to the Treaty of Neutrality concluded at London the 16<sup>th</sup> of Nov<sup>r</sup> 1686 with King James as to the Affairs of America.

I have also express Orders from his Majesty to maintain the Bounds between New England and Us, which are from the head of the River of Kennebeck to the Mouth of it, leaving the Channel free to both Nations. Therefore I make no question, Sir, but you will act accordingly and give over pretending to treat the Indians that are settled there as your Subjects, thereby to prevent all those unhappy consequences which may happen by reason of their neighborhood to you. I have not else, but to assure you that I will do all that lyes

in my power towards the execution of the Orders which I have received from his Majesty.

I am with all sincerity, Sir,

Your most humble servant

The Testimony of John Swasey Master of the Sloop Dolphin and William Jeggels master of the Sloop Sparrow, of full age testifieth and Saith.

That on or about the Twenty second day of September last, as we were on the Coast of Cape Sables, bound homeward, We were forced by stormy weather to go into Chebucta, and as we were going in we saw a ship in the said Harbour upon which we tack'd and stood off and presently we saw a Boat come off from said ship and came to us with about twenty Men, many of them had Armes and came and boarded our Vessels, and commanded us to go into the Harbour, which we did, and we were carried on board the Man of War, and the Captain by his Interpreter examined us what our business was there, We told him we were poor Fishermen that fished on the Banks, They ask'd how we dare to be so bold as to come on their Coast a fishing it being their Land and Coast and Banks were their priviledge, and in some short time we

were sent aboard our Sloops and brought in under the Ships Stern, and they took away our Sails and carried them on board the Ships, and kept us there till the twenty fourth day of said September, and then the Captain sent for us aboard and he told us that he had given warning by David Hilliard that the English were not to fish there, and that he had power to take us for our fishing there, it being our privilege, and he said that he would dismiss us for this time, but said he would take all he could and had power so to do, for they did forfeit their vessels by fishing there.

The Ship was about foure or five hundred Tuns and had about Twenty Guns mounted, The Interpreters name was Perot who as he told us, had formerly lived with M<sup>r</sup> John Nelson of Boston.

*Letter from M<sup>r</sup>. Stoughton L<sup>t</sup>. Gov<sup>r</sup>. of the Mass: Bay  
to y<sup>e</sup> Board*

R<sup>t</sup>. Hon<sup>ble</sup>

In mine of the 25<sup>th</sup> of July past directed unto S<sup>r</sup>. Henry Ashhurst and M<sup>r</sup>. Phips, Agents for this his Ma<sup>ty</sup>'s Province, I advised them of the Information I then had of the pretensions made by the French unto the Fishing ground or Banks lying in the high Seas off & about the Coast of Accadie or Nova Scotia, and that Eastern Country, which have all along, even from the discovery and first Settlement of this Countrey, been used and improved for Fishing as the just right and privilege of his Ma<sup>ty</sup>'s Subjects until this time, when a Captain of a French Ship of War, meeting with some of our Fishermen ab<sup>t</sup>. their Imployment near that Coast, signified unto them that he had orders from the French King to guard that Coast, and to seize & make prize of all English Vessels that he should find fishing in those Seas. And our s<sup>d</sup>. Agents were instructed to make your Lordp<sup>s</sup>. acquainted therewith, and humbly to move that due care might be taken to secure unto his Ma<sup>ty</sup>'s Subjects the benefit of the Fishery as heretofore, and to prevent any thing that might in the least infringe or deprive them of that liberty & advantage wherein I presume they have applied themselves unto yo<sup>r</sup>. L<sup>d</sup>. ships accordingly.

Since which I have received some further Information about that matter, and the peremptory challenge of the French unto the Sole right of Fishing on those Grounds, As also to extend the bounds of their Dominion through the Main Land, as far as the River of Kennebeck, and from the head thereof unto the mouth of the same as by a Letter of the 5<sup>th</sup>. of September past from M<sup>r</sup>. Villebon Governor for the French King in L'Accadie or Nova Scotia, on behalfe of his Master directed unto my selfe, which original Letter with the other Information is here inclosed.

It's advised by the Council, as necessary for the Kings Service, that this matter, of so great import unto his Maj<sup>ty</sup>s Interests, be forthwith laid before your Lordp<sup>s</sup> that it may be reported unto his Ma<sup>ty</sup> Apprehending there may be a proper Season for asserting and establishing of the ancient Boundaries of these Countreys, and the ancient usage, right and priviledge of his Ma<sup>ty</sup>s Subjects for fishing in these Seas, At the meeting of y<sup>e</sup> Comission<sup>rs</sup> to be appointed on both sides, conforme to the 8<sup>th</sup> Article of the Treaty of peace for examining and determining the rights and pretensions of either of the Crowns to the places situated in Hudson Bay.

Mr John Nelson a Gent<sup>m</sup> well knowing and experienced in the State of the Country of Accadie or Nova Scotia, and all circumstances attending the overtures and changes that have hapned there of long time past, and of the utmost bounds Westward ever pretended unto by the French, has acquainted the Governm<sup>t</sup> here with some memorials, which, in obedience to your Lordp<sup>s</sup> Commands, he has lately laid before your Lordp<sup>s</sup> relating unto his Ma<sup>ty</sup>s Interests in these Northern parts of America and particularly representing and setting forth the utmost bounds of the Countrey of Accadie or Nova Scotia to the Westward ever pretended unto by the French, extending no farther than the Eastern side of the River of S<sup>t</sup> Georges, and that only by virtue of the Treaty of Breda before which all that Countrey was intirely in the possession of the English and also setting forth the free and ancient usage, right and priviledge of his Ma<sup>ty</sup>s Subjects of fishing on that Coast: Copys of which Memorials are herewith inclosed; whereto I humbly pray your Lordp<sup>s</sup> to be referred, particularly that Dated from Paris January 26<sup>th</sup> 1698, wherein is humbly insinuated the fatal and irreparable hurt and damage unto the Interest of the Crown & the prosperity of his Ma<sup>ty</sup>s Territories in these parts that will be consequent of making any concession to the French in their

unjust & unreasonable pretentions now made. And the Argum<sup>ts</sup> therein offered against any concession thereto (which to repeat would be to give your Lord<sup>ps</sup> a needless trouble) seem to be very demonstrative and of great weight; Besides what might be added, that if so large a part of this Province, as is now claimed by the s<sup>d</sup> Pretensions of the French, should come into their possession, many of his Ma<sup>ty</sup>s Subjects would be excluded from their ancient rights and Settlements acquired as well by Grants and Confirmation derived from y<sup>e</sup> Crown of England, as by purchase from the Natives, and having by their hard labour and great cost and charge, cleared and improved that part of the Countrey, and planted several Towns therein And there are so many large, coñodious and safe harbours on that shore, that, upon any eruption with France, and War hapning betwixt the two Crowns, the French would have such advantage by them, as greatly to annoy, if not wholly ruine, the navigation of this countrey; It would also utterly deprive his Ma<sup>ty</sup>s Subjects of a chief part of their Fishery, whereon they have so great dependance.

Our Agents are Instructed to wait upon your Lord<sup>ps</sup> about this important affair.

His Ex<sup>cy</sup> the Earle of Bellomont still remaining at New Yorke (his Ma<sup>ty</sup>s Service there not dispenseing with his Lord<sup>ps</sup> yet leaving of that Province) is made acquainted with this application unto your Lord<sup>ps</sup> upon this Subject of so great consequence, and is humbly requested to Second and enforce the same by fresh application from his Lord<sup>p</sup> which time would not allow of by this Conveyance by reason of the distance, but I hope will be forwarded by y<sup>e</sup> next. I pray your Lord<sup>ps</sup> that such early and effectual care and provision may be had and taken in this important and momentous affair, as to prevent the evil and fatal consequences attending the groundless and unreasonable pretensions of

the French as afores<sup>d</sup> And that the ancient known Boundaries of these his Ma<sup>ty</sup><sup>s</sup> Territories, & rights and priviledges of his Subjects as afores<sup>d</sup> may be asserted and established that so they may reasonably hope to enjoy peace and quiet, which is not probable, whilst the French in so neare a neighbourhood persist in their unjust prettexts before mentioned.

Having nothing further at present of moment for his Ma<sup>ty</sup><sup>s</sup> Service to observe unto your Lord<sup>ps</sup> With my hearty wishes for your Lord<sup>ps</sup> happiness, I am with all possible respect

R<sup>t</sup> Hon<sup>ble</sup>

May it please Your Lordships.

While I was in England and also in France I then in obedience unto your Commands did prefer unto your hon<sup>ble</sup> Board divers Memoires relating unto the French in those parts. It is to be hoped (that if the Commissioners on both sides have entred into Treaty, as is stipulated in the 7<sup>th</sup> and 8<sup>th</sup> Articles of the Peace concluded at Riswick that due reflections and improvements have been made of the said Memorials, so that his Majesties Colonies and Subjects in these parts may be protected from the Innovations and violences with which they are not only menaced, but have actually been put in Execution by the French upon them, under pretence of the late Treaty of Neutrality made in London in

the year 1686, between the late Lord Chancellor Jefferies and the Ambassador Barrillon; Whereby the Fishing on each others Coasts seems to be debarr'd, but under collour of which they are now endeavouring to extend their pretentions something like as they have formerly done in Flanders, where their claime unto dependances did exceed the very concessions made unto them so here much of the same nature, under the Title of their Coasts, they now Endeavour to exclude us from the priviledge of Fishing upon the High Seas, Whereas according unto all Civillians who have wrote of this matter, they do determine, that fishing on a neighbours Coast is naturally to be understood, when it is within the Rivers, Harbours, Bays Inletts or Creeks, or that use be made of the shoares &c<sup>a</sup>. but that the bankes upon the high Seas are and allwayes have been the universall right and consequently free to all nations. The drift and design of the French by these pretensions is very obvious, as the increase of their Navigation both in Ships and Seamen Trade and Riches, so on the contrarie in the same proportion our decrease herein is our weakening in all these. I doubt not but whenever any calculation shall be made it will be found that more Men are Employed more Riches Money and Bullion imported into Our Nation by this Trade then by any other produce or Commerce that the Nation does afford, so that from these reasons doubtless but that your Lordship<sup>a</sup> will see cause soe to represent the Matter to the King and Councill as may put some reasonable limitt unto the French pretentions and secure his subjects in so antient and Uninterrupted a right and priviledges, I humbly Conceive that the matter, cannot admitt much dispute, since that they themselves do dayly and of necessity take most of their Fish that supplies France on our Coasts of England, so that the distance, observed there by them, may serve here for a very good direction and Example for their Coasts of Nova Scotia also Accaddie as they now call

them, Your Lordships having formerly admitted both my discourse and writing to you on this subject, what is now with so much importunity represented unto your honours by the Lieutenant Governour and Councill of this Province. I the rather presume to second, for that having lately, made a voyage unto those parts, and by reason of my affaires, being conversant with them, am fully convinced that unless some vigorous and resolute measures be taken in this matter not only the welfare of these Countries but the Interest and Trade of the whole Nation will in a short time come to nothing in these parts.

Upon Your Lordships perusal of my Memorialls formerly given, you will readily perceive that at the time of my Informations on this and other things, they were something more then conjecturall, so that my apprehensions now being Joyned with the Generall Consternations of this Countrey, and wherein his Majesties honour and Interest has so great a part I trust may have weight enough to induce your Lordships strenous and Effectual working in our behalfts. The liberty I have taken in representing this and other matters before your honours I hope will be favourably interpreted as an effect of my zeal for the Publick good, and in observance of your Commands &c. being as I am in all humble Duty.

Your Lordships most humble and

most obedient Servant

May it please your Lordships

This is to acquaint your Lordships, that Mons<sup>r</sup> Vilbone The French Governour of S<sup>t</sup> John's, Bordering upon this Province Eastward, has lately by his Letters to this Government, Laid Claime to all that Tract of Land, lyeing between the Rivers of Kenebeck, and S<sup>t</sup> Georges, pretending it belongs to the French Government, And has alsoe Forbid the English Fishery, upon that Coast. Threatning to make Prize, of such as Fish there for the Future.

As this Claime is unjust, being an Ineroachment upon the English Dominions, soe it is likewise very Prejudiciall to the Interest of his Majestie, and the English Nation, for that Tract of Land (as I am informed by many persons that have lived there formerly before the Destruction of the English Settlements by the Indians) Abounds with Masts, and Excellent Timber, For building his Maj<sup>ties</sup> Ships of War, and is accounted the best part of all this countrey, for the Plentifull Production of all sorts of Navall Stores. And if the French get the same into their Hands, it will not onely Defeat his Maj<sup>ties</sup> designe, of being Supply'd from thence with Navall Stores, and Destroy the Rights & Propertyes of his Subjects to their Lands, and Fishery there, but will be a vast advantage to the French, & make way for their further Ineroachments.

The bounds of the French Government, before the Treaty at Breda, reach't noe Further (as we are here informed) Then the River of S<sup>t</sup> Croix, But because S<sup>t</sup> Thomas Temple, Pattent for Nova Scotia, Extended as far West as S<sup>t</sup> Georges River, the French obtained a Surrender of all that Pattent to them, by the Treaty at Breda, which was more by Ten Leagues on the Sea Coast, then what belonged to them. And now they claime to Kenebeck River, which is yet Ten Leagues Further West, It is not knowne upon what pretence they make this Claime, Unlesse upon Acco<sup>t</sup> of the Indians,

who Inhabit there, and have Joyned with them in the War, whom they call their Masters Subjects. And some designe they have formed among themselves, to supply the French King with Masts, and Navall Stores, from thence.

Being Employed as one of the four persons sent hither by his Maj<sup>tie</sup> to inspect and send from hence Navall Stores, for The Use of his Maj<sup>ties</sup> Royall Navy, I thought my selfe bound in duty to his Maj<sup>tie</sup>, to give your Lordships an Acco<sup>t</sup>, of this matter. That the Claime of the French may be Opposed, by the Commissioners of his Maj<sup>tie</sup>, when they meet those of the French King, to settle the Bounds, according to the Article of Peace, which I am informed is to be this Winter. Most Humbly Praying that this may find acceptance with your Lordships, I beg leave to Subscribe my Selfe

Considerations upon the Iconographical Draught and Profiel of Pemaquid and Piscataqua (both to be new) Forts, marked A & B.

I am of opinion That Pemaquid new Fort (marked in the Draught with black prickt Lines) ought in part to be made and erected, as it is represented in the Draught A & B afores<sup>d</sup>

First I premise that instead of filling all the Wall Walkes & Breast workes (excepting 4 feet in the Breast worke above the Stone wall which should be of good Earth) they ought to be vaulted, which will render it an ever lasting work and afford to the Souldiers Lodgeings &c must be built by themselves, w<sup>ch</sup> will augment the cost & entail a charge of continual repair ~

Secondly, Piscataqua New Fort (represented in the Draught with red prickt Lines) ought to be built almost in conformity to the above mentioned Profiel of Pemaquid, only that it be considered (That as the Great Island on the Superficies near & about the Fort is altogether very rocky and no earth to be got near it) 'tis necessary that the Wall Walks be singly vaulted in as much as the charge of bringing Earth to fill it would much exceed that of the other.

Thirdly, It is not to be understood That all the Walls of Pemaquid and Piscataqua Forts must be altogether precisely alike built and vaulted (as is laid down in the afores<sup>d</sup> Profiel) but only a part of them, and for the rest a skilful Architect may governe himselfe therein (by the Situation and ground) so as to improve all advantages and good husbandry.

Fourthly & Lastly, To anticipate an objection that may be raised touching the Draughts & Profiels of the Forts of Orange and Schenegtade in the County of Albany in the Province of New Yorke and Castle Island in the County of Suffolke in the Massachusetts Province, Why they are not proposed in their construction, cannon prooffe &c. It may be

added that only such Guns as are portable on horses which is not well to be done through a Wilderness but with much difficulty, can be improved against the two first, and the last being a mile and some three quarters of a mile distant from the nearest of the adjacent Islands, is only exposed to an Attack by Sea, which will be both difficult and dangerous to Ships that shall approach against a Fort and Batterys regularly and advantageously raised by the Seaside: Under these considerations I conceive an extraordinary charge may be well Saved.

May it please your Lord<sup>sh</sup>

We the Inhabitants of this Town of Wells have rec<sup>d</sup> a sutable supply of Souldiers for our present support, for the which as our Duty we return to your Lord<sup>sh</sup> as our acknowledgements your great prudence Love and fatherly care extended to us in this releife has much Incourag'd and Cheared our hearts. Your Lord<sup>sh</sup>s Quickness in sending such a supply unto us has prevented our Address for the same. We do give our most humble thanks to your Lord<sup>sh</sup> and honoured Councill therefore. We would crave leave to lay our present wants in your Lord<sup>sh</sup>s view Armes and Amunition are of absolute necessity for defence if war should arise, and we are but single arm'd at the best and if any of them should faile here is no Recruits to be had. Our store of Ammunition is too little, and that little is not good, we humbly pray your Excellency to consider this want and if it may be to Grant a Supply. We would also give your Lord<sup>sh</sup> a short Informaçon of some ill designs of the Indians

lately discovered by an Indian man of some account amongst them: he coming to an English house, asked what made the English go to Garrison there being some Remote families removed, we told him it was not for any harm Intended to them but upon some suspicion of the Westward Indians. We asked him if he knew any Reason why so many Indians came from so many parts to Winnebesshehkick and there about he owned that there was many Indians there but what their designe was he knew not. Two days after he came again to the same house, and three English men with him, there being one at that house could discourse with him in his own Language then he did say that last Summer there was a great plot among the Indians at Pennycook and Winnebesshehkick and other Indians to make war with the English and had brought their design to an head about our Indian Harvest and was in Arms ready to set out upon the design and had it not been for Kahton Bamet the Sagamoor of Peg-nohket they had strok the blow upon us before Winter Wee asked him if he thought that that Sagamoor could prevent them now he said he could not tell but he had done it then but there was now many Indians at the forementioned places and some of them came from Canada, some of the Indians have told this Winter that the peace that is now is no good peace for it was but Two proud Rascally Fellows that made it, and their Sagamoor did never consent to it. We have Inform'd upwards of 40 of our Indians among us this Winter to their perfect understanding of y<sup>e</sup> falsnesse of the Report raised that the English designed their destruction, and told them it was raised by Evill minded men and upon their faithfullness and Truth the King and your Lord<sup>sh</sup> would protect and Love them and that the English would do them no harm: but we find some of them very hard to believe it. We humbly pray your Lord<sup>sh</sup> to admit Cap<sup>t</sup> James Gooch to

give a further acc<sup>t</sup> particulars and of our State and Condiçion  
We subscribe our selves in behalfe of the Inhabitants

To the R<sup>t</sup> Hon<sup>ble</sup> the Earl of Bellomont, Capt<sup>n</sup> General and Governour in chief of his Ma<sup>ty</sup>s Provinces of the Massachusetts Bay, New Yorke & New Hampshire.

The Memorial of Col<sup>o</sup> Wolfgang William Romer his Ma<sup>ty</sup>s Chief Engineer in America —

Touching the five Rivers.

In obedience to your Lordp<sup>s</sup> Order I embarked at Boston the 28<sup>th</sup> of last July on board the Province Gally & arrived in Piscataqua river the next day, where I had the honour of meeting your Lordp<sup>s</sup> and receiving your Order to take the Plan of the great Island and Fort thereon, and also of the entrance into that river, and to sound the s<sup>d</sup> river from the mouth thereof as far as New Castle which accordingly I performed with all the exactness I could, as your Lordp<sup>s</sup> will see in the Chart more at large.

I find the Fortification on the s<sup>d</sup> Island extream bad and uncapeable of defending the entrance into that noble & impor-

tant River not being sufficient to endure three or four days attack of an Enemy. The place where the s<sup>d</sup> Fort stands is very proper if there were Workes built that were defensible. The importance of that river, and the growing Trade of that place and Countrey requiring it. But, besides that, a good Strong Tower on the point of Fryers Island, a Battery on Wood Island, and another single Battery on Clarks Island would be very necessary.

As for the Great Island on which New Castle stands, a good redoubt near to the horse Ferry would be very convenient for maintaining a correspondence between the s<sup>d</sup> Great Island and the Main Land because that, upon occasion, Succours might be conveyed thence to the Great Island Fort, and also because an Enemy would be thereby hindred from passing through little harbour in small Vessels up to Portsmouth.

The 30<sup>th</sup> of August, Cap<sup>t</sup> Southack Coñander of the Gally brought me your Lord<sup>ps</sup> Order to go and visit S<sup>t</sup> Georges river. We accordingly sailed out of Piscataqua river the 1<sup>st</sup> of September, and arrived in S<sup>t</sup> Georges river the 7<sup>th</sup> of the same month. I took the plan of the s<sup>d</sup> River which I found difficult of entrance, not only because of several Islands, but also rocks w<sup>ch</sup> lye under water. Yet when we were once within those Islands and rocks we found fair large Bays where Ships of a 150 Tun could ride. About those Bays we perceived good store of rich Land fit for habitation and Improvement but which was never inhabited by other than Indians. On the out side of the largest of the Islands there are several Plantaçons or Farmes, which by means of the late War were deserted by y<sup>e</sup> Inhabit<sup>ts</sup>. There is little Timber there about fit for building Ships, that which there is being only fit for building houses & for Fuell

The Coast adjoining to S<sup>t</sup> Georges River is reckoned extraordinary good for Fishing, the French have taken the

best part of it, which is from the river of Penobscott to that of S<sup>t</sup> Croix which s<sup>d</sup> River of S<sup>t</sup> Croix is said to have been formerly the Boundary between N England & Nova Scotia before that Nova Scotia and Accadie were del<sup>d</sup> to the French by S<sup>t</sup> Thomas Temple ~

#### Pemaquid River and Fort

This River is nine Leagues to the Westward of S<sup>t</sup> Georges the mouth or entrance whereof is spacious and noble and without any difficulty or danger Ships go immediately into safe harbour from the main Sea there being but two Leagues from thence to a Point called the Barbekin which is close by the Fort. The Chart will shew the Situation of the Fort and depth of the River.

The Land of Pemaquid is much better than that about S<sup>t</sup> Georges there was there formerly a Village of 36 well built houses on a neck of Land, where stood the Fort, the Inhabitants had their Farmes in the neighbouring country where there were a great many Farmers besides who had not houses in Pemaquid yet were forced to retire thither in the Wartime, and 'tis supposed that had the peace continued till this time Pemaquid would have been a place of importance because of its Fishery, its Trade with the Indians and the Trade which would have arisen from the productions of the Countrey. Besides, this place is considerable because of its Frontier which covers and Shuts in the rivers of Damarascot, Sheepscott and Kennebeck

The French have intirely demolished the Fort of Pemaquid which appears to have been extreamly ill built & not defensible your Lord<sup>p</sup> may observe by the Profil of the s<sup>d</sup> Fort in the Chart, that there was no order or proportion observed in building it, its Walls were made of clay mixed with Sand brought from the Sea shore instead of Lime. Insomuch that (as I have been informed) when the French besieged it the Commander having ordered two great Guns to be fired at the

Enemy the Wall of the Fort was so very much shaken that he was forced to have it supported with great Beams of Timber which was partly the cause that the place was shamefully Surrendred to the French. This was the Fort that made such a noise and which the Countrey were made to believe was impregnable the loss of which disheartned them extremely and made the Inhabitants desert the whole Eastern Country. For the better Security of this Frontier and its port or harbour, I am of opinion there ought to be a good Fort built much about the same place where the former Fort stood & care taken for conveying in fresh water to furnish the Garrison in case of a Seige. And that the defence toward the Sea ought to be lower down or more horizontal than formerly: Besides, for its better defence in case of a Seige by Sea, I am of opinion there should be a good Battery guarded by a Redoubt, or by a round Tower on Johns Island, and another Battery of Six pieces of canon 18 pounders, on Cuckolds point. This being done that Bay would then be Secure.

#### Kennebeck River

This River is a fine one and convenient for great Ships when they are once got two Leagues within y<sup>e</sup> Islands that are before its mouth which Islands lye to the Main Sea they are then safe from all danger and afterward the river is navigable for great Ships up as far as Newtown And tho it be navigable higher up yet 'tis somewhat hazardous by reason of the little Islands and rocks which lye in the middle of y<sup>e</sup> river whose rapid course makes it stil more hazardous for ships.

As to the Soil, that of Rowsick Island, on which Newtown formerly stood is very good, and so is the Land that lies towards the West and South West along the s<sup>d</sup> river. There are also several excellent Meadows thereabout, Your Lord<sup>p</sup> will see in the Chart the course and depth of the s<sup>d</sup> river.

There was never any other Fortification but that at Newtown, which was a small square Fort palisado'd, Therefore I have marked on the Chart the places which ought to be fortified not only for the defence of the mouth of the river but also for that of the river itself within the countrey, and this last I hold very necessary because the Savages have two Forts at the head of the River which are cald Naridgewack and Comesos quantick. They have two Jesuits in each Fort which do great hurt to the Kings interest, and that of the Publick because they instil into those people an aversion & hatred for his Ma<sup>ty</sup> & his Subjects. Before the War there was a palisado'd Fort on Damarascove Island for defence of the Fishermen & a little higher there was another place cald Cape Newagin where the people cur'd their Fish, and two harbours where they secured their Vessels from Storms. And tho those harbours lye open to the Sea yet in case of necessity they serve turn, when the Fishermen cannot get into Kennebeck river.

#### Casco Bay.

I find Casco bay the noblest, as I do the Countrey about it the fertilest thats in all New England. There are in this Bay a great many Inlets from the Sea those that lye on the North East and South by West sides are the deepest, and are 15 miles from each other. The s<sup>d</sup> Bay is cover'd from the storms that come from the Sea, by a multitude of Islands, great and small there being (if one may believe report) as many Islands as days in the year. Your Lord<sup>sh</sup> may observe the Situation of this Bay in the Chart and of part of the Islands, and also its Soundings, wherein I was particularly careful, as I was in all other places, where I thought it necessary.

The Plan of the Fort in great as I have taken it will give your Lord<sup>sh</sup> an intire view of its Situation, and of its strength formerly. The French and Indians burnt it during the late War it was built of Wood & very ill contrived being so seated

on a neck of Land, that it could not be relieved. And as it was ill built so was it as ill kept in repair Yet in confidence of this Fort people were encouraged to build a pretty large Village called Falmouth, consisting of 46 houses and a good church but all lys now in ruines There are stil to be seen the remains of houses of two stories high with stone walls and Chimneys, and there are 180 Farmes, besides a great many Fishermens houses.

'Tis great pity that so fine a country should be deserted, And in case it were to be resettled I could advise a much more comōdious place for building a Town which without doubt would thrive and grow a pace and it would be much more capeable of being relieved and defended than the former Town was. I have marked the place for this new Town on the Chart with red lines where your Lord<sup>p</sup> will see my projection thereof.

#### Saco River

From Casco Bay I came to Winter harbour, four miles from the mouth of Saco river, and went up in the pinnace as high as the first Falls or Cascades where I found a small Fort, ill seated and worse built it was made of clay and sand instead of Lime and the most considerable part of it, which is a small Tower in forme of an irregular Pentagone, is ready to fall, and in a word useless. The Fall or Cascade makes so great a noise that one can scarce hear ones selfe speak. This place is not so much a Frontier as a place of defence for the Salmon Fishing.

That which I shall observe ( because this River is only deep enough for sloops ) is,

(1) That in my opinion there must be a good redoubt made a mile and halfe from the Cascade or Fall, and a Boom cross the river to hinder the Indians in their Canoes from coming round about the s<sup>d</sup> Falls, and so to the Sea for which reasons we ought to be Masters of the river. At the head

whereof the Indians have a Fort cald Narracomcock, where they have also two Jesuits. The redoubt and boome I have mark't on the Chart with red lines.

(2) Since the people of New England have enriched themselves by their Fishing which is their principal Trade, it would be proper in my Judgement to make a good Battery guarded by a redoubt at Winter harbour or Stage gut point to secure their Sloops and other Fishing boats; which, indeed, ought to be done in several places on the Eastern Coast where at present have no Sort of refuge to the Eastward of Saco, to shelter them from Pirates or other Enemies. The Land along this river is very good & fertile & well stor'd w<sup>th</sup> woods for Ship building & for houses.

What remains to be observed is, That at the head of this River above the first and greatest Falls, it takes its course N. N. E. where the last mentioned Indian Fort which is built at some distance from the s<sup>d</sup> River, and the two former Indian Forts ( which I mentioned in the Article of Kennebeck river ) do center all three within two or three days Journy of each other by w<sup>ch</sup> means the Savages can conveniently correspond. And upon occasion draw together in a body as often as they please, which is a thing well worth reflection especially against another War do happen.

It is likewise observable That all these Indians I have been mentioning were our cruellest Enemies all the late War which they made appear on all occasions, They took & burnt Falmouth and besieged Wells, a Village to the Westward of Saco, consisting only in 10 or 12 houses which were fortified & well provided with provision & Ammunition who ( tho they were besieged by 500 French and Indians ) so well defended themselves that the Enemy were beaten and forced to retire with considerable loss. Among others, three of their best Captains were killed one whereof (& he the most regretted ) was a Kinsman of y<sup>e</sup> Count de Frontenac, and as

a token of their revenge, having taken an old Englishman they roasted him alive on a spit in sight of the English in Garrison This is one mark, among many others, of the horrible cruelty of French Papists and Indian Infidels

All which is humbly submitted to your  
Lord<sup>ps</sup> consideration by

Your Lordships

Humble and obedient Servant

That within the space of three weeks last past at sundry times divers of the Eastern Indians to the number of Twenty or thereabouts of men and women have first and last shown themselves at and about the Town of Wells where this Narrator with a party of the said company are posted, and discoursed with some of the Inhabitants of said Town, professing themselves for peace, particularly on Saturday the 6<sup>th</sup> of April Instant Twelve Indians came into the Town of Wells (who for some days before had shown themselves to some of the Inhabitants but seem'd shy, avoiding to be

spoken with ) of which number there was one named Tom, who bears the title of Cap<sup>t</sup> and is said to have been very active in Comitting of murder and rapine dureing the time of the late Rebellion, who at first pretended not to understand nor speak English, but afterwards having discovered that he could do both, he then began to be free of discourse, and Inquired of this Narrator the reason why there was so many souldiers posted there and the Inhabitants went to Garrison, I replied because the Indians threatned to make war and burn the English houses. he said there was no such thing Intended, the English and they were as Brothers. the Narrator then demanded of him why the Indians were gathered together in bodys at severall places, he replied that the English Governour meaning Governour Winthrop had seized the Natick Sagamore, and said he would kill the Indians, and fifteen of Natick Indians had come to Pennicook to stir up the Indians there to make war, and also to Uncas another Sagamore to the Westward, and the Pennycooks had sent unto the Kennebeck Indians to acquaint them therewith and to excite them to Joyn them in making of war but they utterly refused. Then this Narrator demanded of him what the Pennycooks would do, seing the Eastern Indians would not Joyn them he replied the Pennycooks were but a few and could do nothing were (as he expressed himselfe) no more than all one a Papoos or Child. The Narrator laboured to disabuse him and Confute the falsehood of such a Report that the Governor had seized upon any Indian, or Intended any harm to the Indians, and read your Excellencys Proclamaçon unto him and the other Indians who seem'd to be well satisfied and say very good Governor, and professes the Indians have no designe for war they have hunted much this Winter and taken but little Game are very poor and pinch't for want of provisions and further saith they are now going

out a hunting for the space of Two moons as he term'd it,  
and then would return back againe

*Capt. John Alden's Relation to the Earl of Bellomont.*

Capt<sup>t</sup> John Alden was with me the 13<sup>th</sup> of this Instant June, and told me he was newly returned from Penobscot

River to y<sup>e</sup> Eastward where he saw and discoursed with Mons<sup>r</sup> de Saint Castin a French Gentleman that lives there, and with whom the s<sup>d</sup> Alden has traded Several years. Mons<sup>r</sup> de S<sup>t</sup> Castin told him he hop'd he should Shortly come under the King of England's Government, for that he had much rather be a Subject of England than a Slave to France; he likewise said that the true Boundary between England and France to the Eastward was the River of S<sup>t</sup>e Croix and said the English would do well to insist on it vigorously, otherwise the French Court would try to cozen 'em out of it. Cap<sup>t</sup> Alden desired him the s<sup>d</sup> Castin to write by him to the Governour of N. England what he had then related about the Boundary but he said he could not venture to do such a thing least his Letter should be carried to Quebec. he, Viz<sup>t</sup> S<sup>t</sup> Castin told Cap<sup>t</sup> Alden That the Jesuits had taken indefatigable pains to stir up the Indians everywhere to make War upon the English and said they were very wicked in so doing. I desir'd Cap<sup>t</sup> Alden to put what he told me in writing by way of Memorial, and set his name to it but he desir'd to be excused, Saying, That S<sup>t</sup> Castin was his Friend and Correspondent, and he, viz: Alden, could not do anything that would expose Mons<sup>r</sup> de S<sup>t</sup> Castin This I immediately writ down after Cap<sup>t</sup> Alden had left me.

Mons<sup>r</sup> de S<sup>t</sup> Castin is said to be a Gentleman of a good Family who leaving France on Some disgust in his Youth, came & settled on Penobscot River married the chief Sagamore's Daughter, Speaks the Indian tongue, lives after the Indian manner, and is become Chief or Sagamore of the Penobscot Indians consisting in about 130 Families, being grown rich by Trade. 'Tis said the French Governours of Canada & S<sup>t</sup> Johns have sent several times to him to go to them, but he would not go near 'em He professes great kindness to the English and Speaks English. He gave advice to

some of the late Governours here, of the designs of the French against this Countrey, and the return he had was the sending a Frigat & some souldiers, who ravag'd his Country and burnt the Wigwams or houses of him and his Indians, Which faithless action he complains of to this day.

on Tuesday morning the 1<sup>st</sup> of aug: 99. Coll Allen Came to my Lodging at M<sup>r</sup> Waldron's house at Pescattaway and

desir'd I would Let him have a Tryall for the Lands of the province of N. Hampshire, and that if I would favour his Cause he would make me a handsome recompense, but I told him I would keep Clean hands and that I never had taken nor ever would take a bribe.

on Tuesday evening the 8<sup>th</sup> of aug. 99. Coll Allen came to me at M<sup>r</sup>. Waldron's house at Pescataway, and offer'd me if I would favour his Cause ag<sup>t</sup> the people of N. Hampshire, he would match a younger daughter of his to my younger son and would make her worth 10000£ in mony, and that he would divide the province with me besides but I told him that I would not sell Justice, if I might have all the world, and that both my sons were children, and not fit to marry. he desir'd I would be there, but I told him I would not do such a thing for the world, because it would be very unfair so to do. he still press'd my marrying my younger son to his daughter, and told me a third part of y<sup>e</sup> people of y<sup>e</sup> province had already turn'd tenants to him at a Quit rent of 3<sup>d</sup> p acre: that the woods and timber of the province would be of a vast value; and there had been and still is an extravagant wast Comitted in his woods by men who had made estates out of 'em.

on Saturday morning the 12<sup>th</sup> of Aug: 99. Coll Allen walking with me before M<sup>r</sup>. Waldron's door, renew'd his offer of a match between my son & his daughter, and told me his pretension in N. Hampshire & other parts of N. England was worth 22000£ p an. at 3<sup>d</sup> p acre Quit rent, that the Lands were 1700000 acres, and that his patent gave him a right as far as Cape Ann and to Salem in the Boston Government.

on Tuesday morning the 15<sup>th</sup> of Aug: 99. Coll. Allen Came to my Chamber in Mr. Waldron's house and shew'd me some writings relating to his title to the Lands afores<sup>d</sup> and then renew'd his offer of 10000£ w<sup>th</sup> his daughter to my younger son, if I would favour his Cause, and he told me

again that he valu'd his Interest at 22000£ p an. besides the woods.

on the 17<sup>th</sup> of aug. 99. I left Pescataway to Come tow<sup>d</sup> Boston, and Coll. Allen conducting me as far as Hampshire (where I din'd at M<sup>r</sup> Cotton the Minister's house) where walking on the green before M<sup>r</sup> Cotton's house, he again urg'd me upon the former proposition of a match between my son and his daughter, and that I would favour his Cause against the Inhabitants of N. Hampshire. I made answer I would do him Justice but no favour.

ab<sup>t</sup> the Latter end of this Last feb: or beginning of March Coll. Allen was here at Boston, and press'd me w<sup>th</sup> more earnestnesse than ever, to accept of his former proposition of a match between my son and his daughter, and that upon the terms afores<sup>d</sup> viz: 10000£ in mony and half his pretension to the Lands and woods afores<sup>d</sup> but because it was the same proposition he had made me so often before I did not write it down in my table book as I had done at all the foregoing times.

I have severall Letters from Coll Allen, some whereof do plainly hint the foremention'd offer to me, and more particularly and plainly the match between my son and his daughter.

all which premisses I am ready to declare upon oath when thereunto required

Bellomont

Boston the 19<sup>th</sup> of June 1700 -

Inabitants by way of fines half of which sum he would pay me as his daughter's fortune.

*Colossians Discovery June 21: 1700.*

Colossians drawing off, because he is assur'd of war this Summer and that peace can't be continued, neglects to hill his corne on that Accompt, thô he now and then doth a little, that the English may not suspect his Resolutions.

The reason of his not being gone Nenequabbens brother's being Scalded, but upon his being well and able to travail he and all the rest must be gone Woodstock must be clear'd of Indians within three weeks because there must be no Indians about the Towns in the heart of the Country.

The Indians now publickly own their intentions of drawing off bid Neighbour Farewell, and cunningly to blind them tell them they have no ill designe intend no hurt would not have them frightened nor go into Garrisons, Yet tell John Sabin privately that this is only to blind the people whom thô they promise to return again after a while viz six weeks yet also to him aver they never will they know they must not

June 23<sup>d</sup> at night.

Colossians came and told John Sabin It might be he might never see him more As for the War he could not tell which side might prove strongest yet as to his concernes if the Indians prevail'd he should not be endamaged. On his reply concerning the Governours improving other methods than ever yet were taken he rejoyn'd, some say the Govern<sup>r</sup> intends to use dogs against the Indians but if they would have such ás would do any service they must be doggs that bullets would not enter they would carry a Quiver of Arrows they valued little what could be done against them We have had Wars with the English so long that we see what they can do. Upon proposing to him the unlikelyhood of their being supplied with Amñunition he replied they should never want, for, divers French had married Indian Squaws, and they had promised to supply them and others had promised

to do the same privately thō they must not be seen in it unless a War commence between Engl: & France & another way Towns will be taken by surprize either by lesser or greater numbers as we shall judge needful There's Mendon, such a Town we can take in two hours, and in every Town we heare there is a barrel of powder & private men have some a pound, some more, and they won't have opportunity to shoot much of it away before we take them.

His projections about ruining the Countrey built upon their designe to kill all Cattle Swine &c. destroying fields by which means he concludes men will be soon starv'd out particularly Woodstock. he reckons himsele and another can starve that Town out by such methods in a years time and then when people are so starv'd out they will apace draw off for Europe, Ships would walke very fast

As to the Maqua's

He is assur'd (else he would not go) that they would stand by the Indians, and that they would find quarrel one way or another with my Lord when he should treat them for Maqua's so bigg cunning they have sent great quantitys of moneys to the M to the value of one hundred pounds, and one told him for his part he had sent 20<sup>s</sup> Solomon tells him that the Macqua's love John Sabins name on the score of his service to the Pennecook Indians at Woodstock.

Nenequabben on 24<sup>th</sup> instant.

He is sorry for trouble arising in a streight what to do his Family gon to Pennecook already yet unresolv'd w<sup>t</sup> to do, thinks best for him to be English side, the Indians disgusted at him English and Indians all say Governour very cunning man but Indians can, for all that, and will blind his Eyes, for he can't see they'l speak him fair and he little thinks how near trouble is

To his Cousin Eben: Sabin Menequabben with tears in his Eyes said he was in a great Streight his Family was gone

to Pennecook to the other side, and he thought he must go too, And if he did he must fight against the English and that lookt hard.

Some Indians drawn off, before they went away, a man who had lett Land to them complained ( when they told him they were going ) that they had promised him pay for his Land, to which they replied they freely gave him all their Labour and so drew off.

Keensotuk ( who is Grand Child to the late King Philip Sachem of Mount hope ) informed John Sabin that the Pennecooks would certainly this Summer make war upon Owaneco the Sachem of the Mohegin Indians for their discovery of the Plott to the English and added that if the English helpt them then it would draw y<sup>e</sup> Warr upon them if not it was likely the Mohegins would privately kill John Sabin or some other English man and then lay it on the Pennecooks, and that would occasion a War betwixt them and the English so that a War would certainly commence.

Colossians informed John Sabin that the Macqua's are every week some or other of them at Pennecook and some of other Indians from Canada & y<sup>e</sup> Eastward, that the Pennecooks do labour to prejudice the Macqua's against the Mohegins, laying the blame of y<sup>e</sup> discovery upon them and belying them, to incense the Macqua's, tell them that the Mohegins out of scorn hung up the Present of Wampum in the smoke and made a derision of it.

if you have patience to read my Long letter to the Co. of Trade w<sup>ch</sup> I now send you, it will give you I hope an

Idea of the rise that might be made of these Plantations, for therein I have writ for the Last time abt Naval stores and Masts and Ship timber. The papers I send Inclosed w<sup>th</sup> this Letter will surprize, especially that w<sup>ch</sup> discovers Blathwait's bargain w<sup>th</sup> Coll. Allen for half his pretended Interest in N. Hampshire and a great part of this province. I have now sent the same papers to my Lord Chancellor, and my Lord Jersey, and I hope among you, he I mean M<sup>r</sup> Blathwait will be Crossebit by this bargain of his w<sup>th</sup> Allen 'tis plain who sold the Lands in the province of N. York to ffletcher. if it could be Lawfully done, the seizing Coll Allen's papers would discover this villanous bargain of Blathwait's w<sup>th</sup> him w<sup>ch</sup> would a thousand times more deserve an Inquisition of the H. of Co<sup>m</sup>mons than that they bestow'd 9 hours debate on the 6<sup>th</sup> of Last Dec<sup>r</sup>. I hope those two Lords and yourselfe will with vigor oppose M<sup>r</sup> Blathwait's treacherous sale of these plantations from England. The Management of them has been hitherto most ridiculous, and all by that man's means who has made a milch Cow of 'em for many years together we have a fresh account of the Indians w<sup>ch</sup> is bad enough but the hasty departure of this Ship will not permit me to relate it to you. I have not had any Letter from the Co: of Trade since that of the 21<sup>st</sup> of Last aug: w<sup>ch</sup> is very discouraging I wish you Ministers would set a right value on these Plantations, and then we Governors would be more regarded and should hear from you oftener.

one Robinson the Master of a Ship belonging to this Town arriv'd here a moneth ago from London, and tells me he met Mr. Weaver at the Sun Coffy house behind the Royal Exchange a week before he left London, and M<sup>r</sup> Weaver having a packet of Letters in his hand for me, Robinson desir'd he might bring it to me, but M<sup>r</sup> Weaver told him he had positive orders to send the packet to N. York; and M<sup>r</sup> Weaver deliver'd the packet before his face to one Jeffers

Master of a ship bound to N. York, and Robinson says Jeffers deliver'd it to the Master of the Coffy house, and desir'd him to keep it for him. now this Jeffers was the Master that petition'd the Council of Trade against me. This was about 13 weeks ago, and Jeffers pretended to be ready to sail the next day; yet he is not heard of at N. York, and I suspect some foul play is done to the Letters sent me. There ought to have been duplicates of the packets from the Ministers: for 'tis a terrible Thing to be us'd as I am.

I am w<sup>th</sup> respect

Cap. Alden's second relation to me of the Eastern bounds between us & y<sup>e</sup> ffrench I now Inclose to you as a thing worth your observation 'Twere worth while to Inquire who order'd Mr Weaver to send y<sup>e</sup> packet to N. York and if there be a Trick in it, that will discover it.

*The Earl of Bellomont to Mr Sec<sup>ry</sup> Vernon*

Boston the 9<sup>th</sup> July 1700

Sir

I write now in the anguish of my soul, being quite dispirited for want of orders from you Ministers to support the King's and Nation's Interest in these Plantations. you will see that I have writ by this Conveyance to the Council of Trade, and I will trouble you no more on that subject, referring you to a Copy of my Letter to them, w<sup>ch</sup> I send you.

There Came hither two ships from London, the Last week in May, w<sup>ch</sup> brought me not a Letter from any of the

Ministers, and another ship four days ago, but not a Letter by that neither, what must the people here and in N. York thinke, but that either the King and his Ministers have no sort of Care or value for these Plantations, not minding whether they fall into ffrench hands or no: or else that I am in disgrace w<sup>th</sup> the King, and that all this neglect proceeds from a personall Slight to me. I never in all my life was so vex'd and asham'd as now; I put the best face I can on it, but I find other people take the liberty to Judge of the present Conduct of affairs in England.

it had been kindly done of the Ministers to have rebuk'd M<sup>r</sup> Weaver's Impertinence in staying all this while in England from the duty of his Employment, where he has no just pretence of businesse, unlesse taking his pleasure may be Call'd so; In my opinion, he should be order'd peremptorily to Come away with the first ship, or be turn'd out, and another Capable man sent in his place.

I am with respect Sir

Your most faithfull humble servant

*E:)*      *Ea of Bellomont 9 July R 16 Aug 1700*

Boston the 9<sup>th</sup> July 1700

My Lords

The reason of my troubling your Lo<sup>ps</sup> again so soon after my Letter of the 22<sup>th</sup> of last moneth, is to acquaint you w<sup>th</sup> some things that have occur'd since then, w<sup>ch</sup> I think deserve being Transmitted to your Lo<sup>ps</sup>

A The Indians about the Towns of Woodstock and New Oxford (consisting in abt 40 families) have lately deserted their houses and corn and are gone to live w<sup>th</sup> the Penicook Indians, w<sup>ch</sup> has much allarm'd the English thereabout, and

some of the English have forsaken their houses and farms and remov'd to towns for their better security. that the Jesuits have seduc'd those 40 families of Indians is plain from severall accounts I have receiv'd; some whereof I now send viz: Mons<sup>r</sup>. Labourie's Letter to me, w<sup>ch</sup> is a very plain evidence of the French Jesuits debauching those Indians. Mons<sup>r</sup>. Labourie is a French Minister plac'd at New Oxford by M<sup>r</sup>. Houghton the Lieu<sup>t</sup>. Governor and my selfe at a yearly stipend of 30<sup>li</sup> out of the Corporation Mony, there are 8 or 10 French families there that have farms, and he preaches to them, and at the same time Instructed those Indians having for that purpose learnt the Indian tongue to enable him to preach therein.

I also send some Memoranda deliver'd me by M<sup>r</sup>. Rawson a Minister, who writ 'em down from M<sup>r</sup>. Sabin's mouth; M<sup>r</sup>. Sabin's the person I formerly nam'd to your Lo<sup>ps</sup> that gave me severall advices concerning the Indians. M<sup>r</sup>. Sabin is so terrified at the Indians of Woodstock and N. Oxford's quitting their houses and corn, that he has thought fit to forsake his dwelling, and is gone to live in a Town. All the thinking people here believe the Eastern Indians will break out against the English in a little time.

B Mons<sup>r</sup>. d'Iberville is lately come to N. York from building Forts at Mechisipi in the bay of Mexico and manning them, I shall not animadvert on his coming to York, but refer your Lo<sup>ps</sup> to the Lieu<sup>t</sup>. Gov<sup>r</sup>. of N. York's letter to me, a Copy whereof I now send your Lo<sup>ps</sup> Mons<sup>r</sup>. d'Iberville came in a 50 gun ship call'd La Renomée.

C The Assembly is still sitting here, but will break up this week, and I must be gone to N. York, to keep touch w<sup>th</sup> the 5 Nations of Indians, whom I have promis'd to meet at Albany the 10<sup>th</sup> of next moneth tho' to litle purpose I fear, for having not yet receiv'd orders from your Lo<sup>ps</sup> or any of the Ministers about those Indians or any of the things I writ

to you of, I am quite in the dark, and know not w<sup>ch</sup> way to move. if I could have had orders this spring, I would by this time have had a good sod Fort at Onondage's Castle, w<sup>ch</sup> would have cover'd that and the rest of the 5 Nations from the French, and have Incourag'd those nations above all the things that can be thought of, and that for about 1200<sup>li</sup> but the summer is now almost gone, and I am in great fear our Sloath and neglect of those Indians all this time, will be the losse of them. I thanke God I shall be no way accountable for the mismanagement that will probably loose us the Indians, and our plantations on this whole Continent, having given frequent advices home of the condition of the Indians, and what I thought would secure their affection to us.

D I have rec<sup>d</sup> no letter from your Lo<sup>ps</sup> since that of the 21<sup>st</sup> of last Aug: w<sup>ch</sup> is almost a year, except 3 or 4 lines w<sup>ch</sup> serv'd for a cover to the King's Lett<sup>r</sup> of the 10<sup>th</sup> of last Nov<sup>r</sup> they write me word from N. York that a pink was newly arriv'd there from London in 8 weeks, who assures 'em that Jeffers to whom M<sup>r</sup> Weaver deliver'd your Lo<sup>ps</sup> packet ab<sup>t</sup> the 15<sup>th</sup> of March was in the River of Thames on the 23<sup>rd</sup> of April. 'Tis wonderfull to me that M<sup>r</sup> Weaver could find no body to send the packet with but Jeffers who had complain'd against me to your Lo<sup>ps</sup> as I have been Inform'd, a crosse ill condition'd fellow, and who hates me. I sent yesterday for Cap<sup>t</sup> Robinson the Ma<sup>r</sup> of a ship belonging to this town, who arriv'd here from London the last week in May, he repeated to me what he had told me before, that a week before he sail'd he met M<sup>r</sup> Weaver at the Sun Coffy house behind the old Exchange, and seeing a packet w<sup>th</sup> him, he desired he might have the bringing it to me, Mr. Weaver refus'd, saying he was positively order'd to send it by Cap<sup>t</sup> Jeffers to N. York, and Cap<sup>t</sup> Robinson saw M<sup>r</sup> Weaver deliver the packet to Jeffers and Jeffers deliver it to the master of the Coffy house to keep till he should call for it.

and Cap<sup>t</sup>. Robinson sail'd out of the River the 21<sup>st</sup> of March every body believes Jeffers has plaid the Rogue.

E it were to be wish'd in such a Conjunction as this, that your Lo<sup>ps</sup> would write often and that your secretary would take care that all your packets be deliver'd into honest hands, and receipts taken for them. and I desire it may be hereafter observ'd that ships coming to Boston are accounted among the seafaring men to have the advantage of those bound to N. York at least a 3<sup>d</sup> part of the way, tho' in point of distance N. York is but a 100 leagues further from England than this place is.

F I hope your Lo<sup>ps</sup> will not suffer M<sup>r</sup>. Brenton and M<sup>r</sup>. Weaver to loyter any longer in England from their duty here. their ramble is most unaccountable, and so far from being reasonable, that 'tis not honest: and they make very bold w<sup>th</sup> the Ministers at home

G I had bespoke 400 wheelbarrows and other Tools to be provided for building a Fort for the Indians, but to my great amazement and discomfort, I am not directed in that or any thing else.

I am sorry there was not a duplicate of your Lo<sup>ps</sup> packet by Jeffers, sent by another ship.

I am w<sup>th</sup> respect My Lords

Your Lords<sup>ps</sup> most humble and obedient servant

Bellomont

Boston the 16<sup>th</sup> July 1700/

Sir

I am now in the hurry of leaving this place, being to embark to morrow for N. York

My letter to your board will Inform you among other things, of the addresse of my selfe and the Gen<sup>l</sup>. Assembly to the King, wherein we complain of the Incroachments of the French on the fishing and Eastern bounds of this province,

and supplicate his Ma<sup>ty</sup> for his Royall Charter of Incorporation for Harvard – Colledge. I make it my earnest request you will favour and promote the Charter w<sup>th</sup> your board, and that you will please to advise and assist S<sup>t</sup> Hen: Ashhurst in carrying it on, and managing his solicitations rightly.

 I had news yesterday by the Captain of the Galley whom I sent w<sup>th</sup> goods and provisions to the Indians on Kenebeck River, that there is some mischief hatching between the Jesuits and those Indians, that there was a generall meeting of the Indians at one of their Castles call'd Naridgewack on that River, and that upon the last day of June, where all the Indians took the sacrament at the hands of those Jesuits.

Moxes the chief Sagamore told the Captain he had lately receiv'd an angry Letter from the Governor of Canada, chiding him severely for holding any sort of Correspondence w<sup>th</sup> me and threatning him what the King his master would do to punish him and his Indians if they held any intercourse w<sup>th</sup> me. he likewise told the Cap<sup>t</sup> that the Jesuits had Insinuated to 'em that the King their Master was resolv'd to maintain all the country eastw<sup>d</sup> of Kenebeck River against the English and that they viz: the Indians were great fools if they suffer'd the English to enjoy any lands to the Westward of the s<sup>d</sup> River. he told the Captain the Penicook Indians would fall on the Monheags very soon. Cap<sup>t</sup> Southack deliver'd me a memorial containing these and severall other matters, but I have not time to get it transcrib'd. you may please to tell the lords of the Council of Trade of this, if you think it worth the telling.

I am unfeignedly Sir

Your humble and faithfull servant

Bellomont

I find I forgot in a late Letter of mine to your board (wherein I desir'd some tools if we were to fortifie our frontiers) to

bespeak 10 or 12 dousen of pick axes, w<sup>ch</sup> I desire may be sent, if y<sup>e</sup> rest of y<sup>e</sup> tools be sent.

Boston Sept: 3<sup>d</sup> 1700

Hon<sup>ble</sup> Sr

Inclosed herewith are the Minutes of Council begining the 28<sup>th</sup> of March 1700 and continued down to the 17<sup>th</sup> of July following inclusive, And the Journal of the General Assembly at their Session begun and held the 29<sup>th</sup> day of May last past; As also the Acts and Laws then made and passed, all which are made up in one packet and committed to the care of M<sup>r</sup> David Robinson Commander of the Ship Elizabeth; whose receipt I have taken for the same, and wish them safe to your Honours hand. The last I sent was by Henry Lowder Master of the Ship Sea Flower of this place; who sayled for London something more than a fortnight since.

This Province is in present quiet; but the Government are not without just fears and Jealousies of an Eruption and general Insurrection of the Indians; who seemed to be fastned to the Interests of our ill neighbours the French, being debauched by the Priests and Jesuits that are sent among them. his Excell<sup>cy</sup> has lately su<sup>m</sup>oned the Sachems and principal Indians of the five nations to attend his Lord<sup>sh</sup> at Albany in order to recover or prevent their defection; the Issue whereof is not yet known here; It would greatly endanger his Ma<sup>ty</sup>s Interests in these Territory's, if the Indians should enter into a general Combination, our Frontiers are of so large extent, that it would be impracticable to secure our Towns from their Inroads; And it's no less difficult to have access to the Indian Settlements; which are far remote in a dismal wilderness and their manner of liveing far different from the English.

This Government have ordered the Erecting of a Fort and Trading house at Casco Bay ; which is now in doing and may probably prove of some advantage to engage the Indians by makeing reasonable supplies to them, and to check their Insults, if they should breake forth into rebellion.

I have not farther at present, onely to pray your Hono<sup>rs</sup> acceptance of the tenders of my humble service and to believe that I am, with much Respect

Hon<sup>ble</sup> S<sup>r</sup>

Yo<sup>r</sup> Hono<sup>rs</sup> Very humble & obedient servant

Cap<sup>n</sup> Robinson will be going for N: Engl<sup>d</sup> about Feb<sup>y</sup> next : And may be heard of at the Sun Coffee-house behind the Exchange

rec<sup>d</sup> Nov<sup>r</sup> the 4<sup>th</sup> 1700

*Mr. Crowne's title to Penobscot ; and other lands adjacent.*

King James the first, by his Letters Patents under the Great Seale of Scotland, bearing date the tenth of September, 1621 ; graunted to S<sup>r</sup> William Alexander, Lord of Menstrue, principall Secretary of State, of the Kingdome of Scotland, and to his heires for ever, all that country in America, call'd Nova Scotia.

King Charles the first, confirmed this graunt, in the yeare 1625.

The said S<sup>r</sup> William Alexander, by his deede, bearing date, the thirtyeth of Aprill 1630, made over all his right, and title, in the greatest part of the said Nova Scotia ; to S<sup>r</sup> Claud de S<sup>r</sup> Estienne Lord of La Tour, and of Vuarre, and to his son Charles de S<sup>r</sup> Estienne, Esq<sup>r</sup> Lord of S<sup>r</sup> Denis court, and to their heires for ever.

The said S<sup>t</sup> Claud, and Charles de S<sup>t</sup> Estienne were French Protestants; who for the good service they did, in discovering the said lands to the English; and assisting, and promoting the plantation, both with their persons, and fortunes, were naturaliz'd, and created Baronets of Nova Scotia.

The said S<sup>t</sup> William Alexander, by authority of the afore-said Letters Patents, erected two Baronyes in Nova Scotia; one he call'd La Tour, and the other S<sup>t</sup> Denis Court. And in the afore mention'd deede, he graunted to the said S<sup>t</sup> Claud, and his son Charles de S<sup>t</sup> Estienne, and to their heires for ever, all jurisdictions, and priviledges in those countreyes that a scotch Marquesse, Earle, or Baron, has in Scotland and the titles of Baron La Tour, and Baron S<sup>t</sup> Deniscourt.

About the yeare 1630; the French put in their claymes to Nova Scotia, pretending it to be a part of Canada; and not long after prevaild with the King to surrender it.

They also earnestly solicited the King, to abandon the interests of the said S<sup>t</sup> Claud, and S<sup>t</sup> Charles de S<sup>t</sup> Estienne, but that his Majesty absolutely refusd; it being against his honor so to do; as appeares by an originall letter, written from the said Sir William Alexander, to the said S<sup>t</sup> Claud de S<sup>t</sup> Estienne, dated the 16<sup>th</sup> of Aprill, 1631: which letter can at any time be produced. Accordingly when his Mat<sup>y</sup> delivered Nova Scotia to the French, he articted that the said S<sup>t</sup> Claud and S<sup>t</sup> Charles de S<sup>t</sup> Estienne shou'd enjoy their lands.

Penobscot, was first discovered by some inhabitants of New Plimouth, in New England. They sent one Cap<sup>t</sup> Willet, with a vessell and some men, to take possession of it, and build and plant there, for their advantage; which he did, and possesst it quietly, till Nova Scotia was delivered to the French; and one Mounsieur D'Aulney sent Governour of it.

Then y<sup>e</sup> said Mons<sup>t</sup> D'Aulney sail'd from Nova Scotia, towards Penobscot: and hearing that Cap<sup>t</sup> Willet was design-

ing to saile to Boston; Mon<sup>r</sup> D'Aulney way layd him: and meeting with him at sea, he invited him aboard his vessell, pretending he was desirous to entertaine him as a friend. Cap<sup>t</sup> Willet was aboard; but when Mons<sup>r</sup> D'Aulney had him there, he told him if he wou'd peaceably deliver Penobscot to him, he would at a certaine time he nam'd, give him the full value of it in beavours, and other fures: but if he refus'd he let him know he was his prisoner, and he wou'd carry him to Nova Scotia.

Cap<sup>t</sup> Willet finding himselfe in a dangerous snare, thought it was his safest way to accept of Mons<sup>r</sup> d'Aulneys proposall, for the price, and time of payment, and in the meane while to gain his liberty, he surrenderd Penobscot to D'Aulney; and then saild to Boston, and acquainted his owners, and employers, what a tricke D'Aulney had put upon him.

When the time of payment was come; his owners sent him to receive the beavours and fures, D'Aulney had promis'd. when he arrived at Penobscot, he found D'Aulney there. D'Aulney hearing Cap<sup>t</sup> Willet was in the harbour, went with some men aboard him, and pretended his beavours and fures were ready, and he shou'd have 'em next day, if he pleas'd. Meane while he desired to make him welcome and treate him aboard his owne vessell, which he did very liberally. The treate lasted till midnight then D'Aulney cuts Cap<sup>t</sup> Willets cable, turnes him a drift; goes with his owne men aboard his own boates, and then call'd out to Cap<sup>t</sup> Willet, and let him know, he had payd him for Penobscot, as much as ever he intended, and bad him begone.

Cap<sup>t</sup> Willet then saild to Boston, and once more acquainted his owners, how he had beene abus'd by D'Aulney, and what litle hopes there was of payment; then they acquiesc'd, and never troubled themselves about Penobscot more.

By this treachery Penobscot was gotten by D'Aulney and the French.

D'Aulney's next endeavour was to get S<sup>t</sup> Claud and S<sup>t</sup> Charles de S<sup>t</sup> Estienne out of their estates.

They resided in Nova Scotia, in a large fort they had built upon S<sup>t</sup> John's river, and call'd it S<sup>t</sup> Johns fort; and mannd it w<sup>th</sup> Scotts. D'Aulney beseiged the fort, and forc'd S<sup>t</sup> Charles to fly to New England for succour, where he borrowed five hundred pound of one Major Gibbons; and with that money, mannd a vessell, for the reliefe of his Fort; but when he came thether he found his fort taken, most of the scots put to y<sup>e</sup> sword his lady dead; poysond as he was inform'd by her enemyes the Fryers.

Then S<sup>t</sup> Charles went to France and complaind. The French King abhorr'd D'Aulneys wickedness, and gave S<sup>t</sup> Charles commission to be Governo<sup>r</sup> of Nova Scotia, authority to resume all the lands Mons<sup>t</sup> D'Aulney had taken from him, and orders to send the said D'Aulney a prisoner to France, to answer for all his villanyes.

And to make the said S<sup>t</sup> Charles de S<sup>t</sup> Estienne farther satisfaction, for all the dammages he had suffered by the tyranny of D'Aulney, which were upwards of thirty thousand pounds the French King gave the s<sup>d</sup> S<sup>t</sup> Charles Port Royall, and Penobscot.

Then the said Sir Charles saild to Nova Scotia; but before he arrived, D'Aulney had by his insolence and tyranny, made himselfe so hate full to his owne people; that crossing a river in a canoe, one of his servants that went w<sup>th</sup> him, overset the canoo, and drownd his master— When S<sup>t</sup> Charles arriv'd the Fryers having lost their friend, made peace with S<sup>t</sup> Charles and S<sup>t</sup> Charles marryed D'Aulneys widow. Then the Fryers delivered up to him, not only his owne lands, but all that D'Aulney had possest.

In the year 1654, some English men o'war were at Manahadas, then a Dutch colony, now call'd New Yorke; in order to beseige it, for then there was a war between England, and

Holland. But newes arriving of a peace, before they had taken the Towne, and the Souldiers loath to returne without plunder, they saild to Nova Scotia, and found S<sup>r</sup> Charles de S<sup>t</sup> Estienne, in possession of all Nova Scotia and Penobscot, both as governour, and proprietour, his father S<sup>r</sup> Claud being dead.

Then though at that time there was great amity betweene England & France, the English Fleete landed men upon S<sup>r</sup> Charles tooke severall of his houses, plunderd 'em, and then burnt 'em, and at length made him yeild up all Nova Scotia, Penobscot, and all the lands belonging to it, and then they carried him with them to England. When S<sup>r</sup> Charles was in England; he complained to some Members of one of Cromwells Parliaments, which was then sitting of y<sup>e</sup> violence, and injustice done him, at a time when there was full peace betweene England & France. Cromwell, to stop complaints in Parliament against him let S<sup>r</sup> Charles know after he had petition'd him that if he wou'd compound for his lands, as other subjects of England did, he shou'd enjoy 'em, otherwise not S<sup>r</sup> Charles consented, then Cromwell enjoynd him to pay of all the English souldiers that were in Nova Scotia, and that cost S<sup>r</sup> Charles above two thousand pound.

Then the said S<sup>r</sup> Charles, by his deed, bearing date, y<sup>e</sup> twentyeth of September 1656, made over all his right & title to Nova Scotia, to Penobscot, and all the lands belonging to it, from the river S<sup>t</sup> Croix, to the river Musconcus, bordring on Pemaquid, to Thomas Temple, and William Crowne Esquiers, and their heires forever for the summe of three thousand, three hundred and seventy odde pounds. The said S<sup>r</sup> Charles also reserv'd to himselfe, and his heires forever, the twentyeth skin of all kinds of Peltry, of equall value, with the rest; as also the twentyeth part of all the fruits and productions of the earth, of what kind soever.

Then the aforesaid three proprietours, went over, and tooke possession of their lands; the said Thomas Temple going governour by Cromwells Commission.

Not long after their arrivall there, the said Thomas Temple, and William Crowne divided their lands, And the said Thomas Temple by his deede, bearing date the twelfe of September 1657, made over all his right and title to Penobscot, and all the lands from the river Machias, on y<sup>e</sup> East, to the river Musconcus on the west, bordring on Pemaquid, in New England to the said William Crowne, and his heires for ever. And the said William Crowne, made over all his right and title to Nova Scotia, to the said Thomas Temple and his heires for ever.

Then the said William Crowne, tooke possession of Penobscot, dwelt in it, and built a considerable trading house, some leagues up the river, at a place antiently call'd Negue; but by himselfe Crownes point.

In the yeare 1662, the said Thomas Temple, and William Crowne came over to England: and had a hearing before King Charles the second, and the Lords and others, of his Majestyes most hon<sup>ble</sup> Privy Councell then in being. And by the Lord Chancellour Hide, and the major part of the Privy councell, their titles to the aforesaid lands were adjudged to be good, and they permitted to returne, and repossess 'em, which they did. The said Thomas Temple was created by the King a Baronet of Nova Scotia, and commissiond to be Governour. S<sup>t</sup> Thomas Temple, being once more Governour, oppress'd the said William Crowne; and forc'd from him a lease, of Penobscot, and all the lands belonging to it; for a rent far short of the value; and two considerable rich New England merchants, were bound for the payment of y<sup>e</sup> rent and for very good reason, for they farm'd, all the said lands of S<sup>t</sup> Thomas Temple: but neither

they nor S<sup>r</sup> Thomas payd the said William Crowne a farthing rent.

Then the said William Crowne sued 'em before the Governours of New England, but the Governours, and merchants being all brethren of one Independent congregation in Boston in New England, y<sup>e</sup> Governours protected their brethren in their dishonesty; and pretending the dispute was, about a title of lands, which lay out of their jurisdiction, they refus'd to give y<sup>e</sup> said William Crowne judgement, upon a bond made by their owne brethren, in their owne towne of Boston, nay they rejected a verdict given by one of their owne juryes, at the tryall, in behalfe of the said William Crowne; By vertue of the aforesaid partiall and corrupt judgement; S<sup>r</sup> Thomas Temple, and the said merchants, enjoyd the said William Crowne estate, and payd him nothing for it.

Thus it continued, till the yeare 1668; when King Charles consented to deliver Nova Scotia, to the French; and sent a commission under the great seale, to S<sup>r</sup> Thomas Temple to deliver it.

S<sup>r</sup> Thomas being at that time, in possession of Penobscot, and all the lands belonging to it, by vertue of the aforesaid lease, presum'd to deliver 'em all to the French, pretending they were a part of Nova Scotia; which he knew to be false, but they were the estate of the said William Crowne. Therefore to impoverish, and totally disable the said William Crowne, from following him to England, and sueing him there, for the many hundred pounds he owed him, for non-payment of rent, he gave up Penobscot, and all the lands belonging to it, to the French; for which when he came to England, King Charles sent him to y<sup>e</sup> Tower.

Before S<sup>r</sup> Thomas deliverd Nova Scotia, he demolished all the Forts there, and brought away y<sup>e</sup> gunnes, because they were his owne: but Penobscot he delivered entire, with all the gunnes, and ammunition in it; because they belonged to

the said William Crowne. Therefore if he had brought them to Boston, the said William Crowne, might have seiz'd and sold them.

To conclude; Penobscot, with all the lands belonging to it, was originally an English Plantation; discovered by some inhabitants of New Plymouth, in New England; and they were the first of any Christian nation that settled there. The French got it, by an impudent cheate, put upon the English, by Mounsieur D'Aulney, the French Governour of Nova Scotia.

Some yeares after, it came againe into English hands; and the French got it, a second time, not by any right or title they had to it, but by the falsehood, and corruption, of S<sup>r</sup> Thomas Temple, the English Governour, for which he was punish'd, but not so much as he deserv'd.

Not many yeares after S<sup>r</sup> Thomas Temple deliver'd it; a war broke out betweene France, and Holland. Then y<sup>e</sup> Dutch sent a man of war or two, to Penobscot, who beate downe the Fort there, carried away all the French they found there prisoners, brought all the great gunnes, and ammunition that were there to Boston, in New England, and sold 'em to y<sup>e</sup> Governours and people of Boston, for almost six hundred pounds; and they put 'em in the Castle, which guards their harbour. When the Dutch had done this, they tooke no care of Penobscot, but entirely abandond it. Then King Charles once more tooke possession of it; and put it under the command of the Governour of New Yorke; who made considerable benefit of it; suffering none to trade there without his leave. And an order was issued out, by the Governour and councill of New Yorke, bearing date the 28<sup>th</sup> of November 1683, for the disposing, and planting, Penobscot, and all the lands belonging to it, lying betweene Nova Scotia, and Kennebecke river.

And no opposition was made to the said order, by y<sup>e</sup> French, notwithstanding the great interest they had at that time in the English court.

Penobscot was under the dominion of England & y<sup>e</sup> command of the Governour of New Yorke, all the latter end of the reigne of King Charles the second; and all the reigne of the late King James, By consequence his present Majesty, has beene in possession of it all his reigne; and the French have not the least pretence to it.

By the death of the aforementioned William Crowne, all his right and title, to Penobscot, and all the lands from the river Machias, on the East, to the river Musconcus on y<sup>e</sup> west, bordering on Pemaquid, is descended to his eldest son, and heire John Crowne who now humbly petitions for restauration or compensation.

1668; when S<sup>r</sup> Thomas Temple, Governour of Nova Scotia, being in Possession of them, by virtue of a Lease from your Pet<sup>rs</sup> Father, presum'd to give em up to the French, for his own Sinister ends, without any authority from the King. *Mr. Crown's Petition relating to his Title to Penobscot in America.*

*The bounds of Nova Scotia, and Penobscot, with the lands  
belonging to it, as they are expresst in Cromwells  
Patent, and y<sup>e</sup> deede of Partition*

In Oliver Cromwells Patent, the bounds of Nova Scotia, are thus mentiond From Mereliquish on the East, to the Port and cape of La Heve, leading along the coast, to Cape Sable, from thence to a Port, now called La Tour, heretofore named L'omery. From thence following the coast, to the cloven cape. From thence to the cape, and river of Ingogen; thence to Port Royall; and from thence following the coast, to the bottome of the bay. From thence along the bayes to S<sup>t</sup> Johns Fort. After this, Oliver Cromwells Patent, mentions no other place, in Nova Scotia by name; only sayes, all along the coast, to Pentagonet, alias Penobscot, thence to S<sup>t</sup> Georges river, and thence to Musconcus.

The true bounds of Nova Scotia, are only to be found, in the originall Patent, graunted by King James the first. But

they were alwaies judged, by S<sup>t</sup> Charles S<sup>t</sup> Estienne, Thomas Temple, and William Crowne, the Proprietours and possessours to be Merelequish on the East, and the river S<sup>t</sup> Croix on y<sup>e</sup> west. And beyond the river S<sup>t</sup> Croix, Nova Scotia extends not westward.

The said Thomas Temple and William Crowne, divided their lands; And Thomas Temple by his deede bearing date the twelfth of September 1657 made over to William Crowne, and his heires for ever, Penobscot, and all the lands lying westward of the river Machias to y<sup>e</sup> river Muscongus, bordring on Pemaquid Machias Penobscot, and Musconcus, are the only remarkeable places, mentiond in the deede of Partition. Machias is a river that runs some few leagues westwards of S<sup>t</sup> Croix; the utmost westward boundary of Nova Scotia. In S<sup>t</sup> Charles de S<sup>t</sup> Estiennes deede to Thomas Temple, and William Crowne, no places are particularly named, only in generall all New Scotland, as it is bounded, in the originall Patent, graunted by King James the first, to S<sup>t</sup> William Alexander, and his heires; and as it is mentioned in the said S<sup>t</sup> William Alexanders deede to S<sup>t</sup> Claud and the said S<sup>t</sup> Charles de S<sup>t</sup> Estienne and their heires: And all New Scotland, with other lands adjoyning, as they are mentioned in Oliver Cromwells Patent, to the said S<sup>t</sup> Charles de S<sup>t</sup> Estienne, Thomas Temple, and William Crowne.

R<sup>t</sup> Hon<sup>ble</sup>

A In obedience to the Commands of Their Excellencies the Lords Justices in Council by Their Order of the 18<sup>th</sup> of July last signified in your Lord<sup>ps</sup> Letter of the 1<sup>st</sup> of August (a copy of s<sup>d</sup> order being also inclosed) Directing the respective Governours of his Ma<sup>ty</sup><sup>s</sup> Plantations in America to transmit an Accompt to your Lord<sup>ps</sup> in the most particular manner,

of the method of proceedings in the several Courts upon Tryal of all Sorts of Causes in the s<sup>d</sup> Courts in those parts respectively; I have taken care (in the absence of our Governour the Earl of Bellomont, who is now within his Government of New Yorke) of the observation of the s<sup>d</sup> Order, and accordingly herewith transmit to your Lord<sup>ps</sup> the Accompt thereby required in as particular manner as well can be, hoping it will answer his Ma<sup>ty</sup>s and your Lordships expectation and satisfaction.

B I crave leave further to observe to your Lord<sup>ps</sup> the present repose and quiet of this his Ma<sup>ty</sup>s Province after the late Alarm of troubles threatned to arise from the Indians by a fresh Insurrection & breaking forth in open hostility, and how necessary it is in order to y<sup>e</sup> continuance of this quiet that the French Priests and Missionaries be removed from their residence among them, the Indians taking measures from their evil counsels and suggestions, and are bigotted in their zeal to their pernicious and damnable principles; But the removal of those Incendiaries is rendred difficult whilst the claims and pretensions to the Boundaries of Territory and Dominion betwixt the English and French are depending undetermined, or at least the determination not known in the Plantations.

C This Government have lately erected a Trading house with a Fortification, and settled a Garrison at Casco Bay for accomodating of Trade with the Indians and by kind usage and treatment of them therein hope to oblige them and to divert their conversation & commerce with the French and have likewise made provision for Trade with them at Saco Fort and other places, and by meanes of their drawing thither to gain the advantage for instructing of them in the true Christian Religion, To which end two English Ministers are sent to reside in the Eastern parts, one at the Fort at Saco, and the other at Casco Fort.

I am also credibly informed That the French in Nova Scotia or L'Accadie have slighted their Fortification at the River S<sup>t</sup> Johns, and are removed to Port Royal where they are fortifying and settling a strong Garrison, having Artillery and souldiers sent from France this year for that purpose, and are likewise about to settle a Garrison at the River S<sup>t</sup> Georges; and possibly think to make Encroachments further Westward into his Ma<sup>ty</sup>'s Territory, even as far as the River of Kennebeck whereto they have lately made pretensions, thô altogether groundless and without any Shew of Reason or Justice; however, hereby they will strengthen and confirm the Indians in their Interests and have the Command over them, and annoy our Fishery unless a stop be put thereto by an adjustment and Settlement of the Boundaries; The which I thought necessary for his Majesties Service to lay before your Lordships.

Having nothing further to give your Lord<sup>ps</sup> the trouble of at present. I am with all imaginable respect

*Report on John Crown's Petition.*

To the Kings most Excellent Majesty  
May it please Your Majesty.

In obedience to Your Majestys Commands upon a Petition of John Crown Esq<sup>r</sup> where of a Copy is hereunto Annexed, We have examined his Title to the Lands therein mentioned, and thereupon humbly Report.

That the Country called Penobscot lying South West from the River S<sup>t</sup> Croix, (the Ancient Boundary between Nova Scotia and New England) appears unto Us to have formerly belonged to his Father M<sup>r</sup> William Crown and to be descended to the Petitioner.

But that in the Execution of the 10<sup>th</sup> Article of the Treaty of Breda for the Surrender of Accadie (or Nova Scotia) to the French the said Country of Penobscot was delivered up to them, thô it be not truly Comprehended in the Treaty, as being no part of Accadie) and that they have thereupon claimed a Title to it, which has ever since remain'd in dispute between England and France, Whereby the Petitioner has been deprived of the advantage which he might otherwise have made by his Right to the Propriety of the said Country, without any Compensation from the Crown (that we know of) either to his Father or himself for the loss arrising to them by the Surrender of more than was required by the Treaty.

All which nevertheless is most humbly Submitted.

A Memorial of those heads or Propositions on which Col<sup>o</sup> John Phillips, Col<sup>o</sup> Penn Townsend, Cap<sup>t</sup> Nathaniel Byfield & John Nêlson, being Commisionated by the Hon<sup>ble</sup> William Stoughton Lieu<sup>t</sup> Governour and the Hon<sup>ble</sup> the Council, for the Province of the Massachusetts Bay in

New England, did treat with the Eastern Indians, and were as followeth viz:

Sometime after that the Commissioners and the Indian Sagamore or Chiefs had taken each their places at a Table set under a Tent spread in the Woods, The Commissioners began and told them, by two English Interpreters and one Indian

Com: We are here sent by his Ma<sup>ty</sup> to treat with you and renew our Friendship with you.

Ind: We are here also generally met together and are very glad to see you.

Com: 1 Prop: That our great Master King William having been duly informed of that renewal and confirmation of Friendship which you offered unto our late Governour the Earl of Bellomont in that great Assembly of Indians, with whom you did desire to joyne in a mutual & publick League of amity with us he has ordered us to informe you how well he has accepted the same and that he has commanded the Government of the Massachusetts punctually to perform and conforme themselves to all things contained in the s<sup>d</sup> Treaty concluded with you at Albany in October 1700.

We know that King William hath power to make peace when he will, and we are glad that he hath accepted us into the League of Friendship & that you are now sent to confirme it.

2 Pro: That since the death of the s<sup>d</sup> Earl of Bellomont, there is come new and express Orders from our Co<sup>m</sup>on Father the great King William by which we are commanded to come unto you in this country to renew & keep fresh in memory the afores<sup>d</sup> Treaty, and as Brethren & Friends to rejoyce with you in the happy fruits of so well a settled peace amongst us, whereby all former mistakes and injuries may be for ever buried and forgot, and at the

same time to shew you our hearts, both in settling the Trade so to y<sup>r</sup> advantage as that for the future you may never want anything and at cheap rates and prices, as also to bring unto you the presents which the King has been pleased to send you.

Ind: Ans<sup>r</sup> We are very glad that the great King William hath so far taken notice of us as to send you amongst us that the friendship between us may be confirmed which we do from out hearts agree to, and from this day forward it shall be for ever talked of amongst us, and we also desire that all former inquiries and Mischiefs that have been committed on either side may be forever buried under ground. We are also thankful for the good Settlement of the Trade for us, and we pray that we may have Goods sold to us at a cheap rate, and that no Rum may be sold the Indians.

3 Pro: That the experience of the benefits of the present peace & quietness is sufficient to convince how it ought inviolably to be maintained and that neither party believe or hearken to any who by false or subtle perswasions shall seek to disturb it, but rather hold them Enemies for so doing. and if unhappily any misunderstanding should arise by any wrong done unto you by our People, upon yo<sup>r</sup> Complaint due punishm<sup>t</sup> shall be inflicted & satisfaction made which we likewise expect on your parts to be performed to us.

Ind: Ans<sup>r</sup> We promise to observe it and desire the same thing of you.

4<sup>th</sup> Prop: That in future confirmation of your amity & freindship, we are to offer unto you the protection of our great and mighty Prince King William who under this Covenant of peace looks upon you as his Children, and therefore is ready to defend you against any that shall invade or disturb you

Ind: Ans<sup>r</sup> In case any Nation should make War upon us

we do not desire that our Uncle King William ( which Title we esteem equal to Father ) should loose any men on our Account until we have tried what we can do for our own defence.

5<sup>th</sup> Prop: That we are likewise to note unto you our Jeal-  
osies concerning the French by whom you have been so  
often seduced, that through their false reports you may  
not again be deceived, but rather call to remembrance  
those times when by a full confidence and love we were  
useful unto each other, which same Trust you may see we  
are again endeavouring to restore not only by a free Trade  
and supplying of you with powder, lead, Armes and all  
other things you may need at such prices as the French  
( who cheat you ) cannot do whereby you may be the better  
enabled to keep your promises so lately made unto the E:  
of Bellomont, in cutting down trees in the path so for ever  
stopping the way to Quebec since we shall for your safety  
furnish whatever you want, at your own doors and spare  
you the labour of going so far.

Ind. Ans<sup>r</sup>: In case we should stop up our roads to Canada  
many of our Brethren would be hindred from coming over  
to us, besides many amongst us care not to be deprived of  
the liberty of going whither they please, yet we think there  
will be little necessity of going to the French since we may  
be so well supplied with what we want from the English.

6 Prop: That from the repeated Treatys made with you  
whereby you have put your selves under the protection of  
the Crown of England &c our great King William do's  
expect the punctual performeance of your promisses for the  
future, and on his part you shall ever receive such favour  
& protection as is due unto his Children

Ind: Ans<sup>r</sup>: We do not mind any talk but what we now say,  
we resolve to stand to it, and it comes from our very  
hearts.

7 Prop: That althô a Solemn peace had lately been con-

cluded between his Ma<sup>y</sup> and the French King which was to have lasted for ever Yet thro<sup>h</sup> his perfidious and false dealings therein, our King will be forced to enter into a new War with him, unless satisfaction be made for the prosecution of which he is making greater preparations than ever. We are therefore the rather desirous of making this known unto you, to the intent you may not be surprized at it, nor receive any reports which the French may make of us on y<sup>r</sup> regard, since we design nor intend any thing that may break our covenants with you but that in whatever shall happen you may be assured of perfect peace and quiet from us, and unto all those Indians who shall not take any part or assist the French in case the War should break out again with them.

Ind: Ans<sup>r</sup> We thank you that you will give us notice of the likelihood of a War between the French and the English, and we desire to keep ourselves free, and not to be under the command of any party, and we will endeavour what we can to bring the Indians that live upon the French Ground under the same Obligations with our selves. And if any damage happen to be done upon the English by the Indians that may pretend to belong to any of our three Forts of Norridgawog, Ammassakuntick or Narrakamagog, we desire the English would not believe it till they have sent to us for information, and we promise to make inquiry into the matter and if they belong to us we will endeavour to do you Justice for if we should not, we should all become equally guilty.

8 Prop: That for your further assureance and advantage in abiding in y<sup>e</sup> Country the Government has thought good to settle with you an Armourer who for the future shall repair or mend any or all of your Guns that may prove defective. and that gratis so that you may have no pretence or occasion of going to Canada or to the French in these parts for want of this or any supply whatsoever.

Ind: Ans<sup>r</sup> We are very thankful that we can have Guns mended here for nothing especially because formerly when any of our Guns were but a little broken we lookt upon them as lost, and we promise to bring in no Enemies Guns to be mended. Here the Indians Queried whether the Penobscot Indians might not be included in benefit of having their Guns mended, on which condition they promised to use their best endeavours to engage them as themselves in this same Treaty.

The Answer was that all Indians in friendship with us should have the same priviledge.

9 Prop. That to the intent of perfecting our future & mutual friendship & acquaintance we have thought good to offer and invite your sending of some of your Children to live amongst us whom we shall take care of both for their maintenance and Education & to return them at such times as you shall desire, and that if you are any ways inclineable to have your young men see England and King William, we shall send them whereby you may be better informed of the circumstances of our Nation.

To this ninth Proposition they desired time to consider, and whereon it being near night and bad weather, we broke up until the next day.

June the 4<sup>th</sup>

Ind. Ans<sup>r</sup> We conclude not to send any of our Children to England, because Moxus his son when he was sent to France, he died there, And we conclude not to send any of our children to Boston because we formerly had two of our children at Boston, called John & Robin, which we believe have by this time learned to read & write English enough, and they never yet have been returned amongst us

10 Prop; That it is left unto your selves seriously to consider what may yet remain or be most for your ease safety

and advantage which as we earnestly desire, so shall readily hearken unto, and perform anything that may be consistent with his Ma<sup>ty</sup> honour and the safety of his Subjects in these countrys &c

Ind: Ans<sup>r</sup> We desire to be informed about the two Children mentioned in our answer to the 9<sup>th</sup> Paragraph

Comiss<sup>rs</sup> Reply Those two Children were taken in War, and disposed of by those to whom they did belong, and we hear that one of them is dead and the other is now in London where he is well provided for and we believe he hath lost his Language and that he will not incline to return but if he be willing we shall use our Endeavours to procure him

Ind; You ought to force him to come home for we have a great mind to see him we forced some of your Captives to return home

Com<sup>r</sup> He is out of our Government, and we can't force him but we shall use our utmost endeavour to obtain him.

2<sup>ly</sup> We desire that if you should hereafter have occasion to treat with us we might meet together at Merry Meeting

Reply The Indians must then be at the Pains to prepare a house for our Accommodation.

Ind; We are willing to do it, and we desire that always we may have timely notice of the time of meeting by a Letter from this Fort at Casco bay, and we shall not hearken to any other.

3<sup>ly</sup> We desire to have a Trading house erected at Merry Meeting.

11 Prop That we cannot avoid taking notice of your affecting or wearing a french flagg or Colours, which if you purpose to maintain any settled correspondence or friendship with our nation must for the future be forborne in this or any part of his Ma<sup>ty</sup>s Dominions, and that you meet and treat with us under English Banners which at your

desire or request we shall take care to supply you with as occasion may require.

Ind: Ans! We thought it necessary to have some flagg or other, and having no other we put up a white one, but if you will please to furnish us with an English flagg, we promise to wear it for the future as a signal between us.

12 Prop: That we are in an especial manner directed to invite you unto an Union with us in the true Christian Religion, separated from those foolish superstitious and plain Idolatries with which the Roman Catholicks and especially the Jesuits and Missionarys have currupted it, to which intent we are to offer you the assistance of Teachers for your Instruction in like manner as is practised amongst those Indians who live amongst us, of whom great numbers have happily received, and live in the faith of our Lord Jesus Christ, in which great undertaking we shall expect nothing more on your parts than your good treatment of those Ministers whom we shall at any time send amongst you.

Ind: Ans! It much surprizeth us that you should propose any thing of Religion to us, for we did not think any thing of that nature would have been mentioned.

Furthermore nothing of that nature was mentioned when the peace was concluded between all Nations, Furthermore the English formerly neglected to instruct us in Religion which if they had then offered it to us, we should have embraced it and detested the Religion which we now profess, but now being instructed by the French we have promised to be true to God in our Religion, and it is this we profess to stand by.

Com: We propose that for a perpetual remembrance of our good agreement, each party should raise a heap of stones.

Ind: We do well agree to it, and we understand it better than signing of a writing.

Two heaps of stones were accordingly raised in the

place of Treaty that is to say, the Commissioners on the English part each of them laid one Foundation stone, and the men then present w<sup>th</sup> them made up the heap in a square Pyramide. And the Indian Sagamore each of them for their part likewise laid a Foundation stone, and then all the Indians and their children made up their heap in a roundish Pyramide, to west of the English, upon the point formerly called Andrews his point, now mutually agreed forever hereafter be called the two Brothers point, from the two Pillars.

Upon information of some English Captives yet remaining amongst them, a demand was made for their release.

The Indians replied, We know not of any amongst us but if we can possibly see that Child of ours which is in England it will be great encouragem<sup>t</sup> & we will endeavour to redeem any captives of yo<sup>rs</sup> that we can heare of either at Canada or elsewhere.

Concerning the Indians that treated with the Maqua's in October last. The Indians say that those Indians that then treated with the Maqua's went on their own heads.

Com: Shall we then tell the Maqua's that all y<sup>t</sup> Treaty goes for nothing.

Ind: After a considerable non plus, they replied that those Indians were only sent to know the Issue of the Earl of Bellomonts Treaty with the Maqua's.

The names of the Chief Sachems.

My Lord

I should think I ill upheld the character of those of my Nation, and the perfect union which we ought to endeavour to preserve with our Neighbours if, at my arrival by order of the King my Master on the Coasts of Accadie, of which his Ma<sup>ty</sup> has honoured me with the Command, I did not witness to you by the advice I give you of my arrival in this Province, that I desire nothing so much as to imploy all my care and all the knowledge which a long experience in the trade of War ought to give me, in keeping in an exact discipline the Souldiers Inhabitants and Indians of our Colonies, that nothing for the future may interrupt, by any offence on their part towards you the good Sentiments which we have of entertaining a loving & advantagious Correspondence as long as it shall please the King of England yo<sup>r</sup> Master and him whose most faithful & humble Subject I have the honour to be

Having left the Affairs of Europe when I came from thence is a doubtful situation as to war or peace, I thought it my duty, My Lord, to represent to you as far as I can, and the King my Master has left it to my disposal, that it seems to me of consequence for the publick safety of your Inhabitants as well as ours, to find out away to avoid the havock and crueltyes of the Indians who breath nothing but blood and all sorts of inhumane and odious torments to us as well as our Enemies, which cannot be hindred but by a particular treaty from you to us, during all the courses and acts of hostility on our Coasts, in not espousing the differences which our Sovereign Princes may issue in Europe by force of armes./

My Lord, I do not propose these sorts of agreements but as far as the consent of the King of England your Master may resolve you, and if, after having well examined our common Interests, you be determined in case of War, to a suspension of Armes on your side as well as ours, till you have

informed and have received Orders from his Ma<sup>y</sup> of Britain on this Subject we do assure you, that on our side shall be held, till then a firme and sincere peace, expecting a declaration made faithfully on the Resolutions which you shall take, of which we pray you to give us advice with the same fidelity which we promise on our part.

My Lord, If hereafter the proposal which I make you singly for the good of yours and our People do not suit the Interests of both Crowns we will make to you as we expect you will to us, a publick declaration before we enterprize any thing which may break our Treaty of Union and good Correspondence.

My Lord, This is what I dare promise my selfe to have ratified by the King my Master; if yours will do the same, I pray you would let me know it with speed that so I may know what to do.

I cannot omit advising you that I have orders to hinder, conformeable to the Treaty of Ryswick, all English Vessels from coming to fish in sight of the Lands of this Province. I pray you would let it be known in your Ports.

Assuring you nevertheless, My Lords, that in all things, that shall not hinder the Interest of the King my Master, you shall never have a Neighbour more desirous than I shall be to contribute to every thing that may be for the good of our Colonys, and of yours in particular that so I may attract the honour of your esteem and good will being perfectly

My Lord Your most humble & most obedient Servant

To the Kings most Exellent Majesty

A Memorial of the Council & Representatives of your Ma<sup>ty</sup><sup>s</sup> Province of the Massachusetts Bay in New England.

May it please your Majesty.

Upon perusal of your Ma<sup>ty</sup><sup>s</sup> several gracious Letters of the 19<sup>th</sup> of January and 2<sup>d</sup> February of 170<sup>o</sup> directed to your Ma<sup>ty</sup><sup>s</sup> Governour or Commander in chief for the time being of Province, and on mature consideration of your Ma<sup>ty</sup><sup>s</sup> Royal this Commands therein signified, We crave leave in all humble and dutiful manner to represent to your sacred Ma<sup>ty</sup>

As to the Complaints of the Spoil of woods by cutting down & converting to private uses such Trees as are or may be proper for the service of your Ma<sup>ty</sup><sup>s</sup> Royal Navy.

We are ignorant of any grounds for complaints of that nature, none having been made to the Government here of any such practice within this Province which had it been we should have endeavoured to restraine and prevent the same.

Your Ma<sup>ty</sup> having been pleased by Your Royal Commission in y<sup>e</sup> second year of your Ma<sup>ty</sup><sup>s</sup> Reign to grant unto Jahleel Brenton Gent. the office of Surveyer of all and singuler Woods, Fir trees and other Timber trees within these your Territories fit and proper for the use of your Ma<sup>ty</sup><sup>s</sup> Royal Navy Impowring him his Deputy or Deputys to view Survey and marke all such Trees and to register the same &c., And the s<sup>d</sup> M<sup>r</sup> Brenton & his Deputys being in the actual Exercise of S<sup>d</sup> Office: We might reasonably expect, had any obstruction been given them therein or any spoils made, they would have made application to the Government for redress thereof, but they have not offered at any time any such Complaint. And Timber proper for Your Ma<sup>ty</sup><sup>s</sup> Service is of so great value and esteem here that no persons who have any such will readily spoile imbezel or convert it to other use because it would be much to their disadvantage.

## As to Fortifications.

The last Summer we caused a small Fortification to be erected at Casco Bay, where there is a Garrison posted, upwards of fifty miles to y<sup>e</sup> Eastward of any present Settlement of the English whereby we design'd to Accomodate the Indians for Trade, and to supply them at easie rates thô with loss to the Publick to prevent their going to the French therefor, and to fix them in the English Interests, as also to encourage the resettlement of that part of the Province. And a Plantation will be speedily set forward there in case a new War do not commence.

The Fort formerly erected at Pemaquid, cost us not less than Twenty Thousand pounds to build and maintain the same, and we are not sensible we had in any measure a proportionable advantage thereby. The Situation thereof was on a Promontary towards the Sea Much out of the ordinary roads of the Indians Yet were we careful to furnish & supply the same with all necessary Stores and provisions & had newly reinforced the Garrison (which with that recruit consisted of more than four score men) and sent them fresh supplies a little before it unhappily fell into the hands of the Enemy. Had the Commander been as well furnished with conduct and Resolution it had probably been defended.

We are humbly of opinion That the building of a Fort at Pemaquid, lying upwards of one hundred miles distant from any part of y<sup>e</sup> Province at present inhabited by the English, can be no security to our Frontiers, or Bridle to the Indians. The only benefit we conceive might arise thereby would be to shelter a few Boats that may be employed in fishing towards those parts and at some times put in there. And it would draw such a considerable charge upon your Ma<sup>ty</sup>s Subjects as they cannot possibly support.

We are actually at work in raising New Fortifications on Castle Island near Boston (the place of greatest Import within this your Ma<sup>ty</sup> Province) under the direction and

oversight of Col<sup>o</sup> Romer, your Ma<sup>ty</sup>s Engineer, which workes will amount to considerable Sum<sup>s</sup> of Money. And 'tis further necessary could we be able to support the charge thereof ( which indeed we cannot ) that Fortifications should be made in Several other places within this Bay near Boston, as Salem, Marblehead, Gloucester, Plymouth and Hull, being so many Avenues by which the Enemy may make Impressions upon us.

Our incapacity for doing what is necessary in this respect where we are more nearly concerned We hope with Submission, will sufficiently excuse us from contributing to the charge of building and maintaining of Forts in the Province of New Hampshire. Their ability to maintain the Fort in that Province is proportionably much greater than that of your Ma<sup>ty</sup>s Subjects in this to do what is necessary as to Fortifications here. This Province was at very great charge to give them assistance during the late War, and must necessarily further assist them if War arise again, tho<sup>o</sup> they have not done any thing towards reimburseing what was before.

As to the Quota of assistance in men or money for New Yorke. We cannot be able to comply therewith without apparent hazard of exposing your Ma<sup>ty</sup>s Interests within this Province. The Line of our Frontier both by Sea and Land is of far larger extent than that of New Yorke and do's necessarily require by far, a greater number of men to guard the same We lye much more open & exposed to an attack by sea than New Yorke do's, and if they be in hazard much more shall we, And if War happen with France we must expect the Indians will break forth again. The Line of our Frontier against them is upwards of two hundred miles in length, and the French Indians in the late War found none, or little Difficulty to come from Canada down the Rivers either in their Canoes or on the Ice in the Winter Season and infest our Northern & Western Towns whereto they can have a more easie access than to Albany, and 'tis not to be thought but

that they will again make use of such advantage, The Inland Frontiers of New Yorke are strengthned with some of your Ma<sup>ty</sup>s Foot Companys being constantly upon duty, and have the five Nations a Barrier to them who will be ready at all times to give them notice of the approach of an Enemy and afford them assistance Also, other of your Ma<sup>ty</sup>s Colonies lye more contiguous to New Yorke and can more readily afford them Succours than this Province they lying less exposed.

The vast Expence this Province was at in the time of the late War for the preservation of your Ma<sup>ty</sup>s Interests within the same, and in the Province of New Hampshire ( which without assistance from hence would become an easy prey to the Enemy ) besides y<sup>e</sup> devastations then made by the Enemy have reduced your Ma<sup>ty</sup>s Subjects here to an extream depth of poverty. The Wounds they have received both in their persons & Estates are so recent, that they would labour of insuperable difficulty to be anew embroyled in War, and liable to be transported to Serve in another Province whilst their Families & Estates lye exposed at home.

As to the sending Accessories in Piracy into England for Tryal; We fear the practice thereof will put discouragement on persons to discover any such Accessories they may know or be informed of, lest they themselves be obliged to accompany them into England as Witnesses which may prove ruinous to many to be taken upon a sudden and carried away from their business and Families. And the like may be said as to persons accused or taken up on Suspition who may appear innocent & be acquitted on their Tryal.

By the afore going Representation, In which we have endeavoured truely to set forth the danger your Ma<sup>ty</sup>s subjects and Interests within this Province will be in, of being exposed by a new War with France . . . together with the Indians breaking out again upon us, and our incapacity of doing what is necessary for our defence against so potent

an Enemy as the French and to counter worke the crafty designes & surprizes of the barbarous & bloody Salvages, who have such advantages against us; Your Ma<sup>ty</sup> may be pleased to take a view of the State of our affairs and to judge of our wants especially of Canon, small armes & other Stores of War for the furnishing of your Ma<sup>ty</sup>'s Fortifications within this Province as also some ships of War of greater force than those at present assigned to this Station for the better guarding and securing of the Coast in case of War: For which we humbly implore your Ma<sup>ty</sup>'s Grace.

We humbly crave leave further to subjoin to the answer made by S<sup>r</sup> Henry Ashhurst to the Petition preferred to your Ma<sup>ty</sup> by the Earl of Lymrick for the grant of a Tract of Land called Pemaquid, That, besides the Grant thereof made in your Ma<sup>ty</sup>'s Royal Charter for this Province, the s<sup>d</sup> Land with others lying both to the Eastward and Westward thereof was anciently granted by the Council of Devon to particular persons as their own property and by them since allotted out, and a great part thereof actually improved, until the Inhabitants were forced away by the hostility of Indians, and will be again resettled, if peace continue which Lands are also purchased of the Indians.

All which is most humbly submitted by Your Ma<sup>ty</sup>'s

Most dutiful, obedient and Loyal Subjects

S:

You having been pleased by your Letter of the 8<sup>th</sup> of August curreant directed to the Earl of Bellomont our late Governour and in his absence to such as have the Command within this Province ( which by y<sup>e</sup> death of the Governour is devolved by his Ma<sup>ty</sup> on us his Council upon the place ) to informe us of your arrival on the Coast of Accadie, and that the King your Master has honour'd you with the Command thereof, therein also expressing the good sentiments you have of entertaining a friendly and neighborly correspondence with this Government; We assure you of the like on our part in all things not inconsistent with the Interests of the King our Sovereign Lord and Master & shall studiously avoid all occasions to the contrary.

S: We approve your generosity in proposing to find out a way to restrain the rapines inhumane and barbarous crueltys practised by the bloody Salvages in time of War towards the people of Your Nation and ours, and shall be ready to agree with you in concerting of such methods as may be effectual to that end.

We also take notice of your other Proposal for a Suspension of Armes within these Territories if it happen that War be declared betwixt the two Crowns until we shall have represented the same unto our King, & have received his Orders on that Subject, which you assure us till then shall be held firm on your side if we so agree, and to have the same ratified by the King your Master.

Concerning which: Being by late Intelligences from England given to Understand the peace do's continue and no Declaration is made of War, and being in daily expectation of the arrival of a General to be sent us by our King, and know not what Instructions he may bring; we cannot at present take any resolutions in that affair; But whilst on your side, all acts of hostility shall be forborn, we shall not

be forward to be the Aggressors, or to enterprize any thing to interrupt our mutual quiet and repose.

S<sup>r</sup> As to the orders you intimate in yours to have received to hinder, conformeable to the Treaty of Ryswick, all English Vessels from coming to fish in sight of the Lands of Accadie; We must observe to you, that such orders are so far from being conformeable to the Treaty of Ryswick as that they are directly contrary to the V<sup>th</sup> Articles of the s<sup>d</sup> Treaty it having been the accustomed indubitable right and priviledge of the English to fish in the high Seas on that Coast for time out of mind.

We trust and expect you will not suffer any obstruction to be given to our Fishing Vessels in that their lawful Employ whereof we shall have a just resentment, and esteem it not only a breach on your part of that good Neighbourhood which you profess to maintain but also to be contrary to Justice; Whereas we shall on our side contribute all that is necessary, not derogatory to the honour and Interests of the King our Master to preserve intire a good understanding betwixt your selfe & us, Praying you to believe that we are

So that I shall be able to send the Queries answered with the Map of the Province of New Hampshire by the first Ship that shall Sail in May.

“And for as much as great Inconveniences may arise by  
“the liberty of printing within His Majestys said Province  
“you are to provide by all necessary Orders, that no Person  
“keep any Press for printing nor that any Book, Pamphlet  
“or other Matter whatsoever be printed without your especial leave and licence first obtained. These His Majestys Instructions have been notified to all the Printers, yet notwithstanding due Notice has been given Nathaniel Proone has not only printed a Book without Licence but has even ventured to print what I have absolutely forbidden. Upon which I Summoned the Council and Acquainted them with His Majestys Instructions, who told me they could not find out any method to Punish the Printer because there was no Law against it. I afterwards Applied my self to the Kings Attorney General who advised me to Acquaint the Lords of Trade & Plantations with this breach of His Majestys Orders and to get further directions from them in this matter.

I desire you will let me have a line in answer as soon as possible to assure me that this Letter came safe to you, I am

By the best Computation That I have been able as yet to make the English Inhabitants within the Province of the Massachusetts Bay may be reckoned at Ninety four thousand Souls ~

Whereof the Regular Militia as they have been returned to me by the Officers of the Several Regiments &c: Amount to Fifteen thousand Six hundred and Eleven Men ~

Besides which within the said Province there are of the Indian Natives who are Civilized, and make some profession of the Christian Religion, and dwell in several parts of the Province in perfect friendship with the English Improving their own Lands &c to the Number of twelve hundred; Including Men Women and Children ~

With respect to Slaves either Negros or Indians ( but most Negros ) they may be computed at about two Thousand ~

Within this three years last past there have come from Ireland a Considerable Number of Famillys & Persons to settle the Eastern parts of the Province, & Else where to the Number probably of five or Six hundred Men Women and Children ~

As for white Servants Imported and Sold in this Province in the year 1717. there was entered at the Impost Office the Number of One hundred and Twenty Six Viz<sup>t</sup> 113 Males & 13 Females, the most of them from London Dublin & Belfast in Ireland, and the Island of Jersey; of Negro Slaves fifty

three Imported the Same year Viz: 37 males 16 Females a particular Account whereof is Annexed; No great difference for seven years last past.

At the Enterance of the Harbour of the Town of Boston there is Castle William, a regular Fortification and in good Condition Eighty great Guns Mounted a Captain with other Officers and a Company of thirty Men. There are also in the Town two small Batterys, but of no use, wholly out of repair.

At Salem and Marblehead there are two small Forts both gone to ruine and not supported in a time of Peace.

In the County of York. There's a small stone Fort at Brunswick with fifteen men and an Officer a pretty good defence against the Indians.

At Winter harbour, a small Fort in a poor condition with ten Men and an Officer.

To the 2<sup>d</sup> Q

In the Neighbourhood of this Province to the North East or towards Nova Scotia there are two Tribes of Indians one of them known by the name of the Kennibeck Indians One hundred fighting men who live chiefly at a place called Neridgiawack within a Sort of Fort made of Wood and where, is a small Chappel and a Jesuit. There are two or three other small Settlements of Indians that may make out in all fifty fighting men at Pennicook Amarascogin and Pegwokat. One other Tribe called the Penobscot Indians lying up the River of that name One hundred and fifty fighting Men, both Tribes too much inclined to the French Interest thro the Influence of the Jesuits who have allways one among them, and during the late Warrs between England and France they have been bloody Enemys to the English; At present they are pretty Quiet; but there is no depending on them ~

To the Westward near Albany there are several Nations or great Tribes of Indians that are in Alliance and Friendship with the English Government of New Yorke, but are so far distant, that we have Scarse any thing to do with them ~

Northwest and towards Canada there are some Tribes of Indians, but their Situation is so near the French Settlements

that we call them the French Indians and they are perfectly under their Governm<sup>ts</sup> and at three or four hundred Miles distance from us; their Numbers not very great ~

To the 3<sup>d</sup> Q.

At Canada the French have Considerable Settlements, the principal are Quebec & Monreal ~

Quebec is not very populous, but well Fortified, There lives the Governour, the Intendant and a Bishop and there are some Religious Houses. The City and the Governours House have several Batterys and Platforms of great Guns~ To Quebec the Ships from France goe once a year Viz<sup>t</sup> in the Summer, and carry Merchandize from France for the Trading part, pay, and Supply for the Soldiers; There may be about two hundred Soldiers at Quebec, the Countrey thereabout not much Peopled; Upon the Isle of Orleans a little below the City are good Farmers that raise good Wheat and Beef. Up the River two hundred Miles near Southwest is Monreal, an Island, a pretty Strong place, There lives the Liev<sup>t</sup> Governour and two Companys; near Mon real live also the French Indians & thither they resort for the most part, from thence they Trade and Correspond with Albany and the Indian Nations thereabouts from Mon real the French also carry on their Trade to Missasippe. There is also a small Settlement of the French at Trois Rivieres & at Chamblay still nearer to Albany but not very considerable ~

From Canada it is That in a time of Warr between England and France, the French Influence and Actually Employ their Indians to Annoy and Destroy the English Settlements both of this Province and the Colony of Connecticut and some times the Province of New York. This Province have had two fair Towns destroyed in two years Successively in the last Warr by a party of two hundred Indians headed by French Officers from Canada And it is difficult, considering the Vastness of the Frontiers to know how to prevent such

Incursions in a time of War, unless the two Crowns should Agree never to Employ the Indians on either side against each other even in Case of a Warr ~

As to Cape Breton,

The Province of Nova Scotia lyes between us and the French Settlement there, and without doubt Governour Phillips will transmitt your Lordships a particular Account of the Circumstances of the French there; they have yet no regular Fortification in that place. But in Case of a War between the two Crowns the French would certainly be very troublesome to all the English Plantations in North America. It is generally thought that it might be of Service to His Majesty and a Security of the Trade of his Subjects if there were a small Fort built at the Isle of Canso which is near Cape Breton, and so another between that & Annapolis Royal. But of these things the Governour of that Province will be the best Judge.

It hath been of the last Mischief to His Majestys Government and People of these Countreys to suffer the French Jesuits to reside among the Indians that are under the English protection & particularly at Kennebec & Penobscut both which are within His Majestys Territory. This is what I have had the honour to represent once and again to your Lordships.

To the 4<sup>th</sup> Q.

The Trade of the Province has been of late years under great discouragements occasioned as is Judged by the most thinking People chiefly by want of Silver and Gold for a Medium of Trade in lieu whereof the Government have made and Issued out near Two hundred Thousand Pounds in Bills of Credit ~

The Fishery of this Province (which indeed is the best and chief Article of their Trade) is much increased since the Cession of Nova Scotia. As to the remaining part of this

Question I must beg leave to refer your Lordships to Governour Phillips those places being in his Government ~

To the 5<sup>th</sup> Q

To prevent illegal Trade I do my utmost Indeavours to put the Laws now in force relating to the Trade of the Plantations in Execution; and also take all Imaginable care that the Kings Officers may be protected in doing their Duty-And I am also of Opinion farther to prevent illegal Trade If two fishing Shallops were Employed, under the Inspection of the Surveyor General or Principal Officer in each Port (the charge of building which would be about Three hundred pounds Sterling) to be Manned & Victualled by the Station Ship as there may be Occasion and a Custom House Officer on board, would be of great Service. But if this is not thought practicable the Appointing more Waiters in each Port as four at least in this Port (whereas there is but two) which I believe might answer the End and very much prevent the running of Counterband Goods ~

To the 6<sup>th</sup> Q

According to the best Inquiry & Information I find belonging to the Massachusetts Province and mostly built in it nearest One hundred and Ninety Sail of Ships and other Vessels being in all nearest Eight Thousand Tunns and Navigated with about Eleven hundred Men. Besides about One hundred and fifty Boats with Six hundred Men employed in the Fishery

To the 7<sup>th</sup> Q

As to Manufactures, the Inhabitants in some parts of the Province work up their own Wool and Flax and make an Ordinary course Cloath for their own use without exporting any. But the greatest part both of Woolen and Linnen Cloathing that is wore in the Province is Imported from Great Britain, and some times Linnen from Ireland; and considering the Excessive price of labour the Merch<sup>t</sup> can

afford what is Imported Cheaper than what is made in the Country~There are also a few Hatters set up their Trade in the Maritime Towns~And the greatest part of the Leather used in the Country is Manufactured among themselves ~

There has been for many years some Iron works in the Province that have afforded the People Iron for some of their necessary Occasions: But the Iron Imported from Great Britain is Esteemed much the best, and the Shipping wholly use that which is Imported. And besides the Iron works of the Province are not able to Supply as to the Common use the twentyth part of what is wanted ~

To the 8<sup>th</sup> Q

Upon the best Computation I find it to be nearest Two hundred and twenty Thousand pounds this Country Currency which is about One hundred Thousand Pounds Sterling according to the present course of Exchange between Great Britain and this Place ~

To the 9<sup>th</sup> Q

The Trade of this Province is principally to Europe by Codd Fish to Spain Portugall and the Mediterranean the produce whereof is remitted chiefly to Great Britain either p bills of Exch<sup>a</sup> or Gold ~

Great part of the Trade of this place is directly to Great Britain by Whale Oyle, Finns, Furrs, Turpetine and other Naval Stores ~ Trade from hence to any Foreign Plantations is Inconsiderable, except that to a Dutch Plantation called Suraname which is carried on mostly by exporting small wild Horses not fit for Service here, nor Saleable in our English Plantations, for which is brought back in return chiefly, Molasses, In which Trade may be employed twelve or fifteen small Vessels ~ As to the Trade we have with Barbados Antego &c<sup>a</sup> the Account of the Export and Import which I remitt yearly will make that Trade appear in it's proper light ~

To the 10<sup>th</sup> Q.

The French Plantations in our Neighbourhood are the Country of Canada and the late Settlement at Cape Breton ~

Canada is a vast Tract of Land lying on each side the great River of the same name, begining at the Mouth of St<sup>e</sup> Lawrence extending up to Quebec from thence to Monreal, from thence up to the great Lakes and so to Messasippi River as the French pretend in all which vast Country they have not above 1500 Effective Men and about 5000 Souls-They have Thirty Comp<sup>as</sup> as they affect to reckon, but I'm very credibly Informed they dont make 12 Men one Company with Another-The Government of the Country is like other French Governments Despotick & mostly Military M<sup>r</sup> Vaudrovil the Governour has the Character of a very good Officer ~ They have also an Intendant General who manages the Civil Affairs and is a Sort of Check upon the Governour ~

Quebec is the principal Town in Canada a handsome well Fortified Town but small, but I have said something of that City already under a former Query-Their next best Settlement is Monreal of this also I have spoken before. There lives the Governour Maj<sup>r</sup> Ramsey a Scotchman. The Trade of Canada consists chiefly of Beaver & some other Furrs which is managed by a Comp<sup>a</sup> who are Supplied by the Indians and French Hunters as far almost as Messasippi River and some even from Hudsons Bay: tho' by what I can learn there are but few Indians in those parts it being a Desart Cold Country. The value of the Furrs Exported from thence to France annually may be computed at Sixty Thousand Pounds Sterling; They also Export to the French West Indies some Flower Pease and Lumber to the value of about Twenty Thousand pounds Sterling annually. If the Furr Trade of Canada should fail the Country would be but of little worth for it does not afford English Grass, Cattle, Corn equal to other Countrys that lye more Southward and

hardly any fruit at all The Navigation up that river is very Inconsiderable Except once a year when the Ships comes to Quebec~As to Cape Briton of w<sup>ch</sup> place I have also spoake before, to which I have nothing to add, but that the French have there a very considerable Fishery for these two or three last years having in the Season from Sixty to Eighty sail of Ships besides small Craft loading with Fish &c<sup>a</sup>

Sir

I Received your letter of the 6<sup>th</sup> Inst<sup>t</sup> inclosing among other Acts Passed in His Majesties Province of Massachusetts Bay, in May 1718, An Act for Granting unto His Maj<sup>ty</sup> several Rates & Duties of Impost and Tunnage of Shipping on which Act the Lords Comm<sup>rs</sup> of Trade & Plantaçons desire the Opinion of the Commissioners of the Customs – And having laid the same before them, they have made the inclosed Observations thereon which they direct me to transmitt you and to returne you the Acts above mention'd, be laid before their Lordships

*Observations on the Act for granting to His Maj<sup>ty</sup> several Rates  
& Duties of Impost & Tunnage of Shipping made at  
Massachusetts Bay in New England.*

By the act of Trade 15 C. 2. no Goods can be Imported into any of the Plantations but from Great Britain, (salt for

the Fisheries, Madera & Azores Wines Servants horses & provisions from Ireland excepted: And also except Irish Linnen from Ireland p act 3 & 4 Annae) and thô Madera's & Azores Wines &c. may be carried into the Plantations from other places in Europe than Great Britain yet it must be in British Shipping duly navigated. Wheras this Act seems to allow their being Imported into New England in any shipping there being no words to restrain such Importation to be in ships allow'd by law to Trade thither.

This Act which lays a Duty on Wines not Madera or Azores Imported from the place of their Growth is contrary to the Act of Trade 15. Car. 2, if they be not imported from Great Britain and likewise all other goods (except as afore-said) not Imported from Great Britain is contrary to the said act.

This Act lays a double Duty on all Goods Imported from any other Ports than the places of their Growth or produce which will be a prejudice to the Trade of Britain & the other English Plantations.

This Act seems to give liberty to all persons who have Goods consigned to them to make Entrys &c which may give liberty to Aliens or persons not made free Denizens to Trade as Merch<sup>ts</sup> or Factors which is contrary to the Act of Navigation 12. Car. 2.

By this Act the Ship, with her Tackle apparel and Furniture, is liable to answer such Penalties & Forfeitures as the Master shall incur by not observing the Directions of that Act. Which seems to be very unreasonable and a great hardship on British Owners and other Plantation Owners of Shipping to forfeit their Ships, through the Default or Neglect of the Master, by a law made in the Plantations,

The Duty laid on all Shipping, except as in that Section is particularly mention'd, seems to be an unreasonable law and

a great hardship on British Owners and other Plantation Owners of Shipping.

S<sup>r</sup>:

I beg leave to Acqu<sup>t</sup> their Lordships that 5 years since I Obtained Execution against one Elisha Davis of Haverhill in the County of Essex Planter for Destroying one pine tree marked w<sup>th</sup> the broad Arrow which would have made a mast of 32: inches diameter, the Execution was laid on his Estate, w<sup>ch</sup> he had made over before hand to avoid the Law, then he was Imprisoned, but he broak Goal Just as I departed for England,

The Lawyers say I cannot proceute now being out, I lay that Judgment not being Satisfied I can, they are like wise of Oppinion that a Subject cannot be in one writt with the Queen, or King it being in the Late Queens reign, the Act of Parliament gives one moiety to the King his heirs and Successors the other to the Informer that shall Sue for the same. the Lawyers are at a loss how to draw the writt or lay the action, the Execution orders the forfeiture to be paid to me, nor could it be other ways here being no other Officer but my self, So that the property of y<sup>e</sup> Execution cannot be

altred, and if I recover the forfeiture I must be Accountable and will give Notice thereof accordingly.

I have another Execution against John Sincler, and Jeremiah Bean, both of Exeter in the Province of New Hampshire Planters for cutting down and destroying one mast tree of 28: inches diameter which would have made a Bowl spritt this Execution was laid on their Land as the other above. these in my absence have re entered on the land and are now in Possesion the same Objections are made to this Likewise I humbly pray their Lordships directions and oppinion in this great affair, for should these Criminals go unpunished Instead of dettering others it would Incourage them, who Inclined to such vile practises, of this Sort there are great numbers

I have vsd my vtmost Endeavours to bring these Offenders to y<sup>e</sup> obedience of the law thô they have proved Ineffectual. I have none to make my complaints or adresses to but their Lordships in behalfe of his Majesties Intrest: If those Offenders are made Publick Examples of, It will do his Majesties Intrest very Eminent Service in General.

My prayer to their Lordships is, that they would be pleased to give theire order and directions to the Attorney General here to proceute those Offenders with the Severity of the Law, as well those in New Hampshire ( there being No Attorney Gen<sup>n</sup> as him in this Province, and a short time to the Gover<sup>r</sup> to see it put In Execution, or other ways as their Lordships in their Great Wisdoms shall see most necessary for Obtaining the End hereby Intended.

The Assembly here after more than a months sitting with great perswasion and arguments and dificultys were prevailed upon to droop the duty upon English goods Imported here. I offered and gave the Gover<sup>r</sup> the same Act that I got pass'd in New Hampshire relating to the preservation of the Tar Tree, but It was not minded but shall Endeavour for it the next Sessions

I am very well Informed here that the Agent offered my Post to M<sup>r</sup>. Coram, but he asked so much money that Coram refused, what M<sup>r</sup>. Burinston gave I cannot tell, but by his leter to me it appears very much like it for he says he was wholly a Stranger and Knows nothing of the Employ but is a perfect stranger to the Employ and Every thing belonging to it this he writes me, but what he gave for it I cannot tell, but the Agent made the most he could of it certainly, and now advisses him in the best manner he can, but the Agent missed his mark very much, for upon his knowing the Contents of the leter your Honour sent me from their Lordships or whether he Knew of the recomendation made to the Treasury in my favour I can't tell but he tells me what was done in his leter for me, upon this he kept the leter you gave for me, and goes forthwith to M<sup>r</sup>. Burinston acquaints him what was done in my favour, he Imediatly sends a Deputation to M<sup>r</sup>. Rob<sup>t</sup>. Armstrong knowing that the sallary was precarious till he had a Deputy on the Spot, the Agent Keeping my leter till about the 15<sup>th</sup> of Aprill and then put it on board one Cap<sup>t</sup>. Osburn who arrived the 8 June, by which managment M<sup>r</sup>. Armstrong had the Deputation before I had your leter.

the Agent as he was the only person to Act this base and falce action, in the Infancie of it gave out that M<sup>r</sup>. Burinston was a man of very great Intrest with the King and might have had this Goverment if he could have acted by Deputation at another time he was a Germain Count, &c. from which I must degress, for had M<sup>r</sup>. Burinston been a person of common Intrest certainly he could have gott Instructions for his Deputy for the Agent must know better, I think, and to put in an Improper person at last lookes very far from a man of such Intrest, the Agent has screen'd him by his making him a great man and of such great Intrest, w<sup>th</sup> the King that it has kept my friends from atempting to restore me so now he will droop him I suppose and since he could not procure

any one for a deputy before he will be at a very great loss to find a person now Knowing in the raising, and manufacturing of naval stores, Knowing in the Production of all those woods here, and knows the Country, the people, & the woods, and I hope he must pass his Examination as I did after 20 years Experience and have the approbation of the navy, the admiralty, and their Lordships. I humbly hope it will be no Difficulty at this time for their Lordships to restore me, for Mr Burinston has no Intrest but the Agents; and now he has got his money and kept him in so long he now must stand on his own Intrest, the Assembly here has not given the Agent any money, and are very angry with him and say they will have no more to do with him.

I cannot omit giving your Hon<sup>r</sup> an account of the Growth & Progress of the Woolen Manufacture in this Province In a great many sorts, as Cloths, Serges, Shaloons, Kerseys, all sorts of Stuffs allmost and some Linnen and there is scarce a Country man comes to town or wooman but are clothed w<sup>th</sup> their own Spining Every one Incourages the Growth and Manufacture of this Country and not one person but discourages the Trade from home, and says tis pitty any goods should be brought from England, they can live w<sup>th</sup>out them

There is one thing which very much helps In this most pernitious trade to Great Britain, and that is Cotton wool Imported here from the west Indies, which is mixed with wool & flax and they make both woolen and linnin there with. If it should be agreeable to their Lordships oppinions to prohibit the Export of any Cotton Wool from the West Indies Into this & Road Island Govern<sup>ts</sup> It would prevent near the halfe of the Woolen, and Linnin, that is wrought up in these two Govern<sup>ts</sup>

There Is on an Island at this day called Nantucket about 12 or 14 leagues from Cape Cod more than twenty thousand Sheep, and all that wool for want of the Officers looking after the proceuting the Act w<sup>ch</sup> makes or renders all wooll

watter bourn seizable, by which the wooll is brought Into this Govern<sup>t</sup> and supplys all those parts with wooll which raises little It is the same case at Road Island w<sup>ch</sup> breeds many thousand sheep, and upon an Island called Block Island about 5 leagues from thence many thousand more and In the Naraganset Country more yet.

Here has been many years a Jealousie, of some March<sup>ts</sup> Shipping some of those woolls above mentioned for france, and I querey whether the Carieing of such wooll to france, be a greater Prejduce to the Manufacture of Great Britain, than for the People here to Spin and Cloath themselves with such wooll.

If some care be not soon taken those people here will be able to live without Great Britain in a little time than there ability Joyned with their Inclinations will be of very Ill Consequence, I cannot say here are any that have a duty full regard to England or promotes Its welfare thô: It gave them breath.

I Beg your Hon<sup>r</sup> would be pleased to remind their Lord<sup>ps</sup> of my being of the Council and the first of those now to be appointed If it be only for the Insewing winter I am well assurd it will be a great advantage to his Majesties Intrest In Generall and by it the People will see his Majesties Supports his Officers for Defending his Just right and Intrest; There is one of the Council that Died in May last Theodore Atkinson of New Castel.

I have further Considered of the Settling of Annapolis Royal and humbly propose for to Incourage or Introduce the Sowing and curing of hemp there, That the Tenure and holding of the lands there should be, so many hundred weight of hemp according to the Quantity of Land Granted, and that all the french, that would Sware alegence to King George should be under the same Tenure this wold give life to the Sowing of Hemp, there being so much land proper for it, and

none would refuse land on these conditions, others near the Woods should be Obliged to Deliver one or two Masts Annually of such a Diameter at such a place as should be appointed, and if it could or should be proved upon them that they Cut any Mast tree without leave such person or persons should forfeite his or their Land so held or had from his Majestie.

These Tenures one would Incourage Hemp, the other preserve the woods Infalible & to make it more firme the Informer should have  $\frac{1}{4}$ ,  $\frac{1}{8}$  of the Offenders land or how or else as It shall be order'd, that Cuts a mast tree w<sup>th</sup>out any Diameter Sett or fixed, for all must be Saved Except Those Trees w<sup>ch</sup> he or they should have leave to Cutt for under a pretence of cutting such a Diameter they Cutt what they please as Is done here to his Majesties Irreparable Loss;

There are many persons now settled at Annapolis who have built houses and have Improved lands all ready their Titles thereto cannot be good till a proved by such an authority and under such a seal as your Lordships or his Majestie shall appointe No Saw Mills to be built without leave from his Majestie or the person by him appointed to give leave who should be a good Judge of the Peace, and Consequencies that may attend such Leave

Others if a Proper place for the product of Tarr should pay so many barrells of Tar annually or forfeite his Land, others Terpentine or according to what was most natural produced, as may be Easily seen upon a Survey of that place, the like may be Done at Menes and Sheconneto about ten or fifteen Leagues from Annapolis.

If I shall be thought worth by their Lordships to Lay out this place I will do it with all Faithfullness, and the man of war might Carrie me and Assistants thither and back, w<sup>ch</sup> will save the Hire of a Sloop the Gover<sup>r</sup> to assiste with a guard, at all times when required the boats and other things must be had which may be had there I suppose, the spring and fall

is the proper time to do this worke in, all which is most humbly submitted to their Lordships Great Wisdoms, by your Hon<sup>rs</sup> most obedient and most humble Servant

I have since my last Concidred the Setlment of Annapolis Royal, and have given their Lordshp<sup>s</sup> my thoughts how Naval Stores may be raised there, with some certainty; to be added to, or Amend, as shall be thought most proper for his Majesties Intrest./

I pray your Hon<sup>rs</sup> favour and Intrest w<sup>th</sup> their Lordships, that I may be Employed in that Service, which I hope will be no hinderance to the preservation of the woods the most proper seasons being after the people are out of the woods In the Spring, or before they go in, in the fall./

M<sup>r</sup> Armstrong who M<sup>r</sup> Burinston appointed his deputy has no Instructions to Act by therefore I shall not suffer him to act in that station, as to his being an Improper person I leave that to their Lord<sup>ps</sup> determination, but had M<sup>r</sup> Burinston been a person of such Intrest, as the agent first gave out, he could not have failed of having Instructions Granted him upon his application and tis my humble oppinion, that it is not dificult to restore me againe, his being in above a year and at last to appoint such a person under whose care the woods must have been Ruined. I made an Offer to him rather than to want I would serve for 150<sup>l</sup> a year; but his neglecting that, and puting in such a person, and his taking no care to comply with his Commission, I hope will open a way for my being restored./

S<sup>r</sup> Your Inestimable friendship to me lays me under the Deepest sence of gratitude which I in the most humblest manner shall forever own, praying for your long health and life, and the Continuance of your good Offices I am

I had not troubled you with any more accounts of this nature, but the continued malice of M<sup>r</sup> Cooke & now he is a

representative labours with all his Envie, subtilty, and Intrest, to Delude his fellow members, and by vile artifices, has brought a great number over to his Oppinion, having lay'd a very long leter before the House of Representatives and a memorial Directed to the Spaker wherein he wholly Insists against the Intrest of the crown that being Chiefly aimed at and his Majestys Just rights & Perogative Invaded in the Province of Main & Denies all claime, right, or Power, of the King or his Officer, in and over the woods belonging to and being in the said Province, Notwithstanding y<sup>e</sup> charter reservations, and the Act of the 9<sup>th</sup> of the Late Queen, w<sup>ch</sup> act is according to the restrictions in said Charter, wherein the Province of Main is particularly Named/, The chief Strength of M<sup>r</sup> Cookes Arguments, consists in this, That that Province was purchass'd and annexed to the Province of the Massachusetts in the year 1677. but I find this easy to answer, by Observing that his late Majesty King William of Glorious Memory in New Charter w<sup>ch</sup> he granted thought fitt to Incert abundance of considerable Limitations, and alterations, amongst w<sup>ch</sup> this is not the Least Material, And if the Province of Main be under y<sup>e</sup> Charter of the Massachusetts, it must be liable to the Reservations, and restrictions, of that Charter. What confirms me in this Oppinion is, that the Kings Right was never called in question till M<sup>r</sup> Cooke ( that Incendiary ) with unparlleld Insolence, has Endeavoured, to poyson the Minds of his countreyemen, with his republican notions, in order to assert the Independency of New England, and Claime greater Privileges than ever were designed for it:/ I find by M<sup>r</sup> Cooks long leter and Memorial he has not taken any Notice of my 2<sup>d</sup> Memorial and on further Examination, find, that the Gover<sup>r</sup> never delivered it to any of the Council nor layed it before them nor the Assembly, which has very much surprised me, had that Memorial been laid as I design Cooke had been long since

Silenced, or been In a nother place; but y<sup>t</sup> never, being laid Either before the Council nor Representatives, nor was I ever in place to make any other answer, Depending that I had Fully answered in s<sup>d</sup> Memorial; & pray leave to Inclose a Copy of my 2<sup>d</sup> Memorial for their Lordships reading and consideration, I am

Since my last to yo<sup>n</sup> of y<sup>e</sup> 17<sup>th</sup> Instant one James Smith, Judge Advocate here was suspended by the Gover<sup>r</sup> about 3 weeks since for what reason I know not,

Smith by way of revenge upon the Gov<sup>r</sup> with the assistance of some people here who has loaded him with Complaints against the Gover<sup>r</sup> upon many Occasions, is gone home

M<sup>r</sup> Cooke not to be behind his neighbours, has scraped together all his old Complaints and affidavits procured by him self when Clerk of the Superiour Court In the Province of Main last year, some 12 years since, some 8, some 6, some 4 years agoe, some when I was not in the Country, all these against me: In order to Lay them before their Lordships and thereby render me Obnoxious to their Lord<sup>ps</sup> and unfitt ever to serve the King againe as Cooke setts forth to the Assembly.

I pray you to Observe to their Lord<sup>ps</sup> that what ever papers Cooke has sent p Smith pretending to have been done by the Assembly is not true, but has prevailed on some of that people to signe something by way of Leter pursuant to An Order from the Assembly, or by way of Memorial, or Remonstrance, & by the way of Committee against me which the Spaker nor none of the other Assembly men so much as knew of therefore never consented to much less signed. This James Smith is the person that would have been Surveyor of the woods.

A Memorial of the Governour Council and Assembly of Her Maj<sup>ties</sup> Province of the Massachusetts Bay in New England for their Vindication against the Suggestions and Insinuation of Any who may accuse them of harshness and severity towards such as are of different perswasions from us in matters of Religion

It must alwaies be remembered That the Professed chief Design of the first Planters of this Country was Religion & the Gospellizing of the Wild Ignorant Indians Natives, to bring them to the knowledge and Obedience of the only True God & the Saviour of Mankind, as is declared and set forth in the Royal Charter or Letters Patent Granted them by His Majesty King Charles the first.

The Gentlemen the first undertakers in this Noble design were generally Persons of Education Piety figure Esteem & had plentiful Estates in the several Counties & places within the Kingdom of Great Brittain from whence they came; Yet chearfully parted from their Native Land & Enjoym<sup>ts</sup> ventured themselves with their Families & servants over the Ocean into a Wild Desolate Wilderness at so great Distance, to pursue & lay the foundation of that Glorious work; In which they laid out themselves & Estates, not

murmuring or repining at the unaccountable hardships, dangers & difficulties they were necessitated to Undergo, as well thro' the Intemperature of the climate as many other wayes for the subduing & cultivating of a rude Wilderness & to secure themselves from the Violence & Insults of the Barbarous Natives; To whose Spiritual & Eternal, as well as outward, good they had a special regard.

They early and very soon, by order & direction of the Government disposed themselves into Vicinities, not only for their better Security & regular carrying on their secular Affairs but more especially for divine Worship. And it was the pious care of the Governm<sup>t</sup> to make & Enact good and wholesome Statutes & Ordinances for the reforming of Manners, & the Propogating of Religion & to see to the due Execution of them. And in Grants of Lands for New-Settle<sup>ts</sup> or Townships, A Proviso or condition is & has been inserted That the Grantees do procure & Support a Learned Orthodox Minister to dispence the Word of God to them.

Upon these their just & pious Endeavours the Plantation Increased, Towns & Churches were orderly settled & by the Blessing of God it is become a province, not of the least name among Her Maj<sup>ties</sup> forreign Plantations: To the Enlargement of Her Ma<sup>ty</sup>s Empire, & Advantage to the Crown.

Under the present Constitution by Letters Patent Granted by their late Maj<sup>ties</sup> King William & Queen Mary of Glorious Memory, The Governm<sup>t</sup> have taken alike care to Enact good & wholesome Laws for the Support of Ministers & Schools, and that no Town or plantation should be unprovided & destitute thereof. As also for the suppressing of Vice prophaneness & Immoralities; Which Laws have the Royal Approbation. And the Governm<sup>t</sup> have Enforced the Execution of them, by Issuing forth Proclamations from Time to time; Therein Comāding all Justices & other

Inf<sup>t</sup> Officers strictly to Observe & perform their respective Dutys in that regard; & to make diligent inquiry & detect all such who shall presume to trangress the same, In Imitation of the most deservedly commendable Examples of Her Maj<sup>ty</sup> & Her Late Royal Predecessors by their Royal Proclamations And in Countenancing Encouraging & promoting of Societys for the Reformation of Manners who by their Letters have recommended the same to be pursued here

Whatever complaints may have been made of over much rigidness & Severity practiced by the former Governm<sup>t</sup> toward persons of different perswasions in matters of Religion, particularly those called Quakers.

We go not about to plead their Justification in things wherein possibly an over warm zeal may have carried them too far. There is none in y<sup>e</sup> present Governm<sup>t</sup> that were concerned at that Time; And it cannot be expected we should make that answer for them as they could have made for themselves: nor are those that go under the denomination of Quakers now such as were then; who were some of them open bold disturbers of y<sup>e</sup> publick peace, & their Principals Notoriously known to be Heretical but are much refined both in Principals & Conversation.

We strictly observe & yeild due Obedience to the Directions in the Royal Charter to allow Liberty of Conscience in y<sup>e</sup> Worship of God to all Christians except Papists. Nor have we any Sanguinary or Pecuniary Laws against those who are of Diffirent perswasions from us in that matter.

The Laws of this Province provide only against Irreligion & Prophaneness That the People are not brought up in Estrangment from God, and perish for want of Instruction; But that the Publick Worship of God be upheld in the several Towns & Plantations That the Lords Day be duly observed & not openly prophaned by persons attending their Secular Employ<sup>m<sup>t</sup></sup> Or, which is wose, by Revellings, Drink-

ing & other Debaucheries, which is too sadly true in some places, not far distant from us.

And we justly fear that Infection has too much taken in some later settle<sup>ts</sup> begun in the remoter parts of this Province that have been destitute of the Ministry; being planted by a mixt company many of them vain profligate persons, of dissolute conversation who combine together to Obstruct & oppose the Endeavours of the better disposed part of y<sup>e</sup> Inhabitants for y<sup>e</sup> Obtaining of a Learned Orthodox Godly Minister to come unto them. And out of a Sordid Spirit refuse to contribute to his Support, altho, Encouraged by Assistance from the Govern<sup>mt</sup> in their begining chosing rather to continue in Ignorance & Irreligion than to be at the lest Cost to have the meanes of knowledge & the preaching of the Gosple among them; But reject it tho freely offered, To the just Scandal of the Indian Native Tribes who have their Settle<sup>ts</sup> near them, & their several Assemblys & Ministers who preach constantly to them; and Shame such dissolute English to y<sup>e</sup> last Degree, by their Sobriety & better manners.

They are strengthened in this their Opposition in some places, by the Quakers tho but few in Number to the rest of the Inhabitants by their Aversion to Orthodox Ministers & labouring to Infuse their Wild delusions into them & the plea of Liberty of Conscience w<sup>ch</sup> they make for themselves, but disclaim them as not of their Society; Their manners are so openly Vile; But if any time they come to their Meetings, tho only to Observe their Devotion (for which they afterwards ridicule them) & arrive to that Morosness as to deny the Courtesy of pulling off the Hat & shew an indecent unmanerlyness to their Superiours, then they Shelter themselves under the Umbrage of y<sup>e</sup> Quakers if they be demanded a penny for the Support of a good Minister; Tho at the same Time the Quakers are Ashamed to own them.

This Government have at no times imposed upon any in matters of Worship, but as is before said, allow Liberty of Conscience, as they are commanded yet account it their Duty to God to Her Majesty & the Souls of the People under their care, by proper and the most easy methods to see they be taught the knowledge of God & Jesus Christ; And to reclaim them from immoralities, Vice & Prophaneness. These are the Ends the Laws are pointed to, & to Constrain their Obedience and no further

The Intrest of the Crown is grown so very low, and the Prerogative trampled on to that degree, That no good officer, or a lover of his King and country can be Silent: but Duty and a Strict adherence to his most Sacred Majesty, Armes me with Due resentm<sup>t</sup> to Lay it before their Lord<sup>ps</sup> in a true light and Nothing but fact shall be related, Therefore by their Lordsp<sup>s</sup> to heare it read.

The Clause in the Charter of New England for the Preservation of the Woods Saves no trees but 24 iñ in Diameter and upward, all the young trees may be cut at the pleasure of the people and tis at their choice whether ever they let a tree grow to be 24 iñ Diameter or not, w<sup>ch</sup> Clause is the Distruction rather than the reservation

of the woods, there is an Act of Parliament and an Act of this Province that has the Same Clause in them, which must be repealed, for the Small trees being in Demand at home in Great Britain, the people cutts all these trees under 24 Inches Diamt<sup>r</sup> and plead the act for it, and I am Obliged to be Silent, the large trees they cut at pleasure w<sup>th</sup>out regard to Acts of Parliament the Royal Lycense or my Warrant, as I shall make appear hereafter.

I shall say nothing of M<sup>r</sup> Cooke but what relates to his actions this winter, M<sup>r</sup> Cooke having purchased two old grants for land that were granted by the Government of New England In the years 1641: & 1671 Never taken up till now the first for 800 acres the other for 500 acres of land, and to prove his assertion, that the King has no woods here, has laid out these two grants of 1300 acres of Land In the Province of Main, without all the Townships or town Bounds, in his Majestys woods as I allways thought & preserved as Such, but M<sup>r</sup> Cooke bids Defiance to any Right or Title the King has to any woods.

The Province of Main was a Distinct Goverment 40 years after the first of these grants and many after the last, I was upon this Spot of land last winter was 12 months that he has laid out & lie in the Best parcell of Pine trees I ever saw in this Country, Now if M<sup>r</sup> Cooke is allowed in this action he has fully proved that his Majesty has no woods for all within the townships are the peoples, and if all without are as M<sup>r</sup> Cooke says they are by Consent of the Goverment the King is Shoved out, there being none else. These old grants being of no value to the owners or possessors M<sup>r</sup> Cooke purchases them for a very Small Sum and has got them Confirmed, he has Sold a part of this 1300 acres for 300<sup>l</sup> this is to my Knowledge true having Read the Deed, Cooke gave a Generall warrante to the purchasser: and why not any other old grant or any new grant be laid out in the woods as well as

M<sup>r</sup>: Cooke. Certainly if one can, all may: one of these grants was Consented to by Co<sup>l</sup> Dudley in 1710 but never laid out till now, the other was Consented to by the Present Government in No<sup>r</sup>: 1718 Since the woods was Denied to be the Kings, and Thus he has proved what he asserted I have Inclosed Copy of the original and Confirmed grants for their Lordships perusall.

I have this winter Discovered a Sort of People that under pretence of Getting masts Destroyes more trees than any people, these men are Employed by the Agent of him that Contracts w<sup>th</sup> the Navy one M<sup>r</sup>: John Taylor; 8ber last his Agent M<sup>r</sup>: David Jefferies comes from Boston, to Contract for a great number of masts, he takes no Notice of the Royal License, Nor me, Employs 5 Setts of Men to get what Masts he pleased, and what Number, these people goes Into his Majestys woods (as I think they are) and to cutting down of mast trees, which I forbid to Cut one tree without leave according to the Act of Parliament & Royal Lycense Imediately all these, Save 2 Setts, came to me for Leave which they had there 2 setts have been In the Kings woods, & have fell'd above a 150 trees notwithstanding I forbid them, before the Agents face & before the Leiv<sup>t</sup>: Gover<sup>r</sup>: and to Several of their friends, and all the ways possible I could, but all in vaine for they at last Bid Defiance to me and laught at me.

Thes setts of men, they say to a Country fellow do you get me Such a Tree and I will give you 4<sup>l</sup> according as they agree More or less, and so to another and another &c<sup>a</sup>: away goes all these fellows, ranges where they please, under the Notion of Mast men as they call themselves, and Cutts these trees Into loggs and often Supplys their Neighbors with loggs till they have Cutt enough, or what they Want yet the Tree agree'd for is not minded nor are they Seldom or never gott, this is the practise I am very Sure of it.

on the 6<sup>th</sup> of the last month I applyd to the Leiv<sup>t</sup>: Gover<sup>r</sup>:

here for a guard of horse w<sup>ch</sup> he Imediatly granted, and on the 9<sup>th</sup> with the Sherife having the Gov<sup>rs</sup> Warrant, psuant to a Warrant before obtained from the Lords of the Admiralty, I went into the Country and Seized Sixteen of the Trees Cut in his Majestys woods, for his Majestys Service, but the owners told me publickly they would Hew there the next week, I have given the Acc<sup>t</sup> to the Lords of the Admiralty and hope they will not release the Seizure, for it will be to the great Damage of his Majesty, it being made so Publickly That all Expects the Issue, if released no bounds or laws will reclame the people for the future. The offenders Names are Timothy, and Paul Gerrish, and Thomas Hanson, all of this Province of New Hampshire and Men of Estates I could have Seized more, but would not fearing it might have hindred the Loading of the mast Ships Expected this Spring w<sup>ch</sup> these will not, these very men have Cutt 12 large trees on that land Cooke has sold, but they Dare me to it, and Say I Durst not Seize one of them trees, nor shall I without order, for every one is upon me and against me, and that the King has no woods here which puts me upon my gard in this respect. I have Inclosed a bill for the prevention of all those Eviles if it meet w<sup>th</sup> their Lordships Approbation will Entirely Secure all the woods, and make it possible for the officer to do his Duty w<sup>ch</sup> now tis not,

The first paragraph in the Bill is that all the woods without the Townships are to be reserved as his Majestys, and to Support this, I humbly answer, That it is of absolute necessity his majesty has Some woods, to Supply the Navy with Masts &c<sup>a</sup> if this be granted I then say

That all the woods without the Townships are not a Particular, or any propriety, if So the King takes no right from any man only Secures the woods to him self, So no body is damaged thereby, and In case there Should be a Necessity, for laying out a New Town for the Benefit or good of his

Majestys Subjects, there is a Clause in the Bill, That the Gover<sup>r</sup> or Leiv<sup>t</sup> Govern<sup>r</sup> with the Surveyor of the woods, to lay out a proper place in these woods to be reserved; why the Gov<sup>r</sup> or Leiv<sup>t</sup> Gov<sup>r</sup> with the Survey<sup>r</sup> should lay out this place is, That as tis the Prorogative of the Crown his Majestys Officers are the properst for that Service, but let that be put in whose power it will, tis no great concern So the woods therein be preserved to the use of y<sup>e</sup> Crown There are no woods Else can be preserved, for all within the Town bounds are the peoples, and all w<sup>th</sup>out too M<sup>r</sup> Cooke Says, but that I submit to their Lordships, I hope I have hereby given Sufficient reasons, that these outwoods may be his Majestys

This forbidding to Cut a Pine tree, is like the forbidden Tree, thô the Tast was Death, that did not deter it, but all thereby was lost.

There is in this case but one Tree reserved, yett these people will Cutt, thô they loose their all, their Idol the Charter; for no mens actions will ever Submit, while the apprehension rebel, and those Disturbers of Government, have always laid their first Train in Contempt, and endeavouring to blow it up in the judgements and Esteem of their fellow Subjects, Contempt of his Majestys Authority, like the Planet of Saturn, has first an Ill aspect, and then a Destroying Influence how Studiously has these people layd about them ever Since, In the Assembly and in all their publick meettings, to Cast a Slur upon the Kings rights and Title, and to bring under a Disrepute the Prorogative amongst the Country people, the pyson is spread thrô the whole, to his Majestys great and never to be recovered loss unless the bill recovers it.

There are many other ways by which His Majestys woods are Destroyed, and will be in spight of fate, as long as there is but one person to Secure so vast a District, against 40000 men scatered thrô the whole and tis in any of their Powers

to goe and Cut Down what tree they please it is as Impossible for one Officer to Secure all these places, as tis for him to be at them all the same Moment of Time, besides the New Settlements making Every where no less than three In this Province. In the province of main tis all going to be Setled, if this be rightly Considered, they will be of my Oppinion. This affair being of the first consequence, as it is either Supported or Neglected, that can befall a Kingdom, Whose Safty, Whose Strength, Whose wealth, and Whose Glory, Depends on Naval Power, and have Dominions of its own, (which were they made more Dependant) could Supply, and Support, this Naval power forever, this is a happines no nation else can boast of.

These may make Great Britain, and his most Sacred, and most Sereen Majesty King George a noun Substantive, and not Depend upon any Nation under heaven for Naval Equipments, I am well assured the Bill will Entirely save all the woods if passed as tis drawn, that is to the same purport, and thô I am never restored I have done the Duty faithfully  
2 years the 19<sup>th</sup> June

The paragraph in the Bill wh. Obliges the Person, that Employs the Labouror, to pay 6/8 ps every Sound Tree; is for the reasons following it will first, bring the people to acknowledge that they are his Majestys woods which now they do not. The Surveyor will then know how many trees are cut and by whom, it will give a great Cheque to the Employers of these Labourers being under oath and let the Contractors agent know that the woods are under the Direction and Protection of the Surveyor! and not for him to Employ Men before hand and at his pleasure, which has been practiced without the knowledge of the Surveyor and greatly to his Majestys Damage, by Cutting what he pleased to order without taking any Notice of the Royal Lycence or Acts of Parliament, for these reasons I hope that paragraph

may stand, which is all I need answer for the rest carrys their own reasons in them I hope.

Thus I have playd the Misser who never Discovers the hidden treasure till near Death.

I have herein, and Inclosed all my Experience all my Judgment and Contrivance resulting from thence, for the good and Support of his Majestys Intrest here, under the Strictest Duty, as a Servant, and a Subject, and in the most obedientest manner to their Lordships, and In these have made known all my Treasure which for 23 years I have been Colecting in this Country, the Difference is the hidden treasure could not Continue life, Tho the Lords of the Treasury Can Continue their faithful Serv<sup>t</sup> and tho it can be true that I have out lived his Majestys Intrest here I humbly hope I have not out lived their Lordships favours nor forfeited their good oppinions.

Humbly begging their Lordships to represent my hard Case to the Lords of the Treasury for an alowance or my Salary, No person appearing to Superceed me.

There is yet another sort of People called Loggers which live every where and go where they please, these are the Common Enemies to all and Does great Damage to the Woods. they have now a Tacit Leave to go into the Woods upon, the notions that they may Cut any Tree that is not marked, w<sup>ch</sup> this bill Intirely cutts them off, Nor is the marking any Tree of any regard, for an Ignorant man will fall that tree soonest, for says he tis good for the tree is marked and Down that tree goes a Crafty man when he sees a Tree marked, he Imediately Cutts out the marke and Tree Down & Into loggs and so tis of all, for tis only an Amusem<sup>t</sup> and a Deceipt Instead of a gard, for no man Carrys a Witness with him when on Such vile actins, and tis as impossible to marke all the good trees, as tis to Count them all.

What is related being Truth their Lordships will see the

true State of his Majestys Intrest, and if no more officers or Deputys be allowed, nor more power given to the officer I can't pretend to Secure the woods as they ought to be, much more a Stranger, for he will Not be Able to Do any thing till by his own Knowledge, and Traviling he learns his Duty, for these people will keep him Ignorant most Certainly, and tis hard to learn, where all will obstruct, there are many other things I would have laid before their Lordships, but must heartiely begg their Pardon for this long Narration, and pray the Continuance of your honours good offices in my behalf for my Case is very Severe w<sup>ch</sup> I beg may be Considered to my reliefe for I cannot Subject my self, and Expect to be Troubled for the Money that has Supported and feed me.

Some reasons why 50<sup>l</sup> is put In lieu of 100 in the Bill answer.

That a hundred pounds Sterling kept their Neighbours from Informing against them knowing it would ruine them if they should Informe, now the Sum is less, they will Informe and the people will be able to pay that when they could not pay a 100<sup>l</sup> Ster<sup>l</sup> but if it be not agreeable I humbly Submitt it.

And as to the Woods, there was never any other woods but those without the Townships, ever thought to be his Majestys, nor has there been any other preserved So that I humbly hope it will not meett with any Difficulty in the passing, by reason twill Secure them better than ever before; and without it, will every day be worse for the People are grown so Numerous and so bold that nothing but an Act of Parliament well Executed upon offenders will be able to restraine the Liberty they take.

I have only to add my most humble Duty to their Lord<sup>ps</sup> Praying the Continuance of the favours by representing that I have Done the Duty two years the 19<sup>th</sup> of June next with-

out any Salary, and Whereas there has not any Person yet appeared to superceed me here, I am as much Surv<sup>r</sup> as ever, there being no other Commission but mine In America & if M<sup>r</sup> Barington Continues In England his Commission Shall never be good or In force here, and that he Designes to act by Deputy is Impossible, it never being the Intent or meaning of the Crown. I am sure here is business Enough for many persons that understand the Duty, but how many Ignorant persons this Service will require I cannot say.

I am

Your Hon<sup>rs</sup> Most Obedient and Most humble servant

My Lords

I am directed by my Hon<sup>ble</sup> Masters the Comm<sup>rs</sup> of His Majesties Customes bearing date the 31<sup>st</sup> Oct<sup>r</sup> Last (w<sup>ch</sup> did not come to hand till the 5<sup>th</sup> ult.) to lay before your Lordships what progress is made in New England, in the Manufactures of Woollens and linnens and how the Same are Encouraged.

As for the Woollens, the Country in Gen<sup>l</sup> make it for their own use and weare it commonly themselves here are Several Fulling Mills they make very good Druggetts Camblets & Serges which are Sold to the Shops and wore by the meanest Sort of People as for the Tradesmen they are very Ambitious of appearing above themselves and will not be seen in anything beneath the Merch<sup>t</sup> or more Substantiall which, is in the Produce of Europe.

As for the linnen Manufacture the Common people wear what they call Homespun which is made of Cotton and Linnen, tho wee have had lately Some hundreds of Irish Familys Setled at the Eastward which make as good Linnens and Diaper as in Ireland itself. This is what I have at present to offer to yo<sup>r</sup> Lordships upon this Head and hope yo<sup>r</sup> Lordships will believe that while I have the Hon<sup>r</sup> to be Collet<sup>r</sup> of his Majesties Customes in these Parts I shall take all possible Care to prevent as farr as in mee Lyes the Exportation of any woollens and to informe yo<sup>r</sup> Lordships from time to time what I think detrimental to the Trade and Manufactures of Great Britain as becomes

14th. What Forts & Places of Defence are there within that Province? and in what condition?

Castle Will<sup>m</sup> is the Cheif which defends Boston Harbour & is kept in very good condition. There are other little Forts in the Province of Main. There's a little one in Brunswick at y<sup>e</sup> head of Casco Bay called George's Fort, which has in it 15 souldiers, and a Capt. Lieu<sup>t</sup> & Serjeant. It is built of stone & lime, with four bastions, having 14 pretty large cannon mounted on ye Walls: There's another at a town call'd Augusta about 22 miles from Brunswick: & a third at Winter harbour a place about 4 miles westward of Casco. There is also a Garrison in Arowsick Island, where the inhabitants keep guard by turns, there being no Soldiers in pay.

15. What Number of Indians have you, & how are they inclin'd?

We have but very few Indians well affected to us that are able to go to war, excepting the Iroquoise ( who are call'd the 5 nations ) & they onely guard New York & keep a constant newtrality with the French Indians.

16<sup>th</sup> What is the strength of their Neighbouring Indians?

We reckon the Eastern Indians ( as they are call'd ) not to exceed five hundred fighting men. These are Situated at Penobscot & towards Nova Scotia. But the Canada Indians who some times come down upon our Western Settlements consist of many Nations, as the Hurons Illinois & others.

17<sup>th</sup> What is the Strength of your neighbouring Europeans?

We have none but the French of Canada, who can't hurt us but by Surprizing our Frontier Settlements, & so preventing the growth of the Colonies. Their Number is inconsiderable, compar'd with the British Subjects.

The same queries for New Hamshire.

May it please yo<sup>r</sup> Hono<sup>r</sup>

My last Inform'd yo<sup>r</sup> honour of my Arivall in Penobscot river, and would Crave leave to acquaint you that on y<sup>e</sup> 4<sup>th</sup> Instant I sett out to find the fort, and after five dayes march thro' y<sup>e</sup> woods wee Arived abrest of Severall Islands where y<sup>e</sup> pilot Supposed y<sup>e</sup> Fort must be; here we were obliged to make four Canoo's to ferry from Island to Island and Sent a Scout of 50 men upon discovery, on the 9<sup>th</sup> Instant who Sent me word they had Discover'd y<sup>e</sup> Fort & waited my Arivall, I left a Guard of a hundred men w<sup>th</sup> the provisions & Tents, and with the rest went to y<sup>e</sup> Scout being forc'd to ferry over to them, they had, & wee cou'd see y<sup>e</sup> Fort but not come to it by reason of a Swift River, and y<sup>e</sup> Ice at y<sup>e</sup> heads of y<sup>e</sup> Islands not permitting the Canoo's to come round. we were obliged to make 2 more, w<sup>th</sup> which Wee ferry'd over, and by Six in the Evening Arrived at y<sup>e</sup> Fort, Leaving a Guard of 40 men on the West Side of the river, to facillate our return.

Sir

Since my last Letter to you, I have rec<sup>d</sup> Advice from Cpt Heath of a Party of eleven Indians that appeard the 25 of March at Richmond & Shot one of that Garrison thro' the Body, Cpt. Heath is of Opinion that there are only a Scout for Discovery & that there is a greater Number near at Hand; You must be very vigilant & careful, & employ your Men in the best Manner you can for the Annoyance of the Enemy & Defence of the Frontiers, & if any Place should be distress'd Let them have speedy Relief. It is necessary that there sh<sup>d</sup> be a Vessel of some Force to carry Supplies to Richmond, and therefore you must Order the Sloop that was Strattons for that Service.

*Votes of the House of Representatives (at the Session of the General Assembly held at Boston March 15<sup>th</sup> 1722)*

Mr Cooke from the Committee Reported, That they having at sundry times made enquiry of the Situation and Circumstances of Fort Mary at Winter-Harbour, are humbly of opinion, That that Fort is of no Service as a Barrier or Security to the Inhabitants of that Town, nor any Bridle to the Indians. And there being now, as we are informed, but five centinels, and three of them old Men, the Guns belonging to the Garrison both Great and Small unfit for Service, and that in dry Seasons they are obliged to go two or three miles for Water for the use of the Garrison.

The Committee are therefore of opinion, That that Fort, being of no Publick benefit, It is for his Majesty's Service, That it be slighted and no longer continued. And that no

pay or Subsistance be allowed and paid out of the Publick Treasury for any Officer and Soldiers there, after the 12<sup>th</sup> day of July next, and that M<sup>r</sup>. Treasurer Allen be directed to take speedy Care that the Provisions, Ordnance, Arms, Ammunition and all other Stores of War at that Fort, be Transported to Boston and lodged with him.

Read and accepted.

Elisha Cooke Esq<sup>r</sup>. from the Committee on the Petition of John Smith &c Reported, The Committee having had Consideration of the petition of John Smith, &c. Proprietors of the Town of North Yarmouth, and the several Papers therewith Exhibited find that on the 26<sup>th</sup> of July 1684 Thomas Danforth Esq. President of the Province of Main, and by Order and Authority of the Colony of the Massachusetts who had purchased that Province of the Assigns of Sir Ferdinando Gorge did Give, Grant, Bargain, and Confirm unto Messieurs Jeremiah Dummer, Walter Gendall, John Royal and John York, Trustees on the behalf and for the Sole Use and Benefit of the Inhabitants of the Town of North Yarmouth mentioned in said petition. And that a Settlement was begun, but broke up by the Indian War. The Committee are therefore humbly of Opinion that Five Suitable Persons be appointed and constituted Trustees in the room and stead of Jeremiah Dummer and others first mentioned to carry on and perfect the Settlement of that Township according to such Rules and Methods as was then proposed, having special

Regard to the Original Proprietors and Settlers; and that the Number at present be sixty at least, and that the Town Book now in the hands of Capt. Samuel Phipps of Charlestown be put into the Hands of this Committee, a fair copy of all to be drawn out and sent to North-Yarmouth ( the Original to remain in Boston ) for the present ), under the Custody of a Clerk to be appointed for that purpose, that Attested Copy's may be given to such as want them. The Charge of this Committee to be born by the Proprietors and Inhabitants of said Town.

Elisha Cooke, per Order of the Committee.

I also order'd y<sup>e</sup> Boat to Richmond to direct the Officer there to keep good Guards, inasmuch as I had then but Just heard of Cap<sup>t</sup> Westbrooks being Attacked at S<sup>t</sup> Georges & the Dam<sup>a</sup> that was done there, but as soon as the Boat had got as far as Merrymeeting Bay they Saw about 30 of the Indians, who as soon as they found 'emselves discover'd man'd out their Canoos in chase of the Boat w<sup>ch</sup> was then obliged to return & soon got Clear of them, the Houses in the Bay were Just then Sat on fire, & after the Boat return'd to me w<sup>th</sup> the above Ac<sup>t</sup>, we Observ'd Smokes to rise in Long reach, & M<sup>r</sup> Allen y<sup>e</sup> bearer being at his own House about three Miles of, I was willing to try to save him, & Immediatly man'd out y<sup>e</sup> boat w<sup>th</sup> fresh hands & releaved him, who had been in defence of his House about two Hours, it happen'd we did not Loose a

man tho they fought the Indians about half an hour before they could get m<sup>r</sup> Allen away, it's probable our men wounded if not killed some of them. There is five Garrisons in this Town but can keep but three w<sup>ch</sup> will defend One Another & we are in a good posture of Defence. I am further Strengthening 'em according to y<sup>r</sup> Ex<sup>cy</sup>s order, they are within Shot of one Another & some good Houses between that we are able to recieve & Entertain a good Number of men.

Part of a Letter from the Governour of Boston viz:

"I find Commissioners will not be appointed to come meerly  
"to treat upon a Neutrality – if they may have the liberty

“to engage Five of the Mowhaws to go to the Eastern Indians, and acquaint them that they will take part with the English in case a War should break out, Our Commissioners will wait on you at the time appointed.”

Upon taking which Expressions into Consideration, This Board are of Opinion, That the Five Nations ought not to be engaged to leave this Province and concern themselves with the Eastern Indians since it may draw an Indian War on the Frontiers of this Province in its Consequences. That no more can safely be treated of by the Commissioners of Boston with the Five Nations then to renew the Covenant Chain with them, and to engage them to be no ways assisting or encouraging the Eastern Indians in the presence of the Governour of this Province or Persons appointed by him. And that they hold no private Conference with them directly or indirectly.

Falmouth Sep<sup>r</sup> 23<sup>d</sup> 1722

May<sup>t</sup> it Please your Excellency.~

I take this Oppertunity to Inform You that I Arrived at Piscataqua at 10 a Clock in y<sup>e</sup> Morning The. 15<sup>th</sup> Instant & Immediatly Waited on y<sup>e</sup> L<sup>t</sup> Governour Of Whom I rec<sup>d</sup> a Confirmation That There was 5 or 6 hundered Indians at Arrowsick upon which I Immediately returned to y<sup>e</sup> Sloops In Order to Sail but the Wind proving Contrary I was Oblidg'd To Stay till y<sup>e</sup> Next Morning. 3. of y<sup>e</sup> Clock And then proceeded to Arrowsick, where I Came to an Anchor at One a Clock on Monday Morning. I Waited upon Coll Walton who Told me y<sup>e</sup> Indians were Withdrawn & that he Intended to March that Day with 180 Men To Waylay the Indians In Their Carrying Places and Desired our

Company. Butt In as Much as the Indians were withdrawn I was willing To make my best way To S<sup>t</sup> Georges fearing y<sup>e</sup> Enemy might Attack it. Tuesday About five a Clock we Came To Sail & Came To the Mouth of S<sup>t</sup> Georges River on Wednesday Morning And not having a fair Wind went up In five whaleboats To the fort which I found In good Order the Indians having Attacked it y<sup>e</sup> 24<sup>th</sup> of August and Kill'd 5. Men y<sup>t</sup> were out of the Garrison They Continued Their Assault 12 Days. & Nights. furiously Only now and Then under a flagg of Truce They would have perswaded them to yeild of the Garrison Promissing Them to give Them good Quarter's and Send them To Boston. The Defend<sup>rs</sup> Answ<sup>rs</sup> Were That they Wanted no quarters at their Hands. Daring them Continually to Come on, and told them it was King Georges Lands And That they would not Yeild them up but with the Last Drops of Their Blood, The Indians Were Headed by y<sup>e</sup> fryar who Talked with Them und<sup>r</sup> a flag of Truce. and Likewise by Two french Men. as they Judg'd them to be. they Brought with them five Captives y<sup>t</sup> they took at S<sup>t</sup> Georges 15<sup>th</sup> June last. and kept them During the Seige. But upon their Breaking up. Sent M<sup>r</sup> John Dunsmore One of the Said Captives to y<sup>e</sup> fort to know Whether they would redeem them or no, Our people Made Answ<sup>r</sup> they had no Order So to Do, neither Could they do it upon which M<sup>r</sup> Dunsmore return'd to the Indians and they Carry'd the Captives Back to Penobscutt Bay and Then frankly released Three of Them Vizt M<sup>r</sup> John Dunsmore M<sup>r</sup> Thomas Foster and M<sup>r</sup> William Ligett.

One Joshua Rose y<sup>t</sup> was Taken at y<sup>e</sup> Aforesaid Time and place And whom the Indians had left Behind at Penobscutt Fort. Made his Escape. & After Six Days Travell Arived at y<sup>e</sup> Fort y<sup>e</sup> Second Day After the Seige Began he being Oblidged To make his Way Through the Body of y<sup>e</sup> Indians To Gett To The fort and was Taken In at One of the Ports,

I now Detain the four Captives to be as Pilotts to Penobscutt Fort Untill I Know your Excellency's Pleasure About them. They Inform me that the Indians have rebuilt Their fort at Penobscutt Since the 15<sup>th</sup> of June Oblidging Them To Work on it It Contains Ab<sup>t</sup> 12 Rodd Square Enclos'd With Stockado's of 12 foot High it has 2 Flankers on the East The Other on y<sup>e</sup> West and 3 Gates not at That time Hung they Have Likewise 2 Swivell Gunns. It is Situated On an Island In a fresh water River Twelve Miles from y<sup>e</sup> Salt Water The Captives Judge their is no way of getting to the Island but by Canoes or flatt Bottom'd Boats & it is Impossible to Carry up Whale boats by reason y<sup>e</sup> falls are 8 or 9 Long & Very Swift. That They Saw 12 or 13 Barrells of Gun Powder Brought To The fort By the Indians as they Said from Canada Ab<sup>t</sup> The Middle of July, They have a Meeting House within a Rod Thereabouts on y<sup>e</sup> Outside of y<sup>e</sup> South Wall of the Fort. it Being 60 foot Long. 30 wide and 12 foot Studd With a Bell In it which They Ring Morning & Evening~ The s<sup>d</sup> Rose Informs me They had a Considerable Quantity Of Corn Standing when he made his Escape. After I had Viewed y<sup>e</sup> Garrison I return'd In ab<sup>t</sup> an Hour &  $\frac{1}{2}$  to my Sloop Lying In y<sup>e</sup> Mouth of the River and Sent up one of them With a few Hands upon Deck as to Carry up stores To The fort and Sail'd with the Other Sloop for Arrowsick full of Men; To Induce the Indians Spy's To Beleive that We had Intirely Left the place, and That there was no Design, against Penobscutt, and Likewise To Inform Coll Walton of y<sup>e</sup> State of Affairs, not knowing but that he Might have Orders To Make an Attack upon Them.

This Being all y<sup>t</sup> is Materiall I make Bold to Subscribe my self

Your Excellencys Most Obedient Humble Servant

Tho<sup>e</sup> Westbrook

P. S. The Captives Inform'd me That y<sup>e</sup> most part of y<sup>e</sup> Indians food During y<sup>e</sup> Time of y<sup>e</sup> Seige was Seals which they Caught Dayly Keeping out a party of Men for that Purpose They Also Inform us & do Assert That there Is great Quantity's of Sturgeon Bass and Eels to be Caught Even Close by y<sup>e</sup> Island where Penobscut Fort is.

Coll Walton Desired me to Come Along with him To This Place To see what forces that he Could Draw, which I Did Accordinly and Brought M<sup>r</sup> Dunsmore and Rose along with Me. The Garrison at S<sup>t</sup> George has Expended most of their Amunition During y<sup>e</sup> Late Seige and I Desire your Excellency To Send p<sup>r</sup> y<sup>e</sup> first Oppertunity 4 or 5 Barrells of Gunpowder with Ball, Swan Shott and flints Answerable for y<sup>e</sup> Indians are resolved To Take y<sup>e</sup> fort if Possible. If there be no Oppertunity of sending it to S<sup>t</sup> Georges please to Order it to Arrowsick and I will fetch it in my Whaleboats.

My Lords

In obedience to yo<sup>r</sup> Lordships Reference I have Reconsidered the Charge Exhibited by me to yo<sup>r</sup> Lordships Ag<sup>st</sup> M<sup>r</sup> Armstrong, Collector of his Maj<sup>ty</sup>'s Customes in New Hampshire in New England and Deputy Surveyor of his Maj<sup>ty</sup>'s Woods in America and upon the most Impartiall and minutest Inquisition, I Cannot find occation to Recede in the least from what has been allready said; but Rather to agra-vate his Crimes by Repeating his own Imprecations but he is without doubt unfaithfull in his trust as will appeã to yo<sup>r</sup> Lordships thus— In the first place, He made Seizure of

Some Goods of Capt. Henry Slopers, who giving him some Moidores; as the S<sup>d</sup> Sloper told me, and the S<sup>d</sup> Armstrong Confessed he had Received; the goods were never more Enquired after. Secondly, The s<sup>d</sup> Armstrong in Conversation Said; that Cap<sup>t</sup> Henry Sherburn Was an ungrateful person: for that tho he had permitted Sherburn To Run great Quantitys of Spanish and Itallian silks; and Spanish & french Brandys & wines; and many other Things out of east India ships homeward Bound which Sherburn mett at Sea; Yett the S<sup>d</sup> Sherburn never gave him anything Equivalent; but a Peice of Silk for his wife and some Brandys and Wines and Tea and muslin. Thirdly, The S<sup>d</sup> Armstrong Seized Some Spanish wines part belonging to M<sup>r</sup> George Jaffrey and another part to M<sup>r</sup> Tobey; the first was Discharged and the latter Detained by Armstrong M<sup>r</sup> Jaffrey telling M<sup>r</sup> Armstrong to his fface in my hearing: S<sup>t</sup> if you keep my wines you shall not enjoy your Place; for I<sup>n</sup> write to England you Know I have Enough against you; and you will be Removed as Soon as my Letters are Received; this is allso Confirmed by Studlys affidavit. Fourthly, He Suffered two Thousand or therabouts of his Majestys mast Trees to be Cutt Down Which were afterwards Cutt into Loggs Then Seized by order of Assembly & Sold. Tis Submitted whether he Could Be ignorant in this Affair if he had attended his Duty; the like never happening in any former Surveyors time This is allso Confirmed by Cap. Husk. Fifthly, he has permitted Command<sup>rs</sup> of Vessells Bound to Spain, to carry Masts and other Timber fitt for Building Ships; which I believe Gives the King of Spain that Encouragem<sup>t</sup> for Increasing his Navall Power w<sup>ch</sup> we are Dayly Alarmed with in our Dayly news papers. Sixthly, He uttered himself in the following manner In relating a Story Disagreeable to him as I informed yo<sup>r</sup> Lordships concerning Coll<sup>o</sup> Philips Is it not a shame Says he that we must be Governed by Germans and have

such a fine English Prince of our own ; but I hope I shall yet Live to See the Right Heir upon the throne

Besides that he is a noted Irish Jacobite I subscribe my-Self with the profoundest Respect

*On His Majest<sup>ys</sup> Service To the Honourable William Dummer Esq<sup>r</sup> Liev<sup>t</sup> Governo<sup>r</sup> & Commander in Chief of the prov<sup>ince</sup> of the Massachusetts Bay In Boston*

To the Kings most Excellent Majesty in Council

The humble Memorial & Petition of James Woodside late Minister of the Gospel, at Brunswick, in New England.

Sheweth

That he with 40 Familys, consisting of above 160 Persons did in the Year 1718 embarque on a ship at Derry Lough in Ireland in Order to erect a Colony at Casco Bay, in Your Majestys Province of Main in New England.

That being arriv'd they made a settlement at a Place called by the Indians Pegipsco<sup>t</sup>, but by them Brunswick, within 4 Miles from Fort George, where (after he had laid out a considerable sum upon a Garrison House, fortify'd with Palisadoes, & two large Bastions, had also made great Improvements, & laid out considerably for the Benefit of that Infant Colony) the Inhabitants were surpriz'd by the Indians who

in the Month of July 1722 came down in great Numbers to murder Your Majesty's good Subjects there.

That upon this Surprize the Inhabitants, ( naked & destitute of Provisions run for shelter into your Pet<sup>rs</sup> House ( which is still defended by his sons ) where they were kindly receivd, provided for, & protected from the rebel Indians.

That the S<sup>d</sup> Indians being happily prevented from murdering Your Majesty's good Subjects ( in Revenge to your Pet<sup>r</sup> ) presently kill'd all his Cattel, destroying all the Moveables, & Provisions they could come at, & as Your Pet<sup>r</sup> had a very considerable Stock of Cattel he & his Family were great sufferers thereby, as may appear by a Certificate of the Governour of that Province, a Copy whereof is hereunto annexed.

Your Pet<sup>r</sup> therefore most humbly begs that in Regard to his great undertaking, his great Losses & sufferings, the Service done to the Publicke in saving the Lives of many of Your Majesty's Subjects, the unshak[en] Loyalty & undaunted Courage of his Sons, who still defend the S<sup>d</sup> Garrison. Your Majesty in Council will be pleas'd to provide for him, his Wife & Daughter here or grant him the Post of M<sup>r</sup> Cummins, a Searcher of Ships in the Harbour of Boston N England, lately deceas'd that so his Family, reduced to very low Circumstances may be resettled, & his losses repair'd where they were sustain'd.

& Your Pet<sup>r</sup> shall ever pray &c.

I do hereby certifie that the Rev<sup>d</sup> M<sup>r</sup> Woodside went over from Ireland to New England with a considerable Number of People, that he & they sate down to plant in a Place they called Brunswick in the Eastern Parts of New England there he built a Garrison House, which was the Means of saving the Lives of many of his People in the late Insurrection of the Indians in July last. That his Generosity is taken Notice

of by both Doctors Mathers & that the Indians cutt off all his Cattle, whereby he and his Family are great Sufferers

*Defence of Robert Armstrong.*

To the Right Honorable the Lords Com<sup>rs</sup> for Trade & Plantations.

The Defence of Robert Armstrong Deputy Surveyor of His Majesties Woods in North America and late Collect<sup>r</sup> of the Province of New Hampshire.

Is most humbly offer'd

May it please Your Lordships

The complaints against me are of three Sorts: That I have been unfaithful in my Office of Collect<sup>r</sup> That I have suffer'd His Majesties Woods to be destroy'd contrary to my Duty as Deputy Surveyor, and, That I am a Man of Disloyal Principles, and a Noted Irish Jacobite. As this last Charge affects me most nearly, I shall beg leave to begin with That.

Richard Sharp is the person that brings this Charge and says, that I deliver'd myself in the following manner (relating to a Story disagreeable to me concerning Col<sup>o</sup> Phillips) Viz<sup>t</sup> "Isit not a shame we should be govern'd by Germans and Dutch, and have such a fine English Prince of our own, But I hope I shall yet live to see the right Heir upon the Throne", and then adds, That I am a Noted Irish Jacobite.

To this I reply, first, That the Accusation is very general and uncertain; neither mentioning the time nor place nor Company before whom these words were utter'd, which are Circumstances that carry at least a presumption of the falsehood of it.

2<sup>dly</sup> That my accuser is a Person of very profligate Character & had a particular Malice against me, and had often declared that he would, upon his arrival in England endeavour my Ruin.

His Character, I prove, by Col<sup>o</sup> Armstrong, who has already acquainted Your Lordps, That he was so profligate that no person of Reputation would admit him into their Company: By a letter from M<sup>r</sup> Bacon my Successor to his Brother S<sup>r</sup> Edmund, wherein having assured him of my good Behaviour, He declares That Sharp was a Man of a wicked & scandalous Character, & that no Credit was to be given to him; By two letters from the Lieu<sup>t</sup> Gov. Wentworth, one to M<sup>r</sup> Secretary Carbass, & the other to M<sup>r</sup> Jeremiah Dummer in London; and by another Letter from M<sup>r</sup> Samuel Dummer Naval officer at Boston to his Brother the S<sup>d</sup> Jer. Dummer.

His Profession was that of a Quack Doctor as appears by one of his printed Bills ready to be produced.

The Ground of his prejudice to me was occasioned by an Action I brought against him for Male practice in his profession, he having my Wife, ( then ill ) under his Care; and it was upon the clearest proof of his vile Character attested by the greatest Physicians & Surgeons in Boston that I recover'd of him thirty pounds for damages; I have this attestation to produce.

His particular Menances to ruin me in England are sworn to by the Rev<sup>d</sup> M<sup>r</sup> Emerson Minister at Portsmouth in New Hampshire; and M<sup>r</sup> Story where he lodged.

To prove my General Character of Loyalty & Attachment to His present Majesty, I have a Cloud of Witnesses Particularly, A Certificate from the Govern<sup>t</sup> & Council of his Maj<sup>ties</sup> Province of New Hampshire, & another from the Bench of Justices there. As also, a Letter from the Lieu<sup>t</sup> Gov<sup>t</sup> of New England ffrom the Secretary of that Province, ffrom the Judge of the Court of Admiralty, ffrom the Survey<sup>t</sup> General & all the officers of the Customs; And, ffrom the principal Merchants of the Country, who have known me more than Twenty years. And if all these be not sufficient to establish my Character ag<sup>t</sup> the Malice of one Infamous Man, I must then have recourse to Col<sup>o</sup> Hunter Govern<sup>t</sup> Shute Gov<sup>t</sup> Phillips Col<sup>o</sup> Armstrong M<sup>t</sup> Dummer M<sup>t</sup> Newman and the Principal Merchants on the Exchange trading to New England, who will be ready to do me Justice.

So that, May it please yo<sup>t</sup> Lordsp<sup>s</sup>, if it were possible (after these Proofes to the contrary) for me to have been a Jacobite yet I must have been a very secret conceal'd one and not a Noted Jacobite, as this false witness affirms, And I must beg leave to take notice of the Infatuation of the Man in not being contented to call me a Noted Jacobite; when in truth I was neither born in that Kingdom, nor ever lived there, nor any of my ancestors. that I know of.

Having thus, my Lords, as I hope abundantly justified my General Character of Loyalty and ffidelity in the Posts I sustained; I shall proceed to vindicate myself from the Particular accusations bro<sup>t</sup> ag<sup>t</sup> me.

Cap<sup>t</sup> Bolam's letter, upon Yo<sup>t</sup> Lordships ffile, That I stopt his Ship, laden only with Lumber, and demanded ffifty pounds above my stated fees, and that he at last gave me Twenty pounds to let her go. It is said, laden only with Lumber, to insinuate that I stopt his Ships arbitrarily, & without Cause, only to extort money out of him; whereas I have his Clearance to produce, whereby it will appear That

he had on board forty eight Masts, and some above 24 inches; which made it my duty to stop the Ship, and I made him give Bond according to Act of Parliament That he should on his Arrival in England tender them to the Crown: And in consideration of my extraordinary trouble which he thereby occasioned me, He left me upon his sailing Twenty pounds, N: Engl<sup>d</sup> mony, which is ab<sup>t</sup> seven pounds Sterling which He has declared upon Oath was Civility mony, and what I well deserv'd. It further appears very plainly, that he was influenced by Cap<sup>t</sup> Huske to make that Complaint ag<sup>t</sup> me; (either wilfully ag<sup>t</sup> his own knowledge, or as I am rather apt to believe inadvertently) by one particular, which is This: In the Complaint which he sign'd with the said Husk and Sharp, He charges me as being notoriously disaffected to the Governm<sup>t</sup> whereas in his Affidavit he affirms he never heard either in New England or elsewhere, that I was in the least suspected to be Disaffected to His present Majesty, but really believes the contrary, And that what the said Sharp had sworn to that purpose was groundless false & malicious. What credit therefore is to be given to his Information is humbly submitted to yo<sup>r</sup> Lordps. And for Yo<sup>r</sup> Lordpps further satisfaction, I hope to bring him personally before your Lordships. In the mean time it is not pretended but I did my duty faithfully to the Crown, in not suffering the Masts to be exported till I had taken the proper Bonds in that Case.

The next accusation is a Paper in the name of James Stoodly Master of the Sloop Endeavour from Cales & ffyal, which charges me with Seizing a Quantity of Wines on board the said Vessel & then releasing them, having a particular part to myself.

I must beg your Lordpps to view this Paper, it carrying apparent marks of Imposture; His name tho' but a dissyllable is spelt false in four letters; The Justices name is set to

it instead of the Deponent's; And the Captain of this pretended affidavit is Coram Ellis Huske & John Ray, instead of the Justice; They are both private men, and one of them Viz<sup>t</sup> Ellis Huske the very man who has stir'd up all this Mischief ag<sup>t</sup> me.

I heard of this attempt before I left New Hampshire, and therefore cited Cap<sup>t</sup> Stoodly before the same Justice, whose name is to the Paper; where he made Oath That Ellis Husk often prompted him to make such an Affidavit, but he refused it, the matter of it being entirely false; I have also the Justice's own Affid<sup>t</sup> taken before another Justice of the Peace & one of His Majesties Council for that Province, That the said Husk did bring before Him the said Cap<sup>t</sup> Stoodly with an affid<sup>t</sup> ready drawn & prest him to swear to it but he refused it. Both these affid<sup>ts</sup> were authentically taken, and for a further Confirmac<sup>on</sup> of them are attested by the Publick Notary; To this I am ready to add my own Oath That I never Seized the Ship: and the wines being a small Quantity mençon'd in the affid<sup>t</sup> for the Ship's Stores & a few presents, and I never had the value of a single Bottle from either the Master or Owners for myself.

I come now in the last place to the Articles drawn up by this Ellis Husk himself ag<sup>t</sup> me, which are General Charges, & those not sworn to.

To invalidate this man's Evidence, I pray Your Lordps to consider

First, That I have just prov'd him guilty of attempting a Subornation of Perjury ag<sup>t</sup> me, both by the Oath of the Justice of Peace & also of the Person, whom he would have suborn'd

2<sup>dly</sup> This is the same Person, who has accused me of being a Notorious Jacobite, which I have already prov'd to be false by all the principal Persons in both Provinces & by the

worthy Gentlemen who appear'd before yo<sup>r</sup> Lordships in my Vindication.

3<sup>dly</sup> It is the same Person who has charged me as one noted for being guilty of Perjury upon Record, and yet no other Person in the Province knows any thing of it, I having produced to your Lordships, attestation of my honesty & Good Character from the Governour & from all the Judges & Justices who must have known this had it been fact, nor does my answer produce a Copy of this pretended Record, or mention any Punishm<sup>t</sup> inflicted on me upon my conviction, which surely he ought to have mention'd; I must therefore flatter myself, that yo<sup>r</sup> Lordship will not give the least Credit to the Testimony of a Man who has been guilty of such flagrant Malice, and improbable falsehoods.

4<sup>thly</sup> It is the same Man, whom I prosecuted & brought to Two Trials for having cut down trees contrary to Act of Parliam<sup>t</sup>. The last Trial Gov<sup>r</sup> Shute & Lieu<sup>t</sup> Wentworth were both present at, a Copy of the Proceedings I sent to your Lordships And this is the true & only Cause of his inveterate Malice.

It would, My Lords be an insupportable Hardship if such a Man's evidence should be taken ag<sup>t</sup> an officer, who has faithfully done his duty, and for that very reason only because he has done it, and it would discourage any officer for the future from discharging his Trust. Had I conniv'd at Capt. Husk's illegal Practices it is very plain he would never have complain'd ag<sup>t</sup> me.

His charge of my suffering many Mast Trees to be cut into Logs being a bare assertion I can only confute by as plain a denial of it; And the attestations of Col<sup>o</sup> Wentworth Lieu<sup>t</sup> Gov<sup>r</sup> M<sup>r</sup> Minzies, Judge of the Admiralty, & several other Persons of Distinction; who declare not only my fidelity & diligence in preserving the Masts, but particularly that I had brought on me the Malice of several Traders & especially of

Ellis Husk for selecting & prosecuting them according to my Duty.

There were no Trees converted into Logs in my Time, save 300 which were cut in M<sup>r</sup>. Bridger's time; The great Waste made then, and the care I have taken since to preserve His Majesties Woods will appear by the Affidavits of Edw<sup>d</sup>. Hall, Capt. Elisha Plaisted & Capt Benj<sup>a</sup>. Wentworth ( who were imploy'd ) as Deputies under M<sup>r</sup>. Bridger and since by me ) and likewise the Certificate of M<sup>r</sup>. David Jeffries who has been many years Agent & ffactor for supplying His Maj<sup>ties</sup> Navy with Masts. The care I took of those Trees will appear from Col<sup>o</sup>. Wentworth's Certificate & the Copies of my Proceedings in getting the said Masts appraised & exposed to Publick Sale.

There is one particular article w<sup>h</sup>. Capt. Husk charges upon me, That he being ready to sail with the Ship Lancaster for Great Britain laden entirely with Lumber, I stopt him a Month because he would not comply with my unreasonable Demands. This is false in every part of it, for ffirst, she was not laden nor had any sails bent to the Masts, nor the Ship's provisions on Board when he demanded his Clearance; as I am able to prove by my officers affidavits whom I sent on board to view the Ship. And Yo<sup>r</sup>. Lordships will please to observe that it would have been no way proper or safe for me to have clear'd the Ship till she had her full lading, and was on the point of Sailing. In the next place, it is false that she had nothing on board but Lumber; for it appears by her Clearance which I have, ready to produce, that she had on board 27 Masts from 18 to 23 inches and 21 Bowsprits, & therefore I could not give him a Clearance without Bond, these being enumerated Coñmodities. I must likewise take notice to Your Lordships That he had an ill design in demanding his Clearance at the time he did, because it was near a month after he sail'd or was ready to sail.

What this man says, that I suffer'd Cap<sup>t</sup>. Macphedris and Cap<sup>t</sup>. Sherburn to export Masts directly for Spain, is equally false; It is true May it please Your Lordships, That there have been Ship loads of Plank & Timber carried from New Hampshire to Lisbon, & that I have clear'd those Ships, because there was no Act of Parliam<sup>t</sup>. to forbid it, tho' at the same time I did it with extreme Regret; ffor a proof of this, I humbly refer myself to my letters to your Lordships for several years running, and in particular my letters of the 20<sup>th</sup> Nov<sup>r</sup>. 1720 & the 20<sup>th</sup> Oct<sup>r</sup>. 1721 in which I complain'd of this practice as an Injury to Great Britain, & therefore inclosed in those letters the Specimens & Quantities of Plank & Timber so exported, which I presume no officer ever did before me, And for this Information I received the Great Honour of Your Lordships thanks. If there were any Masts exported to fforeign parts while I was upon the Spot as Deputy Servey<sup>r</sup>. it was by ffraud & Stealth; And this very Complainant was the likliest man to be guilty of it; he having practiced that Trade & also insinuated to others, That the King had no right to the Woods there, and built a Ship for the Carrying on that very Trade & made two Voiages since I came away, as Capt. Bolam can inform yo<sup>r</sup>. Lordships.

My Lords, having thus gone through my Defence, I must humbly beg leave to observe to yo<sup>r</sup>. Lordships.

That it is Two and Twenty years since I first went to New-England as Secretary to the Earl of Bellomont, being recom<sup>d</sup>ended by the late Sir Matthew Dudley, & was soon appointed Naval Officer for N. Hampshire. But His Lordship dying in a little time, I came home & making a Representa<sup>ç</sup>on of the State of the American Woods & of the nature & produce of the Northern Colonies, and how they might be made more beneficial to the Mother Kingdom; a new Establishm<sup>t</sup>. of the Customs was thereupon made, and I was

presented to the then Lord High Treasurer to be Survey<sup>r</sup> General of the Customes in N. America.

His Lordship having promised (to another) This place, appointed me Collect<sup>r</sup> for New Hampshire assuring me that I should be better provided for, and in that office I have continued till now being fifteen Years. I might also mention that it was upon my Memorial, that an Encouragement was given to raise Naval Stores in America, which presently sunk those imported from the East Country to half the value.

For your Lordships further satisfaction as to my former Services, I humbly refer to the two Presentm<sup>ts</sup> from those Com<sup>rs</sup> of the Customs to the Lord High Treasurer dated the 25<sup>th</sup> June 1709, setting forth at large all my former Services; and likewise to their Original Certificate annexed to the same.

Upon the whole, My Lords, I most humbly hope and pray That after having for so many years faithfully serv'd the Crown, & laid up nothing for my Support, (and having the Misfortune of being cast away in coming over) I may not be blasted in my Name and Character & ignominiously turn'd out of His Majesty's Service upon the accusation of Two men, One of them being infamous & Both, of declared Malice ag<sup>t</sup> me.

All which is humbly Submitted to your Lordships

By your most obedient humble Serv<sup>t</sup>

6<sup>th</sup> January 1724.

*Letter L<sup>t</sup> Gov. Dummer to Mons. Vaudreuil*Boston N E Jan<sup>ry</sup> 19, 1724S<sup>r</sup>:

Your Letter Dated Quebec Octob<sup>r</sup> 29<sup>th</sup> p Henry Edgar one of the English Captives came safe to me on perusal whereof I am greatly surprized at the matters contained therein, which are so unjustly represented that I cannot satisfy my self to pass them by unanswered.

In the first place As to what you say relating to the Death of M<sup>r</sup> Ralle the Jesuit which you set forth as so inhumane & barbarous, I readily acknowledge that he was slain amongst others of our Enemies at Norrigwalk, And if he had confin'd himself to the professed Duty of his Function viz<sup>t</sup> to instruct the Indians in the Christian Religion, had kept himself within the Bounds of the French Dominions & had not instigated the Indians to War & Rapine, there might then have been some ground for complaint. But when instead of preaching peace Love & Friendship agreeable to the Doctrines of the Christian Religion he has been a constant & notorious Fomenter & Incendiary as flagrantly appears by many original Letters & Manuscripts I have of his by me to the Indians to kill burn & destroy, and when in open violation of an Act of Parliament of Great Brittian & y<sup>e</sup> Lawes of this Province strictly forbidding Jesuits to reside or teach within the Brittish Dominions he has not only resided but also once & again appeared at the head of great Numbers of Indians in an hostile manner threatning & insulting as also publicking assaulting the Subjects of His Brittish Majesty, I say, if after all, such an Incendiary has happen'd to be slain in the heat of Action among our open & declared Enemies, Surely none can be blamed therefor but himself, nor can any safeguard from you or any other Justify him in such proceedings; And I think I have much greater cause to complain that M<sup>r</sup> Willard the Minister of Rutland (who never

had been guilty of the Facts chargeable upon M<sup>r</sup> Ralle ) who applied him self solely to the Preaching of the Gospel was by the Indians you sent to attack that Town, assaulted, Slain & Scalp<sup>t</sup> & his Scalp carried in Triumph to Quebec.

As to the next Article you mention "That S<sup>t</sup> Georges River was in the year 1700 by order of the Two Crowns mark'd as the bounds of the English & French Lands whereby it appeared that Penobscot was given to you, & that one La fevre had a right to the Land thereabouts & that all Vessells paid a Duty to him & that M<sup>r</sup> Capon Envoy of Engl<sup>d</sup> when K : George came upon the Throne went to ask the Penobscot Indians to Submit themselves to England which they refused," I have no difficulty to answer to each of the aforesaid points, & as to the Last relating to M<sup>r</sup> Capon you labour under a very great mistake to mention him as an Envoy of England he being far below any such Character, & only an Inferiour Officer, Commissary or Victualler to the Garrison of Annapolis, & some time after that was taken & yielded up to the English sent by the Lieut Gov<sup>r</sup> of that place to visit the French Settlements within that district & to require the Oath of Allegiance & Fidelity from them to Queen Anne, but he had no occasion to come and entice the Penobscot Indians to submit themselves to England, for they as well as the Narigwalk Indians & many other Tribes had done that long before even in the year 1693 at a Treaty with S<sup>r</sup> W<sup>m</sup> Phips Gov<sup>r</sup> of this Province, by which Treaty I can make it appear that they not only submitted themselves as Subjects to the Crown of England but also renounced French Interest & quitted claines to the Lands bought & possessed by the English, But since King George came to the Throne M<sup>r</sup> Capon has not been in those parts at all as I am inform'd by the People of that Countrey. As to S<sup>t</sup> Georges River being the Bounds & La ffevres pretended Right, it seems very wonderfull you should make any

tion of these things or lay any weight upon them at this time, when if the Case were formerly as you now represent it which I do not allow, all such Claim & pretention is wholly superceded & at an end whereof you may soon & easily satisfy your self by consulting the Treaty of Peace at Utrecht concluded between the Two Crown in the Year 1713. by the twelfth Article whereof it is provided "That all "Nova Scotia or L Acadie with its antient Boundaries &c "together with the Dominion property & posession of the s<sup>d</sup> "Isl<sup>ds</sup> lands & places & all Right which the most Christian "King, the Crown of France or any the Subjects thereof "have hitherto had to the Isl<sup>ds</sup> Lands & places & the Inhab- "itants of the same are yielded & made over to the Queen "of Great Brittain & to her Crown for ever" Now by the afores<sup>d</sup> Resignation the French King quitted all Right not only to the Lands but also the Inhabitants whether French or Indians or whatsoever they were & transferr'd the same to the Crown of Great Brittain for ever, whereby you are entirely cut off from any claim to the Subjection of the s<sup>d</sup> Indians from thence forward.

And We are not ignorant how far the French King understood the Countrey of L'Accadie to extend Westward by Patent granted to Mons<sup>r</sup> D'Aulney though you seem to be a Stranger to it.

"As to the whole Nation of the Indians exclaiming against some of their Tribe as pretending they were Suborned to give Deeds for their Lands, if it be matter of Fact that they do so which is hard to be conceived, it is a most unjust Imputation & must argue a wonderfull deceitfullness & self contradiction in them, since they have upon all Treaties when the whole Tribes were together constantly acknowledged & submitted to the English Titles & posessions which they had by honest & lawfull purchase acquired.

As to the building of Forts any where within the Brittish

Dominions, I suppose you will not Scruple to acknowledge that the King of Great Brittain has as good a Right to erect Fortresses or places of Defence within his Dominions as the French King has in his, & therefore when you shall please to give me Instances of the French Kings applying himself to the Indians for leave to build a Fort or Forts for the Defence of his Subjects, I shall then give you a further Answer to that Argument. And in the mean Time I must tell you We have alwaies treated the Indians with Sincerity, & never thought it proper to make Apologies for Building Forts within our own Jurisdiction (as you insinuate) but on the Contrary in all our Treaties with them have asserted our undoubted Right so to do.

You likewise signify that we must blame no Body but our selves for the Violence & Hostilities committed against our Nations by the Indians, but Sir, if the Blame must ly where it ought, we must impute their Outrages & falseness & Ill Conduct towards us not so much to their own Inclinations, as to the Instigations of the Jesuit Ralle & others under your Government whereof we have had sufficient information from time to time, as also of your own forcing the Indians against their Wills upon our Fronteirs to destroy & cut off our people, which cannot be otherwise lookt upon than as a Direct & notorious Violation of the Treaty of Peace at Utrecht

Nevertheless Sir after all, I have much greater Inclination to live in Amity & good Correspondence with you than otherwise, & therefore I have sent Col<sup>o</sup> Sam<sup>l</sup> Thaxter one of his Maj<sup>ties</sup> Councill & Col<sup>o</sup> William Dudley Speaker of the House of Represent<sup>ves</sup> who are comissionated to confer with you pursuant to such Instructions as they have rec<sup>d</sup> from me And I desire you will give Credence to them accordingly.

I am S<sup>r</sup> Y<sup>r</sup> most humble &  
most Obed<sup>t</sup> Serv<sup>t</sup>

My last Inform'd of my Arrival here and my makeing the best of my way to visit all the Frontiers but I have been stopt by a long and Tedious storme, notwithstanding I wrote Orders to all the Officers on the 24<sup>th</sup> Inst<sup>t</sup> about eleven a Clock, and about three a Clock in the Afternoon, wee heard an Alarm from the Westward, but could not hear the Occasion of it till the 27<sup>th</sup> Currant, whereof I Enclose a Coppy. they have taken a great deal of pains to get a Doctor for the wounded man, they went to Portsmouth and brought one as far as York, and there he was taken sick, so they returnd and went as far as Greenland but could get none from thence, they came to ffalmouth for Docter Negus, who was taken sick the 27<sup>th</sup> Inst<sup>t</sup>. and died the 29<sup>th</sup> between Eight & nine a Clock in the Morning. wee have had an Instance of the like Sudden death in the past week, a Stout man about twenty five years of Age was taken sick and died in about forty hours – we stand in Absolute necessity of two Docters to visit the sundry sick among us and likewise to Dress the wounded man Docter Bullman haveing his hands full at Richmond & Arrowsick. I doubt not but your Hon<sup>r</sup> will take speedy care to send them. I wait with patience as

it is my duty to hear what your Hon<sup>rs</sup> pleasure is relating to the Affairs in the frontiers. If Docter Moody be not Engag'd he would be very Acceptable in general wee haveing had Experience of him last Summer and his Practice generally Attended with Success

My last of the 29<sup>th</sup> of March Inform'd of the death of Docter Negus, and sundry sick people that wanted a Docter and not haveing heard from Richmond in Eight or Ten days I had some small hopes that Docter Bullman might be spard to make a visit to Falm<sup>o</sup> to give directions what might be best to do for the sick but when the

Express arrived there they found two men had lately died and that Cap<sup>tn</sup> Heath's brother and two or three men were still sick Captain Penhallow writes me that there were several sick at Arrowsick so y<sup>t</sup> Docter Bullman could not be spared. Here is no less than Ten or twelve sick, several of them are recovering Cap<sup>tn</sup> Penhallow Judges y<sup>t</sup> the Indians was about there garrisons on the 29<sup>th</sup> of March. part of them for wee have not more than will be sufficient to way lay Saco & Amuscoggin rivers & keep our garrisons, for in my Letter of the 05<sup>th</sup> of March I gave an Account of as small a number as I thought necessary to be on those rivers and which are as many as I can possibly draw and leave the garrisons and Towns their Quota as your hon<sup>r</sup> has ordered, there being but three Comp<sup>ys</sup> to march which if full is 150 and your Honours orders is that the garrisons of York Wells and Berwick be not lessned which I believe are as few as can be for their security, all the other Towns and garrisons are not better provided for altho more Exposed, and had I rec'd the 114 men according to your Hon<sup>rs</sup> Letter to me some time since I should not have had more then the 3 Comp<sup>ys</sup> full but I want Twelve of them and I believe your Hon<sup>r</sup> has dismist ten or Twelve more and it has pleas'd God to take of Eleven or Twelve by death so that the raising of 30 men more will but make up the old Number theres 15 men out of the Marching Comp<sup>ys</sup> to Cover Dunston, Scales and Mitchels and they are daily beging for more and my orders is to Call them off to march which if done they must draw off also wee have not then 30 men sick so that they are not fitt for any service but must be tended, I have lookt over my Journal and Enclosd an Acc<sup>t</sup> of those deceast, taken Captive, & deserted, since I gave in my Account, by This and what I have already writt your Hon<sup>r</sup> may see how wee are decreast. There is a house Lately made defenceable near y<sup>e</sup> head of York river built by M<sup>r</sup> Robert Cutt and some few Inhabitants reside there the keeping of which house will be a very great Annoyance to y<sup>e</sup> Enemy and will be a great Security to the greatest part of Kittery and all the Inhabitants on the south side of York river it being the place where the Indians frequently come in with their Scouts. Yesterday morning about 9 of y<sup>e</sup> Clock three of my men going, within a Gunshot of y<sup>e</sup> Garrison ( to drive up some

Cows ) were ambushed by about 50 or 60 Indians whom we Judge fired upon the Enemy, who Immediately discharged upon 'em about 20 guns, & then ran directly upon our men, after that they fired upon this Garrison sometime, while a party of 'em were destroying the Cattle, they tarried here three or 4 hours before we discovered 10 Canoes going off, who landed about a Mile distant from us upon this Island, I then Mustered of our Little party what I Could Venture to draw out of y<sup>e</sup> Garrisons, w<sup>th</sup> the Assistance of Cap<sup>t</sup> Tilton & five or 6 fishermen, I went out to bring off the dead men, Supposing they had been kill'd, & after we had Scouted an hour or two about a Mile round upon this point, we return'd with-out finding them, so that we Judge they Carried 'em off alive.

The Indians are Still about us, this morning before Sun rise Severall appeared runing into the woods, who Skulked near y<sup>e</sup> Garrison Last night ~ I expect we shall have 'em about us till we have Some reliefe, our weakness being now discovered. the Men being posted in the three Garrisons I Could not at this Juncture Send off a Boat w<sup>th</sup> Intelligence without danger of having her Surprized as well as runing y<sup>e</sup> hazard of Loosing the three Garrisons, So that I have desired Cap<sup>t</sup> Tilton to be the beare thereof as far as Falmouth other-ways must have run y<sup>e</sup> risque of Sending off a Boat.

This morning about Ten a Clock Cap<sup>tn</sup> Franklin brought  
us this Maloncholly Account Viz<sup>t</sup> That the Indians on the  
first of May last way layd Cap<sup>tn</sup> Winslow on both sides Saint  
Georges River as he was going to the garrison with Seven-  
teen men in two Whalboates, whome Indians have killed or  
taken all but three that made their escape and got to the  
garrison they say there was a great number of the Indians,  
who fir'd on our people first from the Western side the river,  
as soon as they had fired they put off in their Canoes and  
fell on our people very furiously, so that our boates were  
oblig'd to part they over powering them with a superior  
number. Cap<sup>tn</sup> Winslow endeavoured to land on the West  
side and so long as he was seen by our people fought boldly  
and bravely, And it is Judgd killd several of the Indians,  
Sarj<sup>t</sup> Harvey landed on the East side hoping to get clear of  
them but as soon as they landed there was another Consid-  
erable party mett him and shot him down after they had

changd some shots on both sides our people were then obligd to draw off as well as they could, one of them did not get into the garrison till three days afterward he saw an Indian that day, our people trackt some about a week after not more than one hundred yards from the garrison. It is Judg'd there is a party lurking about the river and garrison still ~

Where they fird on our people first, they Judge there would not be less then Thirty Canoos besides three Ambuscades more One on the West and two on the East sides the River, Wee have not men to look for the Dead bodies of our friends so that our Enemies have a double triumph over us — Cap<sup>tn</sup> Harmons Comp<sup>y</sup> being at the Westward and the army is so decreast as I have already given your Hon<sup>r</sup> an Acc<sup>t</sup> of in part and shall be able to give it in full when I come to Boston.

*Letter L<sup>t</sup>. Gov. Dummer to Gov. Saltonstall, of Conn.*

S<sup>r</sup>

I wrote your Hon<sup>r</sup> 30<sup>th</sup> Decemb<sup>r</sup> last in order to obtain from His Maj<sup>ties</sup> Government of Connecticut a supply of Forces to join with the Towns of this Province in covering some of the most exposed Towns in the County of Hampshire & thereby your own Out Towns from the Attempts of the Indian Enemy, At the same time in compliance with the desires of your Gen<sup>l</sup> Assembly of Octob<sup>r</sup> last, An account of the just Grounds this Government had to declare War against the Eastern Indians was by the Secretary transmitted to you, as also our Treaty with the Mohawks & altho nothing has yet been done on your parts in answer to our proposals at that time, yet the Occasion still remaining & the

Generall Court of this Province being now again convened & having under their consideration the Defence of the Western Frontiers, they have unanimously desired me to renew my Motion to you on that Head. The Season of the Year being now come on when the Indians suppose they can make their attacks with the greatest advantage to them & the most disadvantage to us, & there being advices from abroad that there is not now an Indian Man to be seen in such places as they use to frequent gives us strong grounds to conclude they are preparing to make a violent Effort on some place or other as soon as they can meet with a fit opportunity for it, so that it appears absolutely necessary to have a considerable Force on the Fronteirs either to keep or beat them off: & this Province having Fronteirs of so large an extent we are exposed to a most heavy charge for the Defence of them. Now althô War has not been proclaimed against the Indians in Form by the Government of Connecticut as by this Government yet inasmuch as we are both embarked in the same Bottom, are under the same Crown, our Interests are the same, inasmuch as His Maj<sup>ty</sup> has given his commands & directions to the severall Governm<sup>ts</sup> on this Continent for assisting one another in case of a War & most especially inasmuch as our Western Towns are the immediate Barrier & Cover to yours & that if ours should be broken up or drawn off, yours would be exposed to the Fury & Ravages of the Enemy in the same manner as ours now are. We cannot but judge it highly reasonable & we doubt not but upon mature Deliberation you will do so too, that you should join your Forces to ours for the Mutuall Defence of both.

Besides the Forces which have been formerly posted in those Towns, I have upon the advices rec<sup>d</sup> lately made a further addition to them, but these also are not sufficient to give the Enemy a warm Repulse & althô it appears by the

Votes of your Gen<sup>l</sup> Court that you have 200 men in readiness to march yet that provision does not seem likely to attain the desired End, for you are sensible that the Indians alwaies make a Sudden onset & then retire forthwith so that if your forces remain as they now are before they can be got together & march to the places attackt the enemy will probably be got out of reach & so it will be too late to follow them. Upon all which considerations we desire Your Governm<sup>t</sup> will send 100 Men to be posted at Northfield Deerfield & Westfield in such proportion as shall appear most necessary, to continue there for a few months till the time of the greatest danger is over, if some part of them were trusty Indians who are used to the woods it might be an advantage.

This comes p \_\_\_\_\_ who it is hoped will wait upon you before your Generall Court rises & request you will make use of your Influence & Authority that what is proposed may be obtained whereby you not only do Service to the Crown will gratify a Province that is always ready to testify their Respect to you & will likewise oblige

Just now arrived a fishing shallop from the Eastward, the Skipper whereof appearing before me made Oath to the inclosed Declaration, which I thought necessary to Express to your Honour.

The Skipper of the shallop informs me & I am apt to be of his opinion that there is a great probability of making reprizall of the shallop the Indians have taken if not of recovering the men & Surprizing Some of them, who are at present very bold in Enterprizing & boarding the fishing vessels on the Eastern Shore, There is a Sufficient Number of the ffishermen & other men & vessells now ready, who are very willing to go with all the Dispatch & Expedition your Honour may please to order down to the Eastern shoar & who I am fully persuaded will do their Utmost to decoy & surprize the Enemy, if they may have yo<sup>r</sup> Honours Commands & Directions therein.

They may have provisions Ammunition &c as Soon as orders are given therefor. M<sup>r</sup> Eveleth the Bearer is able to give a more particular Acco<sup>t</sup> of the matter theres Time will allow to inform yo<sup>r</sup> Hon<sup>r</sup> in writing

*"Letter to Capt. Durrell"*

Sir

Having rec<sup>d</sup> Advice of sev<sup>l</sup> Vessels man'd with Indians infesting the Eastern Coast to the great Disturbance & Loss of those concern'd in the Fishery,

I desire you to draw out of your Ships Company fifty or sixty of your ablest men which with such Men as I have Order'd to be impress'd here & in the Out-Posts to be all under the Command of your Lieu<sup>t</sup> & Lett them forthwith proceed East in three small Vessels provided for that Purpose, Lett them keep near the Shoar & look into the Harbours as they go along & endeavour to get Intelligence of the Enemy, & decoy them by Sounding for Fish & Concealing their Men & such other Methods as are proper for that End & by all possible Means to find out the Enemy & suppress & destroy them as well as any Pirates that may possibly be on the Coast. I do not limit you as to the extent of Coast for this Cruize, But leave it to you & the Discretion of your Officer how far East he may proceed in w<sup>ch</sup> he must govern himself according to the Intelligence he may meet. If he can hear of the Enemy on shoar & his Men be capable of Service that Way Lett Him land such a Number of his Comp<sup>a</sup> as he shall think fit & prosecute the Indians vigorously on the Shoar. If after all proper Methods for the Discovery of the Enemy, There be no likelihood of Meeting with them & intercepting them by Sea, He must endeavour to find out the Vessels the Indians have taken & if practicable secure & bring them off: Put one good Officer in each Vessel to be under the Direction of your Lieut. & to proceed by his Orders: They must return back in thirty Days; Unless Circumstances shall be such as to give great hope of Doing Service by Staying out longer.

Sir

I have rec<sup>d</sup> your sev<sup>n</sup> Letters respecting Mr Banes Engagement & the March of the Forces to Kennebeck River, And am well satisfied with the Dispatch you have given to that Affair; There being such a Number of Troops in your Frontier, I have determined they sh. be employ'd (after the Marches to Norridgewock are over) on an Expedition to Penobscot & on the Sea Coast in those Parts. Therefore after a proper Time allow'd for the Soldiers Refreshm<sup>t</sup> you are to proceed at the Head of them yourself to Penobscot & other Places to the Eastw<sup>d</sup> where it is likely in order to w<sup>e</sup>n the Enemy to gett y<sup>e</sup> best Intelligence possible, & to project the particular Circumstances of this Affair & Send to the Treas<sup>r</sup> to furnish you with every Thing necessary & Let me know your Thoughts immediately upon it, that so there may be no delay.

*Col. T. Westbrook to Lt. Gov. Dummer*

May it please your Honour

Cap<sup>tn</sup> Harmon arrived this day with the Fryars and Twenty Six Scalps more from Norridgewock and brought Bombazees Squaw and three more Indian Captives retook three English boys, he Informs a great number of Indians are coming on our fronteir Sundry from Canada and Two Hundred from Penobscutt for a more account I refer to him; They have taken Leiu<sup>t</sup>. Kenadys Coat at Norridgewock who resided at Saint Georges, which makes us doubt they have taken the garrison, I am Sending Cap<sup>tn</sup> Sanders in his Sloop strongly guarded to that place and am likewise dispatching

orders to all the fronteirs to be strict on their guard. Cap<sup>t</sup> Harmon and the officers Judge, that by the modestes Computation besides the Scalps and Captives they brought in, what they killed and drowned there could not be less then thirty or forty, God has now been pleased to Crown your Honours unwearied Endeavours with success, which I desire to rejoyce at. I hope y<sup>r</sup> Honour will smile on Cap<sup>tn</sup> Harmon and favour him with a Commission for a feild Officer.

*Col. T. Westbrook to L<sup>t</sup> Gov. Dummer*

May it please your Honour

I received your Instructions dated the 25<sup>th</sup> Curr<sup>t</sup> on the 28<sup>th</sup> Ins<sup>t</sup> and shall put them in Execution Immediately – I hope the Hostages will Pilott us through from Kennebeck to Penobscut which will be the best way to get to their Town undiscovered – As to Bombazeens widow I have examined her and she knows little or nothing about the Penobscut tribe and is so sick she is not able to travel. My advice to the Inhabitants and orders to the officers has always been not to go out with less then Fifteen or Eighteen men or more as the occasion may require but the Inhabitants are so obstinate they will go out not above Two or three at a time Two or Three miles from their garrisons if they cannot all have a guard in one day and the Officers of the Militia in each town do not take any care to regulate them, they refuse to help in watching in their garrisons at night where the soldiers are but Two or Three especially the Inhabitants at Perpooduck point I

acquainted them it was your Hon<sup>rs</sup> orders but they refused to comply. There lies this difficulty with me which I can't tell how to get over —

Viz<sup>t</sup> Wee must have a strong guard with our Whaleboates up Kennebeck River lest wee should not get through and be obligd to return, neither are wee able (in Case wee should get through) to leave a sufficient number of men to bring back the boates to Richmond without weakening the Army too much to pursue the march, besides it will be of absolute necessity to have some boates on our return with the Sloops at the mouth of Penobscutt river to search after the vessels taken from the Subjects of this Province w<sup>ch</sup> wee cannot have unless y<sup>e</sup> Sloops bring some with them from Boston or unless your Honour will please to send Fifty men more for the above mentioned designes Wee must have Two Doz<sup>n</sup> of falling axes to make either Rafts or Canoes to get from the Main to the Island where the Indians live and those men that have the charge of the Axes must have pistols sent them they not being able to carry their guns Packs and Axes there is wanting Thirty or Forty Firelocks for the men already in the Service which must be sent Immediately, I shall not be able to get the men so soon as my orders direct, to Richmond, by reason I sent a Company to releive Georges and Intercept the Enemy there and they are in quest of them now by the verbal Acc<sup>t</sup> I had brought me this day from Cap<sup>t</sup> Sanders who is Just come to Richmond from thence and brought a Captive Leiu<sup>t</sup> Kenady redeemed, as y<sup>r</sup> Hon<sup>r</sup> will see by the Enclosed which is a verbal acc<sup>t</sup> I received from one of my Sarj<sup>ts</sup> whom I sent Express to Cap<sup>t</sup> Heath and who met Sanders going to Richmond from whom he had the Information —

When I had ordered the men to Scout at Saint Georges I had thoughts y<sup>e</sup> army would have mov'd that way — Here being only Docter Bullman that is Capable of marching with us and he being very much fatigued I must entreat your

Honour to send another Docter down to march that he may have some respite

Coll<sup>o</sup> Westbrooks Packett is enough to make one Sick what Hee has done allready as well as what Hee further insists on seems to tend directly to Confound our hopefull designs. What Hee sayes of a Strong Guard for the Whaleboat is a mere jest. 10. men is Sufficent for that, What Number of Men Can Hee expect to bee there at this time when Hee expects so many at Penobscutt.. Those 10 Men with the Whaleboats may have a Communication with Richmond fforts & Can't be better Imploy'd then by lying at such a pass to intercept a Smal Scout of the Enemye.. It was Impossible to express in more Strong termes My orders above all things that Hee should make no delay & yett Hee seems to have no Idea of it. for My part I will write no More to Him it's an unaccountable thing that without orders Hee should Send away a Number of Men to S<sup>t</sup> Georges. I allwayes intended a March to Penobscott as soon as the fforces should be return'd from Norridgawalk & therefore would not hearken to anything that Could prevent it.

Pray Communicate this Letter to the Bord this Day & write a Line to Westbrook that Hee make no further delay &

thereby ruine this Project if phaps it bee not allready ffrustrated by Intelligence gott to the Enimye, & Lett Him give such orders to His People about Georges as is necessary if it bee not done allready, & if Hee don't incline to go Lett Harman take his Command. The Pistolls axes and Guns you say are ready. Pray Coll<sup>o</sup> Fitch to get the men on Bord & Let the Vessell Sail to night or in y<sup>e</sup> morning.

Col<sup>o</sup> Westbrook Sends a long Story of New Projections to Amuse us they may bee putt to the Tryal in the Winter phaps when we have nothing else to do but now the is the time to finde them in their planting. for tho<sup>y</sup> they may have gatherd their Corne by this they have not had time to dry it & Carry it away & an old settlement is not Suddenly broak up & quite deserted.

If the Councill are of opinion to stop Winnett & all the Annapolis Vessells for two or three days it shall be done

I have been greatly perplexd in my minde about it.

Haveing Lately Seen your protection Commiss to Sebastian Ralle I thought it a proper ocation once more to write to you & to acquaint you that the Norrigawalke & Penobscott Indians are by long & often repeated Submissions the undoubted Subjects of the King of great Brittain who also living in his Territorys they Cannot bee any otherwise Accounted your Alleyes then by Virtue of the Alliance between the Crownes of great Brittain & ffrance & that therefore you Ought not to Concerne your Selfe in their affaires without my pmission & I Cannot but esteem it an open Violation of the Treaty of Peace & allyance our Masters have entred into for you to Commissionate Him to reside amounghst them. And you might as well pretend that y<sup>e</sup> Protection is sufficient to justify those of y<sup>re</sup> religion in Committing the most flagrant Acts of Violence & Hostility in any other Parts of this Governmt & whatever disputes there may be between us & those Indians Concerning the bounds of that Country it does not belong to you to engage your Selfe in their quarrell but rather to assist us to reduce them to obedience, when it shall bee desired but instead of that I am sorry wee must Charge you with having animated them together & others belonging under your owne Government to ffall in the most outrageous Manner upon the Subjects of the King of great Brittain in all Parts of the ffrontiers of these His plantations. May it please your Hon<sup>r</sup>

Wee have got through the body of the County from Richmond to Penobscut River but either by the willfullness or Ignorance of the pilot he brought us near Fifty miles below the Indian villages when wee came into our knowledge — Wee traveld up the river as high as the falls where there was a large River to Cross here wee found the freshetts very high by reason of the late rain. The army not haveing more than three or four days Provision sundry men haveing lost their bread in wadeing the rivers as I acquainted in my last of the 20<sup>th</sup> Currant and sundry men much Indispos'd it was likewise Judged that wee could not march to their Village and back to the falls where the Sloops were to meet us in less than Eight or Nine days whereon wee desisted and waited for the Sloops they not being come was oblig'd to go down the River in quest of them and verily beleive had not wee found two Indian Canoos and sent four brisk men to look for them some of the men would have perisht before wee could have got to them but the men found them and brought up some boates in which we got to them, and the freshet run so strong they could not possibly get up the river — Coll<sup>o</sup> Harmon Cap<sup>t</sup> Moulton, Cap<sup>t</sup> Wentworth and sundry other officers are so much indispos'd that I am oblig'd to let them go home I shall stay with the well part of the Army and search the rivers and

sea coves Well before I come off. The officers all desier to go to Boston to make up their Rolls and there is great necessity that Cap<sup>t</sup> Moulton and Cap<sup>t</sup> Bourn go their accounts lying very Intricate I desire your Hon<sup>rs</sup> to make up my Roll.

Gent.

We desire & direct you to solicit with all proper Earnestness & Speed the Matters contain'd in the Mem<sup>o</sup> of the Gen<sup>l</sup> Assembly to his Maj<sup>ty</sup> sent last Winter to his Ex<sup>c</sup>y: the Gov<sup>r</sup> & by him ( as we are inform'd ) either presented to his Maj<sup>ty</sup> or laid before one of his Maj<sup>ties</sup> Principal Sec<sup>rs</sup>ys of State in Order thereto, A Copy of w<sup>ch</sup> Mem<sup>o</sup> as also of the Journal of our Commiss<sup>rs</sup> late Conferences with the Five Nations at Albany are herewith sent you :

By w<sup>ch</sup> last, together with y<sup>or</sup> other Advices from hence, You will find how much the Distress of this Province is increased, & what little Prospects We have of being brought safely & hon<sup>bly</sup> out of the War or having any Assistance to prosecute it with Vigour & Success; The Gov<sup>r</sup> of Canada having ( as he has threaten'd in his Letters ) drawn many remote Nations; viz, The Hurons & others with whom We have never had y<sup>e</sup> least Concern, into a Confederacy with the Eastern Indians; So that our Western Frontiers have been more annoy'd this last Summer than the Eastern, Almost every Town in the County of Hamps. One Half in Middx. & sev<sup>l</sup> in Essex being driven into Garrison & much distress'd by this new Enemy: And altho We have had great Advan-

tages over y<sup>e</sup> Indians by such a Slaughter of them at Norridgewock as has not been known in any of the late Wars, Yet by Inaction of the Western Tribes, the Enemy is become more formidable than before And the Service in the War & the Charges for the Support of it are so heavy as greatly to impoverish the whole Province; & drive away many of our Inhab<sup>ts</sup> to the Neighbouring Colonies: all w<sup>ch</sup> (Connecticut & New Hamps. excepted) being in perfect Peace & Prosperity them selves, sit still & see us languishing under all the Calamities of War without Affording us any Succour either of Men or Money In Consideration of w<sup>ch</sup> You must earnestly Supplicate his Majesty That his positive Orders may be given to the sev<sup>n</sup> Governm<sup>ts</sup> To furnish & maintain a necessary Force for our Assistance in such Proportion as his Majesty shall think fit to Order.

And whereas you will observe by the enclosed Conferences That the five Nations have denied to enter with us into the War partly under a Pretence of Waiting an Answer to their Message to his Majesty d<sup>d</sup> with their Belt, & for his Majesties Approbation of the Conduct of this Governm<sup>t</sup> in Declaring War, & his allowance of their Engaging in it, You must humbly apply to his Maj<sup>y</sup> for his gracious Answer to that Message, That so the Five Nations may have no such Pretext for Declining this Service, for w<sup>ch</sup> they have given their frequent & solemn Engagem<sup>ts</sup> & in Prospect of w<sup>ch</sup> this Governm<sup>t</sup> has made great Presents to them w<sup>ch</sup> with the sums expended in the Treaties with them amount to many Thousand Pounds.

As was before observed to you, You must use your utmost endeavours to obtain his Majesties Consideration of this Mem<sup>o</sup> And that he would be graciously pleased to direct his Minister at the Court of France so to represent the unjust & barbarous Proceedings of the French Gov<sup>t</sup> in Encouraging & Exciting the Savages to this War, as that effectual Orders

may be sent to the said Gov<sup>r</sup> & others concern'd not only to withdraw their Assistance & Countenance from the S<sup>d</sup> Indians in the Prosecution of their Hostilities, but to use their Influences y<sup>t</sup> for y<sup>e</sup> future they live in Peace with his Majesties good Subjects in these Prov. And unless such Orders be given & effectually complied with There seems to be no other Method left us for putting an End to this ruinous War than We shall be obliged in our own necessary Defence to pursue the Enemy into the French Territories where they are not only shelter'd but rewarded for their Barbarities.

“And if matters sh<sup>d</sup> come to this Extremity with us, We cannot promise the French (who have been the Fomenters of this War) better Quarter than the Indians, This last Hint you will observe & make what Use of it the State of our Affairs will require & admit of.

And if there be no Prospect of any speedy Relief by such Order to the French Gov<sup>r</sup>; You must endeavour to know his Maj<sup>ty</sup> Mind as to what is hinted to you respecting the Pursuit of y<sup>e</sup> Enemy into the French Territories: You will give us the speediest Advices you can as to these Particulars, And unless such Orders be given & effectually complied with or Liberty given us to carry the War into the French Countrey & distress them as they have done us, We can see no Method that will save us from Ruine

S<sup>r</sup> Having Y<sup>our</sup> Honours Permission I was on the way to Boston But meeting an order from L<sup>t</sup> Colon<sup>l</sup> Harmon to march to neridgwalk Ammisquenty &c am attending that Service, Ready to march assoon as the Quoto of men

appointed are Delivered me And Rejoyce in this Oppertunity you are pleased to give me.

This Accompanies the three Mohawks who returning from Penobscut were got as far as Falmouth in the way to Boston before my marching Orders came & so could not returne back.

I have Lay<sup>d</sup> before the Treasurer an acct of what provision & other necessaryes I supply<sup>d</sup> them with

It's Obvious to all the Army that these Mohawks proved them selves good men in the Late action at Neridgawalk Since which they have met with some Rough Treatment And in case they should not be made Easey with the method of Dividing the Captives & scalp money ( which now they are not ) I Doubt the Consequence will not be good. Thus much I thought it my Duty to premize to your Honour and Begging pardon if I have Ignorantly Exceeded

S<sup>r</sup>

NB \* imp. 11  
I received the favour of yours of the 30<sup>th</sup> Nov<sup>r</sup> by the Express, on the 14<sup>th</sup> at Night, and have made all convenient Dispatch to return you an Answer, after that I had taken the Opinion of the Council which you will find enclosed, and in which Opinion I cannot but agree with them, Since I look on the Threatning the French Governour with the Insults of our friend Indians, in Case of his not complying, tho expressed ever so cautiously, naturally makes us responsible for what they may do.

And by our threatning to pursue the Eastern Indians to the uttermost, must be understood into Canada, which will be entring that Country in a hostile manner; and this my Instructions expressly forbid in these words.

"Provided always that you do not by Colour of any power  
"or Authority hereby given you, commence or declare War  
"without our knowledge and particular Commands therein,  
"except it be against Indians upon Emergencys, wherein the  
"Consent of the Council shall be had, and speedy Notice  
"thereof given unto us.

And as to entering into a War with the Eastern Indians it is what Assembly of this Province did in 1722. refuse to contribute to, which Resolution of theirs I then communicated

to your Government, and therefore need not now send you a Copy of it.

Under these Circumstances, a Message to the Governour of Canada, which this Government is not able to support by any one Action, in Case of Refusal, would be not only of no use, but of very ill Consequence by acquainting him with our feebleness.

I see no reason to expect that our Assembly will be prevailed upon to alter their Resolutions, But I cannot have an opportunity of trying that, till after Harvest next, it being impracticable to meet them while the River continues shut up, and the Affairs of New Jersey obliging me to meet that Assembly in the Spring: So that upon the whole, tho' my wishes and Intentions are to serve your Province to the utmost of my Power, I find myself intirely incapable of joining with you in the present Proposal, or any part of it: Being with great Esteem,

S<sup>r</sup> your most obedient humble Servant

Hartford Decemb<sup>r</sup> 22<sup>d</sup> 1724

S<sup>r</sup>

I have Received yours of November 30<sup>th</sup> with the Enclosed Referred to therein and Wish that a Copy of the Act of Your Assembly respecting the Message to Canada had also been Inclosed which Your Hon<sup>r</sup> Can Yet Supply.

I have Advised with the Gentlemen of the Councill that I could (at this Season with Convenience Speak with and am not Unsenceible of the great difficulty and Charge the Warr with the Eastern Indians hath bro<sup>t</sup> upon the whole Province under Your Comānd I Wish this Government were able to

Render the Circumstances of Your Province (in that affair) more Easie but as to what Your Hon<sup>r</sup> Intimates respecting Sending Messengers to Canada Altho' that project Seemeth Likely to make Mons<sup>r</sup> Vaudrevill Senceible that his Conduct Can<sup>t</sup> be Justified neither will it well Support the french Cause when the Same Methods shall be Taken by New England against Canada the Letting Loose the Indians (as Intimated in Yours) will doubtless give Conviction when those things proper to Convince Reason fail And therefore tis to be hoped at Sight of it at a distance as Represented by Messengers may do something with that Governour.

\* But Yet would further propose to Your Hon<sup>rs</sup> Advisement whether it may not be proper to Close the Message to M. Vaudrevill with a representation that it is very Apparrent that our Indian Enemy have Such a dependance on him to Support them in the Warr that he Can Easily reduce them to Quietness and that his Exerting himself in So good a Work (as reduceing those Indians to Order would be) may hapily prevent many Mischieffs that Seem to Threaten us as well as the people under his Comand.

And also give us a Speciall Instance of his good Neighbourhood and if this or any thing Else proper to Insert in the Message to the Governo<sup>r</sup> of Canada might gaine him to Influence the Indians to peace it would be well but if he Should Slight the Motion of being an Instrument to gain a peace for us I think he would Still be the Less Excusable and must Thank himself when he is Saught by other Means.

But Yet after all must Let Your Hon<sup>r</sup> know that it is not in my power with the Councill to Comply with Your desire And if I Should Call our Assembly together (who Can only Authorize a person to go upon the Errand You mention I fear the Same Scruples (as when Col<sup>o</sup> Stoddard was with us) will Still be Started which were principally two. first that the Indians had been wronged in their Lands~ Secondly

that the Hostages received by Your Government of the Indians were only to Secure the payment of Some Beavours which the Indians Say they have Since paid and therefore the Warr not Just on the English Side. These things our people have had Confirmed to them by Many persons (and Some of distinction) of Your Government I would Charitably hope these reports are wholly groundless I should be very Unwilling to Entertain Such things without the Clearest proof. Notwithstanding which in Order to Satisfy our Assembly possibly it may be best to Send to me the fullest Accounts that may be Come at Our late Very Hon<sup>ble</sup> and Excellent Governo<sup>r</sup> Col<sup>o</sup> Saltonstall Sometime before his death received One of Your Treaties with the Eastern Indians which now Can<sup>t</sup> be found doubtless Your Treaties and other Writings respecting the Eastern Lands if Co<sup>m</sup>municated to our Assembly might be of Service and a Copy of the Entry made when the Said Hostages were delivered up (which Entry Certainly doth Include what they were received for) will Certainly Satisfy our Assembly how the Matter is as to the Hostages Y<sup>r</sup> Hon<sup>r</sup> won<sup>t</sup> think it Strange that there is Need to Satisfy our Assembly in these things when You Consider our people had the Said reports from Among Your Selves as is above hinted and that what persons Confess against themselves is Easily beleived and in many things there wants no other proof I have Insisted the more Largely that if possible I might prevent all difficulties for I would Always Cultivate that good Understanding that hath been between the Two Governments.

not finding any Indians here We fir'd two Gunns and the next day six Indians came to us who inform'd that the Tribe was at Mount Desert. We thereupon made sail and went up into a large Bay on the Back of Mount Desert where we found them. When they had done trading they Consented to our Departure and the twentieth of Jan<sup>y</sup> we sail'd for S<sup>t</sup> George's. Night coming on We harbour'd in Agemagen expecting next day to have gain'd S<sup>t</sup> Georges but contrary to what the Indians told us & our own Expectations we were wholly debarred moving by reason of Ice. Gett all your Whaleboats mended that are Capable of it (for it Will take time to gett New ones) & order a party of about 50 men under a dilligent prudent Officer downe to Penobscott Bay & as much further as you shall think for the Service especially at Passamaquoddy where y<sup>r</sup> Lett<sup>r</sup> informs the Indians have bin y<sup>e</sup> last Winter under such orders as if well Executed they May by Gods blessing Surprise some of the Enemy's if there be any of them there I

have wrote a Letter to all the Collonells in y<sup>e</sup> E. & W. to warn the People to be on their gaurd & to go out in Companys to their Work well Armed. I finde you have sent out divers parties of about 14 Men to Ambuscade the Indians in their lurking places it will be well if they pform it patiently & faithfully which I recomend to you to inspect well into & that they be releived from time to time by Fresh parties so as their Ambuscade be Continued without intermission untill you have further orders & that you require of the Several officers an Account of what passes in their turne, & minute down every thing any wayes worth notice.

You shall hear further from me very Soon. I shall be glad when Cap<sup>n</sup> Vo: with the Indians he promised to bring with are come to Penobscott. You shall hear from me in a Short time pray do every thing thats possible to keep us the Territory of the Enemy

May it Please Your Hon<sup>r</sup> /

We have no Account of the Enemy at present, but fear they are endeavouring to be reveng'd on us for their Brethren, I hope our constant putting Your Hon<sup>rs</sup> Orders in practice will prevent them. I have no Sloop yet arrived here with Stores to send down to the Eastward according to Your Hon<sup>rs</sup> Orders to distress them which I was in hopes I should have had some time ago. Lieu<sup>t</sup> Jaques has been for some considerable time past very desirous with me to write to your Hon<sup>r</sup> for his Dismission which at last has prevail'd he assuring me of his great necessity to be with his business and what damage he shall sustain if not granted L<sup>t</sup> Coll<sup>o</sup> Harmon tells me he had Your Hon<sup>rs</sup> word to dismiss him when his business earnestly call'd for him which it doth at this time, Both of them thankfully Acknowledge Your Hon<sup>rs</sup> favours to them from time to time. If Your Hon<sup>r</sup> shou'd be pleas'd to Dismiss Lieu<sup>t</sup> Jaquesh and Commissionate En<sup>s</sup> Carlile in his room Lieu<sup>t</sup> Coll<sup>o</sup> Harmon informs me he will be very agreeable to him, and I do assure your Hon<sup>r</sup> I have known him ever since I have been in the Service and have always found him a modest and sober Young man and very ready & faithfull on all Commands The last Orders I rec<sup>d</sup>

from Your Hon<sup>r</sup> were dated the 16<sup>th</sup> of last Month. Having nothing more that offers worth Your Hon<sup>rs</sup> notice

I remain Your Hon<sup>rs</sup> most Dutifull Serv<sup>t</sup>

Tho<sup>s</sup> Westbrook.

P. S. Lieu<sup>t</sup> Coll<sup>o</sup> Harmon is very desirous if Your Hon<sup>r</sup> shou<sup>d</sup> order any Sloop to guard the Fishery that he may Command her.

I have askd leave some time ago to go home for a few days my business there being very urgent but have not yet rec<sup>d</sup> Your Hon<sup>rs</sup> Smiles.

*Letter Lt. Gov. Dummer to Capt. Bane "April 17, 1725."*

Cp<sup>t</sup> Bane.

You must acquaint Sackaristis & the other Indian That at the Desire of Sackamaten ( as well as their own ) & allso M<sup>r</sup> Minotts motion I permit them to visit their Friends & Families Upon their Promise to return again punctually in Fifty Days: That Sackamacten has much recommended him self to me by his Honesty & Faithfulness and therefore I shall alwaies treat him well, as I shall them If they prove themselves as faithful as he has done.

That Sackamacten has inform'd me That the Indians are desirous of Peace, If they find so, when they come among them And any of the Chiefs are disposed to come in to treat they may bring them in upon their Return & the Chiefs shall be well received & dismiss'd with Safety; That We shall be very ready to receive their Submission & let them live in Peace if they are desireous of it, Altho God has given us great Success against them of late, And our Soldiers are now so well trained & used to the War & have so good a Knowledge of the Indian Countrey, That We doubt not but that by

the Help of God we shall force them to submit, If they continue obstinate: But we don't delight in War any otherwise than as the Injuries they have done us make it necessary.

That if the Indians have any Distrust of being safe in Coming in Because of our March to Penobscot & Cpt. Heaths burning the Houses, They make a wrong Judgment of y<sup>e</sup> matter. they must not expect that I shall at all slaken the Prosecution of the War till their Chiefs come in: And that is the Method of all wise Governments, but when they come in y<sup>e</sup> Name of their Tribes & express their sincere desires for peace then they may depend on it I will desist from all further Acts of Hostilitye & give orders Accordingly to all the fforces everywhere.

Be very careful to make them fully & clearly understand you.

Would have You to let nothing hinder You from Returning to S<sup>t</sup> Georges Fort So as to Receive the Indians at their Return thither To which purpose I have also Wrote the Colonel.

Portsm<sup>o</sup> Apr<sup>l</sup> 20<sup>th</sup> 1725

May it Please your hon<sup>r</sup>/

/ Having formerly tacken some minets of a Conference that I had with twenty of the Eastern Indians that were heads of those Tribes, my buissness allowing me a Leasure hour and hearing of y<sup>e</sup> many miseryes and callamityes that acrew by reason of this unhappy Warr I think it a Duty incumbent on me to give your hon<sup>r</sup> a relation of it; It was a few months before I left that part of y<sup>e</sup> Countrey that if your Hono<sup>r</sup> should be so happy as to have a Treaty with them some things might be Effeckted that I have a great

Assurance would be for y<sup>e</sup> promoting & Establishing a Lasting peace and being Assured of your having the Publick good so much at heart & my rearl freindship and Intimacy with those people imboldens me to write, One morning as I was walking in y<sup>e</sup> town I met one of y<sup>e</sup> Saggamores he tould me there was a Com<sup>a</sup> of Indians that desired to speake with me, when I came to them I found the number before inserted, & they were all elderly men — After a little silence one of them spake to me asking if I knew them, I tould them I knew they were the Leading men of Panopscoat and Nerigwalk they tould me the time of year allowd them to meet there, and they took this Oppertunity to talke with me uppon some heads which they sayd they would fully Communicate to me, taking me for their friend, & uppon it, tould me they were very much wrongd & Abus'd in many things and sayd if there were not some speedy methods taiken to prevent these abuses, and to perform our Promises made by Coll<sup>~</sup> Shute and the Saggamores that were at that Congress, there would be A Warr Acrue in a little time, and as I was there and heard what was said, desired me to remonstrate it to some of the Governm<sup>t</sup> how they were agreived, and farther added that if they did not prove their cause to be just in troubling us this time they would desist, and that it only wanted their assent and y<sup>e</sup> warr began, but farther added that they were old men and warr was troublesome & they urg'd peace provided the English would come into just methods with them and performe what was promis'd at that Congress — and that notwithstanding what the Jesuit should Excite them to, it would have no influence on y<sup>m</sup> for it was Interest & not religion that Obliged them to live in peace & freindship with any People, Uppon which I tould them I was very much surpriz'd at what they said, and that their now speaking of Warr was Contrary to what they have often tould me of Living in peace and as Brothers with us, and

that it was agreeable to their former treatment of y<sup>e</sup> English in breaking their many truces that were made with them in Coll. Dudleys time & w<sup>th</sup> other Gentm<sup>n</sup> that had the Govern<sup>mt</sup> of the provinces: they tould me we were their Enemies & that we lookt on them as ours & when ever we were an Anoyance to them as we were now they made warr, giving me many Instances of our Breach of ffaith perticularly Cap<sup>t</sup> Chubs treating with them on the Sabath day calling some of y<sup>m</sup> together (as he said) in a freindly manner & at the same time drew Pistolls and shot them while they had his bread between their teeth and another time of hard treatment by Coll Walton of Cochecho which your hon<sup>r</sup> may not be unaquainted with, but said as those things were past they should be overlookt on bouth sides, And added that we could not have a greater Manifestation of their Intentions for a Lasting freindship then by their paying down the hundred & od skins for to Compensate in some measure for y<sup>e</sup> damages their people had done, when they might at the same time have come down on our frontears and made the same depredations that they had formerly done, And farther said that they had concluded on those methods which the Gov<sup>r</sup> chearfully came into & unless they were Effectted the peace would not last I askt them what they were they tould me I could not so soon forget what was said there, Asking me if I did not heare the Gov<sup>r</sup> promise that he would be a Constant succor and help to them and that he would taike caire to prevent those Abuses that were Constantly impos'd on y<sup>m</sup> by the Inhabitants in this part of y<sup>e</sup> Countrey and that to prevent these abuses he would build them a Traiding house or houses and Appoint some just men to Transact with them that should doe them justice, and said their people were Constantly made Drunk by our People selling y<sup>m</sup> rum, and all the Laws and Severe penailtyes the province could inflict would never prevent it without this Trading

house and thatt the Killing of y<sup>e</sup> Cattle and all y<sup>e</sup> Diffirences arose from our letting their rude people have rum, I then askt y<sup>m</sup> how it would prevent it though I was very Sensible how it would / they tould me I was not unsensible of the nature of their trade and that when an Indian came downe with a quantity of beavour many of them that were drinking men would first ask for a skin in rum which was worth 7 or 8/ and that they often gave for one quart which is 30/ p g<sup>l</sup> notwithstanding (sayes they) they are often deny'd and your people tell them: there is a Law of our Province against it, and you give us a great deale of uneasiness by breaking open our Doares &<sup>ca</sup> this great profit on the rum sometimes will not prevaile but here is a Temptation sayes they that few or none of you will withstand – this Indian tell you he has a large quantity of beavour, and he nor any of his friends shall deale with you unless you grant this request & the Temptation of loosing sometimes ten pounds aday which I have known som Experience is difficult to resist & if the Trading house undersold every bodey else no body would be tempted to sell rum only for the profit they get on y<sup>t</sup> Commodity by reason they give the people so great uneasiness after they are drunk with it. Another of y<sup>e</sup> same Community tould me he had lately gave 28/: bush<sup>l</sup> for Corn and askt me if I were not A witness to it I tould them I was, that I was sorry it was so, they tould me the promises that were made by the Gov<sup>r</sup> would prevent these impositions – Another of y<sup>e</sup> Same. number tould me that afew Dayes past, he had stole from at a House up the River 30 saple skins which I had great reason to beleive was true, he tould me Two witnesses were enough in our Law to prove any thing, but he had brought three and could get no justice done him, saying he was Unhappy last night to drinke too much at the said mans house & that it was a villanous thing in him after he had got away agreat deale of his

substance for rum to rob him of great part of what was left I tould him he must goe to the Gov<sup>r</sup> to Boston for Justice he tould me it would cost him 50 skins to goe there, and that it was a great hardship there was no bodey appointed here to doe them justice & then askt me what Two oxen were worth. I tould him it was a wrong way to doe himselfe justice he tould me he had no other way & in a few days I heard the man had lost Two oxen. They farther added that there was a Trading house Appointed by the Governm<sup>t</sup> formerly but that the man that kept it was a Rogue & made the yard  $\frac{1}{4}$  to short and impos'd on y<sup>m</sup> which gave many of them a Disgust against the Governm<sup>t</sup>, & uppon y<sup>e</sup> Conclusion tould me they had never Broke their faith with the french but had allwayes liv'd in peace with them and that it was their kind treatment of y<sup>m</sup> induc'd them to be their freinds & tould me that when once their people Experienced that we were a Constant Succor to y<sup>m</sup> it would induce them to keep alasting freindship with us for sayes they your giving us a Present at once is soone forgot by our young men, but this would be a Constant Obligation on them that they would daily see their dependance on us. Its my humble Opinion that some methods might be taiken with the Expense of about £500 p Annum that would keep them in perpetuall peace which I hope your Hon<sup>r</sup> in your great wisdom will be so happy as to Effeckt I am

Sir

I have enclosed a Warr<sup>t</sup> to the Commanding Officers of the Marching Companies to deliver to you thirty Men, You will see that they be good Men & well arm'd & fitted & after a short Refreshm<sup>t</sup> at Fort George You must march with them up Amerescoggin River in Quest of the Enemy taking with you Cpt Joseph Bane to command under you & as a skilful Pilot for this Service, And the said Cpt Bane is order'd to attend you accordingly. You must take with you as much Provision as you can conveniently carry, & march as high up the River as possible, & if you can find no Tracks or Signs of Indians on that River or the Branches of it, You must cross over to Kennebeck River if it be practicable ( of which you will be the best able to judge ) & March down that River to Richmond, Let your Motions be perform'd with

great Silence & Secrecy, & be patient in Lying wait for the Enemy in such Places where it is probable they will pass: If any Opportunity of Service may present that may require a different Rout from I have here directed: You have my Leave to proceed accordingly.

I lay very great Stress upon y<sup>r</sup> Seeking out y<sup>e</sup> Enemy y<sup>t</sup> may be in that River at this Juncture & expect that you perform some notable Service as may be expected from two such good & experienced Officers.

If you are of opinion that you may not be Safely Spared from your Garrison at this Season I Order that Cp<sup>t</sup> Bean have the Command & psue these instructions & Hee may take Some Sutable good Officer to Command under Him

M<sup>r</sup> Trescot is the bearer hereof whom I Appoint for the third Officer in this March And in Case You don't go Your Self he is to be the Second.

*Warrant.*

By the Hon<sup>ble</sup> the Lieut. Gov<sup>r</sup>

These are to direct the several Commanding Officers of the three Marching Companies or of such of the said Companys as are at or near Casco Bay forthwith to detach out of them such a Number of Men from each as shall make up in the whole thirty effective Men to be deliver'd to Cpt. John Gyles who is to Command the said Party vpon a particular Service for which he will receive my Instructions.

*Letter L<sup>t</sup> Gov. Dummer to Col. T. Westbrook*

Sir

I have Order'd Cpt. Giles & Cpt. Bane with a Detachm<sup>t</sup> of 30 Men from the Marching Companies to go in Quest of

the Indians upon Amerescoggin River & Parts adjacent: If this should meet you at Casco or thereabouts, You will see that this Matter be expedited.

I Can't be of any other opinion but there has been a great Neglect in the Officers at Falm<sup>o</sup>. That a Scout was not immediately sent to ly for some Days about the dead Bodies of the Indians W<sup>ch</sup> being upon a Carrying Place It was highly probable the other six Indians would pass that Way I desire you would strictly examine into this Matter & find where the Fault lies: for I am much ashamed that there should be so little of a Spirit among the Officers to make any brisk Attempts upon the Enemy w<sup>n</sup> such proper occasions offer. I will finde out officers if it be possible of more spirit. You must Order that the Muster Rolls of the sev. Companies be made up as soon as may be that they be ready to pass upon the first Sitting of the Court: You must not let too many of the Captains or Subalterns be off from their Posts at a Time; but the Clerks or one of the Sergeants of the sev<sup>n</sup> Companies may bring up the Rolls, & make Oath to them. The Enemy being now about, The Frontiers must be carefully protected, & the Marching Forces be upon constant Duty in the Woods, & if any demurr should hapen that requires the officer to Clear up I shall pmitt them to Come downe w<sup>n</sup> they will have time enough to doe if they make up their muster rolls forthwith, w<sup>ch</sup> may be done directly. as farr as the Elect<sup>r</sup> Day.

• I have no direct application from Coll<sup>o</sup> Harman or L<sup>d</sup>. Jaques for a dismiss<sup>n</sup> which is proper in such Cases, & tho they are good Officers I Will not keep them from better opportunities for their advantage if there should be any other Vessell & Company then what are allready in the service to protect the ffishery I shall be glad if Coll<sup>l</sup> Harman serve

To the Right Honorable The Lords Commissioners for Trade  
& Plantations.

The Memoriall of Thomas Lechmere Esq<sup>r</sup> Surveyor Generall,  
& the Severall Collectors, and other officers of His Majesty's  
Customes In New England

Most humbly sheweth

That wee being obliged by your Lordshipps letter dated the 26 June 1719 to lay before your hon<sup>ble</sup> board the proceedings of the severall Governments in our districts, cannot omitt the repeating of our observations upon the great Priveledges & advantages arising to the Dutch & French plantations in America being supplied with horses for the Mills, Provisions, Lumber &c. without which they cannot subsist, & in a more perticular manner the horses for their Mills to grinde their Canes, they having few or none of Watermills or Windmills, so consequently must have Cattle Mills, and the cheif returns wee have from thence are in Melasses, some Sugar, Ruñ, Cocoa Nutts Indigoe &c<sup>a</sup> soe that the Melasses which wee cheifly import from those forreign plantations, being of no use to them, and the freight to Holland and France so high, will nott admit of being by any shipped off, besides the prohibition of it in France, as alsoe if we consider the great Impositions they lay upon our Vessels tradeing to their ports, its more destructive than advantagious, unless a duty was laid upon such forreign Coñoditys imported into our plantations, payable to His Majesty's Collectors, as allsoe that those Coñoditys from forreign plantations, when unloaden be under the same restraints, as the produce of our plantations, which will be of great advantage to Trade, and raise a considerable revenue to the Crown.

But what we now proceed with humble Submission to acquaint your Lordshipps with is, That y<sup>e</sup> Severall Acts of Parliament made in Great Brittain, to render America more usefull and depending thereon by giving great premiums for

raiseing Navall Stores, by which the lands may be improved, and the people enabled to keep a Correspondence with & to make Returns for their Trade to Great Brittain, are in a manner frustrated by a great omission of such improvements, and the Inhabitants are dayly running into the makeing of Brittish manufactures as Woollens &c<sup>a</sup> by which they will in some time have no occasion to Correspond with Great Brittain for such Comoditys, and to which great Encouragement has been given of late Years by severall Acts which have passed in the respective Generall Assembllys of each Government in the said districts

And as allsoe we take leave most humbly to observe, That they very much encourage the circulation of province bills of Creditt, and letting them out to interest upon land security, and by the said Acts enforceing them to be received by all his Majesty's Subjects in all payments & Contracts (Specialties excepted) as equall to mony, though the Tenour of said bills say's only, shall be in all publick payments accepted by the Treasurer of each province and by reason of the great number of these bills which amount to Four hundred Thousand pounds or upwards in the severall Governments, and notwithstanding the publick Faith and Sanction to support them, and annually to sinke the Number of them, as by their Acts doe's more fully appear, and which they sometimes evade by which the Creditt of their said Bills is sunk so low that they have lost in their Value more than a Moiety.

This we must humbly conceive doth evidently shew to your Lordships That, we being obliged to receive them in all publick payments at the full vallue, how prejudiciall they are to his Majesty's Revenue, and of what dangerous consequence to Trade & Commerce, and how destructive to the Industry and property of the Subject, and those proceedings leading us to the source of such Evills, which we presume to take

notice off in the following manner may open a Scene which will not a little surprize Your Lordshipps

The Gentlemen of this Country ( Merch<sup>ts</sup> and monyed men excepted ) who possess most of the improved and waste lands, are the majority of Members in the severall Generall Assemblies, they for the most part take up those bills & circulate them upon the Creditt of their own lands, without any money or treasure laid up in bank to support them, and by their laws obliging them to be received in all payments by all persons; as lawfull tenders as hath been before observed by which they have taken in all moneyd Men's Estates, and are now in these bills, and the Merchants & Traders who are generally the possessors of the bills must take the Growth and Produce of the Country for them, which are risen to most extravagant prices; and the said Gentlemen are allso enabled by the said bills to carry on the Manufactures before mention'd, and to purchase more land, which is a great Engrossing thereof, so that poor people comeing from Great Brittain & Ireland upon the prospect of having lands to settle on, & are the great riches of this large and uncultivated Country, are in a great measure debarred, the land being in their possession, and raised to such great prices which is the greatest discouragement that can be to a farther improvement of these parts of his Majestys dominions.

And wee most humbly conceive it to be incumbent on us to make a Representation at this juncture, because these Evills being seen into by most of the Substantiall men in the Country, a Comittee of whom was appointed by the Generall Assembly at Boston, the Metropolis of North America, to consider of ways & means to redeem the Credit of the bills, & unanimously agreed upon the following propositions - 1<sup>st</sup> That no more bills of Creditt should be made. 2<sup>d</sup> That what money the Country should want upon publick Expences should be borrowed in these bills of Creditt allready made.

3<sup>dly</sup> That if those persons who had the bills upon Mortgage would pay them in should have Ten p cent Discount, which proposalls being so advantageous to those Men who had the bills upon Mortgage, and would pay them in, and now not being half the vallue, for which they received them. Yet notwithstanding these proposalls were rejected, & the said Men now in the Massachusetts bay have made an Act for emitting Thirty Thousand pounds more in these bills, without any alteration of Tenour or Form or Indenture or Escutcheon for carrying on an Indian warr, and postponed the cancelling or burning of Twenty seven Thousand pounds of bills of credit, but continue them in currency, and obligeing all persons in all payments to receive, which with Submission is a manifest Breach of publick faith.

And the Government of Rhode Island in like manner, tho no way concerned in the Warr and not at all in Debt, and are not above Eight hundred pounds p annum charge for supporting the charges of Government yet at this time have passed an Act for continueing Eighty Thousand pounds at Interest in these bills, which is very destructive to Trade.

And wee thinke it our humble dutys to observe to your Lordships that, before the assemblies concluded on these Acts they received his Majesty's letter dated at the Court of Windsor the 31<sup>st</sup> of August last signified by his Grace the Duke of Newcastle to all the Governours of New England, commanding each of them not to pass any bills in their respective Assemblies there of an unusuall or extraordinary nature, and importance, wherein the kings prerogative or the propertie of the Subject might be prejudiced, or Trade any ways affected, untill the draught of such bill or bills had been transmitted home and the Royall approbation received thereupon, unless there was a Clause inserted therein, suspending the execution thereof untill it has the Royall Sanction; And notwithstanding such repeated commands these Acts have

passed, and are putt in force without any such Clause which matter so tenderly affecting his Majesty's perogative & revenue (wee having no fare of mony but only in those bills) as likewise Trade in Generall and peticularly the Commerce of Great Brittain, and soe injurious to the Industry and property of the subject, these bills being sunk soe greatly in their Vallue, many of them being very often counterfeited, the Indenture worn out, and allmost quite defaced, that nothing can be foreseen but the uttmmost Confusion even to the totall ruine of these his Majesty's dominions, unless the Royall Grace intervene for their preservation.

And wee most humbly propose it as absolutely necessary, That the bills of each Government may be called in, or that the possessors of them, upon paying them into the Treasury, may have Security from the Government for them, and lawfull Interest paid, untill the Government hath redeemed the principall, by which the Merchant, who doth not lett his Cash lye dead, may dispose of the bills he hath received, instead of being obliged to part with them at a great discount for the produce of the Country, which hath been raised to meet prodigious prices.

And wee further most humbly take leave to represent to Yo<sup>r</sup> Lordships, That whereas this Continent carrys on a considerable Trade to the Bay of hundoras in the Spanish West Indies for Loggwood and great Quantitys being annu-ally brought into these parts, and his Majesty haveing been most graciously pleas'd with advice and Consent of Parli-ament to take off the Duty from Loggwood and other Dying woods and Druggs to encourage the importation thereof to Great Brittain, as the Mart of Trade; That all the said Loggwood soe imported into the plantations, be subject to be bonded to be carried to Great Brittain, or if allowed and permitted to be transported to forreign Marketts, to pay the Duty of Twenty Shillings Sterling p Tunn upon Exportation

for the Use of his Majesty, which will consequently prevent Forreigners from haveing it at a cheaper Rate then the British Merchants; as by the Act of the Eighth year of his Majesty it is paid at the Exporting thereof from Great Brittain.

May it Please your Hon<sup>r</sup>

I rec<sup>d</sup> your Hon<sup>rs</sup> Orders p En<sup>t</sup> Triscott who coming by Cape Porpoise last Saturday with four men was fir'd on by a party of Nine or Ten Indians. Triscott is shott through the Thigh and through the Ankle, two of the men with him had the Stocks of their Guns shott. They immediately made up a party of about twenty four men some Soldiers some Inhabitants and some Fishermen from Cape Porpoise & follow'd them but could not come up with them.

As to sending Cap<sup>t</sup> Gyles thirty men just now I cannot possibly make them up, all the Marching Forces & sundry from the Garrisons being already Employ'd in your Hon<sup>rs</sup> particular Orders as your Hon<sup>r</sup> will plainly see by comparing the State of the Army, I now send with your Hon<sup>rs</sup> Orders. As soon as I can call off such a part I shall immediately send them, the Enemy is certainly down on us in considerable Numbers, so that we have as much as we can do to keep the weak parts of our Frontiers from their Incursions. I have ask'd the Officers of Falm<sup>o</sup> the reason why they didnt make up a party and lye by the dead bodies of the Indians,

their Answer is they did not hear of it till six days after it was done and not more than seven or eight hours before the Enemy was down w<sup>th</sup> them and kill'd two men and the place where y<sup>e</sup> dead bodies lay was sixty Miles from them, so considering the Enemys being amongst them judg'd it not safe to march so far from their several Garrisons, for a small scout at that Juncture drawn out wou'd have very much expos'd them their Number not being above five or six in a Garrison and the Garrisons very scattering. As to the marching Forces and sundry of the Garrisons they are constantly in the Woods in sundry small Scouts and are faithful in their Duties by what I hear from them from time to time.

I shall Direct the Officers to prepare their Rolls as fast as they can.

Capt Bourn being indisposd and desirous to wait on your Hon<sup>r</sup> I have permitted him to carry the Express for its more speedy Arrival. If your Hon<sup>r</sup> should be at Newberry in a short time I would be glad to have leave to wait on You there for a few hours.

May it please y<sup>r</sup> Honour

I receivd your letter of the fourth Currant on the 15<sup>th</sup> of the same wherein your Hon<sup>r</sup> orders me to give a particular account of the black point Scout whom your Hon<sup>r</sup> calls Eighteen men if so my Clark has made a mistake in Coppying, for there was but Eight men and most of them Inhabitants, so that there was no Officer with them, but a Soldier or two to go with them to look for their cattle. As to the men in Falmouth I immediately drew out all that I could Judge was proper which did not exceed Twenty and sent Cap<sup>t</sup> Bourn & Liu<sup>t</sup> Dominicus Jordan, I did not give them orders to pursue the Enemy let their numbers be what they would but left them to their own Judgments according to what discovery they should make knowing they had behav'd themselves very well when they had an oppertunity on the Enemy, and are reputed men of Courage and by the Acc<sup>ts</sup> they had from Black Point people, and Mitchels and Spurwink Garrisons they were a considerable number as I acquainted your Hon<sup>r</sup> before, and by

what discovery they made by the Indian Tracks they could not Judge themselves to be a number sufficient to follow them.

I do assure your Hon<sup>r</sup> I did not leave more then three men in a Garrison with the Inhabitants and Soldiers for their Defence which was as little as possible could be left In as much as the place where they were burning our houses and killing our Cattle, was not less then Eleven or Twelve Miles through the Woods the nighest way wee could get to them.

Sir,

It being highly probable that the Indians of Penobscot will speedily be out in the Vessels they took last Summer from the English, & will infest the Eastern Coast to the great Disturbance & Loss of those concerned in the Fishery;

I desire you to draw out of your Ships Comp<sup>a</sup> fifty of your ablest Men to proceed East so far as Passamaquody or the Mouth of S<sup>t</sup> Croix River in two small Vessels provided for that Purpose to be under the Command of your Lieuten<sup>t</sup> & such Officer (for the other Vessel) as you shall think fit to appoint: Let them keep near the Shoar, & look into the Harbours & Bays & among the Islands as they go along, more especially at Pemaquid, Penobscot Fox Island & Mount Desert Bays the Mouth of Petit River & Passamaquody, & Endeavour to get Intelligence of the Enemy & Decoy them by Sounding for Fish, Concealing their Men & such other Methods as are proper for that End, And by all possible Means to find out suppress & destroy the Indian Enemy as well as any Pirates that may haply be on the Coast at this Time. And for their Encouragem<sup>t</sup> they will have One Hundred Pounds for each Scalp of a Male Indian above twelve Years old, & for other Scalps & Prisoners the highest Premium the Law Allows.

Notwithstanding the Direction before mentiond I don't limit you as to the Extent of Coast for this Cruize, But leave it to you & the Discretion of your Officer how far East

he may proceed, In which he must govern him self according to the Intelligence he may meet.

If he shall hear of the Enemy on Shoar Let him Land such a Number of his Comp<sup>a</sup> as he shall judge fit to ambush or psue them. And particularly I think it advisable that they ly some Time in Ambush on the Western Point of a small Island at the Mouth of Petit River within two Leagues of Machias & the usual Passage of the Indians from Passamaquody & St<sup>t</sup> Johns River to Penobscot, For more particular Information in these Matters your Officer had best consult the Pilots.

Sir

I have Yours p Express without date, Observe the cear you are and have taken, which must alarm<sup>n</sup> The Indians who are in pretty large Comp<sup>s</sup> come Down Eastward as I hear if your 100 Indians are Sailed Eastward They may chance to come in a Good time.

I am greatly concern<sup>d</sup> for the misManagem<sup>t</sup> of our Men in the March to the Pond, we all accounted them Stout men, what cheifely discouraged our men was there not marching Your Men, indeed I tho't Coll<sup>o</sup> Ting was Two Dayes march before us, but when they came to Cap<sup>t</sup> Lovewells ffort and found no men there they were Discouraged.

I have as you hinted to me Passed a Note for paying our Quota towards building a Fort at the Pond, as allso the Volentier Act One hundred pounds a Scalp and 2/6 p Day while on Duty and have given all possible Incorragem<sup>t</sup> for Vollentiers.

I did not Discharge our men untill I Received your letter, which was Tuesday after noon we Thot then out of time, to

Send againe, on that Errand, before those Indians are gon off, and then you would have men enough to bury the Dead, its a strange thing our people should be so dispirited, There was in the 53 I sent out 40, as likely lusty Midle aged men as can be found in our hole Province but So it was.

Yesterday came into Berwick Ezek<sup>l</sup> Davis of Concord. one of Cap Lowuel' men, who was Eleven dayes wandring before he found the Fort.

I have him at Portsmouth where he is well Taken care of he is wounded in the belly and part of His Thomb Shot off & like to do well.

I have Sent you what was taken from his mouth Yesterday, I fear we shall have a hot Summer.

I have likewise Order'd a Company of Voluntiers to be raised in the County of York for this Service.

In my last of the 17<sup>th</sup> Ins<sup>t</sup> I informd that Cap<sup>t</sup> Bourn and Cap<sup>t</sup> Franklyn were not come, whom your Hon<sup>r</sup> informd me in your's of the 4<sup>th</sup> Curr<sup>t</sup> would be with me in a few days; We have not more than Six days Provision left. if Franklyn do not arrive in a few days I shall not be able to keep the Scouts out.

Jo: Nebon asserts that the Penobscot Tribe have planted a great Quantity of Corn at their old Town & at their new, but Saccaristis will not own they have planted any below their new Town. Saccaristis affirms that y<sup>e</sup> Indians fitted out two of the Scooners y<sup>t</sup> they took last Summer & went a fishing & getting Seils off at Grand Menan and the Mouth of S<sup>t</sup> Johns River some time in the latter end of May last, I am someth<sup>s</sup> surpriz'd the Indians are so still at this Juncture —

I omitted to inform your Hon<sup>r</sup> of Cap<sup>t</sup> Moultons return on the 15<sup>th</sup> of this Ins<sup>t</sup> from Pigwocket, he made little or no Discovery of the Enemy saving where Cap<sup>t</sup> Lovewell had his fight there he found the place where the Bodies of twelve of our men and four of the Enemy were buried.

As they went up by the side of Ossaby River they found a dead body and judge it to be Cap<sup>t</sup> Lovewell's Lieu<sup>t</sup> I would have sent Cap<sup>t</sup> Slocum with the Hostages before this had there been any Winds thó loth to part with the sloop till another Sloop arrivd, it being of absolute necessity to have one constantly here, we having frequent Occasion to remove Provision from place to place, according to our marches. If you Hon<sup>r</sup> shou'd think fit, I believe it wou'd be best that all the Officers return to their Posts assoon as their Affairs will admitt of it, so that we may be in the best posture we can in all our Frontiers to receive the Enemy in case they shou'd make their Attempts on us.

To the Kings most Excellent Majesty

The Memorial and address of the Lieutenant Governor,  
Council and Representatives of the Province of the

Massachusetts Bay, in New England in General Court  
Assembled

Most Humbly Sheweth

That this Your Majesty's Government after many unjust and insufferable abuses, Depredations and Insults committed by the Indians; Instigated and excited by the French King's Subjects, and more especially by Monsieur Vaudreuil Governour of Canada, were obliged contrary to their own inclinations to enter into a War with them which has now continued these Three Years and is become almost insupportable to this Province, by reason of the Excessive Charge thereof, besides the great Loss Your Majesty's Subjects have Sustained both in their Husbandry and Fishery, and in their other Business by Sea and Land the Slaying and Captivating many of your Majesty's good Subjects w<sup>h</sup> is owing to the Conduct of the said French Government and the wicked practices of the Jesuits, and other Romish Priests, although the s<sup>d</sup> Monsieur Vaudreuil has often by your Majestys Governor and Lieutenant Governor been wrote to on that Head, and of late Commissioners were sent from this Your Majesty's Government to demand of him to withdraw that aid and assistance he has afforded to our Indian Enemys notwithstanding which, and all the measures that have been taken to induce him to desist, he still goes on, and even while the Commiss<sup>rs</sup> were in Canada the last Winter, the said French Governor (as he had often done) was exciting and persuading, several other Tribes of Indians to the War against Your Majesty's Subjects of this Province, as the Indians themselves informed them, and after much expostulation on this head with the said Governor, he had the assurance in behalf of the Indian Enemy to insist upon it. That this Government should quit and abandon all the Forts and Towns for the Space of Thirty Leagues on the Sea Coasts within the Grant to this Province, from Your

Majesty's Royal Predecessors which has been settled and peopled more than Seventy Years. In which Tract of Land groweth most of the Timber fit for building Ships and Masting Your Majesty's Navy, and the Said French Governor countenanced the Indians, then in his presence in their Demand of the whole Country, or Territory of L'Accadie or Nova Scotia, excepting only Your Majesty's Fort of Annapolis Royal, and that the British Subjects should not Fish in and about the Sea Coasts, whereby they would be stript of the most valuable Branch of their Trade and an unspeakable Damage happen even unto Your Majestys Realm of Great Britain in both these Articles; and althô it was strenuously urged by the agents for this Government upon the French Governor, That his Conduct herein was a manifest Breach of the Friendship between the two Crowns, and the Treaty of Peace concluded at Utrecht, whereby all Nova Scotia or L'accadie was surrendred up according to its ancient bounds or Limits to Your Majesty, Your Heirs and Successors for ever, and the French King's Subjects to have nothing to do therein, yet the S<sup>d</sup> Governor has constantly a French officer in the Pay of the French King at the head of the Indians who resides in Your Majesty's Dominions and we are informed by some of our Captives, he hath been so inhuman as to suffer five of Your Majesty's Subjects to be murdered and burnt after they were taken, and upon this Government demanding by their Commissioners Your Majesty's Subjects Captivated by the Indians and in the hands of French at Canada, the Governor of that Country refused to deliver or return them, unless they were purchased, and that at an exorbitant price, so that it cost the Relatives of some of those distressed people upwards of Fifty pounds a piece for the Recovery of their friends who are bought and sold and treated more like Slaves than Christians.

We would with all humility represent to Your Majesty that

the plain design of the French Governor in this management is to deprive Your Majesty of Your just Sovereignty over these Tribes of Indians and to prevent Your Majesty's Subjects settling in those parts of the Country, and Supplying Your Royal Navy with Masts Planks and Timber of all Sorts and threatens the Destruction of the Fishery on the whole Coast of L'Accadie and as far Westward as Piscataqua River, all which would not only be an unjust Diminution of Your Majesty's Rightfull and extended Dominion in North America but also prejudicial to the Several Provinces and Governments therein, and even to the Trade and Commerce of Great Britain.

And in as much as your Majesty's Colonies of Rhode Island and Connecticut are covered by us and the Towns of this Province are a Barrier and Security to them, and Your Majesty's Commands have been heretofore given to Your Severall Governm<sup>ts</sup> of the Massachusetts, New York Connecticut and Rhode Island for furnishing their respective Quotas to each other in Case of a War, and pursuant thereto we have made application to them for obtaining their Quotas in the present War, Yet we have not been able to prevail with them to furnish the same altho' this Government have heretofore supplied a Considerable number of Soldiers for the Defence of Albany, within the Government of New York when in Great Distress by the Enemy.

We therefore humbly Supplicate Your most Gracious Majesty that you will please to renew your Command to those Governments for that End, and that Your Majesty will direct your Governor at New York, to use his Interest with the Six Nations of Maquois bordering upon his Government to joyn with us against the Indian Enemy.

All which is most humbly offered and submitted to Your Majesty's just, Wise and most Gracious Consideration and Compassion by Your Majesty's Most Loyal Dutifull and

Obedient Servants and Subjects The Lieutenant Governour,  
Council and Representatives of the Province of the Massa-  
chusets Bay

I rec<sup>d</sup> your Hon<sup>rs</sup> Letters by Cap<sup>t</sup> Bourn of the 24<sup>th</sup> and those pr Serj<sup>t</sup> Parker of the 28<sup>th</sup> of last Month with the enclos'd Information relating–the Indians. I always make it my business to get the best Information relating–the Enemy I can, and Inform'd your Hon<sup>r</sup> of the Indians living on the back of Mount Desert in my letter last September and that I was Inform'd they were supply'd from Annapolis by some man that married in that Country who supply'd one Bellisle, a frenchman who married with one of Casteen's Daughters and mostly lives thereabouts so that it well agrees with the Information Your Hon<sup>r</sup> Enclos'd and likewise with what I inform'd in my Letter of the 17<sup>th</sup> of March 1724/5 that two Friars and several of them liv'd at Passimaquoddie and Adjacent to it; as to that part of the Information that they are up in the Countrey till the last of June about their Corn interferes with their yearly Customs in coming down the

last of May or not exceeding the first of June to gett Eggs and Fowl during wh<sup>ch</sup> time they generally leave their old men & women to tend their Corn and then are down again the last of July or August Catching Sea Fowl and Seil. before I seald this I rec<sup>d</sup> your Hon<sup>rs</sup> p Coll<sup>o</sup> Harmon the 3<sup>d</sup> of July which was Dated the 25<sup>th</sup> of last Month. As to the Indians planting their Corn I wrote p Cap<sup>t</sup> Kennedy the best Information I cou<sup>d</sup> get at present. By your Hon<sup>rs</sup> Orders to me I understand your Hon<sup>r</sup> intends to visit the Penobscott Tribe. We have rec<sup>d</sup> but four Whale boats since I wrote your Hon<sup>r</sup> that we had few or none fit for service so that there is necessity of having them from the Castle and ten or twelve more. the Indians Cap<sup>t</sup> Bourn Enlisted are most of them in the Woods, fourty are with L<sup>t</sup> Jordan up Saco River whom I dont expect in this ten days and another party are with Cap<sup>t</sup> Penhallow whom I have Directed to attend the Commissioners Orders so that I cant Settle them Comp<sup>ys</sup> at present according to your Hon<sup>rs</sup> Orders, I have therefore sent Cap<sup>t</sup> Bourn with these Expresses to wait on your Hon<sup>r</sup> hearing little of the Enemy and making no Discovery of them I woud desire to wait on your Hon<sup>r</sup> a few days at Boston before I be put on any further Service. I shall take Care to leave the Frontiers on their Guard.

The Commissioners sail'd from this place y<sup>e</sup> 30<sup>th</sup> of last Month.

As to the Two Deserters, wee have no manner of place at Falm<sup>o</sup> to secure them, so that they will be a great clog to the service ~ neither have wee a sufficient number of Commission Officers to try them unless wee call them off from their several posts and Scouts so that the service will suffer the fronteirs being so long it is difficult getting them together. I would pray your Honour either to continue them where they are for the present till the Affaires are in a better posture, or that they be tryed by the Justices of the assises in the County where they were taken, as is explain'd in the Sixth Article of the Martial Law However I submitt to your Hon<sup>rs</sup> pleasure And am your Hon<sup>rs</sup> most

*Petition of Robert Armstrong*

To the Right Hon<sup>ble</sup> the Lords Commissioners for Trade and Plantations.

The humble Petition of Robert Armstrong.  
Sheweth:

That your Petitioner intends in a little Time to return to New England to do his Duty as Deputy Surveyor of his Majesty's Woods, which he has taken more Care

to preserve (as he hopes sufficiently appears by the Papers before your Lordships) than any of his Predecessors have done.

That being Sensible how great an Injury he has received from Cap<sup>t</sup> Ellis Huske, by his false accustations of your Petitioner, as being a Notorious Jacobite & a Person perjur'd on Record, He is resolved to do himself publick Justice in New England by bringing an Action of Damages against the Said Huske as soon as he arrives there.

That being advis'd by his Council here that he must Carry over sufficient Proofs to Support his Action & nothing less than an attested Copy from Your Lordpps Board of the said Huske's Information will do, He most humbly prays your Lordpps that such an authentick Copy may be Granted him.

And your Petitioner as in Duty bound shall every pray  
Robert Armstrong.

Sungamock,

We received Your Letter of the twentieth Instant New Stile, wherein You Complain of Unjust & Unchristian Treatment You have received from Liev<sup>t</sup> Manoor.

We know of no Man of that Name, yet doubtless we shall be able when we arrive at Boston to understand who it is that hath perpetrated So Vile an Action, and shall readily use Our Interest that the Man may be brought to Justice.

The Action as Represented by you is detestable, and ought not to be Countenanced by any Government, especially by those that profess Christianity. Whether you are rightly informed of the Facts we shall not be able to judge until we hear what the Man can say for himself. We should more readily conclude that the Relation of the Action Made to You was reall, if We were assured that the French man from whom You had it was not a Gainer by the War, but if you can produce those Letters, Your Messengers inform us, were Sent on shoar by the officer You Mention, it will enable the Governments to convict him of his perfidious Dealing.

We do assure you that no Vessell hath been Sent by the Governments to Penobscot or thereabout with a flagg of Truice, and if any Man hath pretended to Set up such a Signal, he hath done it of his own mere Motion, which is an Abuse offered to the Governments, and tends to bring the publick Faith in Question.

We were Sent hither by the Governments of the Massachusetts Bay and New Hampshire, as we informed you in Our former Letter, and have with us Cap<sup>t</sup> Bane and Cap<sup>t</sup> Jordan who are known to You, and have been seen by divers of your people.

We have already given you Assurances of your Safety in Case You Come hither.

We are desirous to make a Speedy return, Yet shall make Our Selves easy Six days by which Time You may doubtless be here you being at little Distance, which Appears from your Letter's being dated yesterday, which was the twentieth New Stile.

Sir

j have the honour to acquaint you that the 9<sup>th</sup> of this present month as j rode at anchor in a small harbour about three miles distant from Nesket, having with me but one indian and one Englishman whom j had redeemed from the Salvages, as well as my vessel, j was attackt by an English vessel, the Commander of which called himself Lieutenant of the King's Ship, and told me also his name which j cannot remember. Seing my self thus attackt and not finding myself able to deffend myself j withdrew into the wood forsaking my vessel. The Commander of the vessel called me back promising me with an oath not to wrong me at all, saying that he was a merchant who had no dessein but to trade and was not fitted out for war, specially when there was a talk of peace and presently Set up a flag of truce, and even gave me tow safe-conducts by writing which j have unhappily lost in the fight—

Thus thinking my self safe enough j came back on board my vessel, with my indian and my Englishman, whom j brought to Shew that j had no thoughts of fighting, and that j had redeemed him from the indians as well as the vessel.

But as j was going to put on some cloathts to dress my self more handsomly the Commander who was com in my vessel with severall of his people would not permitt me to do it, telling me that j was no more master of any thing, he only granted me after many remonstrances to set me ashore. But after j came down and They held forth to me a bag full of bisket that was given to me as They said as a payment for my Englishman, They did catch hold of me and the jndian who accompanied me. j got rid of him who was going to seize upon me, but my jndian not being able to do the same, j betook my self to my Arms, and after several voleys, j Kild the man who Kept him, and got him safe with me. This is the second time that I have been thus treacherously used, which proceedings, j do not suppose that you approve off, as being against the laws of Nations. Therefore j hope that you will do me justice, or at least you will cause me to be reimbursed of the loss j have sustained, namely,

For the vessel that costed me	80 french pistoles
For the English man	10 pistoles

51 pounds of beaver that were in the vessel with 20 otters  
 3 coats that costed me together 20 pistoles. 56 pounds of shot that costed twenty pence a pound. 20 pounds of powder at 4 livres a pound. 10 pounds of tobacco at 20 pence a pound. A pair of Scales 8<sup>u</sup> livres. Tow cloth blanketts each 23 livres Tow bear skins 8 livres apiece. 4 skins of sea-woolf 8 livres for the four. 3 axes. 15 livres for both. 2 Kettles 30 livres for both, and severall other matters which They would not grant me not so much as my cap. The retaken English man knoweth the truth of all this his name is Samuell Grass of the Town of Salem near Marblehead

Upon Sight Thereof I should disband my Company of Voluntiers.

These are therefore to pray your Honour to Allow me to Say That it looks very hard, if it be so. That we should be disbanded almost as soon as Enlisted.

We have put ourselves out of the way to serve the publick as Voluntiers, Upon the Encouragement given by the Genl Assembly; And we had Never been at the Trouble and Charge we have to, to fit our Selves for this Service, were it Not that we Thought we had the publick Faith to Secure us, as I think we have in the late Act, which Says, That the Encouragment ( therein mentioned ) is to Continue from the Enlistment to the first of November.

We Expect the Benefit of this Act, the war Continuing and other Companys are Kept in the service, Else It will prove but a snare to us, & we shall not have Justice done us —

I pray y<sup>r</sup> Honour to Countermand this Order for our Disbanding, And Allow us to make one Essay at least, if it may be, after the Enemy, according to the Act, for we are In Debt, and I have given Reciepts to the Comissarys for what my Men were Necessitated to take up when at y<sup>e</sup> Eastw<sup>d</sup> to fit them for y<sup>e</sup> then Intended march und<sup>r</sup> Col. Westbrook; And Unless my men Can Get somthing this way to pay me, I must loose it, as farr as I Know — Many of them being very poor men —

I pray y<sup>r</sup> Honours favour in this matter as farr as is consistent with Justice and the publick Good —

I am Y<sup>r</sup> Honours most obedient humble Serv<sup>t</sup>

*Letter L<sup>t</sup> Gov. W<sup>m</sup> Dummer to Col. Armstrong Aug. 16, 1725*

Sir

I have the Hon<sup>r</sup> of y<sup>re</sup> Letter of the 29<sup>th</sup> of June last, And cann't but be surprized at the Exceptions you take At y<sup>re</sup> not being Advised of the two Sloops fitted out here to cruize on the Eastern Coast of this Province, Since at the time of their Departure Your Arrival in these Parts was not known here, Nor have you since till on this Occasion thought fit to Notify me thereof, Or of y<sup>re</sup> having his Majesties Commission for L<sup>t</sup> Gov<sup>r</sup> of Nova Scotia, W<sup>ch</sup> I think would have been but agreeable to the Practice amongst Gentlemen in our Station, & your Intentions express'd in your Letter such; W<sup>ch</sup> duly considered, would have left no Room for Censuring me as wanting in Complaisance & Friendship: And you may assure y<sup>er</sup>self Nothing shall be wanting on my Part to maintain a good Neighbourhood & for Acting in Concert with you in such Matters as concern his Majesties Service & the Mutual Advantages of the two Provinces, so long as I have the Hon<sup>r</sup> to serve his Majesty in this Station.

I have communicated y<sup>re</sup> Lett<sup>r</sup> to his Maj<sup>ties</sup> Council of this Prov. & have taken their Opinion as to those Articles in it

1725 \*  
 that are of a more publick Concern, And with their Advice I nowe inform you That some Time in June last divers Indians of Penobscot came into the Fort at S<sup>t</sup> Georges under a Flag of Truce, had in their Discourse with the Officers there manifested their Inclination to Peace and their Desire that some Gent. might be sent from this Governm<sup>t</sup> to confer further with them on that Subject. In Compliance with w<sup>ch</sup> & at the Motion of the Gen<sup>l</sup>. Assembly, I sent two Gent. to S<sup>t</sup> Georges with Instructions ( of which you have a Copy enclosed ) They mett a considerable Number of Indians, who all express'd their Disposition to Peace, And sent two of their Chief Men to Boston to ask a Cessation of Arms till they could get all their People together & engage the Neighbouring Tribes to act in concurrence with them in Sending their Delegates to Boston to make their Submission to his Majesty, & agree upon Articles of Pacification: The Issue of our Conferences with these two Men was our Granting them a Cessation in all parts to the Eastw<sup>d</sup> of Kennebeck River, for the Space of Forty Days from the Landing of these Messengers at their Return As you will see by the s<sup>d</sup> Conferences w<sup>ch</sup> I have also enclosed. What further Intelligence I may have of the Dispositions & Intentions of the Indians as to this Affair I shall communicate to you, as I have Opportunity. If you think it will be for his Majesties Service & for the Benefit of y<sup>re</sup> Governm<sup>t</sup> to send y<sup>re</sup> Deputies to this Treaty We shall be very glad of their Assistance therein.

We thank you for the Regard you express for the Interests of this Prov. as well in the Protection & Encouragem<sup>t</sup> given to our Fishery ( W<sup>ch</sup> will very much contribute to the growing and flourishing Estate of y<sup>e</sup> Province under your Governm<sup>t</sup> & be for the Advantage of the Trade of G<sup>t</sup> Britain ( & therefore ( without Doubt a Service very acceptable to his Majesty ) As allso for y<sup>re</sup> Suspending y<sup>re</sup> Treaty with the Indians, That so Deputies from this Governm<sup>t</sup> might act in

Concert with you for the Safeguard of the Subjects of both Provinces; But forasmuch as our Treaty with the Penob. Indians is (in all Probability) so near And y<sup>res</sup> at Annapolis so distant & uncertain, We have not concluded to send any Deputies to appear for us at Annapolis, Confiding in your wise & successful Managem<sup>t</sup> of that Affair, And that you will have a Regard to the Interests of his Majesties Subjects in Gen<sup>l</sup> as well as of your own Province at the same time We promise you to have the like Care of the Governm<sup>t</sup> & People of Nova Scotia in our Treaty with the Indians here. As to your Proposal for our Sending 60 Indians to join with your Forces to stike a Terror into the Enemy, We should very cheerfully comply with this Motion, but for some invincible Difficulties that ly in the Way of it; For besides That our Charter absolutely forbids the Marching any of the Inhabitants out of the Limits of the Prov. without their free & voluntary Consent or the Consent of the General Assembly (who are not sitting at this Time) It will be esteem'd a Breach of our Truce with the Penob. Indians If we sh<sup>d</sup> March an arm'd Force into any Part of Nova Scotia; as to the Supplies given to the French in y<sup>re</sup> Neighbourhood, This Governm<sup>t</sup> have it much at Heart & would be glad to come into any proper Measures to prevent that Trade, And I have not been wanting in my Endeavours to get an Act pass'd for that Purpose, but unless the Governm<sup>ts</sup> of New Hampshire Rhode Island & Connecticut from whence the greatest part of the Supplies go, will join with us in this Affair, Nothing that we can do will be effectual, And for the Members of his Majesties Council, I have no Reason to suspect that any of them are concern'd in this mischievous Trade. I have nothing further to offer at p<sup>re</sup>sent but with my hearty wishes for your Prosperity & the divine Protection over your p<sup>er</sup>son & Government I am Sir Y<sup>r</sup> Most Obed. & Most humble S<sup>er</sup>

May itt Please Y<sup>r</sup> Honour S<sup>t</sup> These may inform Your Hon<sup>r</sup> That On y<sup>e</sup> 12<sup>th</sup> of May Last my Son Solomon Bacon was here with us, And had Divers Patients under his hands. And Cap<sup>t</sup> Bourn then Coming Down to Our Town was very desirous that I should give my Consent that my said Son Should go Out with him into the Country<sup>s</sup> Service, And Said he thought if my s<sup>d</sup> Son would go itt would be a great incouragement unto the Indians to List. And that he had rather my Son should be his Second than Any Man And for his Incouragement he Doubted not but that Your Honour would give him A Commission therefor And that he should have a Warrant to be the Doctor of all the Indians And have both Doct<sup>rs</sup> and Leif<sup>ts</sup> pay. Whereupon My s<sup>d</sup> Son did Assist in Listing the Indians and was in that Service from the s<sup>d</sup> 12<sup>th</sup> of May until he came to Yourselfe riding from place to place the One way and Bourn the other to prevail with the Indians to List On the terms Your Honour proposed. And the Indians after they were inlisted were most of them with me and Importuned me to give Consent that my s<sup>d</sup> Son should go with them, And especially those Indians that were with my son Att the fight att Norwichwak Last Year Whereupon by my consent he Left his imploy here And a Good Stock of Medicine which he had newly purchased in Order to Serve Your Honour, God & the Country And went Down to Your Honour And what Incouragement he had from Y<sup>r</sup> Honour is best known to Your Selfe &c-. Yet notwithstanding I Rd A Letter from my s<sup>d</sup> Son Dated June 23<sup>d</sup> past wherein he Signifys that he had to that time faithfully Attended Your Honours orders & Directions but Cap<sup>t</sup> Bourn was not then Come to him, whereupon I writ to him & Advised him to continue faithfull in the trust

And in his Letters requests me to go to Your Honour to intercede for releif. And saith every word is true that he writes. And I should now come my Self to Your Honour but bodily Infirmitys prevent And Maj<sup>r</sup> Gorham Informs me that he informed Your Honour how the case was And that Y<sup>r</sup> Honour would take Care that they should be dismiss but fearing Lest Your Hon<sup>r</sup> through a Multitude of business should forget their Case I make bold to send this to Y<sup>r</sup> Honour Humbly Intreating Y<sup>r</sup> Honours favour to the Young men And order them forthwith to be released And Consider y<sup>e</sup> imploy My son Left att home And the Danger And hardship he has & did Ingage in to Serve the Country, And the time & Moneys expended in Listing said Indians And will Use Your Indeavours that he as well as Leif<sup>t</sup> Hows may Sutably be rewarded.

He withdrew into the Woods before ever he was Attack'd or knew what we was. As to my Calling him back I could not, for he was too farr off. But sent the Pilot in our Boat to talk to him and Ordered him to Decoy them on Board (if possible) I believing they were Indians. As to my Hoisting a Flagg of Truce it was only for the time the Pilot was Talking to them, which was about a Quarter of an Hour, and when he came on Board it was Haul'd down, That Signifying that I had a Truce with them for the time the flagg was up and no Longer. This was Two hours before any thing of a Skirmage happened. We will State the Case thus. I am in a Ship of Warr and send my Boat on Shoar with a Flagg of Truce to the Enemy to Demand such or such things, (They Refusing my Demand,) When the Boat comes off I haul down the Flagg of Truce, and am at Warr with them again according to the Laws of Nations, and this was the Exact Case with us. We never fired under the Flagg of Truce; He says we promised him safe Conduct under Writing which I never did nor gave such Orders: He says thus thinking my self safe I came back on board my Vessell with my Indian &

English Man, I wish he had, for by that means we should have got something by the Cruise, but as It is we have got only our Labour for Our pains. The vessell Was Condemned and Apprized at One hundred pounds & Odd Money of this Currency, And was Delivered up to the Owners of her.

There was some Beavers, and Other Skins which was sold together for about 20 pound, which Money I Shared among the People which was but a Trifle among 60 Men, And Scarce enough to enable them to Drink Your Honours Health, as to the Other Trifles which He mentions: all of them were not worth Twenty Shillings.

going home by Water. Otherwise they would have gone thro'ugh Boston. I am informed by said Hanson That there was 150 Indians fitted out publickly at Mont Real & Supplied with Provisions Ammunition &c And marched from thence the day before he came away for a place called Shamlee Where the Indians were detained 5 days / as s<sup>d</sup>. Hanson was informed by a Frenchman he met with in his passage over the Lakes / to prevent them from meeting with any of s<sup>d</sup>. We can't express the concern we have for the unhappy Indian war your Governm<sup>t</sup> is fallen into. and do

heartily wish that it was brought to a happy Conclusion & Lasting peace with those unhumane Eastern Salvages, whom we hear are daly supported by the french Priests & people of Canada, and assisted by the neighbouring Indians to annoy the People of your Governm<sup>t</sup>. we think we should not discharge our duty as Subjects of one King and neighbours not to Inform you of the Barbarous & Bloody designs of the Indians whom as we are Credibly Informd this day are with 150 men about three weeks Since on their March towards your fronteers, and probably are yet Skulking or hovering ab<sup>t</sup> to comitt barbarities, we are also told that 140 Indians were on their March above Chambly in one Body, 17 days ago, but it is thought this last party would turn back by y<sup>e</sup> perswasion of some from this tho' this is but uncertain. So that its adviceable to be on your Guard. we hope this advice may come timely and be of service to the publick and frustrate the designs of the Indians, this Express will Expect payment from you for his trouble or Journey. we hope youl satisfy him. if in any thing we can be serviceable to any in\_ of your place or Governm<sup>t</sup> please to comand who are with Esteem & Respect.

Boston Sep<sup>t</sup> 24, 1725

I have Yours of the 21<sup>st</sup> Instant which came to Me by Express whereas there was nothing in the Letter that required Such a Charge but it might have come as well by the Ordinary Post. I think well of the Disposition You have made of Your Men And I hope they will be Vigilant & faithful in their Duty otherwise they may Depend the Enemy will make Some Incursions upon Us. It was very Absurd for any Body to Spread Reports of 500 Indians being come from Canada, especially for such who pretend & ought to know the Indian Affairs, I observe the Soldiers make a handle of it for Cowardice by every Small party they meet with afterwards, I have a full Acc<sup>t</sup> of the Indians that are come out from Canada which I rec<sup>d</sup> from Albany &c And they are in all 130 part of which made Directly to the Western frontiers where we have heard of them Divers times lately And the rest March'd East amongst You some of whom I am still in hopes You will give me some good Acc<sup>t</sup> of. Unless Your business be very Urgent it won't be proper to leave Your Command at this Juncture, but in that Case I Allow of it. You have never yet sent me any Acc<sup>t</sup> of the Examination of the Officers of the Indians pursuant to my Directions, it

will be necessary to Set that Matter in a true light for they  
Complain of Great Injustice.

May it Please your Hon<sup>r</sup>/

I rec<sup>d</sup> your Hon<sup>rs</sup> Letter of the 24<sup>th</sup> on the 28<sup>th</sup> of last month. How mine of y<sup>e</sup> 21<sup>st</sup> came to hand by Express I cannot tell unless Gov<sup>r</sup> Wintworth made such a mistake in that as his Hon<sup>r</sup> did in not sending Cap<sup>t</sup> Canady's Letter with mine of the 16<sup>th</sup> of last month to your Hon<sup>r</sup> I sent it by a private hand and desir'd him to send a line or two to your Hon<sup>r</sup> of his mistake which I hope your Hon<sup>r</sup> has rec<sup>d</sup>.

I never believ'd that there was 500 Indians come from Canada but inasmuch as it came from Cap<sup>t</sup> Jordan to my hand, I look't on it as my Duty to forward it to your Hon<sup>r</sup>

I always caution every body to make less rather than more of what they hear or see, relating the Enemy notwithstanding some make y<sup>e</sup> most of everything. If my Affairs did not more than ordinary want me at home I would not have desir'd it after I rec<sup>d</sup> your Hon<sup>rs</sup> Orders to have the Officers of the Indian company & the Witnesses face to face. I immediately sent for the Officers from Richmond in order to examine them but the Indians were out in the woods pursuant to your Hon<sup>rs</sup> Orders so that I could not bring them face to face. Doctor Bacon complaining that it would be a great damage to stop him till the return of the Indians, I permitted him to wait on your Hon<sup>r</sup> as your Hon<sup>r</sup> will see by the Enclosed which is a true copy. Cap<sup>t</sup> Moulton is returned from his march a Journal of wh<sup>ch</sup> is herewith sent your Hon<sup>r</sup>. *Letter John Minot to Col. Stephen Minot*

Marblehead Oct<sup>o</sup> 4 1725

Hon<sup>l</sup> S<sup>r</sup>

Our not hearing of any late damages done by the Indians and Cap<sup>t</sup> Smith being still detained by them after the

limited time gives me some hopes, that we shall in a little time be so happy, as to have peace in our borders, that we may againe improve and injoye our Eastern Plantations, And that which I most build my hopes on is that I think the eyes of the Governm<sup>t</sup> seeme to be more open now then they have bin formerly, and are more inclin'd to take those measures which may secure the honour and Interest of the province & the Indians have justice done them the latter of which without we have a Tender regard to we may not expectt a lasting peace—I shall now give you my thoughts on some heads which I think very necessary to Establish our Interest with them Tribes And the first thing I shall speak to is the Affaire of the lands they claime, which I believe will be the only difficult point, that the Governm<sup>t</sup> will have to Treat with them on—I am very sensible it was the greatest handle the Jesuits made use of whereby they mov'd them to make Warr by telling them it was our intent to take away all their Countrey not only what we bought, of them, but what we had not bought, and to make them & their Children in time miserable, Its my Opinion if there were some measures taken to Assure them that some Considerable part of that Country should alwayes remaine to them & their Children to plant and Improve and that no man should be able to bye it, and if they did it should not be valid while they or any of their children were alive, As it is at Natick and some other parts of our Province where we have justly made reserves for them—if we put It to our selves & examine by y<sup>e</sup> golden rule of doing as we would be done by, I think we should chearfully come into it, And as I remember at the last treaty they had no Assurance, that their planting fields at Nerigwalk and other planting grounds should be alwayes enjoyd by them many of them often tould me, that they Expeckted the English would in a little time endeavour to take them away, as they had done by the Western Indians we should Consider they have a

Native right to all the lands they have not sould—I have often admired at the Weakness of many people when they have said if we should Confirme any land to them they would emediately sell it to the french, and they would settle it, but no man that is acquainted with that part of the Countrey can think so when there might be so many reasons given why the\_ would not—besides there might be Exceptions made against it, no frenchman that is a man of any Consideration who is not under our Govern<sup>t</sup> would venture to lay out his substance near so great a Province where they allwayes lye lyable to be Destroyd & We have an instance to Confirme this in the settlements the french made at S<sup>t</sup> Johns River where the Indians gave them Liberty to plant & Improve who after they were Destroyd by Cap<sup>t</sup> Southarick never made any more attempts notwithstanding we have had so long a Peace with france—

It must be Confest the Indians are barbarous & Cruell to us in time of Warr and God makes use of them as a rod in his hand, and its to be fear'd he uses it with more severity on us because we have not dealt justly by them in many things—

I can think of nothing that would sooner make them easy in the Affaire of y<sup>r</sup> Land then by letting them know what great care the Govern<sup>t</sup> has taken to Confirme the lands to the Naticks & other Indians in our Province, and it would not be amiss that some of our Indians, that would make the best Appearance be at the Treaty & there assure them of the great proffit & advantage that they reap by it whereby they are enabled to raise Corn Sheep and Cattle & that many of them that are industrious live very well—If the Govern<sup>t</sup> should erectt Traiding houses (which I think very necessary to keep them in our Interest.) Its my Oppinion that it would give more satisfacktion not to Confine the traide to them houses only for they are a jealous people and love freedome.

& if they bought cheaper there than others could afford, & they had not liberty to trye they would not so apparantly see their Obligation & Dependance on y<sup>e</sup> Publick. As to letting them have rum I think it best it be not wholly restrain'd from them, for there are many amongst them, that maike a Temperate moderate use of it, and never Disguise themselves at all & many of them will not drinke any. I believe it best that matter be left to the prudence of the men that are entrusted with the stores, and that they be Exceeding cautious before they are well acquainted with the Indians that they dont let any of them have more than a dram at a time, but I need not say anything more on this head, the temptation of selling them for any profit being wholly taiken of from them that have the caire of the Stores, if they be men of any prinsepalls of Honour & justice and have the good of their Countrey at heart — and I think few or none will sell them rum only for y<sup>e</sup> Profit they get on it the Indians giving them so much trouble after they are made drunck which made the most sober considerate indians tell me, that nothing would more suppress that base Custome then by erecting Publick Stores, for it was the temptation of getting profit on other goods that causd many people to let them have rum and many of our quarrells with them arose from their drunken revills, I think it would be best also in my Oppinion that those Truck masters should have orders not to trust any Indian—for it might be a Temptation to them, as it was in South Carolina in the last Warr they had,/ After they are a great deale in debt to make Warr and then all is paid, besides its an Incouragm<sup>t</sup> to Idleness. and I observ'd many quarrells with them arose from our demanding what was due from them. And yet there are some of the most Considerate influencing men amongst them. which I have Observ'd after they have bin hunting a great while have met with little or no success, and thereby their families brought to be very nessesitous. now if

it were left to those that are intrusted with the stores at such times to give them a small matter of Corne or other necessities that they stand in need of, the prudent timing of those gifts would greatly ingaige them. As to bringing them over to our Religion I hope by Gods Blessing in time it might be Effectked—And I hope the publick will be so happy in their Choice to have those men whose Conversation will be Exemplary and inofensive for the indians will be most with them.—

I Observ'd the Jesuits allwayes gain'd more on them by their blamless watchfull carriage to them then by any other of their artfull methods. Example is before precept w<sup>th</sup> them. their Religion being all superficiall they having but little internall sence of their duty when at their Devotions—if the Govern<sup>t</sup> would give those that have the caire of those houses some rules and methods to use with them, which they in their wisdom think proper to gaine them over to the protestant faith. I have great reason to think by Gods Blessing in time may have a good Effectk, but at present they are so biggotted to the Romish faith that will require great patience & strength of Resolution in those endeavours. There might be many things concerted which at present does not Ocur to my minde which I hope the publick will not be wanting in if they should come into any termes with them— Ime sure if we look into Govern Burnets last speach, whereby he is laying downe the great and happy Consequence of their keeping in good termes with those Tribes of Indians bordering on him. And the french on the other side of us Assidiously & Artfully plotting and Contriving to keep them in their interest it highly concerns this Province to taike some methods to get them into our Interest who have suffered so much & which now groans under the burden of this unhappy Warr. S<sup>r</sup> if you think my thoughts

on these things may be of service desire they may be Communicated

S<sup>r</sup> This ( by way of Pascataqua ) is y<sup>e</sup> Second Oportunity I have had since I came from Boston ( In Obedience to your Hon<sup>rs</sup> Co<sup>m</sup>mand ) to write: & now have only, that the Indians ( more or Less ) Every day since my arrival have frequented the Garrison—They have not ( as they say to their admiration ) any news from Canada.; Cap<sup>t</sup> Lewe was here the first of this Inst, and acquainted us, that about the begining of Last month Twelv<sup>r</sup> men of the Penobscot Tribe ( Amongst whome was Victor and his son's ) being by bad weather detained on y<sup>e</sup> Isle of Montenicus for some time; were by hunger Necessitated to Kill a Cow & a hogg they found there ( which I understand belonged to M<sup>r</sup> Vaughn of Pascataqua ) and were ready to pay for them; on y<sup>e</sup> second of this Ins<sup>t</sup>, Victor, his two sons w<sup>re</sup> here. One of them owned he had killed three piggs there, tho<sup>o</sup> at first they denyed it, & as I saide nothing to them about paying, so neither did they say anything about them, only that they were all so poore they

would have dyed of themselves if they had not killed them :

 March 14, 1726/7*

Good Friend,

I think it proper to acquaint you that I have rec<sup>d</sup>  
 Intimations That an Indian call'd Grey Lock has enticed a  
 Party of Indians about Otter Creek & that they are prepar-  
 ing to come upon our Frontiers with mischievous Designs,  
 And as by the late Treaty I promised to inform you of all  
 Designs & Motions of such Indians as endeavour to disturb  
 us, And you have by your repeated Repeated Assurances  
 undertook to perswade or Force the Western & other Tribes  
 to be peaceable & come into the Treaty, & I in confidence of  
 the Sincerity & good Disposition of the Indians have with-  
 drawn the Forces from the Frontiers that so you might be  
 assured of my Resolution strictly to maintain the Peace on  
 my Part. It is therefore incumbent on you to enquire into this  
 Matter & if you find the Matter as it is reported + that you  
 forthwith take effectual Care to prevent these Indians from  
 Acting their Ill Purposes & to oblige them to come in &  
 ratify the Treaty as you have done, Let me have an Acc<sup>t</sup> of  
 your Proceedings as soon as may be.

*Letter Lt. Gov. Dummer to Col<sup>s</sup> Stoddard & Partridge*

Gent.,

Having considered the Report of Grey Locks Designs I think the best Way to prevent him will be to draw him by good Usage. I desire therefore that you would endeavour to get some private Intimations to him that may encourage him to come in, in order to ratify the Treaty; I suppose it will not be difficult for you to get a Message to him to this purpose; in w<sup>ch</sup> you may assure him not only a Safety & Protection but Kindness & Good Usage, W<sup>ch</sup> I leave entirely to y<sup>re</sup> Good Conduct, and in Case of his Coming in with any other Indians of Note, & their Ratifying the Treaty It will be proper to give them some proper Presents, W<sup>ch</sup> you must provide for them according to your own Discretion, and the Charge will be allowed you as well as what Expence will be otherwise occasion'd by the Managem<sup>t</sup> of this Affair; In w<sup>ch</sup> if you succeed you will do singular Service for the Province.

In the meantime you will take prudent Care to prevent a Surprise.

I am favoured w<sup>th</sup> yo<sup>r</sup> Honours Letter of y<sup>e</sup> 6<sup>th</sup> Curr<sup>tt</sup>, of  
the same date I wrote yo<sup>r</sup> Honour via Pascataqua, & therein  
Informed, that Twelve men of the Penobscot Tribe at  
Montenicus killed a Cow & Several Swine belonging to M<sup>r</sup>.  
Vaughn of Pascataqua, that the Indians Say (to their admir-  
ation) they have as yett no news from Canada, Also I

repeated my desires for Liberty of your Honour, that I might returne to Boston ( for a small time in May ) when the Spring trade will be over\_\_

And now yo<sup>r</sup> Hono<sup>r</sup> being pleased to Advise me, ( from some Intimations you have had ) that you thought a good agreement between Cap<sup>t</sup> Giles & my selfe was absolutly necessary, to the well managing the Public Business &c at reading w<sup>ch</sup> I was surprised, for here has not been the Least difference or angry word past between us since my Arrival, I know not the designs of any ( unless Early to create a difference between us ) that sent missinformations to this place, of my coming here with comand of the Garison twas whispered about among the Soldiers tho I heard nothing of it; And w<sup>ch</sup> I think had Effect only to raise unreasonable Susptions in Cap<sup>t</sup> Giles, but soone after my arrival he asked me, whether I had any orders or Instructions for him, To which I answered I had no Instructions only relating to the Affair of Truck Master of which I had the Concern, and upon his repeating the Question ( which I wondered at ) I againe tould him I had nothing to do with the Garrison or men, nor was there so much as any mention of his name in my Instructions which I offered to shew him, but refused to see them, And that I had only brought a serv<sup>t</sup> with me, w<sup>ch</sup> yo<sup>r</sup> Honour tould me, at the Castle, that you Intended when he came to Boston to direct him to putt into the Muster roll as my Serv<sup>t</sup> without his dismissing any man, Neither have I so much as by way of Advice pretended to direct him, by word or wrighting to any person complained of, or faulted his Conduct in any respect, Neither have I given any one reason to gess what my thoughts are concerning him nor have I ordered any thing but in the truck house, or any man but my own serv<sup>t</sup> there, Nor so much as desired any man without his Leave to do the Least matter for me, tho for the Service of the Province in the Truck house & then not without paying them somthing

for it, thinking it most agreeable to Cap<sup>t</sup> Giles so to do; Cap<sup>t</sup> Giles also denyes that here is, or has been any disagreement or Difference between us. So that as I am not Conscious of any mismanagement or impudence (notwithstanding any wrong Intimations) I hope still to share in yo<sup>r</sup> Hono<sup>rs</sup> favourable thoughts\_\_\_

I presume by this oportunity Cap<sup>t</sup> Giles acquaints yo<sup>r</sup> Hono<sup>r</sup> that old Moxus has this day been here, rec<sup>d</sup> the Letter & present for him with usual Expressions of thanks &c—Wenogonott Loron & most of the Indians are out hunting, no news from Canada.

S<sup>r</sup>

I Rec<sup>d</sup> your Letter of the 27<sup>th</sup> of February last And am

Glad to hear of the safety of the Captives & doubt not, but by the Care of the Tribes I shall soon see them returned.

I am much Displeased at the Action of the Indians at Meintenicus in Killing the Creatures there; Upon which Occasion You must Inform the Sachem & other Chief men as well as the immediate Actors as follows.

“That I very much Resent this Liberty they have taken in Killing the Creatures which belong to the English, which is contrary to the Articles of Peace And that Common Justice which the English and Indians owe to one another, Not to Hurt one another in their Just Rights and Properties; Which Fault is much aggravated from the Constant Care I have taken to have them supplied with all manner of Necessaries at the Trading Houses: And as it was one View I had in this free & Generous Trade which I have carried on with them, To prevent such ill practices from them, So I flattered my self it would have that good Effect; And that as Justice & Honesty are the surest Methods to preserve the Peace, so, on the Contrary Violence & Robbery have a direct tendency To disturb y<sup>e</sup> friendship & good Agreement w<sup>ch</sup> I have Endeavoured to maintain with the Indians & which I hope will subsist between us & them to the latest Posterity: That if they have not already made full satisfaction for the damage done, I expect “They do it without delay. And that I insist “upon it that their Chiefs do frequently warn all the Young “Men That They never Meddle with any of the English “Cattle or other things belonging to them: And that I expect “They will make strict inquiry whether this Action was done “either through Rashness and Wantonness or by the Instigation of Such as are both theirs and Our Enemies, who may “have a wicked Design to make a Misunderstanding between “us; And that in this and all other the like Cases They do “Exemplary Justice to the Offenders, in order to deter “others from Doing the like Mischief. This is what you

are to say to them. No more at present from Your Humble Serv<sup>t</sup>

Honourable

S<sup>r</sup> Herewith is humbly presented An Acc<sup>t</sup> of Disbursements for Building a Truck House & repairing the Garison at S<sup>t</sup> Georges River, Agreeable to the Vote of the Hon<sup>ble</sup> Board Herewith Exhibited\_\_\_\_\_

I have strove to recommend my selfe to your Honour & the Goverments favour in this affair ( and the Difficulty of hall-ing Timber with our Cattle Being Considered ) am persuaded the Charge will not be thought to Exceed a Just proportion to the work.

About sixty feet more of the Old Stockado work is almost Rotten, but I let it alone, as thinking it sofcient for this Year

which old work being made new (next Summer) like what I have now Done will (in my Humble Opinion) make the Garison Commodious & Defencable for many years to come without any other Repairs of y<sup>e</sup> Out works—

When I built the Fort at Richmond I annimated the Labourers by working continually for y<sup>e</sup> space of Eighty Days And have used the same method in the work at S<sup>t</sup> Georges for Twenty Days. But did not (in the Richmond Acc<sup>t</sup> nor do I at this Time) make any Charge for my Own labour. March 25, 1726.*

My Lords,

Some few Months after the Departure of his Ex<sup>c</sup>y Govern<sup>r</sup> Shute for G<sup>t</sup> Britain I did my self the Hono<sup>r</sup> to write to y<sup>r</sup> L<sup>dps</sup> Giving you some Acc<sup>t</sup> of the Difficulties of this Province with Respect to the Ind. War which has bin Excited by the Govern<sup>t</sup> of Canada who has supplied the Salvages with all Stores of War has shelter'd them within his Governm<sup>t</sup> from our Pursuits, & has received them in Triumph with the Scalps of his Majesties subjects slain by this barbarous Enemy: W<sup>ch</sup> Conduct of the said French Gov<sup>r</sup> (as I suggested to your Lordships in my former Lett<sup>r</sup>) seems to me to bee a Notorious Violation of the Treaty of Utricht and in some Respects makes the War with the Indians more difficult than if the French were our declared Enemies; For by our Successes in the last eight Months We have driven them from their settlem<sup>ts</sup> in our Neighbourhood to the French Territories from whence they

make their Incursions upon us in small sculking Parties & after Mischief done retire thither again where I am cautious of allowing any of our Companies to pursue them till I can know his Majesties Pleasure in this Respect. And I must further inform your Lordships That notwithstanding the Advantages we have lately had over the Enemy, and the Distress'd Circumstances We suppose they are reduced to; The Expence of the War is so great & insupportable to this Province that Unless it shall please God to put a speedy End to it, It will inevitably ruine us; w<sup>ch</sup> I humbly offer to your Lordships Consideration & that you would please to make such a Representation thereof to his Majesty as you shall think necessary for his Maj<sup>s</sup> Service & the Safety & protection of these His Provinces. I should not trouble your L<sup>ds</sup>hip any farther but that the french Govern<sup>r</sup> of Canada has given me to understand that he shall address a Complaint to His Master on the Acc<sup>t</sup> of the Death of Been who was killed by our fforces in the ffight at Norrigewock of w<sup>h</sup> please to take the following account.

In the Action at Norrigewock within this Province w<sup>ch</sup> was in Aug<sup>t</sup> last our Forces destroy'd a great Number of the Indians & broke up that Settle<sup>mt</sup> amoung whome was Sebastian Ralle a Jesuit Missionary to that Tribe and the great Incendiary of this War who was slain in Fight Making actual Resistance to the Forces & at y<sup>e</sup> same time attempting to kill an English Captive in his Hands and refusing to give or take Quarter, To which Acc<sup>t</sup> of y<sup>e</sup> Death of the s<sup>d</sup> Ralle Coll. Harmon the Commander of the Forces at Norridgewock made solemn Oath before me in Council, As appears to y<sup>r</sup> L<sup>dps</sup> by the Minutes of Council transmitted to you by the Sec<sup>ry</sup> of the Prov.

:this Jesuit had all along push'd the Indians vpon their Rebellions Marching at the Head of Two Hundred armd Salvages through one of the Frontier Towns of this Province

before the war was declared threatening Destruction to them If they did not speedily quit the said Town, of w<sup>ch</sup> & more to y<sup>t</sup> purpose His Ex<sup>cy</sup> Goy<sup>r</sup> Shute is well knowing This I thought proper to hint to y<sup>r</sup> Lordships in Order to obviate any Complaints that may be made by the French Gov<sup>t</sup> whose Conduct in Exciting & Supporting the Indians in this War & Drawing down many remote Tribes with whom we have no Concern to their Assistance y<sup>e</sup> truth of which I have sufficient Testimonies to support I shall lay them before y<sup>r</sup> Lordship If it be necessary for y<sup>r</sup> Satisfaction. should rather have putt Him uppon offering at an Apology that a Complaint. All which I humbly submitt to your Lordship & am with the greatest respects y<sup>r</sup> Lordship Most Obed<sup>t</sup> & humble S<sup>t</sup>

Richmond April 13<sup>th</sup>, 1727

Honourable

S<sup>r</sup>/ 25<sup>th</sup> of the Last I acquainted you of the Departure of Quinovis for Canada, his proposal to returne in May, the Assiduety of the French Missionaries to break your Honours Measures with the Indians, and the seeming good state of affairs, their Efforts notwithstanding

I shall now Humbly suggest to your Honour that about y<sup>e</sup> first of Jan<sup>ry</sup> Last Finding in John Hegen and Sebaçomon a Disposition to go to Canada & Endeavour to Mollify the

Disaffected Indians there and thinking it for y<sup>e</sup> public service animated them as much as possible to Engage in the affair which they did, and returned this day with y<sup>e</sup> following report viz That when they came to Canada they found the Indians of Wowenock in a peaceable Temper But those of S<sup>t</sup> Francois for some time Inflexable to y<sup>e</sup> overtures of peace here also they met with Two Captains sent by the Penobscutts who were likewise mediating for a General peace And after a Conference of Twenty Days it was Concluded upon And that Three of the Chief men of S<sup>t</sup> Francois and one from wowenock with such as the Neridgawalk Ammoscoggin and Pigwackets may Chuse to represent them, should wait upon and Confer with your Honour for that purpose assoon as they could Conveniently come together which they thought would be toward y<sup>e</sup> latter end of June.

they add that the Elder Indians of neridgawalk Ammoscoggin and pigwacket who fled with their famolies to, and resided at Canada during y<sup>e</sup> late war & untill this Spring, are now on y<sup>e</sup> way in order to people y<sup>e</sup> villages on this side y<sup>e</sup> Contenant as formerly. These men Intreat your Honour to give orders to y<sup>e</sup> frontiers. Especially near Connecticut River and Kennebunk that none of y<sup>e</sup> English fall upon their people while a Hunting. And they say that they them selves have neglected their winters Hunting by improving their Time & bending their thot's wholly to this bussenness; which if they have, and their report be True (as I believe) they seem to be worthy of your Honours perticuler favour. The report of the two Indians as above is further Confirmed by a Captain of the S<sup>t</sup> Francois Indians who came with y<sup>m</sup>

I am your Honours most Hum<sup>ble</sup> Obedient Servant

Joseph Heath

P. S. I Believe that y<sup>e</sup> Indians who took y<sup>e</sup> people at Kennebunk apprehending that they were Closely persew'd by y<sup>e</sup> English Kill'd some of those Captives.

Gentlemen I am directed by the Hon<sup>ble</sup> the L<sup>t</sup> Gov<sup>r</sup> & this Prov. to acquaint you that They are Sorry to finde by a L<sup>t</sup> d. 22 March last past from Coll<sup>o</sup> Partridge to you that Hee has so greatly mistaken the orders Hee rec<sup>d</sup> from him as trouble you with Sending a Message to Greylock & other Indians respecting a treaty with them whereas there was no such thing intended or desired by us (as you will judge by the Copy of y<sup>e</sup> Lett<sup>r</sup> to Coll. Partridge w<sup>ch</sup> he informs he has sent you th<sup>o</sup> without any Direction for so doing proper measures to bring those Indians in to Approbate the Peace lately Made But the good People of the County of Hampshire being more apprehensive phaps then was Needfull of the bad faith of Greylock they had direction privately to discourse & notifie Him to Come in then to Confirme them in his good intents. His Hon<sup>r</sup> is however thankfull to you for your readines to do good offices to this Governm<sup>t</sup> & desires this affair may be no further proceded in onely as you may Ocasionally see any of those Indians to assure them of our ffriendship.

Sir,

His Hon<sup>r</sup> the Lieut. Gov<sup>r</sup> going to Newbury soon after y<sup>e</sup> Rec<sup>t</sup> of y<sup>r</sup><sup>o</sup> Letter by Saunders directs me to write to you in Answer to it, That you acquaint Victor that by the first opportunity after his Hon<sup>rs</sup> Return to Boston, He will send him the value of £5 in Consideration of the Guns he lost at Arrowsick & that M<sup>r</sup> Trescot is Ordered to pay him what he sold the Canoe for ; But that for the time to come he must keep himself sober, For he must not expect that the

Governm<sup>t</sup> will pay him for what he foolishly loses when he is in drink there being no Reason in that. I am further to acquaint you that His Hon<sup>r</sup> has appointed the tenth of July next to ratify the Peace with the Norridgewocks & other Indians at Boston; and therefore he desires that you would acquaint y<sup>e</sup> Indians with this his Determination, & by all possible Means engage the Chiefs not only of the Norr. & Penob. & oth<sup>r</sup> Eastern Indians but also of the S<sup>t</sup> Francis Cagnawaga, Schohanadie & other Tribes of Canada Indians to appear at Boston, And that you will use all Means in y<sup>re</sup> Power to bring them down to this meeting: His Honour consents to y<sup>re</sup> Coming soon to Boston to the Court, Provided you take special Care that the Service be not hurt in y<sup>re</sup> absence from y<sup>re</sup> Post.

Sir,

His Honour the Lieut. His Honour is surprized that he hears nothing of the Repairs of Brunswick Fort, and desires if you have not done it, that you would forthwith see the Matter effected.

Least you should have lost y<sup>e</sup> Copy of y<sup>e</sup> Gen<sup>l</sup> Assemb. Vote for y<sup>e</sup> Repairs, I herewith send you an other.

Indian – I have a Good mind to tel you something

Indian – I dont Cear to tell it, but I will to you, for y<sup>e</sup> Caneback Indians tel us y<sup>t</sup> y<sup>e</sup> English have taken one Indian & keep 2 or 3 more Reconars and if they Dont send them to us, it will be best this summar to kill & take sum of y<sup>e</sup> English

Gyles – you know y<sup>e</sup> English have sent thier Preconers accordingly to Promis at y<sup>e</sup> Confurance.

Indeed thier may be one or 2 behind as you say, that might be then at sum Distance.

but you have not sent in any, one you have at S<sup>t</sup> Johns, and authers your People say at Caneday sold to y<sup>e</sup> french, and 3 young women Married to Indians thier & have Children, and authers you say y<sup>e</sup> Indians have taken for their own, but Let them be brought in & Discours w<sup>th</sup> thier frinds, & then if they wont tary, they wont be compeld,

as to y<sup>e</sup> yong Indian you spake of Last fall, he was tendred as a hostig, of your Peoples faithfullness in finding out those that kild us, at Kenebunk and when Connawos Returns from Caneday & is faithfull according to Promis Governour Dummer will Do you no Rong you may Depend on it &c

Indian – I tould y<sup>e</sup> Canebacks that they wear forward in killing & makeing war, but they Must Remember that they Run away, & Left thier Country & ye Penobscut Indians tow, and we stud by, and now we Desiar Peace &c.

Gyles – you tould them wright which is the truth &c.

Indian – the Jesuitt & I am at Differance, he tels me I Love y<sup>e</sup> English but y<sup>e</sup> English, will Do by us as they have Don by y<sup>e</sup> southern Indians to take away our Lands & Privi-

lidges and then Compell us to Pray as y<sup>e</sup> English Do, and not to be aloude to use the Cross.

Gyles – I should be Plesd if I wear to travil a mong those Southern Indians you spake of, and to see how they live, & the Cear our Government takes of them that they have Justies Dun them, and y<sup>t</sup> they Dont tell thier Drunken fitts but to have y<sup>e</sup> Governments approbation &c and as for Compelling any to Pray as we English Do, is a mistake, for they Compel non, but Parswad & Invite Ani that will Com & Pray as we Do, and that is according to Gods word which is our Guide & y<sup>e</sup> true Path, Christ Left for those y<sup>t</sup> lieve in him, & their is but one God, & one Rite Path y<sup>t</sup> Leads to happiness, but Many Rong ones, & y<sup>e</sup> french have Compeld People so far as to burn em at y<sup>e</sup> Stake, to make them Pray as they Do, which is not according to Gods word &c

Indian – I tould y<sup>e</sup> Jesuitt that I believed the English kept the Sabbath best for they Praied all Day, but the french Shott Guns and Go to Play, but y<sup>e</sup> Jesuitt tels me I am above y<sup>e</sup> English which are not Good.

Gyles – I find in Gods word, (in his Book) whear God Commands us to keep y<sup>e</sup> Sabbath Day holy which is y<sup>e</sup> Seventh Part of time, Set a Part to worship y<sup>e</sup> only true & Liveing God, that made y<sup>e</sup> heavens y<sup>e</sup> Earth y<sup>e</sup> Sea & all Creaturs, and man in six days, and on y<sup>e</sup> seventh Day he Rested, and ordred man to keep holy y<sup>e</sup> Seventh Day ( which is the Sabbath ) to his service to Praise him, and to have no Regaurd to other Gods which are Images & y<sup>e</sup> worke of mens hands, they Can neither hear See nor smell nor Do us any Good, but that only true & Liveing God, Knows all our thoughts & actions & tis of him we Live move & have our being, our health breath meet Drink & Clothing & all we Enioy is from him &c

Indian – I like your Discourse & shall not hide anything from you of moment, farewell,–

Gyles – I shall Do for you & your People the best I Can

May 23, 1727.*

Sir

I rec<sup>d</sup> your Letter of the 13<sup>th</sup> April while I was in the Countrey. I am extreemly pleased with the accurate & useful Accounts & Observations you give us upon the State of Affairs with the Eastern Indians, & have great Dependance on your Diligence & prudent Conduct as a considerable Means to confirm their good Disposition. I have shall send you by Sanders the Value of £10 in Goods w<sup>ch</sup> you must deliver in my name & in the most proper manner to John Hegan & Sebacomon in Consideration of their Time & Service in the Journey to Canada w<sup>ch</sup> you mention in your Letter, and as a further Testimony of my Favour to them you must present them with the Value of 40. each in Provisions. I would have you do all you can to countenance & encourage the Indians Resettling at Norridgewock & those Parts.

You must acquaint Loron that you have my Orders alwaies to treat him as a particular Friend to the English. & must tell them that I have given Orders that no. Body shall molest them in their Fishing & Hunting, more especially on Connecticut & Kennebunk Rivers as they have desire.

*Letter L<sup>t</sup> Gov. Dummer to Gyles May 23, 1727.* \*

Sir

I rec<sup>d</sup> your sev<sup>n</sup> Letters sent by L<sup>t</sup> Wright & since that those of the Latter End of the Last & Beginning of this

month, & am well pleased with y<sup>re</sup> Diligence getting the best Intelligence you can of the Temper & Designs of the Indians.

The Sec<sup>y</sup> by my Order informd you that I had appointed the tenth Day of July for Ratifying the Peace with the Norridgewocks & other Indians at Boston, & directed you to endeavour that the Chiefs of the Indians repair hither accordingly; W<sup>ch</sup> Instructions you must observe & use all proper Argum<sup>ts</sup> to induce them to make Boston the place of their Meeting for that affair, But in case you shall find them finally averse to treat here you must immediately send me an Acc<sup>t</sup> of it by Express, that I may take measures accordingly; And althô I gave you Leave to come up to Court to pass y<sup>re</sup> Muster Roll at the next Session, I think it absolutely necessary that you stay to receive the Indians & conduct them to the Place of Meeting; & send an<sup>er</sup> Officer up with your Roll.

As to what Loron tells you of a Rumour of our Engaging the Mohawks ag<sup>st</sup> the Eastern Indians you must assure him that It is a false & malicious Story invented by our Enemies with a mischievous Intention, and that I wonder he will open his Ears to such a vile Sugestion after the Indians have had so many Marks of my Sincerity.

And as to the other Matter he mentions of a Design for a separate Peace with the Norr. Indians, You may tell him there is no Foundation for it. My Intention being to meet the Indians in Order to ratify the Peace already made & I shall come into Nothing but what is entirely conformable to that Treaty. &

In answer to what you have written by the Desire of Wenungenet & the other Indians & in their Name, You must say to them as follows;

That I rec<sup>d</sup> y<sup>r</sup> Letter of the 8<sup>th</sup> of April last some time since, but being then at my Countrey House at a considerable Distance from Boston I had no Opportunity to send y<sup>m</sup> an answer.

that I observe y<sup>r</sup> Messengers are return'd from Canada with Success, & that the Tribe of Indians at Arrasaguntacock are entirely satisfied with the Peace you have made with me on their Behalf as well & that they have sent two of their Chiefs & others to meet me in Order to ratify the s<sup>d</sup> Peace: and that althô twenty Indians of that Tribe were something dissatisfied yet they did at last approve of our Proceedings & express themselves well pleased that there is now a Calm in our whole Land, that I have likewise rec<sup>d</sup> the two Belts you sent me one from the s<sup>d</sup> Arrasaguntacock Tribe & the other from the twenty Indians above mention'd. I am well satisfied with y<sup>re</sup> success on that Message, and hope that the English & Indians throughout the Continent will live in perfect Friendship & Goodwill for the time to come & will promote each others Welfare all that is in their Power; It being alwaies my Desire & Endeavour to accomplish such a Peace as would prove for the great & lasting Benefit of the Indians as well as the English. I desire that the Chiefs & others Messengers from the Arrasaguntacock Indians would proceed to Boston as soon as they can, in Order to meet & confer with me upon those important Affairs, & that Wenungenet & Moxus & other Chiefs of the Penobscot & Norridgewock Tribes would accompany y<sup>m</sup>. And they may depend upon my Receiving them very kindly; And I hope our Interview will be for the better Establishm<sup>t</sup> of the Peace between us: That as to the twenty Men y<sup>r</sup> say were dissatisfied but are now brought over to join with you in the Peace, I doubt not but y<sup>r</sup> Account of them is true; But the French Letter sent me w<sup>ch</sup> y<sup>r</sup> say is from those Indians does entirely contradict y<sup>r</sup> Representation of the Temper & Designs of those Indians, For that Letter says they keep the Hatchet still well up & makes unreasonable Demands contrary to y<sup>e</sup> Treaty at Casco from w<sup>ch</sup> I am resolved never to depart, Pretending that they twenty are the Chiefs of the Norr. Indians & Act for y<sup>m</sup>, w<sup>ch</sup> I know to be false having rec<sup>d</sup> sev<sup>l</sup> friendly Let-

ters from Moxus & others who are the undoubted Chiefs of that Tribe, & that Letter casts very unjust Reflections upon me & the English W<sup>ch</sup> I sh<sup>d</sup> much resent, But that I entirely rely on the other Acc<sup>t</sup> of those Indians as true, & that French Letter being without date & not sign'd by any Person what soever, I take it to be a villanous Design of some evil minded Men that mortally hate both the English & Indians & are desirous to involve us in new Troubles; And therefore I shall reject the Paper as nothing else but a scandalous Libel; However if those or any other Indians may be so far prevail'd upon by the Artifices of any ill minded Persons as to attempt any thing upon the English contrary to our Treaty & w<sup>ch</sup> may lead to break the Peace I shall depend upon y<sup>or</sup> Solemn Engagem<sup>ts</sup> y<sup>v</sup> will effectually bind them to Peace & hinder them from offering the least Injury to the English. I have sent to Cp<sup>t</sup> Gyles a Reward to Alexis & Francis Xavier for their Time & faithful Service in the Message sent to Arrasaguntacook & as a Token of my further Respect I shall Order then a Supply\_Provision.

That Upon Inquiry into what Victor mentions of the Loss of his Canoe & Guns, I find Ensign Trescot has taken up a Canoe & two Hatchets w<sup>ch</sup> is supposed to be Victors & he has p<sup>d</sup> £3.10 for them W<sup>ch</sup> with £5 I shall give him in consideration of y<sup>e</sup> Loss of his two Guns will be sent to him in Goods by Saunders.

that I have rec<sup>d</sup> Advice from Annapolis that a Body of Indians being assembled near Menis & Secanecto some ill minded Men among them were meditating Mischief ag<sup>st</sup> our Fisher Men in Revenge of y<sup>e</sup> Justice done to y<sup>e</sup> French & Indian Pirates the last Fall. I think it proper to communicate this to y<sup>m</sup> Agreeable to y<sup>e</sup> Treaty Expecting that they may inquire into this matter, And, if it be so that y<sup>v</sup> oppose these Indians & Reduce them to a Peaceable Behaviour, W<sup>ch</sup> is conformable to y<sup>e</sup> Engagem<sup>ts</sup> in y<sup>e</sup> s<sup>d</sup> Treaty.

In answer to what Loron says

*Letter Lt. Gov. Dummer to Col. Wheelwright.*

Sir

I have rec<sup>d</sup> from the Eastern Indians very full Testimonies of their peaceable Temper & Intentions and as a Mark of their entire Confidence in our Friendship, Many of them (who have been driven by the late War into the Governm<sup>t</sup> of Canada are now Returning back with their Families to their old Habitations near our Borders, and they have desired I would take the proper Methods for their Safety in their Hunting near us; more particularly at Connecticut and Kennebunk River.

These are therefore to disire & direct you to take effectual Care that the Inhabitants of the Frontier Towns in your County be notified hereof, & that they give no Molestation to the s<sup>d</sup> Indians in their Hunting & Fishing, but treat them with Kindness & Friendship, and that they avoid all Occasions of Quarrelling with them, W<sup>ch</sup> is absolutely necessary In Order to preserve the Peace. You must more especially restrain the People on Kennebunk River from any Resentm<sup>t</sup> of the Injury done to our People there, For I have taken Proper Measures for Satisfaction.

I rec<sup>d</sup> your Letter by Cpt. Saunders, & observe what you mention of the Uneasiness of y<sup>e</sup> Indians upon the Fall of the Price of the Bever; To satisfy them in this matter, You must shew them by your Invoice that our Goods are likewise

fallen especially Rum (w<sup>ch</sup> is much lower in Proportion than Bever) That It was Agreed at y<sup>e</sup> Treaty that they sh<sup>d</sup> have the utmost for thier Furs that they would fetch in the market at Boston. That we then told them that the Prices of Goods were not fix'd but would frequently change according to the Circumstances of Trade, And when they Come to Boston They will have Liberty to try the Merchants & Shop Keepers here they will find that we have allowed them the full Price of every thing We have brought & sold our Goods to them at very easy & moderate Rates. Having this Opportunity I thought it my Duty as it concerns the Publick Interest, especially at this Juncture Affairs, to inform your Honour, of what happened of Late in this Town; There being several Irish Men settled in and about this Place, and more peticularly at Saco Falls, they prictice y<sup>e</sup> catching of all Sorts of Fish with Scains, began last Spring, and continue the same Practice Still: By w<sup>ch</sup> means prevent the Fish going up the Falls, into the fresh ponds, as usual, which has been found of great Prejudice to the Indians, insomuch, that many of them have come and made their Complaint to me, & desired that the Governm<sup>t</sup> might be inform'd thereof, that proper Measures might be taken effectually to prevent the same. Otherwise y<sup>e</sup> Consequence will terminate to y<sup>e</sup> Disservice of y<sup>e</sup> Province, as I conceive. Since y<sup>e</sup> Indians have made their Application to me, as I was a Town Officer, and a Well Wisher to the Province's Wellfare, I, with the rest of the Town Officers, thought it our Duty to forbid the afores<sup>d</sup> Practice, notwithstanding which, they continue to go on, & will do so, without some immediate Command from y<sup>e</sup> Governm<sup>t</sup>. *Letter Capt. Joseph Heath to Lt. Gov. Dummer June 12, 1727.*

Honourable

S<sup>t</sup>. This covers a letter from the Sachems and Captains of the Indians, Assembled at Taconnock in this River.

The Indians of Noridgawalk & St<sup>t</sup> Francois were made to feel the frowns of Heaven in a more distinguishing manner than any others Engaged in the Late war. Yet being a people to a great Degree Stubborn and Insolent, have been dilatory: And the Emissaries of y<sup>e</sup> Jesuits amongst them, together with the alteration of y<sup>e</sup> price of Beavour caused a Demurr. They hoped also by their delay to move your Honour to make the first Overtures of a Treaty; nevertheless (so far as I am able to desirn) the result of all their Councils is a general peace.

It's probable they'l be no less Exorbitant in their Demands about Land then they are Respecting provision For it has even been their custom to be Extravagantly wild in their first proposals and afterwards submit to reason. Nor is it contrary to former usage for them to be sustained with provision at a Conference; hence it's likely that y<sup>e</sup> Treaty once Opened, those affairs will soon be Accomodated.

It must be granted in their favour, that (their furs being Exhorted) they cannot long subsist in great Companies, And if the Affairs of y<sup>e</sup> Government should not admit of your Honours meeting them in a little time they seem to be under a necessity either to prey upon the Cattle in these parts, or Disperce their Company, which at present consists of 80 or an hundred men whose famelies are Generally with them.

The Canada Indians Stifly Opposed going to Boston & prevailed.

The messengers who signed the Indian letter proposed to Insist upon An Answer from your Honour in Ten dayes, which I resisted & persuaded them to leave it to you without setting any Time.

And when they Insisted upon having y<sup>e</sup> Congress at this Fort, I laboured to have them submit that also, but they would by no means Conceed to it. It appears to me that the noridgawalk Indians being Disgusted at some former Treat-

ment at Falmouth are resolved not to goe their they also complain of Ill usuage at their last meeting at Arrowsick, but if it be more acceptable to your Honour to Treat with them at Arrowsick then in this place believe they will meet you their if you Insist upon it.

And an answer to their letter with y<sup>e</sup> Time you propose for y<sup>e</sup> s<sup>d</sup> meeting being speedily Dispatched heither will be amighty satisfaction to them.

The Indians have been very urgent with me to goe to Boston on this Occasion And apprehending y<sup>e</sup> Service would not suffer by it did at least presume to promise them that I would goe with Cap<sup>t</sup> Saunders whome I have Several Dayes Expected from S<sup>t</sup> Georges to Take from this Truck House about a Thousand pounds worth of Furr. But that no Time should be lost have sent these letters p<sup>r</sup> Express

& am with all my heart Your Honours

Richmond June 30<sup>th</sup> 1727.

S<sup>t</sup> The Express p Lieu<sup>t</sup> Clark I rec'd 23<sup>d</sup> Currant, and the same day Dispatch'd the other letters to Cap. Gyles at S. Georges. The day following Toxas & Sosep of Noridgawalk, Jummoway of S<sup>t</sup> Francois and Nemmageen of Woweenock Accompanied w<sup>th</sup> men women & Children to y<sup>e</sup> number of 120 came heither, Rec<sup>d</sup> His Honour the Lieu<sup>t</sup> Governours Letter and a Supply of Provision and Desired me in their behalf to Thank him for his said Letter to, & care of them.

Some of their young men are gon to penobscutt & pigwacket & on y<sup>e</sup> 13<sup>th</sup> Instant 15 of them went to Canada to bring over their famolies.

In his Honour the Lieu<sup>t</sup> Gove<sup>r</sup>s letter to these Indians I observe It's said that I am to Informe them what place he thinks most proper for y<sup>e</sup> Conference which Instructions have not rec'd as yet But apprehending ( by his honours Letter to the Penobscutts ) that Falmouth is Intended have acquainted these Sachems of it who seem mightily satisfied that he is coming but don't speak of meeting him there, which together with what they said when they wrote to him maketh me doubt they'l be somewhat stiff about it They intend to be all together at merry meeting bay in 6 Dayes ( and ) upon his Honours arrival at Falmouth ) I think a message to them would be for the service—

I observe also in his honours Letter to Cap<sup>n</sup> Gyles that its proposed y<sup>e</sup> sloop which brought y<sup>e</sup> provision here should

bring him & y<sup>e</sup> penobscot Indians to Falmouth by y<sup>e</sup> 10<sup>th</sup> of July which Time being at hand & m<sup>r</sup> Tarr (master of y<sup>e</sup> said sloop) having no Orders in that respect have presumed to Direct him to attend that service, as knowing y<sup>e</sup> said Indians being Disappointed of a Conveyance (as his Honour proposed, would be Disgusted.

The Indians are very Gealous that the Missionary at S<sup>t</sup> Francois has wrote a letter to his Honour reflecting upon them and Intreat (if it be so) they may Know it. And I should greatly rejoyce if such a letter could be produced at this Juncture

May it please Your Lordships

My last bears date Aprill ye 8<sup>th</sup> past Duplicates of which I forwarded by y<sup>e</sup> Industry William Shepardson

Commander which hope came safe to hand; since which I received a letter from M<sup>r</sup> Popple by your Lordships command bearing date Jan<sup>y</sup> y<sup>e</sup> 3d, last which letter came to my hand about y<sup>e</sup> Middle of Aprill following with M<sup>r</sup> Attorney & Sollicitor Generals opinion concerning His Majesty's right to y<sup>e</sup> Woods. A Coppy gave to the Deputy Surveyor for His better Government. I dont know but this will strengthen the Surveyor something in this Province; but in y<sup>e</sup> Massachusetts they will not mind it. Since M<sup>r</sup> Attorney & Sollicitor General are of Opinion that it is His Majesty's just right that all such trees should be reserved. humbly am of Opinion that an additional Clause be to that Act, of the 6<sup>th</sup> of His present Majestys Reighn ( Viz<sup>t</sup> ) in Townships as well as out without respect to either; for if the Act be not Severe the people will break in upon it. I shall say no more Relating the Kings Woods, least I should be thot troublesome, but shall do my utmost to preserve the trees from being destroyed. Those that are imployed, as Agents; to the Contractor for Masts. ( Viz<sup>t</sup> ) M<sup>r</sup> Gulston they have great Oppertunitys to make waste of pine trees here. by falling more then they want and those people that are Employed in that Service are generally concerned in Saw Mills that what they dont make use of for Masts are free for y<sup>e</sup> Mill men. having been told that great quantities have been cut down formerly for that End. I dont know that it is so now. Neither do I mention this by way of complaint. I only humbly offer that a letter may be wrote by your Lordships Command to the Deputy Surveyor or to whom your Lordships may think proper which may prevent the Destruction of many a good mast.

 This Government Joyned with the Massachusetts & Nova Scotia in ratifying the peace made with the Eastern Indians. When Lieutenant Governour Dummer myself & Major Maskarone on the part of Nova Scotia was present at Fal-

mouth in Casco Bay the 31<sup>st</sup> July last past were three tribes present (viz: Arresaguntecooks, Norridgewocks & Wownocks that borders near Cannada made their Subjection to King George and Confirmed the peace we made with the Penobscots last Summer. a perticular account your Lordships will receive from Lieutenant Governour Dummer. That Government being cheifly concern'd in making this last war. I hope we shall have a lasting peace with the Indians which will very much contribute to the Settlement of this Province.

According to your Lordships Order, I have given directions to the Naval Officer to be careful in sending home the Account of all Negroes here Imported within this month we have had more Negroes imported then for many years before Viz: Twelve from Antiqua, Eleven from the Island of Tercera one of y<sup>e</sup> Western Islands & two from Nevis most of them new sent here for sale in our trade Vessels.

I have herewith inclosed the Journals of Councill with what Acts I have passed from November 1726 to May 1727 together with the remaining Stores & Expence of Gun powder to the 28<sup>th</sup> May 1727. I hope your Lordships will be pleased to be put in mind how verry bare we are of Stores of all sorts at Fort William & Mary so I found it, at first when I had the Honour of Commanding it, our agent had Instructions to Sollicit, am in hopes we shall succeed tho we wait long. M<sup>r</sup> Bacon our Collector of this Port accounts will come by the next.

The trade of the Country which is almost at a Stand, partly Occasioned by the Warr with Spain its thot two hundred thousand Quentols ffish now remains in y<sup>e</sup> Country for want of the usual number of Shipping to carry it of, one thing more that has greatly crampd our trade which is calling in our bills of Credit With the greatest Submission to His Majestys Instructions that was of late sent, to these Governments. Humbly taking leave to say a word or two; I

Designe it for the good of Trade & the Incouragement of the Manufactures in England. The trade of this Country has been four times more within these last ten years then before (This reason) that we have had a medium which has Increased the trade & Incouraged people to run more into it; so that the makeing their own cloathing has Decreased by reason of the Currency of paper Credit; by this means we have had more merchandise, perticularly woolenis from England within these Seven Years past then in twenty or twenty-five years before and I am perswaded that the Custom Houses in London & the Several Ports in England will Evidence the Verity of it. I dont conceive that this great trade has been so advantageous to this Country but Chiefly to Support our Ambition. The common people are come to that pitch that they will wear nothing but the best of Cloaths and so in proportion now the calling in the bills of Credit put every body upon thôts. for if the Merchants has not money, then the trademen, not Country men cant have it. so that they will be obliged to spin their own Cloathing; or wear none; & live within themselves. The Contrary a Sufficiency of bills of Credit makes them live in great plenty & trade Circulates quick. but when no medium then it stagnated to that Degree that the grass in Boston streets will soon appear. its hardly possible to conceive the Difference that the calling in the last hundred thousand pounds has made; neither gold nor Silver remains with us. The ballance of trade is verry much in favour of Great Brittain. but as fast as it comes in, so soon is it stript off. and there our whole trade naturally Centers. if no paper Credit then the People will be Obligated to keep the Silver here. I suppose three hundred thousand pounds would answer the End their's not in boath Goverments (not Exceeding forty) but would gladly petition the King for striking bills of Credit and those forty are the great Usurers of the Country who layes wait for his

neighbours land &c as for my Own part I want it as little as any, I'm no trading man my Farms brings me victuals & Drink and for Cloathing I must do as I can, I beg your Lordships will forgive the freedom I have taken with my most dutifull respects, I take leave to Subscribe myself

In the House of Representatives Oct<sup>o</sup> 10<sup>th</sup> 1727—

Voted That a Message be sent to His Honour the Liev<sup>t</sup> Governour to acquaint him that it is the earnest Desire of this House that his Honour would please to give His orders for the Dismission of Cap<sup>t</sup> James Woodside from the Command of His Majesties ffort Mary at Winter Harbour, inas-much as the Indians have desired another person to have the Care of the Trade and be Truck Master there, whom His Honour as we apprehend in some measure promised the Indians at the late Conference.

And the House would observe that it will save the Charge of the pay of the Commanding there to have the Truck Master the same person besides the Difficulty if not Impossibility that will arise (if that officer should any longer be continued in that Command) in procuring a proper person to have the Care and Management of that Branch of the Indian Trade, which the House are very willing and desirous should be carried on apprehending it for the Interest of the province, and agreeable to the Indians Inclinations.

Gentlemen of the House of Represent:

I look upon it to be of great Importance at this juncture to have a Supply made for the Arraseguntacook Indians, either at winter Harbour or rather at Saco River, if it be Considered that its not only in a manner necessary for the Support of those Indians; but the only favour they insisted on at the Treaty & w<sup>ch</sup> they were also encouraged to Expect from my Answer to them, with the Approbation of his Maj<sup>ties</sup> Council, & in the presence of a number of the Represent<sup>ves</sup> sent down to attend Me on that Treaty; And I am of Opinion that the refusing of it will appear to them very partial whilst its granted to the other Indians; And I can't but very much Apprehend that such a distinction will greatly disaffect them, & give the French an Advantage, to Recover these Indians, who have not without great difficulty been gained to the English Interest, the Consequence of w<sup>ch</sup> I leave to y<sup>r</sup> serious Consideration.

Voted that a Message be sent down to the Hon<sup>ble</sup> House of Represent<sup>ves</sup> To desire they would pass on the Councils vote upon the Committees Report respecting a supply for the Indian Trade to be sent to Fort Mary; The Board apprehending it to be of very great Consequence for the Strengthening & Confirming the present Peace That a suitable Supply of Goods be sent there without Delay, And the Countreys Sloop being now ready to proceed thither.

*Message from the Lt. Govr.*Boston 11th Octo<sup>r</sup> 1727

Gentlemen of the House of Representatives

In answer to your Message to me this Morning desiring the dismissing Cap<sup>t</sup> James Woodsides from the Command of the Fort at Winter Harbour, I must Acquaint the House that I never made any promise to the Indians respecting the pson proposd for a Truckmaster, nor do apprehend any difficulty in procuring a proper pson for that Service, notwithstanding the p<sup>s</sup>ent officers Continuance there, or that His Continuance Can any Wayes interfere with the good Management of the Trade: I must also observe to the House that they did not esteem the saving of a greater Charge for the pay of an Officer of any Consequence in their Choice of a Truckmaster for the Blockhouse at Georges River.

Upon the whole as I Would be glad at all times in every Way to Express the Esteem & regard I have for the Sentiments & desires of Y<sup>r</sup> Hon<sup>ble</sup> House so I am also determin'd to give no Example of any Violent or arbitrary proceeding during my Government but shall endeavour that all the officers of My Appointing may be assured of My protection whilst they behave well: therefore as this affair now stands I cannot as I Conceive with Honour & Justice Consent to Cap<sup>t</sup> Woodside's dismissal before Hee have a Hearing upon what has been objected to Him in y<sup>e</sup> Sundry Votes & Messages of y<sup>r</sup> House

Gentlemen of the House of Representatives

I shall be sorry to have this Court rise, untill a provision be made for the supply of the Arraseguntacook Indians, & those living about that Country, there being such frequent Accounts & Instances of the indefatigable labour of the french Popish Missionary's to stir up the Indians every where to Warr upon us: And it cant be strange if they should find amongst those poor people some Instrum<sup>ts</sup> for their wicked purposes, And I look upon it next to impossible by anything we can do to Oblige or restrain those Priests from their Outrage. Wherefore I think the only Method left us is to Cultivate, & Improve the friendship, good Esteem & Affection w<sup>ch</sup> those Indians have at present for us, who have signed the Peace, & which I make no doubt will with prudent managemt render our Frontiers safe in all time to come; And therefore I now once more earnestly recommend the aforesaid Supply to You.

May it please this Hon<sup>ble</sup> Court

To Inforce & Maintain the Petition Now before this Hon<sup>ble</sup> Court

We Would Humbly Observe

That Falmouth was settled Anciently by Lawfull Proprietors & their right confirmed by the Hon<sup>ble</sup> President Danforth & No Man Invaded their rights till the Heathen Beat them off.

That upon their resettlement in 1718 the Generall Assembly from their Consciousness of this Ancient right Justly provided that their Order shall in no wise prejudice & Infringe any just right & title that any person have to Lands there.

Therefore when the same Court then Order, that the Inhabitants of the Town be Invested with Town priviledges, And that fifty ffamilys more be Admitted as soon as may be and Settled in the most Defencible Manner it can't be Meant that all the Inhabitants that were Not before Proprietors were thereby made Prop<sup>r</sup>s: or that the Inhabitants in a Town Meeting were thereby enabled to Vote in and settle ffifty Proprietors of the Common & undivided Lands throughout

the Town because with humble submission We believe No One Member of a Gen<sup>l</sup> Court could have thought so, within five years after the Province Act made to Order & direct Proprietors meeting, distinct from all Town Priviledges: But the plain sense is as We Most humbly conceive, that, The Inhabitants shall have Town meetings & Act as a Town, And the Proprietors shall have their Meetings & provide that fifty more ffamilys whether of the old Proprietors their Heirs or Assignes or of Such persons as they shall give Proprietys to, shall be there settled as aforesaid

But Notwithstanding the Inhabitants thinking or Desiring to think, this Power was all given to them, have at their Town Meetings taken all the Lands into their Own hands, gone on Admitting Inhabitants and Making them Proprietors to the Number of Above a hundred Instead of ffifty, given Among them Not only the Common Lands but the Proper Estates of Ancient Proprietors whose Titles Were Above fourscore years old, & some where their Fathers, Uncles & Grandfathers have been killed by the Indians upon the spot, & Voted to Defend them against the Proprietors And Make good their Losses, that it seems they are resolved Whether the Indians or English have the Land, the right Owners shall be Nothing the better for it.

Wherefore Upon the whole We humbly think it Necessary in Order to Justice And a peaceable Issue of these Contentions that a Co<sup>m</sup>mittee of Good & Prudent Men be Appointed to Attend their Proprietors Meeting to receive the Claims of the Old Proprietors & Allow them, that a fair list may be Made of Such as may be come at; What they can't supply out of themselves, of the ffifty ffamilys, may be by the good liking as well of the Proprietors as of the Committee made up, out of the best of those persons that have been Irregularly introduced into the Town, & the Same Committee may report to this Hon<sup>ble</sup> Court their Opinion concerning any

others that May have been Innocently introduced into the Town by the aforementioned Mistakes of the Town & Also that sufficient provision may be made for any Ancient Proprietors that may come hereafter & are Not yet Known: This is What is Humbly Prayed or such other & better provision as this Hon<sup>ble</sup> Court shall think fitt, Which is Most humbly submitted by us.

*Petition of Heirs &c. of Ancient Proprietors, &c. of Falmouth.*

To His Excellency William Burnett Esq<sup>r</sup> Cap<sup>t</sup> General and Governour in Cheif in & over his Majesties Province of the Massachusetts bay in New England, And the Hon<sup>ble</sup> the Council & Representatives in General Court Assembled August 14, 1728

The Petition of the Subscribers the heirs or Assignes of the Ancient Proprietors of the town of Falmouth in Casco bay, for Ourselves, and at the Desire, and in behalf of the other Proprietors of said town

Most Humbly Sheweth That Whereas the Hon<sup>ble</sup> The Governour & Company of the late Colony of the Massachusetts Bay Proprietors of the Province of Maine Appointed & specially impowered their Committee to Regulate & bring forward the Settlements of the Eastern part of Country, as may Appear of Record, And Whereas The Hon<sup>ble</sup> Thomas Danforth Esq<sup>r</sup>, Commissioner & President of said Province,

by power and Authority derived from the Hon<sup>ble</sup> The Governour & Company of the said late Colony of the Massachusetts bay on the twenty sixth Day of July One thousand six hundred & Eighty four, did give Grant Convey & Confirm The Lands in Falmouth Township unto Cap<sup>t</sup> Edward Tyng, Cap<sup>t</sup> Silvanus Davise M<sup>r</sup> Walter Gendall, M<sup>r</sup> Thaddeus Clark, Cap<sup>t</sup> Anthony Brackett, M<sup>r</sup> Dominicus Jordan, M<sup>r</sup> George Brimhall, & M<sup>r</sup> Robert Lawrence their heirs and Assignes forever as trustees, for & in behalf of the inhabitants of Falmouth as Appears of Record, And the said Trustees or Committee of said Town by Vertue of the power and Authority so delegated to them did proceed to lay out many lotts of land, & Gave Granted & Confirmed the Same to sundry Persons, who builded thereon & made improvement of until the late terrible Indian War, when the town was almost destroyed entierely, they haveing taken the Fort & laid most of the houses in Ashes, and what was As fatal to the true Interest of your Petitioners the town book was then destroyed for it Cannot since be found. So that it is A difficult matter to find out the whole number that were admitted Settlers & Proprietors by the Trustees aforementioned Your Petitioners would further humbly Sett forth that they have at Sundry times made Application to this Great & Honourable Court Viz<sup>t</sup> in the year 1715, 1717 & 1718 for their protection & authority in bringing forward An Honest & Regular Settlement, that in the year 1715 the Court was pleased to Appoint the Hon<sup>ble</sup> Coll<sup>o</sup> Wheelwright & others A Committee to prosecute the Regular Settlement of the Eastern frontiers, That upon the Petitioners Renewed Application in the Year 1718 the Court were pleased to Revive the said Committee & fill up the Vacancy of those that were deceased, the said Committee on the 11<sup>th</sup> of November 1718, reported that it was Absolutely Necessary that we Should be vested with the power of A town by the Mets & bounds

therein Sett forth & described in order for the Establishing A Methodical proceeding in a fair & regular Settlement of the said town, which Report was Accepted & Confirmed, And it was then further Ordered that the Inhabitants of said town, for the time being Should have power to Act in all town Affairs but with a Proviso so as not to prejudice or infringe on any Just right or title that any persons have to lands there, & that fifty familys att least more than now are be Admitted as Soon as may be & Settled in a regular and Defensible manner as by the said Report and order thereon herewith humbly exhibited more fully & perticularly Appears, Now Your Petitioners would with all humility Remonstrate their Lamentable, and deplorable Case, to Your Excellency & this Great and Hon<sup>ble</sup> Court, and doubt not but you will of your Consummate Wisdom and wonted Goodness find out Some way to Save our Rights and Estates, which we hold by force & Vertue of our ( former ) & honest purchases of the Assignes of Sir Fardinando Gorges And the Grant of the Hon<sup>ble</sup> Thomas Danforth Esq<sup>r</sup> Aforementioned, President of the Province of Maine, by Order & Authority of the late Colony of the Massachusetts who purchased that Province of the Assignes of Sir Fardinando Gorges; Since the late peace So happily Established with the Eastern Indians there are Numbers of people from almost all parts of the Province and many others from beyond Sea, have rolled in on your Petitioners Estates. like a flood, and under pretence of the authority of the vote of Court of the 11<sup>th</sup> of November 1718 aforesaid for admitting fifty familys att least to Settle in the said town, which your Petitioners Humbly Conceive must undeniably be done by their Consent only who were & are the true proprietors of said town, And they have without the least Consent or Approbation of your Suppliants the Proprietors in a most unjust and disorderly manner Sett down on and possessed themselves of their known Estates

and Settlements which have been defended att the Expence of the lives and blood of many of your Petitioners Ancestors and predecissors, and they are dayly in the practice of these their unjust proceedings, for they now set themselves up not only as town Inhabitants but even proprietors of the lands, & admit such persons as they See Cause into town, & Also allow Others that are Neither Proprietors nor Inhabitants to Vote in thier Meetings for Town Officers ( &c ) And by these means get their Votes And Obtaine thier Ends And then Grant away Such Parcells of your Petitioners Lands And known rights, and Ancient Settlements as they see Cause ; Also without any Reservations or Proviso's Altho' the Same was Specially pointed att and so wisely guarded and preserved to us by the Vote of November 11<sup>th</sup> 1718 Aforesaid, passd by this Court, Wherefore Your Petitioners take leave to make known this their Sad & unfortunate Case to Your Excellency and Honours, And Pray you would of your wonted Goodness, Clemency & Justice interpose your authority in Preserving our Estates to us, and order that M<sup>r</sup> Danforths Deed may be deemed Good to the Trustees, therein named for the Use Specified and to those that hold under them, or that you would Revive the said Committee Viz<sup>t</sup> The Hon<sup>ble</sup> Coll<sup>o</sup> Wheelwright and others, or Raise another with power to do what may be thought Equal and Just, as to the bringing forward A fair & honest Settlement in said town, as it was your pleasure in the Case at North Yarmouth our next neighbouring town, whose Case would have been as miserable as ours, had it not been for the happy Effects, of the power and Prudence of that Committee, which is Acknowledged by the proprietors And those that knows the Case of that town, and that you would over rule the orders & acts of ( those ) people who pretend to Act in town Affairs Choosing Select men, Creatures of their own who will in a little time if not prevented Grant away the whole township.

Your Petitioners need not put you in mind of your Exercising your Paternal Authority in Such Extraordinary Cases, of Superceeding town Votes, as of the town of Sherbourn, Haverhill &c. On the whole your Petitioners Pray and Earnestly Intreat they may find a Speedy Releif & Redress in the premises from the authority of this Great and General Court, nothing less then which will Save us from Ruin and Destruction, And your Petitioners as in duty bound Shall ever pray &c

*Copy of a Letter from M<sup>r</sup> Ralph Gulston the Contractor for New England Masts. Dated the 2<sup>d</sup> of October 1728.*

Sometime ago I laid before you, that by reason of the great Waste of late Years made of white Pine Trees, in the Province of Newhampshire in New England (from whence the Royall Navy was formerly Supplied with Masts) I found it impracticable now to get them there, which obliged me to Send a Number of Men, Cattle & Materialls, further along the Coast to the Eastward to a place called Casco Bay, but my Agent there and likewise the Capt. of my Mast Ship who lately came from thence, informs me, that for want of a Fort

to protect the Men they are very much exposed to the Indians, who have already once annoyed them, so that they were forced to retire and Quitt their Work, and they further add, that unless a Fort is built there, the Ships may in Case of Warr be taken out of the very Harbour of Casco, and if the War should be with France, as they possess all that part of the Country in the River Canada, which lays on the back of the Continent of Casco, and not very farr distant, it is to be presumed, that they would not only encourage, but join with the Indians on their Side, who are Numerous, as they formerly have done to molest and destroy the Inhabitants at Casco, as much as possibly they could; the apprehension and fear of which is chiefly the Occasion of that part of the Country being so thin peopled, whereas the Security of a Fort would draw and Encourage the Inhabitants to go and Settle there, and be a Means of Enabling them to Secure and defend themselves in their said Settlements which in former times they have been forced to abandon, and as to the charge of such a Fort as will be requisite, My agent says it will not exceed Five hundred pounds Sterling besides the Guns, and as in Case of a War either here, in Europe, or with the Indians in New England, the supply of the Navy for Masts may depend thereon. I thought it my Duty to lay the Affair before you

In my humble opinion it is a Jesuitt<sup>s</sup> Contrivance to move y<sup>e</sup> Indians in that affear, but it being such a Distance from this place, they ar not much Concerned at Present Not but y<sup>t</sup> y<sup>e</sup> Jesuitts & will make y<sup>e</sup> Indians Vnasy if they Can on this Affear at Wenopolos.

Boston N : England March 26<sup>th</sup> 1729

Dear Sir

Since my Last to you of y<sup>e</sup> 14<sup>th</sup> of Jan<sup>ry</sup> I have been to the Eastward as far as Kennebeck River w<sup>ch</sup> is about 150 Miles from this Town; in my way I went thro' the greatest part of the Massachusetts Gover<sup>mt</sup> on this side the River Merrimack, and from thence cross'd over into New Hampshire as far as Piscataqua River, w<sup>ch</sup> is divided at y<sup>e</sup> Top into 5 Large Branches all w<sup>ch</sup> I went round and then rid thro' all y<sup>e</sup> woods in the Townships of Exeter, Nottingham, Chester and Dover, and from thence cross'd over the great Salmon Falls w<sup>ch</sup> divides New Hampshire from y<sup>e</sup> Province of Maine on y<sup>e</sup> other side I entered the Township of Berwick in y<sup>e</sup> County of York, and Rid all thro' y<sup>e</sup> woods to Cascoe Bay, and from thence to Kennebeck in the whole I travell'd above

800 Miles the most part of it up to the Horses Belly in Snow. M<sup>r</sup>: Haley has given you an Acco<sup>t</sup> by the Last Ship in my absence that M<sup>r</sup>: Slade and I had Seiz'd 200 Large Trees in New Hampshire, w<sup>ch</sup> I since Libell'd and they were Condemned (no body appearing to claim them) for the Kings use: they were at that time so cover'd with Snow y<sup>t</sup>: we cou'd not examine them, but Since y<sup>t</sup>: we have; and there was 60 of them very fine and sound from 26 to 33 inches Diameter; but while I was down at Cascoe the Country fellows cut 40 of them into Loggs and carry'd them away, this provok'd me so much that I went again to all their Saw Mills w<sup>ch</sup> are above a hundred in Number, where, and in the Woods adjacent I seiz'd 1300 Loggs Some of which are 40 Inches Diameter, and 280 fine white Pines w<sup>ch</sup> are not as yet cut into Loggs; I left M<sup>r</sup>: Slade at Piscataqua to Libell them, and they were to be tryed yesterday, but I have had no acc<sup>t</sup> of y<sup>e</sup>: Success as yett. the greatest Difficulty y<sup>t</sup>: I apprehend we shall meet with will be in y<sup>e</sup>: Province of Maine, where the people are (by y<sup>e</sup>: instigation of one M<sup>r</sup>: Elisha Cook of y<sup>e</sup>: Town who has a large interest there) of opinion that the King has no Right in y<sup>t</sup>: Province; however, I have seiz'd 94 Loggs in the Township of Berwick w<sup>ch</sup> will be enough to try the Title and then I shall be better able to tell you what we may expect to do there, it would grieve you to see what Distruction has been made in the Woods, there is Scarse a Tree Standing anywhere within 6 or 7 miles, of the waterside between this and Kennebeck that is worth halling to the Bank; Coll<sup>o</sup>: Westbrook who is Agent here for the Contractor is forced to go 9 or 10 miles into the Woods for Masts, for the carriage of which he is at a great Expence every year, in Cutting Stay Roads thro' the Woods to the water side, he has got very near as many Trees fit for Masts Yards and Bow Sprits, as will load 2 Ships, but they not being as yet Squared he cant tell what Dimentions some of them will be

of. I have hired a Man to look after 20 very fine Trees y<sup>t</sup> are Left of those y<sup>t</sup> were condemn'd w<sup>ch</sup> I beg to know your orders about; in my opinion the Contractor should be Obliged to take them from y<sup>e</sup> King at a reasonable price, otherways it will not answer the Expence of trying them; for by Order of the Court of Admiralty here some of the Refuse of these that were condemn'd were put up to publick Sale in order to pay y<sup>e</sup> fees of the Court, but no Body wou'd bid one farthing for them, So that as yet I am at the whole expence of the Tryall out of my own Pockett. There is a great deal of fine white Oake in this Country, and some very good Ash, but without the government think proper to make some further provision for the preservation of it, we shall not be able to prevent its being distroyed, I hope what we have done this Winter will be approved of at home I am very sure we have prevented the cutting down Sev<sup>l</sup> Thousand pounds worth of Trees more than would pay our Sallaryes w<sup>ch</sup> will never bear y<sup>e</sup> charges of any Body in y<sup>e</sup> Office, that will do his Duty. I have been forced to draw upon you for fifty pounds Sterl w<sup>ch</sup> I must intreat you to advance for me, I shall go with M<sup>r</sup> Haley, Hamilton and Oldershaw, in the very first Vessel for Annapolis in obedience to our Instructions and will leave M<sup>r</sup> Slade here to look after the Woods in these parts, but it will be near 2 Months before any Vessel goes that way, without we Hire one on purpose, and the people here ask us 200£ this Currency to Se<sup>tt</sup> us down there. I have no more to add but to beg of you to represent this where 'tis most proper; and be assur'd y<sup>t</sup> nothing shall be wanting on our parts to fullfill y<sup>e</sup> trust reposed in us. I have shew'd the directions for raising Hemp, and making Pitch and Tarr, to a great many of the People here, but whilst they can cut the Pine Trees, and Steal them away, w<sup>ch</sup> I hope we shall in a great measure prevent by proper care next Winter, they think it less labour to Logg, than do anything else, So that

as yet they dont seem inclined to make y<sup>e</sup> Least Step that way, but laugh at us for proposing it to them, however, I design as soon as y<sup>e</sup> Governour calls the Assembly together to give in a Memorial to pass an Act upon that head, I shall sett out tomorrow morning for the Narraganset Country where I am told there is some very fine Timber, of w<sup>ch</sup> you shall have an Acc<sup>t</sup> pr next Ship M<sup>r</sup> Slade and I have Mark'd upwards of a Thousand Trees with the broad arrow in New Hampshire, and the Province of Maine, all upwards of 24 Inches Diameter, but sev<sup>l</sup> of them grow 16 : 18 : or 20 miles from the heads of Rivers

I am Dear Sir Your most affectionate and  
obed<sup>t</sup> humble Serv<sup>t</sup> Jer : Dummer

P. S. There is one Reason in my opinion Sufficient for laying a Restriction upon cutting of white Oak, and ash, which is, that sev<sup>l</sup> of the Merchants in this Country send great Quantities of them every year to Spaine; as they likewise do small Masts under 24 Inches Diameter, w<sup>ch</sup> I think care shou'd be taken to prevent, and our Instructions dont empower us to Seize them w<sup>ch</sup> I hope is only an Omission in them.

Directed to David Dunbar.

*Thomas Coram Esq<sup>re</sup> to the Lords Commissioners for Trade and Plantations.*

May it please your Lordships

Pursuant to your late Co<sup>m</sup>mands Concerning That Large Tract of Country laying Wast and uninhabited Between the Province of Maine in New England, and Nova Scotia Bounded by the River Kenebeck and the River S<sup>t</sup> Croix Which said Tract of Country was given up without Resistance, by the New Englanders of the Massachusetts Bay, In the Reign of K. William, Anno 1696, To the French who annexed it to their Government of Nova Scotia, and it remained to them at the Treaty of Riswick and many years after the Peace Concluded there, In which Time the Jesuits of Canada built a great Church at Noridgwok near the River Kenebek as a Standing Proof of the French Right and Possession of

the said Tract of Country Which was Anno 1710 taken by Conquest with Nova Scotia at the Crowns Expence with British Forces sent from England under Gen<sup>l</sup> Nicholson for that Purpose; By her late Majesty Queen Anne, To Whome the said Tract of Country together with Nova Scotia was Surrenderd by Articles by Monsieur Subrecass, the French Kings Governor there, as may fully appear as well by the said Articles as by the said French Governors Commission and the same was Confirmed to the Crowne of Great Britain by the Peace of Eutrecht.

As your Lordships were pleased to Require my opinion In what part would be most proper to begin to make Settlement<sup>ts</sup> in Case the King should think fitt to Settle Inhabitants on the North East side of the River Penobscot towards Nova Scotia and to leave that part of the said Tract on the south west side of the said river Penobscot, Towards New England to be Settled hereafter, or for some other purpose; I must here beg leave to say again as I have heretofore to your Lordships on like occation, That I humbly conceive If any part of the said Trust should be Sufferd to go under the Government of the Massachusets, It would Infalably be the Destruction of the whole thereof, by the provoked Native Indians there (let whosoever Settle on any other part of it) they having in time past received so many Injurious provakations by the Base & fraudelent practices of the Massachusets in making them drunk, then enticing them to Execute Deeds of Conveyance for large Quantities of their Land, when they knew not the meaning of those Deeds, and other base practices which has already been the Cause of Long warrs, and of shedding the Blood of Many of His Majesties Subjects, and those Insenced Indians will never whilst any of their Blood remain be Truely reconciled to the Massachusets, or any Els who shall Settle on the said Tract whilst they have any pretensions to it or any part thereof.

But if His Majesty will never the Less have Settlements began on the North East side of the River Penobscot I humbly Conceive the Nearer that River and the Bay befor it the Better on many acc<sup>ts</sup>, More Especially for that Penobscot Bay will between the River & the Sea, hold a good fleet of Ships Comodeously, and I conceive it highly Necessary That the said Tract of Country ( which is very valuable ) should be Settled, planted and Peopled under His Majesties Government, The same having laid Derelect a long Time by Default of the New Englanders, Who after having given it up as aforesaid, They absolutely neglected and Refused to be at any Expence for regaining or resettling thereof altho pressed to it very Strenuously by the Governours, The Lord Bellemont and Coll Dudley in the Reigns of King William and Queen Anne, by their said Majesties Orders.

Wherefore it is not Improbable but that the French King may Claime it as his Right, and soon take Possession thereof as belonging to France, with as good pretence as he did the Iland of Lucia a few years past when he Dispossessed His Grace the D of Montegua of it, Which in Truth belonged to the Crowne of Great Britain as fully & amply as I humbly Conceive, To all intents & purposes, as the fore said Tract of Country now laying Wast & uninhabited.

Moreover it would be vastly advantageous to the French to do so, For that tho the River Penobscot has one or more falls in it, it is Navigable for the Indian Cano<sup>s</sup> a vast way up into the Country and within forty miles of the River Canada at their Cheife City Quebeck, from whence they may easily have Communication with France at all Times of the Year by the Atlantick Osean at & near Penobscot in Case they take Possession of the said Tract of Country, and might thereby have Supplys from France all the year round Whereas they cannot have it now but by the River Canada a little in the latter part of the Summer not 1/4 part of the year, That

River being Frozen up all their Long Winters, and the Great Freshes from out of the Great Lakes runing very Strongly downe in the Spring & all the fore part of the Somer renders the Navigation thereof Impracticable for Shipping. Wherefore it would be Greatly for the French Intrest to have possession of the said uninhabited Tract of Country. All which is most humbly Submitted to yo<sup>r</sup> Lordships by

My Lords Your Lordships Most Obedient & most  
humble Serv<sup>t</sup> Thomas Coram

*Colonel Dunbar to the Lords Commissioners for Trade and  
Plantation*

Boston, New England Oct<sup>r</sup>. 9<sup>th</sup> 1729.

My Lords,

I Landed here the 23<sup>d</sup> of Last Month, since which a great many hundred men of those who came lately from Ireland as well as some English & Irish familys many Years settled here, & likewise many Natives of this Country who are uneasy under this form of Government, applyed to me that they might Settle to the Eastward of Kennebeck River, haveing heard from England that a New province was Erected between the Rivers of Kennebeck & S<sup>t</sup>. Croix by the name of Georgia & under my Government, and as the greatest part of those who lately came from Ireland had removed themselves to Pensilvania upon the ill treatment they received here, where a very Numerous Mobb threatend and insulted them as foreigners, I have presumed upon your Lordships Report to the Lords of the Council in favour of this New Settlement to promise all those people that they should have grants of Lands from 50 to a hundred Acres pr head in Each family, paying one penny sterl<sup>s</sup> pr acre quit rent to his Majesty after 10 Years, subject to one penny more whenever his Maj<sup>ty</sup> should demand it to defray the expence of the Governm<sup>t</sup>: this gave such general Satisfaction that I have been exceedingly pressed to begin the settlement without loss of time, so that I goe hence by sea in 4 or 5 days with about 250 Men, w<sup>th</sup> their own armes, in behalf of themselves and many other familys who will follow in the spring to make a beginning at a place called pemequid; as soon as they have got a Covering they intend to clear land, make staves of all sizes & cutt timber for small Vessels, all these they can do in the frost & Snow, and as soon as the spring opens, they will open grownd & putt in garden seeds, grain & a little hemp each; the soil has formerly been tryed & is very good,

so that I hope within 18 months to send samples of hemp for the Navy and to give a good account of the other produce of the lands; I intend to call the first town S<sup>t</sup> Georges and doubt not it will in some Measure deserve that Name I am told there are 5 fathoms depth of water close to the Bank at this intended Situation, w<sup>ch</sup> will encourage trade and ship building:

Several people have been with me claiming large tracts of land in this province by virtue of Antient grants from King James & K. Charles the first, and from the Council of Plymouth, and some Indian titles among them Doct<sup>r</sup> Cook at the head of a Company of Gentlemen & Merchants who call themselves the Muscongog Company, the name of a river a little to the Eastward of pemaquid, these Gent<sup>n</sup> shew a grant from the Council of plymouth for thirty Miles square dated in 1629, thô never improved, they had since another grant under the late Duke of York (since K. James y<sup>e</sup> 2<sup>d</sup>) but they would not claim under it because it was a reservation of one penny p acre chief rent, least the arrears should be demanded; I told them that y<sup>e</sup> title to those lands had been often changed since their first grant & that it was now absolutely in the Crowne, but that his Majesty intended it should be given to such of his good Subjects as would go upon y<sup>e</sup> immediate Settlement & improvement thereof upon y<sup>e</sup> same Considerations as before mentioned, w<sup>ch</sup> they positively refuse to accept or to allow any consideration or acknowledgement to the King thô ever so small; Doctor Cook sayd they were in possession and would see who w<sup>d</sup> dispute it, for his part he would as soon go to law with the King as any private man, his character is so well known at the Council Board, & Board of Trade, that I need not dwell upon it but can't omit saying that he is here at the Head of the Obstinate faction who oppose all the Kings Measures, and was lately the instrument of procureing their Memorable act against dwelling to putt all upon a level, so that a man is lyable to

comon affronts to wear a sword or to be distinguished like a Gentleman, for by that Act, to draw a sword upon any pretence, without reserve, y<sup>e</sup> punishm<sup>t</sup> is no less than to be drawn in a cart with a rope round ones neck to y<sup>e</sup> gallows & there to sitt upon it 12 hours they have been remarkably insolent since this law, & if their Acts are thought worthy of consideration at home I should hope this one might be returned repealed w<sup>th</sup> resentment, it would Mortify theme extreamly and they richly deserve it.

to the Eastward of Pemaquid a few miles, there is a fine Navigable river called shepscott, where two different setts of people claime large tracts, one sett are 50 in Number the other 32, they have the like old titles, but upon my telling them as I did the first Company, they seem very well pleased and are resolved to settle 2 townes compact, & to improve each of them small tracts contiguous to the townes, some few of them are of the stiff neckd generation here, and talk like their Oracle D<sup>r</sup> Cook.

It is very probable that from the Doc<sup>rs</sup> party there may go orders for application at home in behalf of their claim w<sup>ch</sup> contains more than halfe a million of acres, it is impossible they can say anymore of me than what I Have here owned to w<sup>ch</sup> I added that any man y<sup>t</sup> has made any improvements or cleard ground should have such included in their grant provided they would goe upon the immediate Settlement. I could wish that this famous Doct<sup>r</sup> could be stigmatized in being particularly excepted from haveing any part or grant.

there are some small tribes of Indians near these intended Settlements, who will expect some presents as those near New York, a small Matter w<sup>th</sup> the good usage I will allways give them, will keep them in peace & friendship and this with a few guns, small armes & amunition is all the Expence I w<sup>d</sup> propose to the publique.

I Have received much Civility since my landing here, but it has been I have observed generally from such as are well

affected to his Majesty & heartily wish for a thorough reforme in this Government by Act of Parliament, I sayd they might w<sup>th</sup> reason expect it if it could not be done by y<sup>e</sup> comon course of Law, and I added, for Joke sake, y<sup>t</sup> I did not doubt but a Governour would be sent over in the Spring w<sup>th</sup> a Commission for a Kingly Governm<sup>t</sup> and a Charter of incorporation for this great towne, with Blanks to name a Mayor Aldermen & Recorder in lieu of their boasted Charter, this gave great pleasure, and one of the Gentlemen saying he would give a great deal to see that joyfull day took a guinea from me to give me 30 when he should be in that Number this may be made a usefull Collony to England if it be brought under a good regulation & in my humble Opinion it is high time, it is very populous & y<sup>e</sup> people generally deem themselves independent, as is their religion for they hate the Church of England & presbiterians alike, and are a selfish dogmatical people; the town or Citty of New York is not near so large as this; & has a Charter w<sup>th</sup> a Mayor &c. but if his Majesty should be advised to give one to this town I should humbly propose y<sup>t</sup> it be not too- Extensive at first, but putt y<sup>e</sup> people upon their good behaviour to deserve further favour in another.

the Church of England labours under some discouragen<sup>ts</sup> here there being no allowance but to one Clergyman, and there are 2 Churches, but the clergy depending on y<sup>e</sup> Courtesy of the people w<sup>ch</sup> is very precarious; thô these 2 Churches are large they are not well filled, and I am informed that wherever churches have been built, people have allways resorted; this Continent may deserve a Bishop resideing, his Residence may be in Georgia, where provision may be made for him out of the quit rents & reserved penny p acre. I am firmly persuaded y<sup>t</sup> a good man who would take pains this way & encourage schools might in time work a reformation among these independents, I could wish that

Dean Berkeley's Colledge may go on, & that Georgia might be thought a proper place for it.

It will be Spring before I can have any answer to this letter and by that time I shall have a thousand familys settled at pemaquid and Shepscott; upon Kennebeck up some leagues there is a large forest of fine masts, w<sup>ch</sup> will be part of what I am to reserve for his Majesty, My Deputys are out upon their duty, in y<sup>e</sup> Spring I shall send 2 of them to Nova Scotia, and to Anapolis and one to Canso to Execute my instructions, by y<sup>t</sup> time I hope to have the order for y<sup>e</sup> 40 men from Coll<sup>o</sup> Philips's Regim<sup>t</sup> sent me to cover y<sup>e</sup> Surveyors in their duty.

before I conclude I beg leave to offer to Your Lordships consideration whether as this New Colony is proposed to be planted at little or no expence to the Crown, & to be wholly governed by the laws of England until they are permitted to form a Council & Assembly as in other provinces they may not deserve the indulgence of a free trade for their own use & consumption for 7 years, this would be noe small encouragement, & dureing my time I will take care such indulgence shall not be Abused.

I am now afraid to be thought too impertinent and teadious, & in matters y<sup>t</sup> do not belong to me, if any thing I Have sayd may be of use it will be a vast pleasure to me, or if any part of it can be induceing to give me discretionary power in going on w<sup>th</sup> the New Settlement where particular instructions cannot be thought on, my best Endeavours shall not be wanting, if I dare promise that the fruits of it shall soon appear, particularly in Naval stores to the advantage of England.

I am with great duty, My Lords, Your Lordships Most Humble & Obed<sup>t</sup> Servant,

Portsm<sup>o</sup> N. England Nov. 15<sup>th</sup> 1729

May it please your Lordships

The following is a Coppy of my last w<sup>ch</sup> I hope came safe to your hands, This serves to inclose the Minuts of Council & General Assembly in our late Governour Burnett's time to the 15<sup>th</sup> of May 1729. with the Expence of Gun powder and the remaining Stores for Fort William & Mary at Newcastle the of May 1729, I am still Complaining

for want of Stores, our stock being very small, I yet live in hopes a good peace with Spain &c will give us Some, I hope our Agent Mr Newman will apply himself properly to the Ministry at home.

I have the Hon<sup>r</sup> of your Lordships Letters of the 28<sup>th</sup> May Signed by Mr Secretary Popple w<sup>th</sup> advice of the rec<sup>d</sup> of my Several Letters and Papers therein inclosed, shall do everything in my power to assist Coll<sup>o</sup> Dunbar Surveyer of his Maj<sup>ty</sup>. Woods, I have had two Letters from him, tho not as yet seen him, he being gone to y<sup>e</sup> Eastward, and Sett down at a place called Pennequid, where we formerly had a strong Fortification, but the Country to save Charges gave the Command of the Fort to a Scrub fellow, who in the late War ( ab<sup>t</sup> the year 1702 ) had for Some years been Sargent, & a French Man of War of 40 gunns Engaging vith s<sup>d</sup> Fort took it & Demolished it, and I vell Remember the Reason why it was not rebuilt was, The Massachusetts suppos'd it belonged to the Crown of Great Brittain. So it was layn wast ever since.

I very well approve of Coll<sup>o</sup> Dunbar settling first at Pennequid, & Rebuilding that Fort, it may be means of keeping the Indians at peace & thereby giving him an Opportunity of Settling downward as he sees fitt. This Land Ten Miles or more up the river is fine Land & Good Harbour. I hear Coll<sup>o</sup> Dunbar is very Expeditious, and in case the Season proves moderate, he will soon be Strong Enough to Defend himself from the Indians, its a very fine Country down as far as Mount Desert, on the bay of Funda, and provided the Coll<sup>o</sup> Settle Strong on that Coast, The Indians in a few years will be obliged to quitt that Country, or come into their Living as the English do, for the Settlements will drive all the Hunting far from them, and I don't know but a just Treatment of them in all our Trade will bring them to be our friends.

✓ NB

I hope Coll<sup>o</sup> Dunbar's coming, and alteration of former Act, may pritty well answer, in Case the officers do their duty, there has been no Complaint as yet, I have by Coll<sup>o</sup> Dunbar's desire issued forth Proclamation forbiding all persons going into the woods to fell any Pine trees until further orders.

The officers have been diligent Since their Arrival, & I hope things will be founded on a better footing than before, & if I should at any time See any mismanagement in respect to the woods, if I can't prevent it, I shall alwayes think it my Duty to acquaint your Lordships therewith, with my most Dutifull Respects I conclude

May it please your Lordships, your Lordships Most obed<sup>t</sup> & Humb Serv<sup>t</sup>

Jno Wentworth.

*Colonel Dunbar to Gov<sup>r</sup>. Dummer*

Boston Dec<sup>r</sup>. 4<sup>th</sup> 1729,

Sir

In answer to your letter w<sup>ch</sup> I had y<sup>e</sup> Honour to receive this Morning I beg leave to acquaint you that when it was proposed to his Majesty to settle y<sup>e</sup> lands you mention, between the province of Maine and the Territory of Nova Scotia, all y<sup>e</sup> lands to y<sup>e</sup> Eastward of the River of Kennebeck were deemed to be Nova Scotia & were included in M<sup>r</sup>. Philips's Commission as Governour of that Province, & was for Many years in the possession of the French King, until given up to England upon the peace made, Anno 1712; Moreover when his Majesty was pleased to Constitute me Surveyor General of the Lands of Nova Scotia (w<sup>ch</sup> Comission I shewed you) I desired to be informed at the Board of Trade of y<sup>e</sup> bounds of that Province, and was given to understand that it extended from Kennebeck River Eastward; if any part of it had been looked upon to belong to this Governm<sup>t</sup> I should have had no power over it as Surveyor of the lands, because there is a Surveyor to every Government.

I Desire farther to Acquaint You that when his Maj<sup>ty</sup> in Council was pleased to referr the Consideration of y<sup>e</sup> Settlement<sup>t</sup> of this new Collony to the Lords Commissioners for

Trade and Plantations, their Lordships (who are not asett of broken Merchants as some people have taken the liberty to say, but Men of Quallity character & fortune, & members of either House of Parliament) in their Report were pleased to say That the Tract of Land extending from the River Kennebeck to the River S<sup>t</sup> Croix, should be Separated from the Goverment of Nova Scotia, and erected into a New province by the name of Georgia, and that a district Government be Established there.

In the Instructions given me and signed with y<sup>e</sup> Kings Own hand & Countersigned by the Lords Commissioners of y<sup>e</sup> Treasury as Surveyor Gen<sup>l</sup> of the Woods I was directed to Survey and lay aside not less than two hundred thousand acres of land bearing Timber in the province of Nova Scotia as Contiguous as may be to the Sea Coast or Navigable River to be reserved as a Nursery of trees for the use of the Royal Navy. And in the Report before mentioned, the Lords Commissioners for Trade say that as this new Government<sup>t</sup> is near one Moyety of the province of Nova Scotia, I am (by name) to lay out One hundred thousand of the said two hundred thousand acres in this New province.

This Sir, are the express words as I quote them & are Sufficient for me that the Masachusets province have no jurisdiction beyond, or to the Eastward of Kenebeck, if any, their complaint at home against me will be heard, but I can't help observing y<sup>e</sup> motive for demanding my power Viz<sup>t</sup> that I have been rebuilding a Fort at Pemaquid; that ffort, Sir, was destroyed 33 years agoe by the french and Indians, & has layn in rubbish ever since, notwithstanding the repeated Orders from England to this Government to rebuild it, until it was included in Governour Philips's Comission which is now devided as before; it will be thought not a little extraordinary at Court That any Servant of his Majesty should be found fault with for rebuilding the Kings Fortifications by a

people who have often disobeyed Orders for soe doing, it looks like y<sup>e</sup> dog in y<sup>e</sup> Manger ( I beg pardon for the Comparison ) that would not let the Horse eat hay or eat it himself, I could have wished That y<sup>t</sup> objection against me had been made by some body else, it would have looked more of a peice with disowning the Fortress in this Harbour to belong to his Majesty, when in some late proceedings the words = His Majestys fort, were left out, and onely called Castle William.

I am in Hopes Matters will suddainly be put upon a New footing here, being persuaded that his Majesty thinks it high time to exert his Sovereignty where many are so audacious as to disown it ( of which I can prove some instances ) & make this a happy Collony in despite of them.

I would have Acquainted with what is herein related by word of Mouth, & have shewn you the proper papers, but I waited to have it demanded in writeing, that there should be no mistake in what Might pass thereupon, & y<sup>e</sup> rather because I heard it was intended by the assembly or House of Representatives of this Province.

If what I have sayd, be not satisfactory you'l pleas to Signify any orders to me, which I will obey so far as I can be justified thereby I am with respect, Sir,

Your most Humble & most Obedient Servant

David Dunbar

*Colonel Dunbar to M<sup>r</sup> Secretary Popple,*

Boston December y<sup>e</sup> 10<sup>th</sup> 1729

Sir

Since my last about the middle of October directed to the Lords Commissioners for Trade & plantations I have been thro the provinces of New Hampshire & Main and am glad to tell their Lordships that the publishing the new Act

of Parlimen<sup>t</sup> seems already to have a good Effect upon the Generality of the Loggers, who applyed to me in Numbers to know whether they might cutt trees of any dimensions, because there is a penalty for all trees of 12 inches diameter & under, which includes all without any exception ; but as I humbly Conceived it was not so intended, I have ventured for this winter to indulge them so far as by the inclosed Copy of what I have published, I consulted the Governours of this Province & Main & of New Hampshire, who sayd the the liberty given hereby was sufficient, & M<sup>r</sup> Slade, one of my Deputys, who was bred in the Kings Yards, told me that his Majesty could not be prejudiced thereby ; the winter is yet open and as long as it continues soe there will be no working in the Woods, I beg Sir, to have y<sup>e</sup> opinion of my Lords Commissioners thereupon, & whether I may continue the same from Year to Year. Notwithstanding this, there is yet a sett of people who neither regard acts of Parliment or any prosecutions upon them, the famous Incendiary Doctor Cook, proclaims in the province of Main that the King has no right there, he has built Saw Mills in the heart of y<sup>e</sup> Mast trees one of which will saw eight thousand feet of boards in 24 hours, he says they are upon his private property, & should a tryal be co<sup>m</sup>enced against him, the people he employs would be his Jury, however, I am resolved to see what they will do in that case.

the Agent for the Contractor for Masts &c. for the Royal Navy has also lately built 4 saw Mills but pretends they are upon his private property, w<sup>ch</sup> was a new acquisition on purpose under his Lycence for cutting trees to supply his Mills ; of this I have given a full account to the Lords of the Admiralty, as the contract is more immediately under their Lordships Cognizance.

I have been in several parts of the new Province of Georgia and have begun to settle the people who last year

petitioned his Matie from hence for leave to settle to y<sup>e</sup> Eastward of Kennebeck River, most part of that Country is claimed by people of this Province under old grants from the Council of Plymouth in 1629 and Indian deeds of later dates, some for 30 miles square and for y<sup>e</sup> consideration of a few skins, I told all these claimants that it was judged in England that the property to all those lands, w<sup>ch</sup> are included in Nova Scotia, was intirely in the Crowne, and that his Majesty being now desireous to have them settled, improved, & made useful to England would give them to such of his good subjects as would goe upon the immediate settlem<sup>t</sup> thereof, reserveing only one penny sterl<sup>s</sup> p acre quit rent, many seemed thankfully willing to accept the Kings favour, but Dr. Cook and others of his turbulent kidny refused to pay any the least Acknowledgement to his Majesty, of this I believe in my former letter I gave an Account & of the answer I gave to all, Viz<sup>t</sup> That until I should receive farther instructions I would not concern myself with any lands thus claimed, and Since there are so many of them that if they are allowed, the King will have no more there than here, & the Country as hitherto may lye for Ever a wilderness.

I made choice to plant the people I carried w<sup>th</sup> me at Penaquid about 7 Leagues to the Eastward of Kennebeck River, there was formerly a stone fort at that place but destroyed by the French before the peace of Reswick, I rais'd a dry stone wall upon the old foundation, & built barracks w<sup>th</sup> in side for 200 people, as soon as that was done I hoisted the Union fflag under discharge of a few ship guns & 3 vollies of small armes, and with all the people drank to his Majesty's health, the Entrance into this Harbour is easy and open & very safe anchoridge within, it was formerly much frequented by fishing vessels, but since y<sup>e</sup> demolition of y<sup>e</sup> ffort, they have not gone there fearing the Indians, whenever it is rebuilt, it will be of great advantage to the shipping who trade hither, and

instead of being blown from off this Coast in Winters as often happens, they can put in there & ley safe until a favourable opportunity to put to sea again, when in a little more than one day they may reach Boston; the land contiguous to it is good but covered with small Spruce; some Oak and brick, the people are this winter employ'd in clearing the land for gardens, pasture & corn. I have ordered a few acres to be prepared for hemp which I intend to putt into the ground in Aprill if the seed I now write for arrives in time, there is very little of that useful Commodity raised in this Country to y<sup>e</sup> Eternal shame of the Inhabitants, who are the worst at improvements of any people in y<sup>e</sup> world, even their bread corn comes from other provinces, & the pitch and tarr w<sup>ch</sup> they export, is first imported from the 2 Carolinas.

I did intend to have honour'd the first Settlem<sup>t</sup> with the name of S<sup>t</sup> Georges, but there being a fine River by that name 10 leagues to y<sup>e</sup> Eastw<sup>d</sup> of Pemaquid I have called it ffredericksburg, I am afraid it may be thought I have been too forward & have gone beyond my power; here I found such a spirit and Earnest desire in many people to make the settlement, that to have delay'd it would have baulked it, this I humbly hope will plead my Excuse.

within this New Province are many forests of large white pine trees, so that the Royal Navy can never want a supply, but even the lands whereon they stand are claimed with all trees, woods, and a hundred et cetera's, as I have seen in long lawyers deeds, if such are allowed his Majesty has done there, it may lye waste for ever, but if one common answer is given to all & that the sole property is in the Crowne, I dare answer that the Province of Georgia will soon recommend itself to the Royal favour, & rival its Neighbours, in y<sup>e</sup> Spring a Great Many hundred familys of substance and the best of the fishermen of this Country will go thither if not Countermanded, the Scituation was designed by Nature

for the fish trade, y<sup>e</sup> fish being taken now in great abundance near y<sup>e</sup> shore, and made & cured in better time, is preferable at Market to fish brought farther to the shore.

It gives me great concern to hear by letters from England of the 3<sup>d</sup> of October that M<sup>r</sup> Hinty was not then set out for Germany to Conduct y<sup>e</sup> Pallatins I hope he did soon after because I would willingly have them before I am to meet the Indian Tribes in May or June next, not y<sup>t</sup> Numbers of people will be wanting, but I am persuaded y<sup>e</sup> pallatines will be very usefull: I Have wrote a very long Miscellany to His Grace the Duke of Newcastle w<sup>ch</sup> I believe will in course be referred to y<sup>e</sup> Board of Trade, in it I have mentioned of w<sup>t</sup> importance the Scituation of Pemaquid was for many years thought to be in England, when from the year 1702, the rebuilding of it has been strenuously recommended from Court, without any regard had by the People of this province to Royal letters and instructions relateing thereunto, & so far are they at this time from shame or remorse on that account, that they have even now printed an Abstract of all their proceedings upon that Subject, and their obstinate withstanding fixing the Governours sallary in so many years, it has so harden'd them that they are now firmly of Opinion that if the Legislature at home could have touched their charter, so many letters would not have been sent from Court, I send you one of these New books for y<sup>e</sup> perusal of my Lords Commissioners, and after dipping into a few pages their Lordships will be much Surprised at a dispute between the Governour & me for my rebuilding (as he calls it) that ffort; I have sent 2 of his Original letters & Copy<sup>s</sup> of my answers to him to my Lord Duke of Newcastle, I intended sending Copy<sup>s</sup> to You but am prevented that as well as enlarging my letter (thô I fear in the latter I am easily pardond) but that the Sarah Gally, Cap<sup>t</sup> Irwyn, sails hence sooner than I expected, so y<sup>t</sup> if M<sup>r</sup> Dummer writes to the Board before their Lordships see my letter to my Lord Duke,

I beg the favour not to be judged until his Originals and my Answers appear.

I will not longer trouble you at this time but to desire you will please to lay all this before their Lordships with my most humble duty, & to beg that in any references to them relating to this New Settlement they will think a few small armes, artillery & Amunition Necessary to y<sup>e</sup> undertaking in hand. I am with respect Your Most Humble & Most Obed<sup>t</sup> Servant

David Dunbar

P. S. He has not time to send y<sup>e</sup> same account as he did to y<sup>e</sup> D. of Newcastle ab<sup>t</sup> y<sup>e</sup> Indians. I intended sending the same acc<sup>t</sup> as in my Lord Dukes Letter of my interview with the Indians but for a Surprize in time, y<sup>e</sup> ship sailing sooner than expected, & haveing no help nor hand but my own, w<sup>ch</sup> puts me to some hardship.

Sir,

Since finishing my letter I am informed there has been a meeting of Several of the claimants in Georgia and mony raised by Subscription to imploy Agents in England to Sollicit a Confirmation of their claims, some of them are for whole Islands, 10 or 15 miles in length, where chiefly are the forests of Masts, in short all the lands that are Valluable are claimed by one or another, and now there is an appearance of makeing settlements, those people would hinder them, who from the beginning never made any themselves.

*Colonel Dunbar to the Duke of Newcastle.*

Boston, New England, Dec<sup>r</sup> 10<sup>th</sup> 1729.

My Lord

Since I has the Honour of writeing last to y<sup>r</sup> Grace I have been as far as Pemaquid in the New intended

province of Georgia having Landed there y<sup>e</sup> 20<sup>th</sup> of October with about One Hundred men of those who last year sent home a petition to his Majesty for leave to settle to the Eastward of Kennebeck River, We made Hutts of Spruce trees for our lodging: Pemaquid was formerly a Settlement and there was a Stone fort built there about 50 yards Square, with 2 Bastions, each Commanding or Covering 2 sides, that Fort was taken and entirely demolished by the ffrench before the Peace in 1697, and the whole Settlement destroyed; I imployed the men with me, to raise a dry stone wall upon the old foundation to 9 feet high, and in building Barracks w<sup>th</sup> in side, as soone as the Wells were finished I hoisted the Union fflag under a discharge of 7 small ship guns w<sup>ch</sup> I carried with me & 3 Vollies of small armes & we all drank to his Majestyes health, I called in at Piscatua in the province of New Hampshire, & at Winter Harbour & Casco bay in the province of Main in my Voyage, at the latter I went on board the New Hampshire Mast ship then ready to sail to England for the use of the Royal Navy. So soon as I raised the Walls of the old ffort and hoisted the Kings Colours I called y<sup>e</sup> place Fredericksburg, I would have called it St. Georges, but that there is a large navigable River already of that name 10 leagues farther East; Pemaquid was formerly a noted place it has a fine harbour & good entrance immediately from the Sea, I find since my return hither y<sup>t</sup> frequent orders have been sent from Court, since the year 1702, to the Government of the Massachusetts province to rebuild that fort w<sup>th</sup> some additions, particularly in the Year 1705, when on the 24<sup>th</sup> of October in y<sup>t</sup> Year the Council and Assembly addressed her late Majesty against rebuilding it, it has frequently been recommended to them since, from Court without any regard had thereunto, as may fully appear from a book w<sup>ch</sup> I herewith take the liberty to transmit to y<sup>r</sup> Grace, the design of printing this book at this time is

expressed in the first page; and appears to me to keep the same spirit in this people who do not, for the most part, stand in need of such help; it may be worth persual tho hardly to be read with any temper; there are 100 instances of refusing the recommendation of the Crown to fix a sallary on the Governours.

I was ffollowed to Fredericksburg by two other Vessels full of people, and every day y<sup>e</sup> sight of the Kings Colours brought in fishing Sconners & boats, crossing the bay, to see w<sup>t</sup> was the occasion of it, their joy was very great, many of them haveing formerly known the Conveniency of shelter there, it being near the fishing places & has not for many years been frequented for fear of the Indians; I had Visits from many of them at different times, and on the 12 of November about 25 of them came in a body with the chiefs of the tribes of Penobscot and Narihwack at their head, they sent to acquaint me that they were near & desired to see me, upon invitation they came and I received them with much Civility. I told them I was come from the King of Engl<sup>d</sup> to settle some of his Subjects there & to renew settlements w<sup>ch</sup> were began 100 years agoe they told me King George was welcome & I was welcome. One of their old men asked me how little King William did & explained himself, by saying King George's little son, when I told he was very well, he sayd they were glad of it, for they had heard from Canada that King George gave their country to his little son, I sayd his Majesty might do so, but it was not declared when I left England; they seemed extreamly well pleased to have settlements near them where they may be supplied with blankets and provisions in exchange for their furs w<sup>ch</sup> they often carry to Canada, about 200 miles by land When I entertained them all together (for there's no distinction but in War & Council between the king and any other) some were merry, and One of the Sagamores (w<sup>ch</sup> is noble among

them ) sayd that the Land about Pemaquid was his, & he would sell it to me for what I pleased to give him, I told him I did not come here to buy Land, no body had a right to sell any for it all belonged to the King My Master, & had for many years, the man seemed satisfied, laughed & sayd, then King George was welcome, he freely gave it to him and would lay no other claim to it, but to desire he might have the liberty of coming thither as his Occasions should require, I sayd, he and all of them should be free at all times to come and goe when they pleased without interruption, Wynongonet (w<sup>ch</sup> is the name of the King of the penobscot tribe, a well looking man, more like a frenchman than an Indian, seeming grave & reserved, I asked y<sup>e</sup> reason of it, he answered that it was in great respect to me that he was so, and when he was better acquainted, he would be as Merry as I pleased, they stayed a week with me in the day time, but retired every Evening to their Camp or Wigwam's made with boughs of trees, covered with birch bark, at a small distance from the fort, I always gave them provision with them; When they came to take leave, Wynongonet, told me they had dispatched 2 Months before a Messenger to the french Governour at Quebeck to know his Opinion of an English Settlement among them, they believed he would be against it, & would by the Jesuits, stir up the Canada Indians against it, but as for himself & the Indians on the Sea Coast, they desired to live in peace, and would do so & keep friendship with the English as long as they were well used, they never made War but to resent an affront or revenge ill treatment, they sayd y<sup>t</sup> Governour Dummer was a good man but he had not power like the Governour of Canada to performe what he promised, all they desired of me was to suffer them to follow their hunting & fishing without Molestation, & to keep truck houses where they might trade with their furs w<sup>th</sup> out being cheated, and they hoped I would give them some

few presents & Commissions as the Gov<sup>r</sup> of Cannada does, I promised them y<sup>e</sup> liberty as they desired and that nobody should be suffered to abuse or wrong any of them, I then gave them a few laced Hatts, blankets, pipes, tobacco & a little powder & small shot for their hunting, We parted on very good terms, they were very thankfull and desired they might meet me in their Tribes in May or June next, to come to an understanding with each other.

They are a poor Miserable people in comparison with others, haveing no settled habitations, & even their food uncertain, their dress is frightfull and upon extraordinary Occasions they make themselves hideous with red paint, they clean their hands in their hair & make large holes thro their Ears in which they put scutts of hares, long feathers & long tobacco pipes.

All the Expence I was at by them was w<sup>th</sup>in thirty Seven pounds sterl<sup>s</sup> which I do not mention with design to ask it, a small Matter so bestowed may keep allways quiet, and so prevent a large Expence & much trouble.

During my stay in Georgia I went up three of the great Rivers w<sup>ch</sup> are Navigable for large ships 25 Miles into y<sup>e</sup> Country, they are wide and deep but in most places rocky shores, the Names of them are Johns River Damarescotty River, & Shepscot River, they all lye between Kennebeck and fredricksburg, w<sup>ch</sup> is about 7 leagues in all, so that they must be very near one another, the land is neither mountainous nor level, but in Easy Hills, where a plough may goe, all is covered with trees mostly spruce, but there are good white pines and large Oaks, nobody y<sup>t</sup> had care of the Woods on this Continent ever was in these parts before me, and 'tis pitty, for the people from this Province have made it a practice for many years to send thither to make cannoos and Shingles of the largest Mast trees & staves of Oak fitt for ship building, leaving the crooked parts to rott on the

ground; as those rivers w<sup>th</sup> others are wide & long it will be difficult to prevent this practice, my best endeavours shall not be wanting, but really it will be impossible without a small sloop & six men to attend me, I burnt in one of the Rivers above 60 Cannoos made this Summer out of trees fitt for large Masts, & a parcel of shingles, I just in time prevented a tree of 39 inches, w<sup>th</sup> y<sup>e</sup> bark, in diameter, and a proportionable length, from being Cutt by a Shingle maker, & have left two Deputations in those parts to guard y<sup>e</sup> woods this winter: I Have accounts of fine forests of Masts in that province, on y<sup>e</sup> East side up Kennebeck River, besides many w<sup>ch</sup> I saw myself, so that His Majestys Royal Navy can never be in danger of wanting Masts yards & bowspritts, thô in my humble Opinion as all the land, at least one hundred thousand acres best wooded & nearest navigable water, are to be reserved as a Nursery for the Royal Navy in this new province, the Masts there should be preserved until new Hampshire & province of Main are exhausted, which w<sup>th</sup> care may yet supply England for several years, althô vast destruction has been made among the woods, where many Saw Mills are Erected to cutt them into plank & boards; Here it may not be improper for me to refer to an Original letter inclosed from Coll<sup>o</sup> Wentworth Leiu<sup>t</sup> Gov<sup>r</sup> of New Hampshire before my voyage Eastward, my deputys here have told me the same before, and when I was at Casco the like was confirmed to me Coll<sup>o</sup> Wentworth is a Gentleman well affected to his Majesty, but being a Native here he may be prejudiced by this kind information, should it be knowne.

Upon my returne hither I took occasion to speak to M<sup>r</sup> Walove the Agent here for y<sup>e</sup> Contractor in England with the Navy office, upon the subject of those saw Mills, his answer was that he built them upon his private property and was at liberty as other owners of Mills, I told him this private property was not very new and that it did not look well, because he, under the Lycence of cutting trees for the Kings

use might abuse that power, he insists upon it as his right to use his Mills & I onely sayd I would represent it at home.

Since I have mentioned this claim of private property I beg leave to add to what I sayd in my former letter to your Grace of the claims & titles to Lands in Georgia, that soe Many of the like Nature were made to me that if they are allowed, his Majesty has none there. I have seen some pretended Indian deeds of different dates wherein 30 miles square were sold for 50 skins, & even several deeds to different people for the very same tracts of land, & many of the Indians say that the people pretending to sell those lands had no claim or right to them; most of these claimants are willing & thank full to take new titles or grants from his Majesty as proposed at One penny stirle<sup>s</sup> quit rent p acre, and would go upon the immediate Settlem<sup>t</sup> and improvement of the Lands, but they desire 3, 4, 500 and some thousand acres according to their familys and abilitys, w<sup>ch</sup> is more than was proposed by the Lords Commissioners for Trade and Plantations to be in one Grant, the spirit to make this new Settlement is now so strong in these parts that if it be not baulked, a more Considerable progress will be made in 3 or 4 years, than ever was in any Collony in 40 years, and I flatter myselfe be more usefull to England than some of its neighbouring plantations, the land is extraordinary good in many places, and will produce grain as in England. I have opened some acres in w<sup>ch</sup> I intend to putt hemp seed in Aprill next if the seed arrives in time w<sup>ch</sup> I now send for, and I shall hope to send some of the produce next year to the Navy for a sample & tryal, If the pallatines come soon after, they are skilled in dressing it, & are good husbandmen and artificers.

As it was proposed to make this Settlem<sup>t</sup> without expence to his Majesty, everything in my power shall not be wanting, but if it be thought expedient at home that the ffortifications

should be rebuilt, and that a few pioneers tools be sent me from the Ordinance Office & any sum of Mony payd as the Lords Commiss<sup>rs</sup> of Trade shall appoint, I will husband it to y<sup>e</sup> best advantage, their Lordships will see what Fortifications were ordered at & near this place by her late Majesty about the year 1705, the Guns w<sup>ch</sup> were at Pemaquid when taken by the ffrench were carried to St<sup>t</sup> Johns in y<sup>e</sup> bay of Fundy afterwards to Annapolis, where I am credibly informed, 24 of them lay last year in the Earth, useless; at this town of Boston are a great number of Cannon, some of them well mounted in a fort, entring this Harbour, but close to the towne are 34 large iron guns ab<sup>t</sup> 30 to 34 hundred weight, mostly buried in rubbish & useless, th<sup>o</sup> they are called y<sup>e</sup> North & South Batterys, I mention these to save expence of sending from home if his Majesty pleases to order them, and Carriages may be made, costing onely workmanship. If those I mention are ordered with a few smaller from home I will endeavour to dispose them to the best advantage, & in expectation of it, I have Ordered a great quantity of Lime to be burnt from a vast ridge of Oyster shells near y<sup>e</sup> place and I shall have Oak plank ready for the carriages, all w<sup>ch</sup> may be devoted to other purposes if what I propose be not approved, w<sup>ch</sup> I most humbly beg to know as soon as May be. I am very fearfull, My Lord, that I trespass too farr upon your Graces time & patience but as I am at a great distance I hope to be pardond for laying before you at Once what Occurs to me relating to this undertaking, there is one thing w<sup>ch</sup> I mention w<sup>th</sup> reluctancy and this is this new Country being in y<sup>e</sup> state as Nature left it, wild and unimproved, it will be some time before corn and provisions will be plenty, there are many able labouring men that will want bread until then if not supplied by some means, it has been proposed to me y<sup>t</sup> if they could be supported that they would repay the expence in Hemp the 3<sup>d</sup> 4<sup>th</sup> & 5<sup>th</sup> year. What I most

covet at present is a few Small armes and ammunition, I wish I could have some before I meet the Indians in May next, that y<sup>e</sup> people May appear in Armes, there are none to be brought here so that I have not been able to leave about 80 guns or firelocks among all y<sup>e</sup> Men. If this Affair does recommend itself I have not the assurance to hope for any Consideration on my own Account. The Indians all along this Continent haveing Jesuit Missionarys among them are much influenced by the french Governour at Quebeck. I Have been thinking that if a letter was asked from the french Court to their Gov<sup>r</sup> at Cananda to command him not to stirr up y<sup>e</sup> Indians against the English, it might easily be obtained & would be of good Consequence to us, and if a Copy was sent to me I could convey it thro ye Country to him.

Since my return to Boston M<sup>r</sup> Dummer the present Governour has seemed highly dissatisfyed that I have been to make any foundation for a Settlement in Georgia, saying that all the lands as far as Nova Scotia is under the Governm<sup>t</sup> of this province, he asked me if I had any Com<sup>n</sup> or Authority for what I did there, I answered that in a few days he sh<sup>d</sup> be satisfyed in that point, hoping I might have received farther orders from home & not careing to shew him the report of the Lords Comission<sup>rs</sup> for Trade relateing thereunto, made y<sup>e</sup> 14<sup>th</sup> of May last, if it had been known that I had not an Absolute Comission it would have spoiled y<sup>e</sup> undertaking; What passed hereupon between M<sup>r</sup> Dummer and me will best appear from his Original letters herewith<sup>th</sup> sent to your Grace and my answers to them, the behaviour of Many of the people here has often ruffled me, some do publicquely say his Majesty has no right to the Woods here, others have asked me what right the King had to any land here, & how he came by such right, some have claimed by Indian titles so late as dated in 1719, & in their deeds they have warrantees to defend the prosession against all

persons whatsoever, the people of this province now sitting here in Council & Assembly are upon laying out a line of towns before they have a new Governour, the upper & lower Houses do not agree, y<sup>e</sup> former w<sup>th</sup> the late Governour haveing nominated an Attorney General, the latter lately upon y<sup>e</sup> annual day of Election insisted to have a right of Nomination, w<sup>ch</sup> the upper refuseing, it was Moved in the House of Representatives by the famous D<sup>r</sup> Cook That there should be an Order of the House to the Grand jury to regard any indictment or presentment of the Attorney General onely as Wast paper.

they are upon some Methods how to raise y<sup>e</sup> vallue of their bills of Credit, w<sup>ch</sup> are now so low as 20<sup>sh</sup> pounce for silver there is about 3 hund<sup>d</sup> thous<sup>d</sup> pounds of these bills from this province, they were at parr at first & some people who then lent out Mony to interest, if they were now rep<sup>d</sup> principal & interest, would not get back one half of the vallue of what they lost at first. It is wonderfull to see how little this province has been improved, & chiefly occasioned by too great Tracts of land in few hands, some haveing several hundred thousand Acres & the improved lands sells very dear, th whole y<sup>t</sup> is layd out into townships does not yield 3 pence p acre one with Another. I have been thinking that if y<sup>e</sup> Charter here be declared voyd or forfeited by Parliament, and in the new form of Govern<sup>t</sup> all new stragling towns excluded from sending Representatives, their Number w<sup>d</sup> be diminished to one third, and those for the principal towns, might be men of some Substance, whereas at present to see such as are sent from the New towns looks like Mockery, if then a small tax of one penny sterl<sup>s</sup> was proposed to be raised upon all lands layd out into townships & granted to private people p acre, to pay off the debt & cancel their bills of Credit, many w<sup>d</sup> relinquish their remote grants not yet improved (w<sup>ch</sup> would thereupon fall to his Majesty)

and remove nearer the Sea shore so that the Settlements would be more compact, and y<sup>e</sup> lands much better improved, I dare say some Millions of Acres would be disclaimed rather than pay this trifle especially for lands remote.

this Province of Main, w<sup>ch</sup> is annexed to the Masachusetts, is divided from it by y<sup>e</sup> province of New Hampshire, w<sup>ch</sup> is a distinct Governm<sup>t</sup> & a very small one, it would certainly be more for the Ease of the people either that Main & Hampshire, were annexed or New Hampshire to the Masachusetts & Main to Georgia, to w<sup>ch</sup> it now joyns, onely Kennebeck River between them.

I shall be excused for not entertaining your Grace longer at this time, but must humbly beg it for what I have sayd extra officio, it is My Zeal for his Majesty's Service w<sup>ch</sup> prompts me to do it, I am with all possible respect and duty

My Lord Your Graces Most Obedient & Most Humble  
Servant

David Dunbar.

*Lieut. Gov<sup>r</sup>. Dummer to the Duke of Newcastle. Extract of a Letter from Lieutenant Governor Dummer to his Grace the Duke of Newcastle dated Boston December 26<sup>th</sup> 1729.*

Colonel Dunbar, His Majesty's Surveyor General of the Woods in these Parts, having ( as I am informed, tho' not by himself ) given your Grace the trouble of perusing the Letters I lately wrote him, which were intended for His Majesty's Service: I beg leave to inclose Copies of his Letters as well as my own, & submit it to your Grace to determine, whether I have proceeded agreeable to the Commission I have the honour to sustain. I have endeavoured to cultivate a good Understanding with Colonel Dunbar, that I might be able to give him my best assistance, as there should be

occasion for it, in the Execution of his Majesty's Commands relating to the Preservation of the Pine Trees in this Province; and if I have not had the Success I wished for, I cannot impute it to any neglect or want of Inclination in myself. The principal occasion of my desiring to see his Commission was, (as is intimated in my first Letter) on account of the Indians inhabiting those Parts, who, as I was informed by my Officers in the Forts there were under some Discontents and Jealousys that the late Treaty made with them might be infracted by new comers; and it seems necessary that the Indians should know to whom they were to apply themselves for their Satisfaction therein. It may not be amiss to put your Grace in mind, that His Majesty has a Fort in that Country between Kennebeck & Nova Scotia, where there is a Garrison of Soldiers supported at the Charge of this Province, and a Trade carry'd on with the Indians from thence, according to the Treaty made with them at Casco, at some considerable Expence, any Interruption whereof may be a great Detriment to His Majesty's Service.

Reçed.
